Beneficial Loan Society 6s, 1939

This seasoned Debenture Bond (issued in large or small denominations) carries Profit Sharing Bonus entitling holder to a pro rata share of at least one-third of net profits, in addition to 6% bond interest.

Original purchasers have been paid back

92 ½ % in Interest and Profit Sharing

and still have 62 interest coupons and 16 years of profit sharing ahead of them; with return of bond principal at maturity.

The Beneficial Loan Society is issuing these securities out of treasury to finance growth. It is the Largest Corporation of its kind in the world, with about 60 branches in 12 states. Business increased 50% last year.

If you are interested in an investment which pays you an income 6 times a year, send for descriptive circular.

TREASURY DEPARTMENT

Office of Comptroller of the Currency

Washington, D. C., May 9, 1923.

Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that

"FRANKLIN NATIONAL BANK
IN NEW YORK,"

in the City of New York, in the County of New York and State of New York, has complied with all the provisions of the Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of Banking;

Now Therefore, I, HENRY M. DAWES, Comptroller of the Currency, do hereby certify that

"FRANKLIN NATIONAL BANK
IN NEW YORK,"

in the City of New York, in the County of New York and State of New York, is authorized to commence the business of Banking as provided in Section Fifty-one Hundred and Sixty-nine of the Revised Statutes of the United States.

In Testimony Whereof witness my hand and seal of office this ninth day of May, 1923.

HENRY M. DAWES,
(Seal) Comptroller of the Currency.

Liquidation

THE HAYDEN-CLINTON NATIONAL BANK OF COLUMBUS.

Notice of Liquidation.

The Hayden-Clinton National Bank of Columbus, located at the city of Columbus, in the State of Ohio, is closing its affairs. The Huntington National Bank of Columbus has purchased all of tne assets and has assumed all of the liabilities of this Bank and all note nolders and creditors of the association are therefore hereby notified to present the notes and other claims for payment.

W. P. LITTLE, Cashier.

Dated, Columbus, Ohio, May 2, 1923.

The WHITE HALL NATIONAL BANK located at White Hall, in the State of Maryland, is closing its affairs. All noteholders and other creditors of the Association are therefore hereby notified to present the notes and other claims for payment.

C. EVANS WILEY, Cashier.

Dated, White Hall, Md., May 1. 1923.

LEGAL NOTICE.

The First Second National Bank of Akron, located at Akron, in the State of Ohio, is closing its affairs. All noteholders and other creditors of the association are therefore hereby notified to present the notes and other claims for payment

C. I. BRUNER, President.

Dated May 3, 1923.

Responsibility

One who counsels how savings shall be invested, undertakes a service which involves great responsibility.

On the soundness of his advice, in many cases, may depend whether investors will spend their declining years in comfort or in poverty.

Investment counselors the country over, realizing this responsibility, are willing to recommend American Telephone and Telegraph Company stock. They know the Company's standing as a public utility and its earnings record, and that fully one-half of the employees are purchasing or have purchased stock in the company for which they work, thus insuring greater efficiency.

Stock of the American Telephone and Telegraph, which derives most of its revenue from the Bell System, can be bought in the open market around 124. Since it pays 9% dividends, it nets over 7%. Full information on this Seven-per-cent-and-Safety investment will be sent on request. Write.

J. W. ALLEN, Treasurer.
New York, N. Y., May 24, 1923.

Financial

"Tom, Dick and Harry"

Calling attention to a too general lack of appreciation of Relative Values in Cost Accounting.

Tom, Dick and Harry are never permitted to make requisitions on bank accounts. Yet, too often, are they allowed to requisition stores, or, at times, just to take and use materials as they see fit.

The one or two percent cash discount on materials purchased is never lost sight of. Equal concern is seldom given to the fact that a physical count of the inventory shows a shrinkage of one to three percent.

In nine cases out of ten the inventory is the largest of all the current assets. The value of materials on hand is usually much greater than the cash in bank. Yet many concerns estimate their profits on a Cost System which permits of a shrinkage factor in inventory.

Accurate and persistent control of inventory on hand and unfilled commitments, is the safeguard against shrinkage or loss. It is just as important as accurate and persistent control of the bank account. It is simply a matter of recognizing *relative values*—adopting a Cost System which is based on *relative values*.

MOODY'S

PUBLIC UTILITY RATING BOOK

For 1923

JOHN MOODY'S MAMMOTH ANNUAL on the Public Utility Corporations of America is now available. It is a veritable Cyclopaedia of this industry and is indispensable to every banker, broker, investor, corporation executive and business man. It is a companion volume to our Industrial Rating Book recently issued.

"A Nation-wide Survey of Public Utility Progress," is a notable new feature of this edition.

It is the only book available on Public Utility Corporations for 1923, which includes Monthly Supplements of current earnings and of new and revised ratings.

It is the only book published which **rates** Public Utility bonds and stocks by John Moody's scientific method, and which does not carry any form of advertising.

Price $20, delivered. Our full set of four books, including Industrials, Public Utilities (both now ready), Foreign and American Governments and Municipals, and Steam Railroads, may be ordered in combination at $80 a set; the volumes to be delivered as issued. Subscriptions filled in order of receipt.

A Contribution to Civilization

Civilization is our inheritance from the ages; ours, in trust for a while, to which we must add some useful knowledge that coming generations may widen their horizon.

With this as an ideal, the manufacturing divisions of General Motors have always pioneered in the automotive industry, addressing themselves to the task of reducing costs and increasing the utility of automobile transportation for people and goods—also of motorizing and electrifying the farm to help increase the supply of foods.

Groups of men within the General Motors family have dedicated their lives to getting facts in mysterious fields lying beyond the boundaries of the known.

Their tools are physics, mechanics, metallurgy, electricity and allied sciences.

These pioneers on the frontiers of knowledge are blazing trails for the automobiles of today and tomorrow. They are a bulwark—an insurance of useful service to consumers of General Motors products because their efforts lead to the improvement of the present product and to the creation of more efficient products at lower costs.

This is one contribution of the divisions of General Motors to the advance of civilization.

A booklet entitled "General Motors Research Corporation" will be mailed if a request is directed to the Department of Financial Publicity, General Motors Corporation, New York.

NEW ISSUE

$2,000,000
State of Ceará
United States of Brazil
EXTERNAL 25-YEAR SECURED 8% SINKING FUND GOLD BONDS
Maturing December 1, 1947
NON-CALLABLE FOR FIFTEEN YEARS

Coupon bonds in $500 and $1,000 denominations, registerable as to principal. Interest payable semi-annually June 1 and December 1. Principal, premium and interest payable in United States gold, free of all present and future imposts, contributions and taxes of the State of Ceara and the United States of Brazil, at the Office of the Interstate Trust & Banking Company, New Orleans, Trustee, or at the First National Bank, New York City.

Redeemable as a whole only, at 105 and accrued interest upon eight weeks notice at the option of the State on any interest date on and after December 1, 1937.

Application will be made to list these Bonds on the New York Stock Exchange

Total Debt, External and Internal, Only $2.00 Per Capita.

The State of Ceara is located in the northeastern section of South America and is the seventh largest State, with respect to population, of the United States of Brazil.

The area of the State is 40,000 square miles, which is greater than that of the State of Ohio or Indiana. The population according to the census of 1920 was 1,300,000, which is equal to the combined population of the three States of Florida, Delaware and Wyoming. Approximately 400,000, or nearly one-third of the population, is classed as industrial, while approximately 200,000 is classed as agricultural.

Ceara is a coast State ranking seventh among Brazilian states with respect to foreign trade. Its principal agricultural product is long staple cotton, although tobacco, sugar cane, rice and coffee, in considerable quantities are produced. Fortaleza is the capital of the State and principal seaport. Its population in 1920 was 78,000.

SECURITY OF THE BONDS: The bonds will be the direct obligation of the State of Ceara and in addition to the full faith and credit of the State will, upon completion of this financing, be specifically secured by a first charge upon all export duties and taxes and the tax known as the industries and professions tax and sewerage and water tax. Based upon the average rate of exchange prevailing, the export tax and industries and professions tax averaged for the past five years $861,385.87. THESE REVENUES ALONE FOR THE PAST FIVE YEARS AVERAGED OVER FIVE TIMES THE MAXIMUM INTEREST REQUIREMENTS ON THIS ISSUE. The sewerage and water tax is just being put into effect and it is estimated that it will provide approximately $100,000, based on normal rate of exchange.

With the completion of the present financing this will be the only outstanding and authorized external debt of the State and no additional bonds can be issued with the same security as the bonds we are offering.

The State agrees that in the event of the reduction of any of said taxes it will substitute other taxes acceptable to the Trustee, and also that it will maintain the total amount of the revenues derived from these taxes at an mount not less than twice the amount of the service charge of this loan, computed upon the then prevailing rate of exchange.

SINKING FUND: In each of the first four years of this loan, $20,000 is to be paid into the sinking fund; thereafter commencing April 1st, 1927, the State agrees to pay semi-annually into the sinking fund the sum of $40,000, or if such payment of $40,000 would bring the unexpended amount of the sinking fund above the sum of $80,000, then such portion of $40,000 as may be required to bring the sinking fund up to $80,000. Th sinking fund is to be applied to the payment of bonds at par and accrued interest or less, whenever bonds are so purchasable.

PUBLIC DEBT: Upon the completion of the present financing, the total foreign debt of the State will amount to $2,000,000 and the internal debt, based on the present rate of exchange, to approximately $690,000, THE TOTAL DEBT REPRESENTING APPROXIMATELY $2.00 PER CAPITA.

PURPOSES OF THE ISSUE: About $1,000,000 of the proceeds from this loan will be used for the purpose of retiring the balance outstanding of a 15,000,000 franc loan, not yet due, which was placed in France in 1910, and the balance will be used to complete the construction of the sewerage and water system of Fortaleza, on the construction of which $1,000,000 has already been spent. All payments due on the French loan have been made. The only reason for retiring it in advance of maturity is to take advantage of favorable exchange conditions which will permit of the prepayment at a very great saving.

The financial records of the State were audited by C. G. Robinson & Co., Certified Public Accountants of New York and New Orleans.

LEGAL MATTERS: The legal matters in connection with this loan included the contract with the State and the form of bonds have been approved by Curtis, Mallet-Prevost & Colt, of New York and Rio de Janeiro; Spencer, Fenner, Gidiere & Phelps and Denegre, Leovy & Chaffe, of New Orleans, La.; Dr. Richard P. Momsen, of New York and Rio de Janeiro.

Offered when, as, and if issued, and received by us, and subject to prior sales:

Price, 99½ and Interest.

Southern Counties Gas Company
of California

First Mortgage 20-Year 5½% Sinking Fund Gold Bonds

Dated May 1, 1916 **Due May 1, 1936**

Interest payable May 1 and November 1 in Los Angeles or Chicago without deduction for Normal Federal Income Tax up to 2%. Coupon bonds in denominations of $1,000, $500 and $100 are registerable as to principal only. Callable in whole or in part on any interest date at 102½ and interest.

PACIFIC-SOUTHWEST TRUST & SAVINGS BANK,
Successor to Los Angeles Trust & Savings Bank, Los Angeles;
CENTRAL TRUST COMPANY, Chicago. } Trustees

Exempt from Personal Property Tax in California

Application will be made for the certification of this additional issue of bonds as a legal investment for California Savings Banks

The following information is summarized from a letter of Mr. Ferdinand R. Bain, President and General Manager of the Company:

These bonds, outstanding in the amount of $7,567,200 upon the conclusion of this financing, are secured, in the opinion of counsel, by a first mortgage on all properties of the Company. The value of tangible properties, as shown on the Company's balance sheet of May 31, 1923, is $11,452,102.

Gross income has increased from $1,505,013 in 1918 to $5,612,286 for 12 months ended May 31, 1923. Net earnings of the Company for the 12 months ended May 31, 1923, were 2.79 times interest charges on first mortgage bonds and for the five years ended December 31, 1922, averaged 2.60 times such charges.

The Southern Counties Gas Company distributes gas to forty-six communities in Southern California with a total population of approximately 586,000, including Long Beach, Santa Ana, Whittier, Santa Barbara, Santa Monica, San Pedro, Pomona, and Monrovia. High-grade natural gas obtained from long-lived fields widely separated is served in all of its territory except at Santa Barbara. The latter city is now served with artificial gas, but it is expected that a natural gas line from Ventura to Santa Barbara will be completed about November 1, 1923.

The Company's territory is one of the most rapidly growing sections of the United States. The number of meters installed has increased from 45,381 in 1918, to 106,462 on May 31, 1923.

Under a plan proposed by the California Railroad Commission, the Company five years ago established an annual reserve fund, which with additional capital expenditure will provide artificial gas plants to supplythe territory should necessity arise.

The Company, since its organization, has been under the present successful management. All franchises, in the opinion of counsel, are either perpetual under the Constitution of California, or extend well beyond the maturity date of the First Mortgage Bonds.

Bonds are offered when, as and if issued and received by us and subject to approval of Messrs. Chickering & Gregory of San Francisco, for the Bankers, and by Mr. Leroy M. Edwards of Los Angeles, for the Company.

Price 92½ and interest yielding about 6⅜%

The Long-Bell Lumber Company

First Mortgage 6% Sinking Fund Gold Bonds, Series B

PRICE

94

and accrued interest

yielding over

6.50%

•

Dated April 1, 1923
Due April 1, 1943

•

Denominations
$1,000, $500, $100

•

Interest payable April 1 and October 1 in Chicago or New York without deduction for any Normal Federal Income Tax now or hereafter deductible at the source not in excess of 2%. Pennsylvania Four Mill tax refundable. Redeemable as a whole at the option of the Company, but not in part, at any time upon 60 days' notice at 105 and accrued interest and for sinking fund purposes at any time upon 30 days' notice at 101 and accrued interest. Total authorized issue, $30,000,000. To be presently outstanding, $20,000,000.

For detailed information regarding these Bonds, attention is directed to a letter of Mr. R. A. Long, Chairman of the Board of the Company, from which the following is summarized:

The Long-Bell Lumber Company, founded in 1875 by its present head is believed to be the largest manufacturer and distributor of lumber in this country under a single ownership.

These Bonds will be secured equally with Series A Bonds by a first mortgage on unencumbered standing timber having a value, as independently appraised, equal to at least 100% of the face amount of the outstanding bonds, and will be further secured by a mortgage on plants, mills and other property having a value at least sufficient to make the aggregate security under the mortgage not less than 200% of the par amount of outstanding bonds, *both of which ratios the Company covenants to maintain at all times.*

The property now or presently to be subjected to the lien of the Mortgage includes 4,371,089,550 feet of unencumbered standing timber, having a value, as appraised by James D. Lacey & Co., of $25,781,239.

The Consolidated Balance Sheet of The Long-Bell Lumber Company and subsidiaries, as certified by [illegible]pendent auditors as at date December 30, 1922, but adjusted [illegible] give effect to the present financing, discloses no floating debt, net tangible assets, after deducting all liabilities except these Bonds, of $86,247,373.38, and Net Quick Assets of $20,188,964.09, or $4,312.37 and $1,009.45, respectively, per $1,000 Bond.

Net earnings during the past ten years have averaged $3,884,404.59 before interest charges and Federal taxes and $3,101,977.79 before interest charges but after Federal taxes. During the same period return of capital through conversion of timber and amortization of plant investment has averaged $3,001,057.46, or a total annual average of $6,885,462.05 available for the payment of Federal taxes, debt principal and interest, dividends and investment in new property. The maximum annual requirement for principal and interest on the total present outstanding funded debt, including this issue of Bonds, is $4,137,424.99, and the average annual requirement for such purposes during the life of these Series B Bonds, is $2,988,348.51. Conversion of timber and amortization of plant investment for the five months' period ended May 31, 1923, totals $1,789,162.76, and the net earnings for the same period before deducting interest charges and Federal taxes were $4,320,742.74. During this period interest paid and accrued on the outstanding funded debt amounted to $690,808.17.

The Mortgage contains a sinking fund provision under which the Company covenants to pay into such fund the sum of $6.00 per thousand feet of timber cut or sold in the States of Louisiana and Texas; $3.00 per thousand feet in the States of California and Oregon and 60% of the appraised value in all other States. The funds accumulating in such sinking fund shall be applied to the retirement of First Mortgage Bonds, and to certain other purposes as more fully set forth in the Chairman's complete letter.

These bonds are offered for delivery when, as and if issued and received by us, and subject to approval of counsel. It is expected that temporary bonds or interim receipts exchangeable for definitive bonds will be ready for delivery on or about July 16, 1923. All statements herein are official or are based on information which we regard as reliable, and while we do not guarantee them, we ourselves have relied upon them in the purchase of this security.

Southern California Gas Company

First and Refunding Mortgage 6% Series "C" of 1958 Gold Bonds

Dated June 1, 1923 **Due June 1, 1958**

Interest payable June 1 and December 1 in Los Angeles, San Francisco and New York without deduction for Federal Normal Income Tax not exceeding 2%. Redeemable at 105 and accrued interest. Denominations, $1,000 and $500.

UNION BANK & TRUST CO. OF LOS ANGELES, Trustee

Exempt from Personal Property Tax in California

Application has been made to the Superintendent of Banks to certify these bonds as legal investments for savings banks in California.

The following points upon which we base our recommendation of these bonds have been summarized from a letter of A. B. Macbeth, Vice-President and General Manager of the Company:

The Company serves natural and artifical gas in three counties in Southern California, including 37 cities and towns, prominent among which are the cities of Los Angeles, San Bernardino and Riverside, a territory of more than a million estimated population.

The Company owns two modern and efficient plants for the manufacture of gas.

The distributing system of the Company, as of April 30, 1923, consists of 1,651 miles of mains, serving 93,845 domestic, 263 industrial and wholesale mills.

First and Refunding Mortgage bonds outstanding on completion of this financing in the amount of $7,365,000, will be secured by a direct mortgage on all the property of the Company, subject to $9,886,000 First Mortgage bonds, due 1950, of which $5,411,000, or over 54%, will presently be deposited as additional security for this mortgage.

Gross earnings have increased from $1,401,955 in 1917, to $6,314,945 for 12 months ended April 30, 1923. Net earnings for 12 months ended April 30, 1923 from all sources were 2.62 times the interest on all bonds outstanding, including this issue. From gas operations net earnings were 2.54 times bond interest requirements. In the 10 years ended December 31, 1922, the net earnings from operation increased 595%, while the bond interest increased only 262%.

Mortgage provides for an annual sinking fund, beginning March 1, 1927, amounting to 2½% of the par value of the largest amount of bonds at any time outstanding, including First Mortgage bonds, to be used for the retirement of bonds or acquisition or construction of additional property.

The principal franchises of the Company are perpetual. The remainder extend beyond the maturity of these bonds.

The Company's business is protected by contract, which gives it first call on all natural gas which may be transmitted to its territory by the Midway Gas Company, the only Company now bringing natural gas to Los Angeles property.

According to the latest balance sheet the Company has no floating indebtedness.

Issue of these bonds has been authorized by the Railroad Commission of the State of California

The indenture securing this issue was prepared by O'Melveny, Milliken & Tuller, Attorneys, Los Angeles, and approved for us by Jared How, Attorney-at-Law, of San Francisco.

$1,400,000
SCIOTO VALLEY RAILWAY & POWER CO.
20-Year First Mortgage 6% Sinking Fund Gold Bonds

Dated June 1, 1923 — Due June 1, 1943

Interest payable June and December 1st at The Huntington National Bank of Columbus or at The First National Bank of New York. Principal payable at The Huntington National Bank of Columbus. Coupon bonds in denominations of $1,000 and $500 registerable as to principal only. Callable in whole or in part at 105 on any interest date upon 30 days notice except for sinking fund purpose as outlined below.

The Company agrees to pay interest without deduction for Normal Federal Income Tax not exceeding 2% and will also refund upon application within 60 days the Pennsylvania and Connecticut four mill tax.

THE HUNTINGTON NATIONAL BANK OF COLUMBUS, TRUSTEE

CAPITALIZATION

(After giving effect to this financing)

	Authorized	Outstanding
First Mortgage Bonds (this issue)	$2,500,000	$1,400,000
1st Preferred 5% Cumulative Stock	500,000	489,300
2nd Preferred 5% Cumulative Stock	1,200,000	1,200,000
Common Stock	1,800,000	1,800,000

From the letter of Frank A. Davis, President of the Company, we summarize as follows:

The Scioto Valley Railway and Power Company operates a high speed third rail standard gauge electric railroad between the cities of Columbus, Lancaster and Chillicothe, Ohio. It also does an increasing power business in the adjacent communities, having a large and well diversified list of customers, and holding the street lighting contracts in fifteen towns. The territory is in the central part of Ohio and is one of the most prosperous and highly developed sections of the State.

The proceeds of the present issue of $1,400,000 First Mortgage 6% bonds will be applied toward the retirement of $1,426,000 First Mortgage 5% bonds due September 1, 1923. The new issue will be secured by a first mortgage on the entire property of the company now owned or hereafter acquired, which has a reproduction value conservatively estimated to be in excess of $6,000,000. The mortgage is closed at $2,500,000 and additional bonds up to this amount may be issued for 75% of the cash cost of additions and capital improvements provided net earnings for twelve consecutive months, out of the thirteen immediately preceding the issue are not less than twice the interest charges on outstanding and contemplated bonds.

EARNINGS

(For the 12 months ended December 31, 1922)

Gross earnings	$716,262
Operating expense, maintenance, rent and taxes	514,456
Net earnings	$201,806
Interest charges, this issue	84,000
Balance	$117,806

Net earnings over 2.4 times bond interest.

Since 1913 the Company has never failed to earn more than twice interest charges on this issue. During this period earnings averaged 2.83 times interest charges on the maturing 5% issue, while during the past five years this average was 3.23 times these requirements; this is after unusually heavy expenditures for maintenance.

SINKING FUND

Commencing November 15, 1925, a sinking fund is payable to the trustee as follows:

1925	$12,000	1931	$18,000	1937	$25,000
1926	12,000	1932	18,000	1938	31,000
1927	12,000	1933	25,000	1939	31,000
1928	12,000	1934	25,000	1940	31,000
1929	18,000	1935	25,000	1941	31,000
1930	18,000	1936	25,000	1942	31,000
Total					$400,000

A sinking fund of 1½% will operate against any additional bonds issued under the provisions of the mortgage.

These bonds are followed by $1,689,300 par value preferred and $1,200,000 common stock. Dividends at the full rate of 5% have been regularly paid on the preferred stock since 1908.

Price 97.50 and interest to yield over 6.20%

The issue of the above bonds is subject to the approval of the Ohio Utilities Commission and the approval by our attorneys of all legalities incident to the issue.

THE HUNTINGTON NATIONAL BANK
COLUMBUS, OHIO

THE OHIO NATIONAL BANK
COLUMBUS, OHIO

The first mortgage 5% bonds of the Scioto Valley Traction Company maturing September 1, 1923, with final coupon attached will be accepted in payment for this issue at 100 and interest.

The above statements have been gathered from official sources. While not guaranteed they have been accepted by us as correct.

Orders have been received in excess of the amount of Bonds. This advertisement appears as a matter of record.

$2,500,000

Spencer Kellogg and Sons, Inc.

Fifteen-Year 6% Gold Debenture Bonds

Dated July 1, 1923 Due July 1, 1938

Principal and interest payable at office of Trustee, Buffalo, and at office of Dillon, Read & Co., New York. Interest payable January 1 and July 1. Coupon bonds of $1,000 each, registerable as to principal. Callable on any interest date as a whole or in part by lot: at 105 and interest to and including July 1, 1925, with successive reductions each year thereafter of ½ of 1% in call price until call price reaches 101 and interest; thereafter at 101 and interest to maturity. The Company agrees to refund, on application, the present Pennsylvania Four-Mill Tax to holders resident in Pennsylvania. Total authorized issue $2,500,000. The Marine Trust Company of Buffalo, Trustee.

A sinking fund of 10% of annual net earnings, as defined in the Trust Agreement, with minimum payments of $75,000 per annum is provided, available semi-annually to purchase or call Debentures

---

The following information has been summarized by Mr. Howard Kellogg, President of the Company, from a letter to us:

Spencer Kellogg and Sons, Inc. is one of the three largest manufacturers of linseed oil in the United States and does approximately one-third of the entire business in the country. This product is an essential constituent of paint, varnish, linoleum and printers' ink. In addition, the company manufactures, buys or imports, and sells other vegetable oils. Its customers include practically all the large manufacturers of paints and varnishes, soap and linoleum. The manufacture of linseed oil by the Kellogg family was started one hundred years ago, and since that time has been actively and successfully continued by the descendants of the founder of the business.

During the seven fiscal years ended September 30, 1922, net earnings after interest and all other charges, but before Federal Taxes, averaged $1,827,000. Maximum annual interest requirements on these Debentures are $150,000. It is estimated that such net earnings for the fiscal year ending September 30, 1923, will be approximately $1,000,000. Since the inception of the present business in 1894, it has never shown a net loss in any year.

The company has paid cash dividends in each year since incorporation, the present rate of 5% per annum having been paid in 1922 on $10,000,000 capital stock.

As shown by the company's condensed balance sheet as of March 17, 1923, net tangible assets were over $12,800,000, while net current assets were in excess of $6,500,000 with current assets approximately 4½ times current liabilities.

These Debentures, constituting the only funded debt ever issued by this company, will be the direct obligation of Spencer Kellogg and Sons, Inc., which will covenant not to mortgage its property, nor create any funded debt ranking equally with or ahead of the Debentures; provided in the ordinary course of business it may make loans maturing in not over one year and pledge its current assets as security therefor.

We offer these Debentures for delivery when, as and if issued and received by us, and subject to approval of counsel. Interim receipts of Dillon, Read & Co., exchangeable for definitive Debentures, will be deliverable about July 12, 1923.

Price 100 and Accrued Interest

CAPITALIZATION

(Upon completion of present financing)

	Authorized	Outstanding
Preferred Stock 6% Cumulative (including this issue)	**$20,000,000**	**$20,000,000**
Common Stock	**20,000,000**	**20,000,000**

The following information is summarized from a letter signed by Mr. S. Z. Mitchell, President of the Company.

Business: Electric Bond and Share Company, incorporated February 28, 1905, takes a financial interest in Electric Power and Light enterprises. It buys, holds and sells securities issued on such properties, and renders expert assistance in connection with the financing and the operation of companies controlling and operating such properties.

Purpose of Issue: Proceeds from the sale of this Preferred Stock will be used for general corporate purposes of the Company in expanding its business.

Provisions: Company has no mortgage or funded debt. Under the By-Laws no indebtedness shall ever be incurred in excess of the total par value of the outstanding Preferred Stock without the affirmative vote, or consent in writing, of the majority of all outstanding stock.

This stock is entitled to cumulative preferred dividends at the rate of 6% per annum. No dividends may be paid on the Common Stock unless, after such payment, there remains a surplus equal to at least 18% (three years' dividend requirement) on the total outstanding Preferred Stock.

Earnings: For the year ended May 31, 1923, Net Income, after Federal taxes, was $4,199,924.67 or practically 3½ times annual dividend requirements of $1,200,000 on the total amount of Preferred Stock outstanding, including this issue. The Net Income of the Company since its incorporation in 1905, has been sufficient to meet the Preferred dividend payments during all of that period, more than **4.1 times.**

Dividend Record: Dividends at the rate of 5% per annum were paid regularly on the Preferred Stock from organization up to October 31, 1911, at which time the regular rate was increased from 5% to 6% per annum, and have been paid regularly at this rate since then. Common Stock has regularly paid dividends of not less than 8% per annum since July 15, 1909.

Equity: The Preferred Stock will be followed by $20,000,000 par value of Common Stock, all owned by the General Electric Company.

All legal details in connection with the issue of this Preferred Stock will be passed upon by Messrs. Winthrop & Stimson of New York, for the Bankers, and Messrs. Simpson, Thacher & Bartlett of New York, for the Company. The accounts of the Company are audited by Messrs. Marwick, Mitchell & Co., Accountants and Auditors

We offer the above stocks, when, as, and if issued and received by us, and subject to approval of counsel, at

New Issue

$4,000,000

DeBardeleben Coal Corporation

First Mortgage 6½% Serial Gold Bonds

To be Authorized, $4,500,000 **To be presently issued, $4,000,000**

To be dated July 1, 1923 **Bonds presently issued to mature $200,000 on each July 1, 1924 to 1943, both inclusive.**

Interest payable semi-annually January 1st and July 1st at the office of the Fidelity Trust Company, Philadelphia, Trustee, without deduction of the Normal Federal Income Tax up to 2%. Coupon bonds in denomination of $1,000, registerable as to principal only. Redeemable as a whole or in part at 102½% and accrued interest on thirty days' notice.

Pennsylvania four mills tax and any Maryland tax up to four and one-half mills refunded to holders resident in the respective states

Mr. Henry T. DeBardeleben, who will be President of the new Corporation, has summarized his letter of June 20, 1923, as follows:

SECURITY: "These bonds will be secured, in the opinion of counsel, by a first lien on property of the Corporation, conservatively valued at $7,678,305.

PURPOSE: The proceeds of these $4,000,000 bonds will be applied to payment in part for the properties of the Corona Coal Company, the DeBardeleben Coal Company, Inc., and its subsidiaries and the Empire Coal Company.

BUSINESS AND PROPERTY: The properties of the DeBardeleben Coal Corporation will consist of approximately 50,000 acres of unmined coal lands, of which the mineral rights of 46,800 acres will be owned in fee and the balance controlled under favorable leases, situated in Alabama, in the heart of the well-known Warrior Coal Field. The actual tonnage produced for the five years ended December 31, 1922, has averaged annually 1,114,435 tons

Mr Edward V d'Invilliers has estimated the recoverable proven coal from these properties to be in excess of 64,500,000 tons, with an additional indicated tonnage not yet proven of 80,000,000 tons The properties are underlaid by several veins of bituminous coal, and 75% of the proven acreage is underlaid by the Black Creek and Corona seams, constituting the best types of fuel produced in the Warrior field.

Transportation facilities are furnished by the St. Louis-San Francisco Railway system and the Southern Railway Company, supplemented by navigation on the Warrior River. Through its subsidiary, W. G. Coyle & Co., Inc., the Corporation will have complete facilities for bunkering at New Orleans and for retail delivery in that city. The Corporation also has especially advantageous markets for bunkering at and export from the ports of Pensacola and Mobile.

The management will be in the hands of those who have had a life-long experience in the Warrior Coal Field.

SINKING FUND: The mortgage securing these bonds will provide for a sinking fund of 10 cents per ton on all coal mined from the properties, to be applied first to the serial payments as due and any excess to be used to call bonds of the latest maturity outstanding at 102½ and accrued interest, unless such bonds can be purchased at a lower price.

EARNINGS: The combined net earnings of the companies to be acquired, available for depreciation, depletion, interest and Federal taxes, for the five years ended December 31, 1922, have averaged $1,052,775, or in excess of twice the total maximum annual interest and principal payments on this issue. In no year of these five has there been a loss from the operation of any individual company."

The property of the Corporation has been examined and valued for us by Mr. Edward V. d'Invilliers, Geologist and Mining Engineer; its books and accounts have been audited for us by Messrs. Lybrand, Ross Bros. & Montgomery; and all legalities are being passed upon for us by Messrs. Dickson, Beitler & McCouch, Philadelphia, and by Messrs. Percy, Benners and Burr, Birmingham, Alabama.

Delivery will be made in the form of interim receipts or temporary bearer bonds exchangeable for definitive bonds, when, as and if issued and received.

We offer these bonds, if, as and when issued and received by us, subject to the approval of our counsel, at the following prices:

July 1, 1924,	maturity at	100.48	and	accrued	interest,	to	yield	about	6%
July 1, 1925,	"	" 100.00	"	"	"	"	"		6½%

DREXEL & CO. **CASSATT & CO.**

GRAHAM, PARSONS & CO.

$4,300,000

The Benjamin Franklin Hotel

PHILADELPHIA

First Closed Mortgage 6% Gold Bonds, Series "A"

Dated February 15, 1923 **Due February 15, 1933**

Interest payable February 15th and August 15th

GUARANTEED PRINCIPAL AND INTEREST BY THE "PHILADELPHIA COMPANY FOR GUARANTEEING MORTGAGES"

Fully registered bonds, denomination $1,000

A sinking fund provision, applicable to the Series "A" bonds, will be sufficient to retire $500,000 of these bonds before maturity.

THE LAND TITLE & TRUST COMPANY, PHILADELPHIA, TRUSTEE

These bonds are secured by a first closed mortgage on Philadelphia's newest and largest hotel, at the southeast corner of Ninth and Chestnut Streets, Philadelphia. The hotel will be an 18-story building of the most modern fireproof construction, located in the heart of the shopping district in close proximity to all department stores, railway stations, etc. Guest rooms to the number of 1,210, each with private bath, also banquet rooms, dining rooms, rest rooms, with every arrangement made for the comfort and convenience of guests. The building will occupy the entire lot, 194 feet on Chestnut Street and 235 feet on Ninth Street to Sansom Street, thus having three fronts. The ground and building have been conservatively appraised for mortgage purposes at $7,250,000, and it has been estimated that the total cost completed excluding furniture, will reach $8,500,000.

This is a Philadelphia conceived and Philadelphia owned enterprise. The corporation owning the hotel is the Benjamin Franklin Realty and Holding Corporation, incorporated under the laws of the State of Pennsylvania; officers, John C. Martin, President; Charles Gimbel, Vice-President; Albert M. Greenfield, Treasurer; Edgar W. Nicholson, Secretary. Directors, Jacob D. Lit, Cyrus H. K. Curtis, Ellis A. Gimbel, Herbert J. Tily, Harry G. Sundheim and the officers.

The capital of the corporation owner is as follows:

First Mortgage Series "A" Bonds (Fully Guaranteed Principal and Interest)	**$4,300,000**
First Mortgage Series "B" Bonds	**2,300,000**
Second Mortgage Series "A" Bonds	**2,100,000**
Second Mortgage Series "B" Bonds	**1,300,000**
	$10,000,000
Capital Stock, no par value	**3,500 shares**

The First Mortgage Series "A" bonds are prior in lien and payment in all respects to the First Mortgage Series "B" bonds as well as to the Second Mortgage bonds.

It has been variously estimated that the net earnings of the hotel will be at least four to five times the interest requirements of the First Mortgage Series "A" bonds.

Title insurance to the amount of the mortgage has been furnished by The Land Title & Trust Company of Philadelphia, which Company also guarantees the completion of the building in accordance with plans and specifications prepared by Horace Trumbauer, Architect.

We are advised by counsel, Messrs. Saul, Ewing, Remick & Saul, that these bonds are a legal investment in Pennsylvania for trustees, guardians and others acting in a fiduciary capacity.

New Issue

Exempt from Federal, State, Municipal and Local Taxation

$45,000,000

Ten-Thirty Year

Federal Land Bank 4½% Bonds

Dated July 1, 1923 **Due July 1, 1953**

Not redeemable before July 1, 1933

Interest payable January 1 and July 1 at any Federal Land Bank or Federal Reserve Bank. Principal payable at the Bank of Issue. Coupon and registered bonds (interchangeable) in denominations of $10,000, $5,000, $1,000, $500, $100 and $40. Redeemable at par and interest at any time after ten years from date of issue

---

The Supreme Court of the United States has upheld the constitutionality of the Act creating the Banks and exempting these Bonds from Federal, State, municipal and local taxation.

Operation. In five and one-half years of active operation the 12 Federal Land Banks have been built up until on May 31, 1923, their Capital was $39,808,297; Reserve, $3,403,000; Surplus and Undivided Profits, $3,741,105; and Total Assets, $787,750,071. All twelve Banks are on a dividend paying basis and every bank shows a surplus earned from its operations.

Acceptable by Treasury. These Bonds are acceptable by the United States Treasury as security for Government deposits including Postal Savings Funds.

Legal for Trust Funds. The Federal Farm Loan Act provides that the Bonds shall be lawful investments for all fiduciary and trust funds under the jurisdiction of the United States Government. They are eligible under the laws of many of the States for investment of all public and private funds and have been officially held eligible for investment by savings banks in 36 States.

The United States Government, as of May 31, 1923, owned approximately $3,000,000 of the capital stock of the Federal Land Banks. The Farm Loan Associations, during the year 1922, acquired approximately $8,500,000 of Federal Land Bank stock, 25% of the proceeds of which was used to retire stock owned by the Government, as required by the Farm Loan Act. The United States Treasury has purchased and now holds over $100,000,000 Federal Land Bank Bonds. While these Bonds are not Government obligations, and are not guaranteed by the Government, they are the secured obligations of Banks operating under Federal charter with Governmental supervision, on whose boards of direction the Government is represented.

At the request of the Federal Farm Loan Board in co-operation with and on behalf of the Federal Land Banks, we offer these Bonds at:

Price 100¼% and Interest, to yield over 4.45%

to the redeemable date (1933) and 4½% thereafter to redemption or maturity

Sit in the Family Investment Council

The great majority of financially competent citizens of Chicago and its suburbs look to The Chicago Daily News not only for news but for advertising information and guidance. The interest and confidence that they give to their favorite home newspaper they also extend to advertisers in its columns.

The majority of readers of The Chicago Daily News are potential investors, and they read the financial and market pages with keen appreciation because they know that not only do they receive therein the COMPLETE story of the financial day TWELVE HOURS EARLIER than they obtain the same story in any morning newspaper—but that they can depend upon what they read.

Your advertisement in these pages will reach the prospective investor in that home-reading hour when family buying councils are held, and will share in the interest and confidence with which he reads in The Daily News —news and advertisements.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets, New York.

Published every Saturday morning by WILLIAM B. DANA COMPANY. President, Jacob Seibert; Business Manager, William D. Riggs; Secretary, Herbert D. Seibert; Treasurer, William Dana Seibert. Addresses of all, Office of Company.

State and City Section.

A new number of our "State and City Section," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One containing the New England, Central and Middle States, being issued to-day, while Part Two, embracing the rest of the country, will be published next December.

The Financial Situation.

The financial markets continue shrouded in gloom, and stock prices the present week have suffered a further bad tumble, with new low records for the year all through the list. Liquidation of security holdings has proceeded on a tremendous scale, in part forced, in part voluntary occasioned by solicitude regarding the industrial outlook. Operators for a decline have helped the movement downward, as they always do on such occasions, by selling stocks short and by the circulation of unfounded rumors regarding the solvency of Stock Exchange houses, hoping thereby to cause a general loss of confidence and the throwing over of securities in large volume. Such methods are shameful and detestable, but they could have only a small measure of success if it were not that certain elements of isquietude unquestionably exist and invest the future with uncertainty if not with actual menace. Fuel costs remain at the peak with no relief in sight, and labor costs are again rising in every direction. Manufacturing costs are already so high that they are losing us both the foreign markets and the domestic markets. What, then, are we to expect with wages still further advanced? We are not exaggerating when we say present manufacturing costs are losing us the domestic and the foreign markets alike, for evidence of the truth of the statement is found in the flood of merchandise imports and the lack of growth in the merchandise exports. At present our manufacturing industries are thriving on past orders, but we cannot expect a continuance of these orders unless manufacturing costs are reduced, and that seems out of the question so long as the constituent elements in production costs remain as they are now.

The one bright feature in the situation at the moment is the way railroad earnings are increasing, for these earnings enable the roads to buy with greater freedom than for many a long year past. Much has been made on the Stock Exchange the present week of the failure of the Baltimore & Ohio to resume dividends on the common stock, but the action of the directors was dictated entirely by considerations of prudence and conservatism. The company's earnings, both gross and net, are enormously larger than a year ago. For May this year the gross was $23,609,843, against only $16,861,752 in May last year, and the net (before the deduction of taxes) $5,585,958, against $3,716,858. To be sure, comparison is with the period of the coal miners' strike last year, but the increase is only in part due to that circumstance, and even to the extent that it is thus due it signifies a return to a normal favorable situation from an extremely unfavorable one. Turn now to the Pennsylvania return for May. That company earned $14,467,254 more gross than in that month last year, and $2,651,422 more net. The New York Central makes an even better comparison, with gross this year for the month of $38,183,764, against $27,466,206, and net more than doubled at $11,265,307, against $5,202,032. Even the Erie shows an addition to gross for the month of $3,322,286 and an addition to net of $1,763,769. And what is more, the improvement, from present indications, is certain to continue for many months to come.

The building trades trouble which has for a number of weeks past been prominently at the front of the news stage has now gotten so far along into a (temporary) "permanent" peace that its more recent incidents can be briefly summed up. On Friday of last week several thousand concrete and cement workers took notice and followed the "same as" lead by going on strike for just a little more. It is estimated that the increases and bonuses extorted will add 20 milloan to the wages cost of building during the second half of the year, and it is not to be expected that by any number of force bills against landlords and

any increase of penalties for "being greedy" this augmentation in construction cost can be prevented from making its way into rents and other living costs. The bricklayers obtained on Monday a new two-year agreement at $1 50 an hour or $12 a day. As the Committee of the Public Group see it, construction of schools or of dwellings is not aided any, and so they ask the Mason Builders' Association and the bricklayers' executive committee to "consider a plan by which, for the present, bricklayers and other mechanics may be employed and be permitted to work on all jobs in New York upon evidence of their ability to do the work for which they shall be engaged, no matter where they are trained." This would make room for white-collar and other persons who have attended trade schools; it would make competence and the work impulse a sufficient "union card" in practice, and the unions are asked to grant so much as this to the public need and welfare.

The coal problem has not yet turned its grimness into encouraging smiles. Upon rumors that the United Mine Workers of America had negotiated with their "brethren" abroad to interfere with mining and shipping coal hither in the event of a strike, Attorney General Daugherty has given a plain hint that any such interference would encounter prompt and forceful action by the Government. On Tuesday the tri-State district convention of the anthracite miners of that organization began in Scranton, and the early developments were anything but encouraging. As might have been expected, the most rabidly radical element was on its tallest and reddest horse and undertook to start at least a temporary rush. Young Rinaldo Capellini, elect head of District No. 1, with 70,000 members—described as "dark, erect, with flashing eyes, and with right arm gone at the shoulder"—was not backward at rushing forward. He lost the arm in mine-working, and according to report, which may or may not be exact, the company "quibbled on compensation"; at least, he is just the figure to work up an "impassioned" condition of feeling and to rouse the mob spirit.

The highest of past demands, it appears, is to be exceeded, the present contract, expiring with next August, being on the same basis as the post-war agreement which was rebelled against last summer but taken up again after months of idleness and assented to. Now, with wages at the peak, a demand for a further increase of 20% is made, with an addition of $1 a day for all men paid by the day. Mr. William Green, the organization's Secretary-Treasurer, spoke smoothly, after first predicting that following the demonstration of solidarity in a six months' fight "the masters of finance and large employers of labor will hesitate to do battle again with this army of men and women"; yet he said that this is a time for sober judgment, that it is "a matter of strategy and we must occupy the strategic position." There is a "great unseen force of public opinion," and while he would not wholly accept the belief that no industrial struggle in America could be won against that opinion he does not "believe it possible for any group of men to win a struggle in America, provided public opinion is crystallized against them." Well, then, let it be known that public opinion is in favor of a 20% reduction instead of a 20% increase.

Reports of Thursday's proceedings were that President Lewis of the United Mine Workers "took control," wresting the convention from the extreme radical element. While he descanted upon the strength of the organized miners and adhered to the keynote of no reduction in wages, he did speak smoothly about a conciliatory and reasonable spirit and about "a desire to safeguard the rights of the people by effecting a new agreement which will insure an uninterrupted supply of coal at prices not unreasonable."

This has been rather an off-week in striking political developments in Europe. Diplomatic negotiations between France and Great Britain relative to a formula for dealing with the reparations problem are said to have been going on in a quiet way, but early in the week, at least, no definite official announcements were made except an informal statement at the Quai d'Orsay that "there would be no reply to the British questionnaire before the Belgian Cabinet had been formed." The New York "Times" correspondent at Paris cabled under date of June 22 that "this decision holds despite the request made by the British Ambassador that a reply be returned as soon as possible. Yesterday and again to-day the Belgian Ambassador to Paris had conferences with Premier Poincare and there is a considerable amount of official optimism as to the possibility of France and Belgium being able to find a common formula for their definition of the terms of German surrender in the matter of passive resistance, and also for the conditions of evacuation of the Ruhr as German payments are made. But there is no indication that these terms are being modified in a manner to make them either immediately acceptable to Germany or entirely satisfactory to England."

The reparations situation was further disturbed, so far as the Germans were concerned at least, by the announcement that "General Deguotte to-day [June 24] issued an order of the day declaring that the Inter-Allied Commission of Control in the Ruhr has the power of requisition for account of the occupying Powers of all stocks of coal in mines, factories and other industries in the Ruhr, in order to insure deliveries for the reparations account due the Allies, as well as to insure the payment of coal taxes due from the exploitation of the mines." It was explained that "the order was based on Part VIII of the Versailles Treaty. It declares Germany violated this provision of the treaty by voluntarily reducing the production of coal for the reparations account. The order says that from the date of a decision by the President of the Inter-Allied Control Commission to requisition any given stocks of coal the coal may not be touched by any one except through special authorization of the Control Commission."

That there has been no change in the attitude of Germany on the reparations question seems to have been made clear by Chancellor Cuno in a public address on June 24. The Associated Press representative at Berlin cabled that "in a speech at the opening of the Agricultural Exposition in Koenigsberg, East Prussia, yesterday, Chancellor Cuno referred to the Ruhr and reparations problems in words considered to show little disposition on the part of the Government to compromise." He added that "the Chancellor declared the spirit of resistance and the will to resist were as firm as ever among the Ruhr population. This convinced him, he said, that the entire German people would show themselves as unswerving in political and economic matters as the people of the Ruhr

and the Rhineland." In defense of the attitude and policy of the German Government the Chancellor was reported to have said also that "nothing has been left undone to find a reasonable, supportable and final solution of the reparations problem. The German memorandum, he declared, had achieved, on the whole, what was expected: namely that it would convince the world of Germany's honest desire to live at peace with her neighbors and not to promise reparations, but to pay them by the exercise of the utmost strength of the German people, on the condition that the Germans should be able to say: 'At the conclusion of these deliveries stands freedom.' "

The dispatches from various centres indicated that, as the week advanced, Great Britain and France experienced no less difficulty in finding a reparations formula. A special political correspondent of the New York "Tribune" cabled from Paris that "the attempts of Britain and France to come to an understanding about what to say to Germany in answer to its note, now three weeks old, have been interrupted by the prolonged Ministerial crisis in Belgium." He also said that "the cause commonly given for that crisis is the dispute about the Flemish language. But another cause, weighing as much, is Belgian discontent with the occupation of the Ruhr. Belgium imports more than 80% of the wheat it must have for bread. For those imports it pays with exports of manufactured goods. The occupation of the Ruhr has interfered with Belgian manufacturers to an extent that makes the country uneasy about a possible economic crisis. For this reason opinion in Belgium swings steadily to the British point of view about the Ruhr against the French." The "Tribune" correspondent suggested that "Premier Theunis, the only man of much political power in Belgium, by temperament and due to circumstances is fearful of a break with the French Government. As soon as Belgium gets a new Ministry British and French negotiations will go on."

The following day the same correspondent endeavored to outline the situation in part as follows: "Communications between France and Britain looking to common action in regard to Germany are dragging in a way that causes some pessimism. But there is not yet any mutually admitted deadlock and there is on both sides a wish to avoid a deadlock. This wish, however, varies in degree. On the British side it is a determination to keep up a spark of life in these negotiations until the last possible moment, modified by an equal determination to act upon the conclusion that either the entente between the two nations still exists or does not exist. In the event that the latter should be the conclusion Britain will pioneer along another course. On the side of the French the attitude toward the present negotiations is more tepid. In may be described as a state of mind which does not want a rupture and will not take any affirmative action designed to cause a rupture, but will not make concessions to avoid one."

The Associated Press correspondent at Rome sent word that "the Pope has written to Cardinal Gasparri, Papal Secretary of State, saying that despite the attempts made since the beginning of his Pontificate to secure pacification of Europe, international relations had not improved, had even become worse, justifying graver anxiety for the future." According to the dispatch also, the Pope said that "while we are striving with all our strength and all the means our children place at our disposal for mitigation of the present serious general sufferings, we ought to take advantage of every opportunity to co-operate to bring about the desired pacification of peoples and individuals in Christ. We entreat those who hold the people's destinies in their hands to consider the various questions, and that of reparations, in that Christian spirit which does not separate the exigencies of justice from those of social charity, on which the perfection of the life of peoples is based." The Paris representative of the New York "Times" cabled the next day that "it is not to be expected that Pope Pius's letter urging the fixation of Germany's reparations debt by arbitrators and the early evacuation of the Ruhr will have any effect on the French policy. In Paris the letter is regarded as the effort of a good man with good intentions, but without practical knowledge of the situation. It seems to be taken for granted that the Government of France would not reverse its most important foreign policy on the two basic points because of the appeal from the Vatican." The New York "Herald" representative at the same centre took quite a different position, asserting that "the Pope's letter to Cardinal Gasparri, Papal Secretary of State, on the occupation of the Ruhr and supporting the proposal for an international investigation of Germany's capacity to pay, has shaken badly the political foundations of the Poincare policy and has left political circles in France almost speechless with surprise." In a speech at the closing session of the Landtag of the Rhenish Province at Barmen on Thursday Chancellor Cuno expressed hope that the Pope's letter would prove helpful. Great Britain's position on the whole question of reparations was partially indicated in a cablegram from the London correspondent of the New York "Herald" yesterday morning. He said that "the British Government's impatience over not receiving any definite reply from the French Government to its note regarding the latest German proposals recently dispatched to Paris was indicated by Premier Baldwin in the House of Commons to-day when he said, 'I would be very glad to get a reply.' "

The situation looked much brighter last evening. The Associated Press correspondent at Brussels cabled that "Premier Theunis has succeeded in reaching an agreement with the members of his Cabinet who resigned June 14 and all the Ministers will retain their portfolios. The details of the accord on the Government's program will be published to-night [Friday]. The negotiations with France and Great Britain will be resumed immediately and Belgium's reply regarding Germany's note on reparations probably will be drawn up Saturday."

Proceedings at the Near East Conference, which has been in session at Lausanne for many weeks, have continued to drag. This was true, according to press dispatches from that centre, in spite of an "ultimatum" reported to have been delivered by Ismet Pasha on the evening of June 22. The New York "Times" correspondent cabled at that time that he "called on the chiefs of the British, Italian and French delegations to the Conference, and issued to them the same ultimatum that their Governments were planning for him. He informed the delegates that he could not remain in Lausanne more than a few days longer if action looking to the signing of a peace treaty was not started, and further stated that the three big

questions of the Ottoman debt, concessions in Turkey and the evacuation of Constantinople must be settled before other details were taken up." He added that "it is known here that most of the money appropriated by the Angora Assembly for the Conference has been used up. The appropriation was 2,500,000 gold francs. Less than a million of this remains unspent."

According to a dispatch from the New York "Herald" representative the same evening, "the Near East Peace Conference failed to-day to respond to artificial respiration. In an attempt to hold a meeting of one of the main committees—the first in three weeks—after two hours of passionate discussion it had to be adjourned indefinitely following hot exchanges between Ismet Pasha and Venizelos and threats by the latter to leave Lausanne unless his country was treated on the same footing as the other Balkan States." He explained that "the incident occurred in the discussion of the duration of the commerecial convention. The Turks, through Rizanur, had at one of the last meetings accepted that the convention which was so long in being drawn up, should last five years for the great Powers and two years for the only other signatories—Rumania, Serbia and Greece." The Associated Press correspondent sent word the next day that "the Allied representatives to the Near East Conference here sent an invitation to-day to the Turkish delegates to a meeting at 6.30 o'clock this evening. At this meeting the Allied delegates, who now all have received instructions from their respective Governments, will present their views to the Turks on the unsettled points standing in the way of completion of the Near East peace treaty." From the same source came a dispatch late that evening that "Conference circles late to-night were thrown into confusion by the issuing of a communique by the Italian delegation denying the report given earlier to the press that Italy had not forwarded her instructions to Lausanne concerning the treatment of the Ottoman debt question. The communique declared that the instructions of the Italian Government had been in Lausanne many days." It was added that "the Turks immediately profited by the situation, insisting that discord existed among the Allies on this question, although the Allies deny this."

The accounts of proceedings at the Near East Conference, for some time, had contained little or no reference to the Straits problem. Under date of June 27, however, the Associated Press correspondent at Lausanne cabled that "the Allies to-day took another step towards 'bringing Russia back to Europe' by a decision to invite the Soviets to sign the Dardanelles Straits convention when the Lausanne treaty is ready for signature." He added that "the terms for opening the Straits to foreign warships were arranged at the first conference here. Tchitcherin, Russian delegate, objected to this agreement. The Soviet, since that time and particularly during the excitement following the assassination of Vorovsky, Russian envoy, contended that Russia never refused to sign the convention, and was entitled to representation in the present Conference. The Allies are curious to see how Russia will greet the present invitation." There has been further delay from day to day in dealing with the question of the Ottoman debt. The Associated Press correspondent said that "the Ottoman debt problem, set for discussion to-day [June 27], was again delayed, as the instructions expected by the French delegates from their Government were not received. The British and French still have several points of difference that must be harmonized, for the Allies are determined to present the Turks with a complete accord on this point, which is regarded as crucial for the treaty. The British say the Turks seem more receptive to the Allied demand that the concessions to foreigners must be protected."

According to an Associated Press dispatch from Lausanne yesterday morning, "a determined stand is being made by the United States with reference to the contracts which the great Powers of Europe are now negotiating with Turkey." It was also said that "although the Turks seem inclined to accept the American attitude, there is no certain indication that the Allies have been won to that viewpoint. It is understood that the American representative will continue to fight until the end of the Conference if necessary." The correspondent further explained that "the United States objects to the insertion in the Lausanne treaty of clauses intended to give validity to contracts entered into with Turkey before the war, the validity of which is open to doubt. The position of the United States is that treaties should not be utilized as a means of obtaining validity for contracts. No reference is being made to the Chester concession or the French railroad contract which conflicts with part of the Chester concession, but the stand is taken entirely on the question of principle, without reference to particular cases."

The notable success of the recent international loan to Austria appears to have had a decidedly favorable effect psychologically in that country, as well as financially. Chancellor Seipel was quoted on June 25 as saying that "Austrian reconstruction is progressing satisfactorily and will be achieved within the stipulated two years." The New York "Herald" correspondent in Vienna cabled that, "as the result of having brought in American finance, Seipel has become the most popular figure in Austrian politics. The halls in Vienna are not large enough to hold the throngs that nightly gather to hear his speeches beginning the campaign for the October elections." The correspondent added that "Chancellor Seipel is convinced that this preliminary interest by America in Austrian finance will have a lasting effect. 'The last few months,' he said, 'have witnessed an influx of private American capital into Austrian industrial concerns. We hope American capital will continue to sustain Austrian markets in increasing measure. It will find every desirable security here, for even a short stay in our country must give assurance that we have entered a period of definite political, economic and social consolidation. To achieve this we have sustained heavy sacrifices and will not shun further obligations to justify the international confidence gained.'" Continuing to comment upon Austria's international policy, the Chancellor said: "The form of our administration as well as of Government enterprises, especially railroads, will be carried out with full energy. Since beginning reconstruction work the population has stood behind the Government that placed it on its program, and we will certainly proceed with this policy during the preliminary elections. At the same time we hope our trade policy, which is directed toward removing existing barriers in Central Europe, will also find a powerful echo in the United States,

and that this moral support will help our endeavors. Austria wants to give an illustration of the most effective method of building breakwaters against the floods by which the civilization of old Europe is constantly threatened."

An encouraging development in the activities of the British Labor Party was the announcement that "at its annual conference here to-day [London, June 26] rejected by an overwhelming majority of 2,514,000 the application for affiliation made by the Communist Party. The executive committee recommended that the application be not accepted." Frank Hodges, one of the most prominent leaders, in opposing the Communist application, said: "It would be madness for those of us who believe in political democracy to have affiliated with us those who declare that political democracy is of no avail." He added that "the Communists in Great Britain are, so to speak, the children of the Moscow party, whose thesis is that their members should get into their enemies' camp, so that the orders of their party might be carried out. Russia has nothing to teach the political democracy of the Western world. The British Labor Party abhors dictatorship and, in my opinion, the British Labor movement is the best in the world—so much so that the comrades in the other countries look upon it as the most disciplined, the nearest to power, and the most capable of maintaining power when it acquires it."

On the other hand, the attitude of the Labor Party toward capital was shown by the fact that "a levy on capital for redemption of the war debt was reaffirmed as one of the chief planks in the platform of British Labor by Sidney Webb, M. P., presiding over the 23d annual conference of the Labor Party." The Associated Press correspondent added that "he advocated a graduated levy on fortunes of £5,000 up, and declared there could be no financial security or restoration of industrial prosperity as long as a million pounds sterling had to be taken out of the product of labor each working day, before either wages were paid or profits made, merely to defray the interest on the war debt." The presiding officer also declared that "the Labor Party was prepared to form an alternative Ministry whenever called upon. Labor's foreign policy would be to tell France that 'we will go no step further with her in what seems to us a fatal policy of aggression arising, seemingly, from what psycho-analysts would call a fear complex, unworthy of a great nation.'"

The radical position and attitude of at least some members of the Labor Party were demonstrated at the session of the House of Commons on the evening of June 27. The London correspondent of the New York "Times" cabled that "members of the Scottish contingent of the Labor Party broke loose from disciplinary control in the House of Commons this evening and once more demonstrated their disregard of parliamentary conventions by breaches of order that led to angry scenes and the suspension of four of them." It was explained that "the disturbance arose in the Committee on the Scottish Estimates. Captain Elliot, Secretary to the Scottish Board of Health, had moved the vote for that department, reducing the appropriation for child welfare, and several of the members for Glasgow devoted their remarks to attacks upon the Board for its alleged neglect of housing and social work generally. James Maxton, member for Bridgeton, did not mince his words in condemning not only the Board, but every one who defended it. He declared they were guilty of the blood of infants—'a cool, callous, deliberate crime.' To save money, he said, they were prepared to destroy children, to put children in the fighting line." The four offenders were suspended by a large majority vote, two of them by 258 to 70.

According to London cable dispatches early in the week, neither France nor Great Britain contemplated reducing its air forces. The representative at the British capital of the New York "Herald" said, however, that "Prime Minister Baldwin told the House of Commons to-day [June 26] that the Government planned to add 34 more squadrons to the present 18 authorized for the Royal Air Force as a means of creating an adequate home defense, and he also said that the Government would gladly co-operate with other Governments in limiting air armaments along the lines of the Washington treaties." The correspondent asserted that "the new air plans are a reply to the maintenance by France of an air force which is claimed here to place this country in a position of inferiority by a ratio of 8 to 1. The decision to increase Britain's air force follows agitation for months in which Lord Birkenhead, Lord Haldane and many other prominent men have taken a leading part, their chief arguments for the extension of the air force being based not only on the extent of France's air force at the present time but also on her plans for the immediate future."

As the week progressed the Paris and London dispatches regarding the matter were no less conflicting. A Paris cablegram under date of June 27 stated that "Paris receives kindly and confidently Prime Minister Baldwin's proposal for limitation of air armaments on lines similar to the treaty of Washington in the case of the navy. But competent observers here say undoubtedly the French put a meaning on his words he did not intend and would not subscribe to. For the French argue that if air armaments are limited as naval armaments were the race will halt just where it is and apportionment will be applied in proportion to existing strength. With an air force much greater than any other nation or any other two nations, such an arrangement would assure to France air supremacy for an indefinite time and give her over England an advantage in airplanes about comparable to the supremacy in capital ship tonnage the Washington Treaty gave England over France."

The New York "Herald" correspondent at the French capital, in commenting upon the plans of the Government for increasing its air forces dwelt especially upon the great expense involved. He said in part: "France to-day is perfecting her methods of warfare at an annual expenditure for constructive purposes of at least 225,000,000 francs, not counting any sums spent upon her armies or for the upkeep of her navy and their respective artilleries. This sum —and enormous as it may seem when the French budget deficit is considered, it is certain to increase during the next few years—is at present apportioned as follows: For submarine construction and repairs, including research into new underwater apparatus, 40,000,000. For improvement and extension of the French air fleet, 180,000,000. For 'unofficial' research in chemical warfare, carried on by various university professors and indirectly subventioned by the State, 5,000,000. For the last four years the best minds in France have been directed toward perfect-

ing airplanes and submarines as the chief factors in France's future security and, to a lesser but equally important extent, to the study of how France's chemists may aid her defense by the creation of new gases or antidotes to those already known. While the nation's funds are still too small to permit the application of new ideas on a large scale, should France ever engage in another war she will be found ready for all surprises."

In a cablegram yesterday morning a special Paris correspondent of the New York "Tribune" declared the following to be the position of France: "Discussion with England of the whole question of European armaments is urgent and must be undertaken as soon as possible. This is the official view here to-night as a result of Laurent Eynac's report to Premier Poincare on his negotiations with Sir Samuel Hoare, British Minister of State for Air, in connection with the new British airplane effort." He added that "the situation will be discussed by the Council of Ministers, presided over by the Premier, on Saturday [today], at which M. Poincare will place before his colleagues M. Eynac's report, and by the Extraordinary Council of National Defense, presided over by President Millerand, to which chiefs of the army, navy and air force will be summoned, which is scheduled for next week."

Word came from Paris yesterday afternoon that at Thursday evening's session of the Chamber of Deputies that body "approved an appropriation of 211,000,000 francs for aeronautic establishments and material. Before the vote the Socialist Deputy Mistral called attention to the fact that the appropriation had been raised from 36,000,000 francs at the Government's last minute demand, and wanted to know if this was in reply to Stanley Baldwin's recent declaration in London." It was added that "M. Mistral's motion proposing an appropriation of 175,000,000 francs, as voted by the Senate, was defeated, 490 to 79, and the Government's new figure was adopted."

No change has been noted in official discount rates at leading European centres from 18% in Berlin; 6% in Denmark and Norway; 5½% in Belgium; 5% in France and Madrid; 4½% in Sweden; 4% in Holland and 3% in London and Switzerland. The Imperial Bank of India has further reduced its rate of discount from 5% to 4%. A London dispatch to the New York News Bureau from the Central News says this is probably due to the bill to extend the limit of issue of currency notes, to which is added the statement that "the effect is to introduce greater elasticity in monetary conditions in India." Open market discounts in London were a shade lower, and short bills, as well as three months', are now quoted at 2 3-16%@2¼%, as against 2⅛% and 2 3-16% a week earlier. Money on call closed at 1⅜%, against 1¼% for the greater part of the week. At Paris and Switzerland the open market discount rates continue to be quoted at 4½% and ⅞%, respectively, unchanged.

Another addition to gold holdings, this time of £82,424, was shown by the Bank of England in its statement for the week ending June 28, so that the bank's stock of gold now is £127,620,575, as against £128,946,693 a year ago and £128,366,727 in 1921. Note circulation, however, expanded £1,363,000; hence reserve was reduced £1,280,000, while there was a decline in the proportion of reserve to liabilities from 19.26% to 17.39%. In the corresponding week of 1922 the ratio stood at 18½% and at 12.10% in 1921. Public deposits fell £3,013,000, though "other" deposits expanded £8,817,000. A reduction in temporary loans to the Government of £2,385,000 wash shown; at the same time loans on other securities registered an expansion of £9,505,000. Reserve amounts to £22,198,000, which compares with £24,348,683 last year and £17,810,437 in the year preceding. Loans now stand at £80,682,000, as against £75,725,274 and £85,827,910 one and two years ago, respectively. Note circulation is £125,104,000. Last year it was £123,048,010 and in 1921 £129,006,290. Clearings through the London banks for the week totaled £617,012,000, in comparison with £713,273,000 last week and £650,772,000 a year ago. The bank's minimum discount rate continues at 3%, unchanged. We append herewith comparisons of the principal items of the Bank of England returns for a series of years:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1923. *July 27.*	1922. *June 28.*	1921. *June 29.*	1920. *June 30.*	1919. *July 2.*

The Bank of France in its weekly statement shows a further small gain of 8,125 francs in the gold item this week. The Bank's total gold holdings are thus brought up to 5,537,704,075 francs, comparing with 5,528,858,064 francs at this time last year and with 5,520,318,183 francs the year before; of these amounts 1,864,344,927 francs were held abroad in 1923 and 1,948,367,056 francs in both 1922 and 1921. Silver, during the week, increased 2,960,000 francs, general deposits rose 327,382,000 francs and bills discounted were augmented to the extent of 106,219,000 francs. On the other hand, advances fell off 68,410,000 francs, while Treasury deposits were reduced 878,000 francs. An expansion of 67,491,000 francs occurred in note circulation, bringing the total outstanding up to 36,689,303,000 francs. This contrasts with 36,039,355,885 francs on the corresponding date last year and with 37,422,086,820 francs the year previous. Just prior to the outbreak of war, in 1914, the amount was only 6,683,184,785 francs. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in both 1922 and 1921 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

	Changes for Week.	*Status as of*		
Gold Holdings—	*Francs.*	*June 28 1923. Francs.*	*June 29 1922. Francs.*	*June 30 1921. Francs.*

The Imperial Bank of Germany in its statement issued as of June 15, again showed sensational changes. The addition to note circulation broke all records, being more than a trillion and a half marks for the week, or 1,595,526,315,000 marks, and carrying the total outstanding to the colossal figure of 10,905,058,428,000 marks. An even more gigantic in-

crease was reported in discount and Treasury bills, which amounted to 1,978,206,200,000 marks. Treasury loan and association notes decreased 35,318,201,000 marks, while investments were reduced 52, 171,000 marks, and gold sustained a nominal loss of 1,000 marks. There were increases in bullion (including aluminum, nickel and iron) of 761,909,000 marks, in notes of other banks of 246,497,000 marks, in advances of 1,583,042,000 marks, in other assets of 70,075,514,000 marks, in deposits 498,721,788,000 marks and in other liabilities of 345,189,784,000 marks. The bank's gold holdings are reported as 756,913,000 marks, of which 576,881,000 marks are now deposited abroad. The huge total of note circulation given above contrasts sharply with that at the outbreak of the war—2,909,422,000 marks, while in November 1918 it was slightly over 16,900,000,000 marks.

The Federal Reserve Bank statement, issued on Thursday afternoon, showed conditions almost the reverse of those existing the previous week. In place of an addition to gold and contraction in bill holdings, the New York bank reported a loss in its gold reserves of $36,000,000, while increases in the rediscounting of all classes of paper brought about an expansion in the total of bills on hand of $26,230,000, to $204,039,000, as compared with $134,066,000 a year ago. There were increases in earning assets and deposits—$36,800,000 and $12,000,000, respectively, but the amount of Federal Reserve notes in circulation decreased $13,800,000. A practically parallel situation was revealed in the statement for the whole system. Gold was reduced $19,000,000, and while the amount of purchased bills declined slightly, increases of $30,000,000 and $13,000,000 in the discounting of Government and "all other" paper resulted in an addition to bill holdings of $42,300,000, so that the total is now $979,188,000, against $623,161,000 last year. Earning assets increased $56,000,000 and deposits $15,000,000. The amount of Federal notes in circulation was $4,000,000 larger. Member bank reserve accounts were not greatly changed. Nationally, there was a shrinkage of $6,000,000 to $1,868,000,000, and an increase of $5,000,000, to $705,000,000 at the local bank. As to reserve ratios, that of the New York bank declined sharply in consequence of the loss in gold and enlargement of deposits and it is now 85.1%, or 2.5% under last week's level. For the banks as a group a decline of 0.7% was shown, to 76.9%.

Last week's bank statement of New York Clearing House members, issued on Saturday, reflected the withdrawal of funds to interior points and showed a substantial reduction in surplus, while the loan item increased $5,564,000. Net demand deposits were drawn down $11,981,000, to $3,749,946,000, which is exclusive of Government deposits to the amount of $64,768,000. Time deposits were also smaller, losing $5,024,000, to $480,881,000. Cash in own vaults of members of the Federal Reserve Bank increased $349,000, to $47,151,000 (not counted as reserve), but there were declines of $236,000 and $84,000, in the reserves of State banks and trust companies in own vaults and in other depositories, respectively. Member banks' reserve credits at the Reserve bank decreased $18,307,000, and this notwithstanding the contraction in deposits, served to lower surplus to $7,548,950, a loss for the week of $16,819,580. The figures here given for surplus are on the basis of reserves above legal requirements of 13% for member banks of the Federal Reserve System, but not including cash in own vaults to the amount of $47,151,000 held by these institutions at the close of business on Saturday last.

Quotations for call money in the local market have held at the recent high levels practically all week. For instance, the range was 5½@6%, for one or more days, while on Thursday and Friday the latter was the prevailing rate throughout the business session. This situation was not at all surprising in view of the fact that payment of subscriptions on several large loans had to be made, in addition to preparation for the heavy July 1 interest and dividend disbursements. Reference might be made especially to the Austrian loan and the Illinois Bell Telephone bonds. Withdrawals by the Federal Government from local depositories were not large, amounting to only $13,500,000, so far as reported. It was explained that the Government had made no calls between June 15 and June 27 because income tax collections in other sections of the country had been transferred to the New York Federal Reserve Bank, which disbursed the money as soon as received. While it was admitted that the further declines in stocks was due in considerable part to short selling, experienced observers asserted that undoubtedly there was steady liquidation for several days in succession. As to the effect upon brokers' loans, no estimates were made public. Although reports continue to come to hand of less activity in various lines of business, the volume is still large, as evidenced by loadings of revenue freight. Easier money rates are looked for after the first few days of next week.

Referring to money rates in detail, loans on call have been firmer and the range moved up to 5@6%, as against 4½@5½% last week. Monday the high was 6%, the low 5%, with 5% the rate for renewals also. Increasing firmness developed on Tuesday and call funds renewed at 5½%, which was the low with 6% still the maximum. On Wednesday there was no change and 5½% was again the renewal basis; 5½% low and 6% high. Thursday and Friday no loans were made under 6%, this being the high, the low and the ruling figure on both days. The above figures apply to mixed collateral and all-industrial loans without differentiation. In time money also the undertone has been firm, and yesterday (Friday) there was an advance to 5@5¼% for all maturities from sixty days to six months, as against 4¾@5% last week. This was due to Government withdrawals, also preparations for the heavy July 1 payments. Trading was quiet throughout. Quotations are the same for both regular mixed collateral and all-industrial money.

Commercial paper was moderately active, but the turn-over was not large. Country banks are still the principal buyers. Sixty and ninety days' endorsed bills receivable and six months' names of choice character continue to be quoted at 4¾@5%, though practically all of the business done is at the higher figure. The 4¾% rate is for New England mill paper. Names not so well known require 5@5¼%.

Banks' and bankers' acceptances have been quiet and a falling off in the inquiry has been noted coincidental to the stiffening in the call market. Local and out-of-town institutions figured in the dealings.

Operations, however, were on a limited scale. For call loans against bankers' acceptances the posted rate of the American Acceptance Council remains at 4½%. The Acceptance Council makes the discount rates on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 4⅛% bid and 4% asked for bills running for 30 days, 4¼% bid and 4⅛% asked for bills running 60 and 90 days, 4⅜% bid and 4¼% asked for 120 days and 4¾% bid and 4½% asked for bills running for 150 days. Open market quotations were as follows:

SPOT DELIVERY.

	90 Days.	60 Days.	30 Days.
Prime eligible bills	4¼@4⅛	4¼@4⅛	4¼@4⅛

FOR DELIVERY WITHIN THIRTY DAYS.

Eligible member banks	4⅛ bid
Eligible non-member banks	4⅛ bid

There have been no changes this week in Federal Reserve Bank rates. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve Banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS IN EFFECT JUNE 29 1923.

FEDERAL RESERVE BANK.	Paper Maturing— Within 90 Days.				After 90 Days, but Within 6 Months.	After 6 but Within 9 Months.
	Com'rcial Agricul. & Livest'k Paper. n.e.s.	Secur. by U. S. Govt. Obligations.	Bankers' Acceptances.	Trade Acceptances.	Agricul.* and Livestock Paper.	Agricul. and Livestock Paper.

* Including bankers' acceptances drawn for an agricultural purpose and secured by warehouse receipts, &c.

Irregular weakness characterized dealings in sterling exchange this week and although trading continued of minimum proportions, quoted rates sold off to 4 56¾, a loss of about 4 cents, and the lowest level for demand bills since the middle of last December. During the greater part of the week the quotations ruled around 4 61¼. In the initial transactions the market was dull to the point of stagnation and price fluctuations reflected changes abroad. At the extreme close freer offerings of commercial bills accentuated the weakness. London still occupies a dominant position in foreign exchange affairs and cable rates from the British centre have shown a distinctly easier tendency. This was attributed largely to lack of favorable foreign news. Publication at various times of statements indicating an uncompromising attitude on the part of both French and German Premiers left very little room for hope of a speedy termination of the existing deadlock on the Ruhr. Financiers, while refusing to take a definite position in the market under any pretext whatsoever, are watching the European situation very closely. Fears are expressed that if the present state of affairs is prolonged much further, it will mean failure of Great Britain's efforts to achieve a conciliatory agreement and consequently lengthy postponement of settlement of the troublesome reparations question. Bankers are reluctant to relinquish their belief that France and Germany can be brought to a basis of agreement, and an undercurrent of optimism persists that something will be done before long, despite all rumors to the contrary. Nevertheless, important foreign exchange operators seem to have changed their views as to the immediate future of sterling, recessions being thought not improbable before the eventual advance to materially higher levels.

As to the day-to-day rates, sterling exchange on Saturday last was a trifle easier and demand sold off to 4 61 3-16@4 61 7-16, cable transfers to 4 61 7-16@4 61 11-16 and sixty days to 4 59 1-16@@4 59 5-16; pronounced inactivity prevailed. On Monday irregular weakness developed and prices declined fractionally to 4 61 1-16@4 61¼ for demand bills, 4 61 5-16@4 61½ for cable transfers and 4 58 15-16@4 59⅛ for sixty days. Lower cable rates from London sent prices down in the local market on Tuesday to 4 60⅝@4 61⅛ for demand, 4 60⅞@4 61⅜ for cable transfers and 4 58½@4 59 for sixty days. Wednesday's market was dull and weak, and there was a further recession in the quotation for demand to 4 59⅞@4 60⅝; to 4 60⅝@4 60⅞ for cable transfers and to 4 57¾@4 58½ for sixty days. Dulness characterized dealings on Thursday and demand bills touched a new low for the current year of 4 58⅞@4 59¾; cable transfers ranged between 4 59⅛@4 60 and sixty days between 4 56¾@4 57⅝. On Friday the trend was still downward and quotations receded about 2 cents to 4 56¾@4 58½ for demand, 4 57@4 58¾ for cable transfers and 4 54⅝@4 56⅜ for sixty days. Closing quotations were 4 54 11-16 for sixty days, 4 56 13-16 for demand and 4 57 1-16 for cable transfers. Commercial sight bills finished at 4 56 9-16, sixty days at 4 53 13-16, ninety days at 4 52 15-16, documents for payment (sixty days) at 4 54 5-16, and seven-day grain bills at 4 55 13-16. Cotton and grain for payment closed at 4 56 9-16.

So far as could be learned, no gold was engaged for either export or import during the week, and no arrivals were reported.

The Continental exchanges moved within narrower limits than has been the case in other recent weeks, and, although quotations continue to show a declining tendency, there were none of the sensational breaks that have been so frequent of late. Attention, of course, is still centred chiefly upon the movements in marks and francs. In the case of the former, announcement of the new decree on the part of the German authorities prohibiting dealings in Germany except at rates officially quoted had no effect upon sentiment here, since transactions are extremely limited. Improvement in mark quotations followed the issuance of the decree, and there was an advance to 0.0010¼; but this was the result of short covering operations on the part of those who feared a rise, also rumors (not officially confirmed) of the Reichsbank's intention to utilize another 50,000,000 gold marks for the purpose of stabilizing exchange. The movement, however, was of short duration and mark quotations promptly sagged off again and established another new low record level of 0.0005¾. Before the close there was a slight rally to 0.0007¼. Factors that tended to depress German currency were the apparently belligerent utterances emanating from both parties to the Franco-German controversy, and the continued putting out of paper currency on a colossal scale by the Reichsbank. Toward the close reports that the Inter-Allied Reparations Commission was considering a new plan for reparations adjustment that had been privately put forth by German industrial leaders had a steadying influence. As to

French exchange, quotations were somewhat erratic. Opening at 6.17¾ for demand, there was an advance to 6.19¾, followed by a decline of nearly 10 points to 6.09½, and later on a recovery to 6.15½, but in the final dealings the price dropped to 6.03. Trading was dull and nervous, and movements were said to be due more to sentimental influences than to any concrete development. Selling against heavy purchases of wheat was in evidence and this tended to lower price levels, as also did unfavorable reports on the progress of France's food crops. Lire were heavy and lost ground materially, declining more than 12 points to 4.37½, partly in sympathy with the decline in French exchange and partly as a result of the recent volcanic disaster, which has entailed so vast a devastation of property. Exchange on the smaller Central European countries, including Polish marks, was maintained at fairly stable levels, while Greek drachmas held most of the spectacular advance of the previous week, ruling at around 3.17, after having touched 3.24½. It is claimed that the strength is fully justified and is the direct result of the change in sentiment that followed declaration of peace with Turkey. The expectation is for a further rise in the near future. Trading for the market as a whole was quiet and featureless. With the exception of a few sporadic attempts at speculation, dealers are still awaiting settlement of the Ruhr question, which, as is known, hangs like a pall over international affairs generally.

The London check rate on Paris finished at 75.10, as compared with 74.70 last week. In New York sight bills on the French centre closed at 6.03½, against 6.19½; cable transfers at 6.04½, against 6.20½; commercial sight bills at 6.01½, against 6.17½, and commercial sixty days at 5.98½, against 6.14½ a week ago. Antwerp francs finished the week at 5.13½ for checks and 5.14½ for cable transfers. This compares with 5.28½ and 5.29½ a week earlier. Reichsmarks closed at 0.0005⅞ for both checks and cable transfers, against 0.0007⅞ the week before. Austrian kronen, which have remained for many months past without important change, finished at 0.0014¼ (one rate), the same as a week ago. Lire closed at 4.40¼ for bankers' sight bills and 4.41¼ for cable remittances. Last week the close was 4.49¾ and 4.50¾. Exchange at Czechoslovakia finished at 2.98⅞, against 3.00; on Bucharest at 0.52½, against 0.51¼; on Poland at 0.0008½, against 0.0009¾, and on Finland at 2.76, against 2.77. Greek exchange closed at 2.94½ for checks and 2.95 for cable remittances. Last week the final range was 3.21½ and 3.22.

Movements in the former neutral exchanges were toward lower levels, and trading for the most part light in volume. Transactions incidental to the transfer of German balances continue to be noted but on a smaller scale. Dutch guilders were relatively steady, but Swiss francs and the Scandinavian currencies, also Spanish pesetas, were easier. Francs broke to a new low record at the close.

Bankers' sight on Amsteram closed at 39.01, against 39.13; cable transfers at 39.10, against 39.22; commercial sight at 38.96, against 39.08, and commercial sixty days at 38.71, against 38.83 last week. Swiss francs finished at 17.65 for bankers' sight bills and 17.66 for cable transfers, in comparison with 17.92½ and 17.93½ the previous week. Copenhagen checks closed at 17.63 and cable transfers at 17.67, against 17.89 and 17.97. Checks on Sweden finished at 26.42½ and cable transfers at 26.46½, against 26.49 and 26.53, while checks on Norway closed at 16.39 and cable transfers at 16.43, against 16.59 and 16.63 last week. Spanish pesetas finished at 14.53 for checks and 14.54 for cable remittances. Last week the close was 14.84½ and 14.85½.

As to South American quotations, Argentine exchange continues easy, while improvement in the Brazilian coffee situation has brought about increased stability in exchange. Milreis finished at 10.90 for checks and 10.95 for cable transfers, against 10.75 and 10.80 last week. Argentine checks closed at 35.55 and cable transfers at 35.65, against 35.65 and 35.70 a week ago. Chilean exchange was easier, finishing at 13.40, against 13.85, but Peru remained at 4 29, unchanged.

Far Eastern exchange was easier so far as Chinese currency was concerned. Hong Kong finished at 52¾@53, against 53¾@54; Shanghai, 71¾@72, against 72¾@73¼; Yokohama, 49¼@49½, against 49¼@49⅝; Manila, 49½@49⅝, against 49½@49⅝; Singapore, 53¾@54, against 54@54¼; Bombay, 31¼@31½, against 31¼@31⅝, and Calcutta, 31¼@31½, against 31⅜@31⅝.

Pursuant to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922, JINE 23 1923 TO JUNE 29 1923, INCLUSIVE.

Country and Monetary Unit.	*Noon Buying Rate for Cable Transfers in New York. Value in United States Money.*					
	June 23.	*June 25.*	*June 26.*	*June 27.*	*June 28.*	*June 29.*

The New York Clearing House banks in their operations with interior banking institutions have gained $3,057,400 net in cash as a result of the currency movements for the week ending June 28. Their receipts from the interior have aggregated $4,352,100, while the shipments have reached $1,294,700, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week ending June 28.	*Into Banks.*	*Out of Banks.*	*Gain or Loss to Banks.*
Banks' interior movement	$4,352,100	$1,294,700	Gain $3,057,400

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, June 23.	*Monday, June 25.*	*Tuesday, June 26.*	*Wednesd'y, June 27.*	*Thursday, June 28.*	*Friday, June 29.*	*Aggregate for Week.*
$	$	$	$	$	$	$
70,000,000	71,000,000	57,000,000	56,000,000	72,000,000	87,000,000	*Cr.* 413,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House. banks.

The following table indicates the amount of bullion in the principal European banks:

Banks of—	*June 28 1923.*			*June 29 1922.*

a Gold holdings of the Bank of France this year are exclusive of £74,573,797 held abroad. b It is no longer possible to tell the amount of silver held by the Bank of Germany. On March 15 1923 the Reichsbank began including in its "Metal Reserve" not only gold and silver but aluminum, nickel and iron coin as well. The Bank still gives the gold holdings as a separate item, but as under the new practice the remainder of the metal reserve can no longer be considered as being silver, there is now no way of arriving at the Bank's stock of silver. and we therefore carry it along at the figure computed March 7 1923.

Equalization of Supply and Demand.

In an address to a college graduating class, recently, Robert W. Stewart, head of the Standard Oil Company of Indiana, is quoted as saying:

"Capitalism, however, is a human institution, and being human, it has its faults. It has not yet learned how to make production synchronize with consumption, so that we have waves of prosperity and of depression, high wages followed by unemployment; in the past, too, many of its exponents have endeavored to hold the wages of labor to too low a figure. That day is about gone. Too often, through exorbitant prices, it has taken an unreasonable toll from the consumer. That day must also pass." Mr. Stewart had, in his remarks, previously set forth the advantages of the capitalistic system in contrast to "socialism, syndicalism and communism" by saying that it (capitalism) is "a system of society and economics which has given to man the greatest comfort and safety he has enjoyed since he first emerged upon the stage of history"; and adding to this the following: "Mark this: The freedom of capitalism must always be limited by the consumer's vote. It can only succeed by pleasing the ultimate buyer and co-operating with the customer by satisfying his needs."

We wish to consider for a little space one lack which the speaker points out, namely: "It has not yet learned how to make production synchronize with consumption, so that we have waves of prosperity and of depression . . ." While we quite agree with the speaker in what he says—if we may be allowed to pursue the thought a little further, we do not believe that complete reciprocity can be established between production and consumption while the present "system" of capitalism includes the preservation of the freedom of initiative and enterprise. Nor are we prepared to admit that the "inequalities" which result are a detriment to the progress and happiness of the human race. Something may be done to minimize "waves of prosperity and depression," but short of the dull, dead level of socialism they cannot be wholly prevented. A "system" of capitalism applied to one people must include the human brawn and brain, plus the will and way to work, plus the natural resources and historic accomplishments of that people. "Society," if it mean the human relations, changes so rapidly in its requirements that even free capital cannot supply them. And it would seem impossible to bring production and consumption into complete harmony. The great error of many of the theories of to-day is that they seek to abolish, and hold it possible to abolish, all the inequalities in this beneficent "system of capitalism."

We may be pardoned for saying that the complete synchronization of production and consumption can never be accomplished. The crop must be raised and harvested before it is consumed. Of course, this is an inadequate illustration. But our thought is that "waves of prosperity and of depression," in some degree, will continue as long as the speculative urge runs riot in human nature. Take this "building boom" we are now witnessing. In part it is caused by a scarcity, a natural demand. But the lure of high rents is an undoubted incentive. Outside of cities it exists in but small degree—the natural want. Now, we may make legislation at Albany correspond in time with legislation at Washington—one to reduce rents, the other to raise the price of wheat, but we do not thereby furnish a cure, we do not equalize these interdependent and interwoven conditions. The building boom will go on until there is an oversupply—when rents will come down, maybe with a crash, and inordinately high wages with them. Then, so far as these factors of general prosperity are concerned, the price of wheat and the price of labor will become more nearly equal, in their relations to each other and to the general economic welfare. In a word—here and everywhere, the war destroyed a harmony of endeavor, an equality of supply and demand, that it will take decades to reconstruct. In a different way, with a smilar result, the sudden influx of oil, the sudden building of the automobile, throwing sudden great wealth into production and unwonted consumption destroys the natural equilibrium of supply and demand. And we cannot control these things and maintain our ordinary progress. We shall have inequality always, and while not pertinent here we should not forget its stimulating power.

In the oceans of trade there are great gulf streams which it is possible to map out—but even these are changing their currents. It is the vastness of production and consumption, their multiform varieties, their widespread benefits, their constant competition, that tends to safety in business and satisfaction in life. The wash of the waves makes the round pebble on the shore—it takes ages in the process. Men can construct a machine to grind the sharp edges of broken rock by attrition, and reach the same result in far shorter time. But the work of the waves is without cost and man now uses this work of nature in constructing concrete that is hard and durable, adding little save cement. Millions of men, millions of ideas, go into our manners and customs, into our emotional reactions, into our aspirations and energies. We accept and use and utilize the results. We

en build enduring structures by adding the cement our own thought and purpose. We, on the other nd, cannot, by law or by lecture, revolutionize all is. Our best benefit is by acceptance and adapta-on to new needs and new conditions. And the oner we come to accept the real latent power of hings as they are," the sooner we will come into ow, steady, sane growth, the more nearly free from umps and booms. Letting profit be our *only* incen-ve causes us to follow each other, like sheep, into me shining, green pasture.

"What can't be cured must be endured." Let us all we can to humanly control these forces of pro-uction and consumption, but let us not resort to nack legislation. An even-tempered collective life ill do much. Forever thinking, feeling, willing eace, will do much. Ordinary, quietly developed usiness customs and agreements will further the ause. But, perhaps, more than all else will be a ore complete freedom to initiative and enterprise, a ore complete protection to ownership of property. igger business and wider ownership through the rporation, these will preserve independence to the ndividual, and give greater good to greater numbers. Ve need not fear the total increase of capitalism hile, by thrift and frugality, we give it greater divi-ion and distribution. If this "capitalism" has rought us this far on the road of largest national nd popular progress, who may say how much fur-her it will carry us? The heritage of to-day *should* e smaller than that of to-morrow!

President Hadley's "Economic Problems of Democracy."

When two such eminent leaders of thought as Pres-dent Lowell, in his "Public Opinion," which we re-ently reviewed, and President Hadley in his "Eco-omic Problems of Democracy,"* now before us, grapple with the chief factors of our national life, hey are worthy of wide attention.

Both are men of great intellectual acumen, both are accomplished scholars, both have large acquaint-ance with affairs, both deal with our national and American condition in its fundamental relations, and both see their psychological aspect; President Lowell confining himself to the place of Public Opin-ion, President Hadley more definitely dealing with the material of that opinion, and its need of read-justment. The two books supplement each other and are readable and convincing, though President Had-ley's is the more concise and informing, as was fitting in an account of American Problems given of late in several British universities. We must limit our-selves to an outline of his argument.

He turns aside from the consideration of consti-tutional systems and the fundamental elements in a nation's existence and takes up the several problems of today, hoping to make their real nature under-stood. They all have their roots in the past, and both knowledge and open-mindedness are necessary, if the citizens as a body are to escape from prejudice and the pressure of class feeling, and to see the place of sound reason and the nation's interest, on which the very interest of democracy depends. His develop-ment of this theme is easily grasped and is of wide application.

Of the many differences which exist between an-cient and modern democracies, the most important in settling the fate of nations are the industrial move-ments and industrial successes. To-day these are determined by the use of modern science in technical affairs and in organizing the sources of supply. Not the stronger, but the more provident race wins; not so much the citizen's readiness to die, as his readiness to work for his country, is what counts. The day when wars were won or lost without much assistance from either the inventor or the man of property is long past. With the invention of firearms masses of men trained for war needed ample supplies; stocks of food and munitions were necessary. The nation's power of production became a vital factor. New methods arose; labor, land, capital as available for production, gave increased power to the State, and grew in value. The service of these could well be paid for, and the new economic doctrine that the consumer fixes the price controlled. Men and cap-ital began to be free to go where they were needed. Only within very modern times has the meaning of this change from feudalism come to be recognized, and the difficulty it creates is what democracy has to apprehend and face in its problems to-day. For the first time every great economic problem is fun-damentally an educational one. The power of the people to *see* what is best for the nation under given circumstances lies at the foundation of industrial de-mocracy to-day. It involves past training, and ca-pacity to receive further training. It anticipates rising to an emergency when emergency appears. It implies an industrial morale which will serve the Commonwealth in time of peace as its military spirit has served it in times of war.

This is the outcome of the new views of human freedom and human rights which have displaced those that prevailed until less than a century ago. The world has ceased to idealize the individual; it ideal-izes the collective body of the people instead. It no longer cherishes the illusion that the unselfish pur-suit by each man of his own interest will result in the common good of all; but it has now come under the delusion, equally unwarranted and more danger-ous, that the people as a whole is better and wiser than the individuals of which it is composed. It stakes its faith on majorities, especially when backed by force, as likely to result in permanent good. It is slow to believe that democracy has still to be made safe for the world.

The task to-day is two-fold: to adapt economic institutions, like property right and corporate capi-tal, and our imperfectly developed political institu-tions to the altered circumstances of the twentieth century; and also to educate the people fast enough to enable them to pass over to the new conditions without sacrificing the standard of economic effi-ciency which they had reached under the old.

Three chapters are given to the consideration of Industrial Combination, Collective Bargaining in Politics, and National Animosity, the forms in which Free Competition, Representative Government and International Comity, which were the trinity consti-tuting the theory of a national prosperity held al-most universally by thinking men in the early 19th century, are transformed in the life and thought of to-day. The transformation is the result of three separate movements of thought; an economic one re-sulting from the partial failure of free competition to accomplish what was expected from it; a political one due to the change in the character of representa-tive government under modern industrial conditions;

*"Economic Problems of Democracy." Arthur T. Hadley, LL.D. Mac-millan Co.

and a psychological one, the substitution of international jealousy for international comity as a determining force in politics. These are traced through our own history illustrated by the more significant differences between America and Europe.

In Economics we have had to learn the costly lesson of qualifying theory by experience. Over Industrial Combination we have had much promising legislation and many commissions. The authorities have worked hard to do justice to all parties, but we have had to learn that to give the community the benefit of low rates we must stimulate labor and capital to the utmost efficiency. Restricted production proclaims manifold loss. When progress and efficiency stop, costs go up and the public suffers. Failure to recognize the primary necessity of efficiency, explains the failure of collective bargaining, at least in America. Trade unions have aroused distrust because they emphasize class lines on which the power of their leaders so largely depends, and because they pay so little regard to efficiency of labor. While Free Competition has failed to secure all the good expected from it, it has come nearer than any other system to promoting industrial efficiency, and to rewarding men for the service rendered rather than for the number of days spent in doing it.

In Politics Collective Bargaining destroys the chief value of Congress and Legislatures. Legislation becomes the instrument by which local and individual interests are favored, regardless of the interests of the community as a whole. Such methods can only produce bad laws. We are led by this method to lose sight of the main business of government, which is to protect the liberties of the individual and to administer the collective business of the State. Only when people are taking thought for the public welfare is Parliamentary Government probably the best government in the world. When large groups are concerned mainly for their own interests, it may readily prove the very worst. The future of popular government is, in President Hadley's judgment, bound up with a maintenance of the sense of trusteeship among members of our legislative assemblies. This is only the correlate of a similar sense of trusteeship which must be taught the voters if any true democracy is to be maintained under modern conditions.

The basic problem to-day is how to convince the average citizen that while the enlightened pursuit of self-interest may be the accepted standard of good business, it is not the standard to be applied to public business. It certainly does not apply in international relations.

This leads to the consideration of the change from International Comity to National Animosity. Up to the early 19th century our money was made chiefly in trade. To-day it has come to be more largely by investment of fixed capital. One hundred years ago free intercourse between the nations gave chances for the practical man to make money, as also it opened a field for the idealist in world policy. A change arose some 50 years ago. A reaction set in which continues, and of which the recent war was a natural and almost inevitable result. Various causes are readily recognized. The development of the country in its varied productivity took hold of the public imagination. It was actual and potential wealth near at hand. Why, then, seek foreign trade? The operation of large units of capital awakened doubt as to realizing the benefits of free competition. We needed effective "protection." The knowledge o other nations gained through immigrants and trav did not prove an unmixed good. Universal contac provoked international annoyances. Finally, racia pride appeared in the form of "Pooled Self-Esteem until we think in terms of "America against th World"; and as "100% American" we have furnishe our loud-voiced demagogues a slogan for attack o whatever suits their purpose, from school books "Europe" in any form!

After reviewing the effect of commercial isolatio President Hadley counts this recent extension of th protective theory the gravest of all the dangers t which democracy is exposed. Here are a few preg nant sentences from the closing chapter. "Collec tive bargaining in politics may at times seem nece sary to control collective bargaining in industry, bu as a system it promotes neither good business no good government." "Success in competition is usu ally won by public service—increased production a minimum cost; success in collective bargaining i usually won at public expense—limited productio at maximum cost." "In the keen industrial struggl between modern communities selfish interferenc with work may be as ruinously imperialistic as self ish unwillingness to fight." "Property is not a sa cred thing set apart as an end in itself. It is an insti tution which has grown up for the benefit of society as a whole, taking different forms in different ages. It is in the large sense a public trust and its rights protected by the courts depend upon the extent to which the perpetuation of the trust contributes to the purpose for which it was created."

"The most vital of all our problems is the educa tion of the public to the habit of exercising foresight and courage in dealing with international affairs." "We must make provision for giving the voters as a body the elements of a liberal education in the true sense of the word—an education which trains them to find and judge and do what is necessary in the exercise of their liberty as citizens."

The book may well be regarded as by no means the least valuable of Dr. Hadley's contributions to the country.

"Home Rule" for the Railroads.

Why not make this the slogan for the campaign that is to follow? It will combine private ownership with private regulation. Mayor Hylan says public regulation of private ownership has proved a failure and plunges boldly into public ownership as the "only remedy." The labor unions are not content with public regulation unless they can have a voice in the management when contracts are to be made between owners and employees as to wages. The Progressives will not accept the forthcoming report on "valuation" to be made by the Inter-State Commerce Commission as a basis for "rates" because it will not show, as now indicated, sufficient "water." The roads are not likely to accept proposed combinations; nor are communities likely to be pleased when such Governmental combines *are* made. Why not make it all or nothing, and stop this "everlasting wrangle"?

There is one very good reason why the precipitation of the crisis into the coming campaign would not be wise, and that is the people are not prepared for the issue. Regulation has been so long in existence (though a confessed failure by both sides to the controversy or there would be no issue) that if it

were proposed to take off all interferences with private management it would appear to many to be a colossal mistake. The direct issue might lose the roads to their present owners for lack of information by the people as to what *competition* might do. There is not in the face of continuous hammering by Unions and Progressives sufficient courage to restore the roads to complete freedom. And yet, when we look back at their building they were projected and constructed under this principle; and communities were "falling over each other" to give bonuses to secure new lines and outlets.

And here is a feature that does not enter much into the discussion. Once public or Governmental ownership comes to pass, do the people understand that they will be bound hand and foot to whatever the Washington rule decides upon as to the new roads, proposed or needed; as well as to the roads now existent that will be abandoned; as well as to the division of traffic between lines thrown into new and enforced combinations. The question is colossal. It is only to be measured by the importance of transportation to all sections, industries, and communities. *It is not now appreciated* by the people at large. Too hasty a settlement is liable to result in disaster. The tariff was discussed in numerous campaigns. We can hardly settle the railroad question *right* in one.

It follows that the more we "talk it over among ourselves" as interested shippers and consumers before any radical step, the better luck we will have in our solution. Meantime, the most important thing at present is to give the roads *a chance.* They are now privately owned and operated, but carry the dead weight of Governmental restrictions, and semi-socialistic propaganda by political blocs, together with the impeding forces of unionism coercion.

If the Inter-State Commerce Commission has never been able to fix satisfactory rates, can any other Governmental agency be expected to do so? If the duality of "control" now vested in Commission and Railroad Board cannot harmonize rates and wages, how can the plan of public ownership with leasehold operation be expected to furnish harmony and, much less, efficiency? There *are* to be, we are told, combinations into systems. If these shall come about by the welding of interested service, we may expect that competition will not be throttled. But when by Government edict these systems are formed, can the Government *permit* unbridled competition to run amuck at any time in so carefully laid a plan? Political opinion has taught us that the roads themselves suppress all competition. Yet it is indubitably true that under given circumstances a long haul can be made cheaper than a shorter—and this will always be done when there is freedom to seek "business." As for short hauls near large cities, the competition of trolleys will continue to have increasing effect.

But the larger view of the natural control of free competition lies in our great system of rivers. If we put aside "internal improvements" the mere encouragement of traffic upon our waterways will furnish shippers an alternative. And we venture the opinion that if private capital were put into such enterprises, with the direct patronage of the public assured, there would not now result the usual failure. For when roads were built along the banks of our rivers, destroying steamboat travel and traffic, the roads and not the river lines were receiving the new volume of capital investment. Such need not now be the case. Sporadic attempts at barge lines are being continually made—but if private *capital,* with its ability and strength, were to really undertake the task, *now* —it would be another story.

So that we come back to "home rule" for the railroads, with the assurance that in giving them freedom under present private ownership we would be re-establishing the natural laws under which they were originally builded, one of which is natural, inherent competition—and this without tying ourselves inescapably to monopolies in restraint of trade. The debt to be incurred in taking them over is impossible of consideration at this time; and the people must know it in all its bare enormity once it is clearly stated. All the history of Government ownership and operation that we have to go upon is against it. To undertake to thresh the question out on the hustings at this time of tax reform and economy of expenditures, will only confuse the public mind, if left to politics. It will not be settled until settled right in the light of calm contemplation and reason by the whole people.

Two New Illustrations of Railroad Regulation.

The Inter-State Commerce Commission has just refused permission to the Virginian Railway to construct a one-mile extension (exactly 1.19 miles) which was planned to reach some newly-opened bituminous coal mines. Probably it is not generally known that a railroad cannot "extend" itself at all until constituted supervision has graciously consented; a statement of the case may therefore give the public one more thing to think over.

The Act of 1920, intended to "return" in an unimpaired condition the railway properties seized under the mistaken assumption that the emergencies of the war could not be otherwise met, released them, yet kept a rather tight clutch upon them still. For one paragraph provided that, after 90 days subsequent to its taking effect, no road should undertake an extension of its line, or construction of any new line, or acquire or operate any new line or extension, without first obtaining from the Commission "a certificate that the present or future public convenience and necessity require or will require the construction or operation, or construction and operation, of such additional or extended line of railroad"; abandoning all or any part of a road or of the operation thereof was also forbidden, until a like consent had been obtained, all this being, of course, placed upon the ground of "the present or future public convenience and necessity."

The Virginian Railway Company proposed this bit of extension of its Guyandotte River branch in Wyoming County, with the immediate object of serving new mines to be opened and upon the estimate that about 17¾ million tons of coal underlie the plot to be reached, comprising 3,500 acres, of which 3,000 acres are in timber. The construction cost is estimated at $63,012, of which $40,312 has already been expended, in 1917-18; of the expected new revenue 95% would be from coal, most of which would go for transshipment to Sewall's Point. In refusing the application the Commission urges that the road has not been and is not now able to furnish the full number of cars needed by the mines dependent upon it; in whole or in part, the number furnished in the weekly periods from July 22 of 1922 to the 9th of this June now ending running 30% to 50% short. So the

opening of new mines would not increase the coal supply, but would reduce it unless the car supply were much increased; "there are at present more mines in the country than is consistent with the most efficient use of carriers' equipment, and their aggregate capacity greatly exceeds the country's demand." So, say the Commission, "the already inadequate car supply would be made more inadequate because of the necessity of placing cars at the new mines; this would make more difficult the process of distribution, as the cars in service cannot be handled as efficiently or as much coal be carried in the aggregate as if fewer mines were demanding service."

Another Commission order forbids roads, after Sept. 1, to allot any extra cars to soft coal mines whose product is intended for railroad use or to give any preferences to mines which own their own cars. The reason given is that assigning cars for railroad fuel tends "to diminish to some extent the supply of cars placed at commercial mines during periods of shortage." But in a time of shortage of any prime necessity transportation is more rather than less indispensable than ordinarily; so, if circumstances compel a preference, the rational view should be that the carrier's own needs for continuous operation come first; the cars must move, or a preference to the firesides and industrial plants of the public could not be carried into effect if ordered. The ruling goes against a long and almost undisputed practice, and four of the Commissioners file separate opinions dissenting from the other seven. The car rules condemned now by the majority, says Commissioner Hall, were prescribed more than 15 years ago and were then upheld by the Supreme Court. Says he:

"We then recognized that a carrier by rail has the right to secure its fuel supply from mines whose entire output it either controls or purchases, and that if its contracts for fuel cover such supply as it reasonably needs for current operation it can use its equipment to procure its fuel, even though operators of commercial mines are thereby deprived during periods of car shortage of some cars which they would receive on a strict pro-rating; in other words, we found that this use by a rail carrier of its cars does not constitute unjust discrimination."

This right inhering in rail carrying has not been abridged or denied by subsequent legislation, says Commissioner Hall, and adds:

"It rests upon the fact—elementary, fundamental, and partaking of the highest public necessity—that a railroad must have an adequate supply of cars in order to supply adequate transportation; this, of course, means that it must have a reliable, sufficient, steady flow of coal, of even quality, best suited to its different needs, at reasonable cost. The majority take away this right and brush aside the public necessity."

The majority seem to say, in effect, that the needs of the public come first; the dissenting view is that unless the roads come first in respect to the fuel required for operation, roads and public must perish together, in an emergency sufficiently severe. This hardly seems to need a word of argument.

Returning to the denial of permission to construct a spur whose length and cost would not be materially greater than in the case of an average switch, the Commission may or may not be especially competent in its dogmatic opinion that the number of coal mines is already out of proportion to "the most efficient use of carriers' equipment." If this is correct—and it is not necessary to settle it or even to discuss it—the deduction is that there ought to be more equipment, which hardly anybody will deny. But, just incidentally, might not the applicant for leave to build a mile of track somehow get a little more equipment, and (also incidentally) has any agency done more than the Commerce Commission to keep railroad equipment down to inadequacy? There is a legal maxim, founded in common sense, that the law does not take note of trifles. Is not the matter of a mile-or-no-mile of new track among trifles, and is it not intelligible why (as the Commission says) "no representations have been made to us by State authorities, and no objection to the granting of the application has been presented to us"? Might not the management of a railroad be safely assumed to have some judgment, and if the building of a bit of track cannot be left to that judgment where shall regulation stop, short of requiring an outside official study of the public welfare and a gracious permission before an order for a supply of office stationery, for instance, can be given?

The I.-S. C. C. was constituted to keep a curb on monopoly and prevent wrongs to a supposedly helpless public in commerce between States. The constricting process of regulation has proceeded until few subjects important enough to cross a boundary line escape the theory that some placeholder is more competent to conduct a business than the nominal owner inside of it. Except a removal of our tax burdens, we need nothing so much as a return to the ancient proposition that the general welfare does best when each man minds his own business and outsiders keep out and away.

Inquiry of Merchants' Association into Results of Five-Day Week.

An article giving the results of an inquiry made by the Industrial Bureau of the Merchants' Association of New York into the results of adopting the five-day week appears in the June 25 issue of the Association's weekly—"Greater New York." As to the conclusions drawn from the reports received the article says:

1. The five-day week is the best plan of operation in factories operating on a weekly schedule of 48 hours or less, particularly in those factories in which the starting and stopping processes are long or costly.
2. It seems advisable to include in the plan a provision whereby, whenever a holiday occurs on any day other than Saturday or Sunday, same shall be made up on the following Saturday without extra pay.
3. It would also seeem advisable to include in the plan a provision whereby, whenever it is deemed desirable by the management, workers or departments responsible for any deficiencies in production, shall make up such deficiencies on Saturday morning, without extra pay.

The article also says in part:

How Long in Operation.

The five-day week plan was first introduced among the factories covered by this survey in 1916. Only one factory adopted the plan as a permanent policy that year, but two more took it up in 1917 and six others, "during the war." Of these nine pioneers, four are still operating under this plan because they are pleased with its results, while six have abandoned it because they did not find the results satisfactory. Ten more factories adopted the plan in 1919 and 1920, and one in 1921. Of these, six are still operating under it because the results are satisfactory, and five only because they are forced to do so by the unions.

Out of the 40 manufacturers replying to a questionnaire by the Merchants' Association through its Industrial Bureau, regarding their experience with the five-day week plan of operation, three reported that they had used it only as a summer plan and three only as a slack period plan. Among the 34 who had tried it out as a permanent all-year-round plan, 16 expressed themselves as well pleased with the results, 15 were strongly opposed to it, two were in favor of it only when operating on a weekly schedule of 48 hours or less, and one took a neutral attitude.

Still Operating Under the Plan.

Twenty-seven of the 34 concerns were still operating on the five-day week plan at the time of their replies, 15 because they had found it very satisfactory, 10 because they were forced to do so by the union to which their employees belonged, and two partly because the unions have insisted upon it and partly because they have no serious objections to it themselves.

The 15 in favor of the plan included one textile manufacturer, three clothing manufacturers, two shoe manufacturers, two manufacturers of paper products, one manufacturer of tools and machines, one owner of a bleachery, one manufacturer of chewing gum, one manufacturer of jewelry, one manufacturer of pencils, one manufacturer of insulated wire and two manufacturers of metal products.

The 15 who were strongly opposed to the plan included two textile manufacturers, 12 shoe manufacturers and one manufacturer of paper products. The two who favored it for a week of 48 hours or less, but not for a longer week, were both textile manufacturers. The one neutral reply came from a shoe manufacturer.

The New Capital Flotations in May and the Five Months Since January 1

As we indicated would be the case in presenting the figures for April, new financing during May was on a comparatively light scale, the depression in the stock market in that month having acted as a damper on the bringing out of security issues. Offerings were on a reduced scale in virtually all the different groups, except that a larger amount of State and municipal obligations came on the market than during April. Our compilations, as usual, include the stock, bond and note issues by corporations and by States and municipalities, foreign and domestic, and also Farm Loan issues. The grand aggregate for May is $312,635,831. This compares with $458,133,469 for April, $392,262,540 for March, $380,187,119 for February and no less than $879,268,265 for January, the latter having, however, as previously explained, been swollen to exceptional proportions by the bringing out of several issues of unusual size—the Anaconda Copper Mining Co. alone by its financing having then added $150,000,000 to the total and Armour & Co. $110,000,000, with the result that January broke all records for new capital flotations in the United States, the highest previous amount for any month of any year having been $655,817,946 for April 1922.

Not only was May financing the smallest of any month of the present year, but it was only about half the total for the corresponding month last year. At this time in 1922 new financing was proceeding on a very unusual scale, and the aggregate of new issues brought out in that month was no less than $621,899,722, as against the $312,635,831 for May of the present year. We have stated that the award of State and municipal obligations had been on a larger scale than for April. This followed mainly from the fact that the State of Illinois came on the market with an offering of $17,000,000 bonds. But even as thus increased the amount of the municipal issues is smaller than that for the same month of last year, the total under this head being $92,793,706 for May 1923 and $106,878,872 for May 1922. We may add that the grand aggregate of the new capital flotations for May 1923 also falls below the amounts for the corresponding month two and three years ago, the total of the new financing done in May 1921 having been $381,144,119 and in May 1920 $397,132,335, as against the $312,635,831 for May 1923.

Financing by corporations, even on the present diminished scale, continues to overshadow that of any other group, and out of the $312,635,831 new issues altogether brought out in May 1923, $201,707,125 comprised offerings by corporations. Detailed analysis of the corporate flotations brings out some distinctive features in corporate financing during the month under review. For instance, we find that financing in behalf of public utilities during May totaled $78,384,950, as against $76,395,175 for industrial undertakings and $46,927,000 for railroads. This is the first month of the current year in which the volume of public utility issues has exceeded that of industrials. Compared with April, the public utility total shows an increase of slightly more than two millions over the total of $76,135,000 for that month. Industrial issues, on the other hand, show a big decline from the total of $173,123,466 for April (the aggregate for May being only $76,395,175), while raliroad offerings show an increase of 9½ millions, when compared with last month's total of $37,361,000. The total of all corporate issues, as already stated, was $201,707,125, and of this almost 70%, or $140,541,500, represented long term bonds and notes, with short term issues and stocks each totaling a little over $30,000,000, the exact figures being $30,584,000 for short term, as compared with $20,996,000 the month previous, and $30,581,625 for stocks, as against the exceptionally large total of $117,802,466 for April. The portion of corporate flotations used for refunding purposes in May aggregated $35,127,500 and analysis reveals that $17,550,000 of this was to refund existing long term issues with new long term issues, $14,577,500 existing short term issues with new long term issues, $750,000 existing preferred stock with a new long term issue, $150,000 existing long term issue with a new short term issue and $2,100,000 existing short term issues with new short term issues.

The largest individual corporate offering occurred in the railroad group and consisted of $13,500,000 Equipment Trust 5½s, 1924-38, of the Chicago Milwaukee & St. Paul Ry. sold to yield 5.75%. Other railroad issues of prominence comprised: $7,860,000 Equipment Trust 6s, 1923-38, of Erie RR., sold to yield from 5.50% to 6.05%, and $7,000,000 Chicago Rock Island & Pacific Ry. 3-year 5½% notes, due July 1 1926, which were offered at 99, yielding 5.87%. Public utility flotations were featured by the following: $10,258,950 Philadelphia Electric Co. common stock, offered to stockholders at par, $25; $10,000,000 Illinois Power & Light Corp. 7% debentures, due 1953, offered at par; $10,000,000 Empire Gas & Fuel Co. (Del.) 3-yr. 7% 1st & ref. bonds, 1926, offered at 99½, yielding 7.20%, and $6,600,000 Counties Gas & Electric Co. 1st & ref. mtge. 6s, 1953, offered at 98, yielding 6.15%. Industrial issues were generally rather small in size, the following being the only large offerings of the month: $10,000,000 Associated Simmons Hardware Co. secured 6½s, 1933, offered at 98 yielding 6.75%, and $5,000,000 A. O. Smith Corp. 1st mtge. 6½s, 1933, offered at par.

Farm loan offerings were relatively light, totaling only $12,500,000. Nine separate issues were brought out at prices to yield from 4.55% to 4.75%.

An issue of $4,500,000 30-year 5½% external gold bonds of the Republic of Panama was offered here during May at 97½, to yield about 5.65%. This constitutes the first foreign Government obligation sold in our market since the $25,000,000 Dutch East Indies 5½% loan offered in February.

The following is a complete summary of the new financing —corporate, foreign Government and municipal, and Farm Loan issues—for May and the five months ending with May, of the current year. We desire to point out that we now further subdivide the figures, showing in the case of the corporate offerings both the long term and the short term issues for the bonds, and separating the common from the preferred shares for the stocks.

SUMMARY OF CORPORATE, FOREIGN GOVERNMENT, FARM LOAN AND MUNICIPAL FINANCING.

	New Capital.	*Refunding.*	*Total.*
1923.	$	$	$
MAY—			
Corporate—Long-term bonds and notes	107,664,000	32,877,500	140,541,500

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME.

Friday Night, June 29 1923.

Wholesale business in the United States is for the most part quiet. It feels the effect of high costs of production from high labor costs, a lessened consumption, some slackening of buying, making trade rather quieter than in the usual midsummer lull. There is something like a buyers' strike in progress; it is a silent protest against something too much like war prices over four years and a half after the ending of the war. How excessive labor costs which are eating at the very heart of American trade are to be corrected, remains to be seen, but to some it looks as though employers will take a leaf out of labor's own book and strike. Employers are learning how. Experience is a rough teacher but an effective one. The manufacturer finds that he cannot easily sell his high cost goods. So, if he makes cotton goods he is running his New England mills on a three to four-day week and seizing every chance to close them for longer periods. Some big Massachusetts and Rhode Island plants will close all next week. In this way a piling up of stocks at least is obviated. And though building is active on old contracts there is noticeably less disposition to contract for building ahead. The contractor never knows when the workers will desert him or demand higher wages. Costs are too high on material and labor. Besides, extravagant as are the wages paid, labor, incredible as it may seem, is less efficient than when wages were much smaller. This, in a sense, is burning the candle at both ends, as labor will sooner or later find to its cost. Greater folly could hardly be imagined. In other words, high operating expenses for transportation and for mill production press heavily upon the American people. The exactions of labor are becoming a source of universal complaint. Sooner or later public opinion will crystallize to the point where a correction of such a glaring evil will be demanded. The American people are a patient people, but there is a point where patience ends, where forbearance ceases to be creditable. And nothing truer was ever said of the people of this country than was said nearly a hundred years ago by a once famous statesman: "The sober second thought of the people is never wrong and is always efficient." The people have been willing that labor should have a fair chance, a fair compensation for its valuable services to society, and laws have been enacted to that effect. But they were never designed to serve as a cloak for oppressing the people. And it may as well be understood that nothing of the kind will be tolerated indefinitely.

Meantime the farmer finds that wheat has declined to the lowest price this year. It has reached a point close to $1 at Chicago. But it cost something like 22 cents to get the wheat to the big distributing markets, so that the farmer gets nothing like $1. The price of wheat during this week has fallen some 3 to 4 cents, and corn nearly 5 cents. Part of this decline is due, it is true, to better weather and more favorable crop reports. But it is also due in no small degree to the fact that the American farmer can be undersold by foreign competitors in the European market. He is suffering from high costs of all kinds. There is a scarcity of farm labor; that is a so-called scarcity. It is largely artificial and due to the 3% immigration law. This also reacts on the Southern cotton farms. There is a large exodus of negro laborers from the South to the North, under the stimulus of high northern wages. Labor dictated the 3% immigration law. It should be expunged from the statute books at the earliest possible moment. To all intents and purposes it operates as an attack upon American business, a clog on American production, and a serious tax upon the American people. It oppresses the ultimate consumer who, of course, pays the high prices made by high labor costs.

Meanwhile the warm weather of late has helped retail and jobbing trade in seasonable goods to some extent. New England cotton and shoe manufacturing, however, has slowed down very susceptibly. Iron and steel trade as a rule is light at some decline in prices, though railroads are buying heavily. Cotton trade is quiet and exports of raw cotton to Europe are far behind those of last year. The exports of corn are some 60,000,000 bushels behind the total of a year ago. Wheat exports are some 50,000,000 bushels larger than at this time in 1922. But they consist very largely of Canadian wheat. Even at lower prices expo business in American wheat is unsatisfactory. Meanwhil too, bank clearings at this centre continue to decrease. Ch cago jobbers report that they have had sales during the la six months anywhere from 10 to 20% larger than in the sam period last year. The weather of late has been good for th grain and cotton crops. Bituminous coal has been quiet an tending downward, though anthracite has sold pretty wel with a possibility of a strike looming ahead if the deman for an increase in wages of 20% is not granted. Oil price have declined. Car loadings are very large. Collections ar rather better.

Merchants have naturally regretted the recent declines i the stock market and the gloomy outgivings of some of th self-appointed mentors of American business touched wit "the foible of omniscience." Merchants are sorry to see som stocks at the lowest point of the year as well as the decline in foreign exchange, the deadlock in the Ruhr, and the hal in American production. The tone of business continues t be conservative and it will be until the general outlook clear up. Sooner or later there will be a revival of business, but i will be gradual, no doubt, as long as high costs teach the lesson of caution to the commercial community of the United States.

The B. B. & R. Knights mills of Massachusetts and Rhode Island will be closed all next week. For some time past they have been running on a 3 to 4-day week. At Lowell, Mass., the Merrimac mills will close from June 30 to July 9. The shutdown is designated as a vacation. Maine cotton mills oppose the proposed 48-hour week law for that State. At Philadelphia on June 25 an agreement was signed partially ending the clothing workers' strike, which has been in effect here since June 1. At Springfield, Mass., on June 26 a clothing workers' strike to enforce a demand for a 25% wage increase, so-called better conditions and a 44-hour week, went into effect at the factory of Asinof & Sons' Manufacturing Co. The company employs 750 and the strikers claim 250 left their work and an additional 150 remained at home. At Haverhill, Mass., on June 25 a voluntary wage increase of $1 a week was granted by the Haverhill Shoe Manufacturers' Association to the women packers. Approximately 1,000 workers benefit by the advance, which is effective the first working week in July. The increase will be paid in every factory in the city.

At Scranton, Pa., on June 26, 400 delegates, representing the 155,000 anthracite mine workers of the Pennsylvania fields, opened their wage convention. Wage and other demands will be formulated by the convention to be used as a basis in negotiating a new working agreement with the operators. The present agreement expires August 31. On June 29 a demand for 20% increase in the contract wage scale, with an incraese of $1 a day for all men paid by the day, was presented to the convention for adoption and submission to the mine owners next week. At Youngstown, Ohio, on June 28, wages of iron puddlers for the July-August period were advanced from $12 12 to $13 88 a ton. Of this advance $1 a ton resulted from the increase in the base rate from scale for the year starting July 1, granted at the Atlantic City conference recently. Bar iron finishers' wages were correspondingly increased.

The recent increase in building trades wages to 115,000 workers, raises the wage cost for the next six months some $20,000,000. This is due partly to the payment of bonuses. Most of the workers received an additional $1 a day, but increases of $2 a day in the basic rate were awarded to bricklayers, plasterers, hoisting engineers and one or two additional crafts. The estimated wage increase of $18,600,000 excluded overtime pay, which will probably increase the labor costs in the next six months an additional $1,400,000, making the total wage increase until Jan. 1 1924 approximately $20,000,000. One of the almost grotesque features of these wage raises is that the common laborer is paid $1 an hour, or $8 a day. Many of them in this preposterous state of things earn higher wages than mechanics in the skilled trades, who are laid off frequently because of weather and other conditions. They are paid more than some men in the professions. Bricklayers' helpers, who pipe the brick and mortar on the scaffolds, receive $1 an hour and have steadier

work than bricklayers. When the skilled men are laid off on account of rain or shortage of material the laborers are set to work in the interior of the building to clean up. The laborers receive $44 for a 44-hour week, excluding overtime, in these topsy-turvy times.

Just as the bricklayers' strike was being settled, more than 2,600 inside iron workers in about 215 plants in Greater New York started a walk-out on June 25 which tied up metal work on all new buildings in the city. The strike is to gain a 44-hour week, a recognition of the union and closed shop conditions, whereas the closed shop is a restraint of trade and an invasion of the rights of the individual worker. Many independent metal contractors at once granted the demand. Others are likely to follow. This left the strike directed against the Allied Building Metal Industries Association, which controls about 40% of the inside metal work of the city.

Longshoremen here on the docks of the United States, Cosmopolitan and Munson lines in Hoboken, who struck a few days ago very soon went back to work. Representatives of the men said they had gone back to work on the old basis of 18 men in a gang and 10 men in each hold. The lines had decided to put only eight men in a hold.

A reduction of 7 to 13½% on casings, 4 to 11% on tubes and 2½ to 10% on solid tires was announced by the B. F. Goodrich Co. on June 25.

At Manchester, Eng., the Master Cotton Spinners' Federation has decided that mills spinning American cotton shall continue to work half time throughout July and August. This will affect 100,000 spinners and 200,000 weavers.

The hot wave returned on Sunday, June 24, when the mercury mounted to 91, attended with prostrations and deaths. On the 25th it was up to 95. High temperatures prevailed over the Eastern and Southern States, the Great Central valleys, and the region of the Great Lakes. It was 100 degrees and more in various parts of the West last Monday. At Chicago it was 96. On the 26th inst. here it was 91, but late in the day a rain storm and hurricane broke the hot wave. For several days it has been cooler, with rains on Thursday. To-day at 2 p. m. it was 69 degrees at Chicago; on Thursday the thermometer fell to 60.

Increase in Chain Store Sales in New York Federal Reserve District.

"A continued large volume of business is indicated by reports of chain store systems for May," says the July 1 issue of the "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York, which also states:

Sales by all types of stores were larger than in May 1922, and the per centages of increases were somewhat larger than in April. Detailed figures follow:

Type of Store.	Number of Stores.		DOLLAR SALES DURING May. (In Percentages).					% Change in Sales per Store, May 1922 to May '23
	May 1922.	May 1923.	1919.	1920.	1921.	1922.	1923.	
Grocery	11,323	13,885	69	110	87	100	128	+4.7%

Wholesale Trade in New York Federal Reserve District in May Above That of Year Ago, but Less Than Preceding Two Months.

According to the July 1 issue of the "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York: "May sales by wholesale dealers in this district, while well above those of May a year ago, were less than in March and April. This decrease," says the Bank, "was due in part to seasonal tendencies but not entirely, as the decline between April and May was larger this year than usual." The Bank adds:

In order to reveal the changes in wh=lesale trade independent of the usual seasonal fluctuations, this bank has prepared an index of wholesale trade for this district in which the figure for each month is shown as a percentage of an estimated normal. Normal trade may be interpreted to mean the trade which might reasonably be anticipated in view of the usual seasonal fluctuations, and growth from year to year. Allowance has been made for price changes by dividing the dollar sales each month by a price index computed for the commodities included. Figures reported by 122 dealers in ten lines have been included in the index. Each commodity has been weighted in accordance with its relative importantce in the trade of this district.

In February the volume of goods sold was 19% above the estimated normal, in March it was 11% above, in April 5, and in May 3%.

In May, as in several months previous, the largest increase in sales as compared with a year ago was reported by machine tool dealers. Sales of clothing, especially of women's clothing, were also large, as retailers who under-estimated their spring requirements continued to place orders for immediate shipment. The smallest gain over sales for a year ago was made by dry goods dealers because of the unwillingness of buyers to make commitments for the future in view of the unsettled sate of the raw cotton market. Detailed figures are shown in the following table.

Dollar Sales During May (In Percentages).

	1919.	1920.	1921.	1922.	1923.
Machine tools	363	584	107	100	321
Jewelry	240	247	109	100	158
Clothing	123	133	90	100	139
(a) Men's	77	158	88	100	124
(b) Women's	153	116	91	100	149
Diamonds	370	187	64	100	137
Shoes	182	185	110	100	125
Hardware	108	136	88	100	119

Total (weighted)	123	152	100	100	118

Federal Reserve Bank of New York on Increasing Sales of Department Stores.

Largely because of increases in sales of women's ready-to-wear silk and woolen goods and house-furnishing goods, May sales by department stores in this district were 9.4% above those of May a year ago, according to an item on department store business, which will appear in the July 1 issue of the "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York. The "Review" will say:

This gain is somewhat larger than the average for the past few months. For the first five months of the current year sales were 7.5% above those for the corresponding period a year ago.

Sixteen of the largest stores reported sales by groups of departments for the first time. The per cent change in sales from May 1922 to May 1923 is shown in the following table for 11 major classifications:

Silk goods	+22.3
Woolen goods	+19.7
Women's and misses' ready-to-wear	+16.2
House furnishings	+15.7
Shoes	+12.0
Cotton goods	+10.8
Furniture	+10.0
Women's ready-to-wear accessories	+6.8
Men's and Boys' wear	+5.7
Hosiery	+3.4
Miscellaneous (all other)	+5.7
Total	+9.4

The total gain in sales has been computed from data furnished by stores which reported only total sales as well as by those which supplied the more detailed information.

The gain in sales as compared with May 1922 was due in part to higher prices. The average sales check increased from $2 61 last May to $2 85 this year or 9%. Probably not all of the increase was due to higher prices as merchants report that the people are buying a somewhat better quality of merchandise this year.

Stocks held by department stores on June 1 were 7.3% larger, measured by the selling price, than those held a year ago. As sales have increased more than stocks the rate of stock turnover is more rapid. Between May 1 and June 1 there was a small decline in stocks, a change which usually occurs at this season.

Sales by mail order houses in May were 39% above those of May a year ago, a somewhat larger increase than that reported in March and April.

Detailed figures are shown in the following table:

	Net Sales During May. (In Percentages)					Stock on Hand June 1. (In Percentages)				
	1919.	1920.	1921.	1922.	1923.	1919.	1920.	1921.	1922.	1923.

Federal Reserve Board's Summary of Business Conditions.

In its monthly summary of business and financial conditions throughout the several Federal Reserve districts, made public June 27, based upon statistics for May and June, the Federal Reserve Board states that "production and shipment of goods continued in heavy volume during May; the volume of employment was sustained and many wage advances were reported. Wholesale commodity prices declined during May and the early weeks of June." The Board continues:

Production of iron and steel, sement and petroleum was larger in May than in any previous month, and mill consumption of cotton was close to maximum. The high level of production in these industries, together wih increases in practically all other reporting lines, is reflected in an advance of 2% in May in the Federal Reserve Board's index of production in basic industries. In the building industry there was a further decline in principal cities in the value of permits granted which represent prospective building operations. Contract awards, however, which represent actual current undertakings, continued to increase, though declines are reported in the New York and Chicago Districts.

This industrial activity has been accompanied by a slight increase of employment at industrial establishments. The demand for labor was also reflected in a larger number of wage advances during the 30-day period ending May 15 than in any earlier month this year and average weekly earnings in all reporting industries increased by 3.8%. The advances were most general in the cotton, steel, meat packing and sugar refining industries.

In agriculture the condition of both winter and spring wheat is reported less favorable than a year ago, while the condition of the cotton crop is slightly better than last year, owing entirely to more favorable growing conditions in Texas. A shortage of farm labor is reported from most sections of the country.

Trade.

Active distribution of commodities is indicated by heavy movement of merchandise and miscellaneous freight, and car loadings continue to exceed all previous records for this season. In certain lines of trade a decline in the volume of manufacturer's orders for future delivery is reported. The volume of both wholesale and retail trade was larger in May than in April. Among the wholesale lines sales of meat, hardware and shoes showed particularly large increases, while sales of clothing and dry goods decreased. The Federal Reserve Board's index of wholesale trade, which makes no allowance for seasonal changes, was 5% higher than in April and 14% higher than a year ago. Sales of department stores increased about 9% in May, and all reporting lines of chain store business reported increases. Mail orders sales were 6% less than in April, but were larger than in any previous May.

Wholesale Prices.

Price declines were reported during May and the first three weeks of June for a large number of commodities. All of the nine groups in the Bureau of Labor Statistics index, except food and house-furnishings, show decreases for May and the average for all commodities declined by 2%.

Bank Credit.

Loans of reporting member banks in principal cities, which had been increasing since the early part of the year, declined by $115,000,000 between May 16 and June 13. Bank holdings of Government securities, which increased by over $100,000,000 in connection with the Treasury transactions of May 15, later declined as the securities were distributed by the banks

These decreases in loans of member banks and the receipt during May of $45,000,000 of gold from abroad were accompanied by a decrease in the earning assets of Federal Reserve banks of $120,000,000 for the four weeks ending June 21. At that time the volume of Federal Reserve bank credit in use reached the lowest point since the opening of the year and approached the low point reached in August, 1922. Reserve bank holdings of bankers' acceptances and Government obligations are now lower than at any time since early in 1922.

The total volume of money in circulation increased by $38,000,000 between May 1 and June 1, the increase being chiefly in gold and silver certificates, rather than in Federal Reserve notes.

Money rates continued to show a slightly easier tendency. The June 15 issue of $150,000,000 6-months Treasury certificates carried a rate of interest of 4%, compared with 4¼% on a similar issue sold in March.

Federal Reserve Bank of New York on Banking Conditions in Local District—Decline in Bank Loans.

According to the July 1 number of the "M9nthly Review" of the Federal Reserve Bank of New York, made public yesterday (June 29), the decline in bank loans in recent weeks in the Federal Reserve District of New York has been more marked than in other centres. The Bank continues:

Declines in loans on stocks and bonds and loans made largely for commercial purposes began several weeks earlier than in other centres and the declines have been relatively larger.

On June 16, accompanying a flow of funds to New York and the easing in money conditions which customarily follows quarterly tax dates, loans by the Federal Reserve Bank of New York to member banks fell to $126,000,000, the lowest figure this year, and total earning assets to $184,000,000, the lowest since 1917.

Later in June, following the collection of income tax checks, and in connection with payments in this district on heavy new financing and a return movement of funds to the interior, loans to member banks increased to the levels previously prevailing. Holdings of bankers acceptances and Government securities remained close to the low figure of June 16.

Accompanying reduced activity in the security markets and somewhat diminished forward ordering by manufacturers and others, there was a decline in the rate of turnover of bank deposits in New York City and certain other centres as well.

Agreement Signed by Bricklayers and Mason Builders for Two Years.

The Mason Builders' Association and officials of the bricklayers' and bricklayers' helpers' unions signed agreements on June 25 guaranteeing to the bricklayers a wage of $1 50 an hour and to the bricklayers' helpers a wage of $1 an hour until May 1 1925, a period of almost two years. The meeting of the three factions followed a verbal agreement attained last week, immediately succeeding which the bricklayers and their helpers began to return to the work of the Mason Builders' Association, which they had struck on May 21.

Cement Workers Strike for More Pay in Local Building Trades.

With the bricklayers' strike settled by the granting of the strikers' demand for $12 a day, 2,000 cement workers in the local building trades, members of Concrete and Cement Workers, Locals 6, 18 and 20, walked out on June 22 for 30 cents a day extra compensation, asking $7 50 instead of $7 20 for eight hours work. About 600 laborers, members of an independent local, remained at work, observing an agreement with the Masters League of Cement Workers, as the contractors are known. Much of the construction work affected by the walkout consists of foundation and excavation operations, factory and loft building, laying cement sidewalks, and dwelling houses that are being infished in stucco. The employers expect to man the more important jobs with willing workers, holding that plenty of common laborers will be attracted to the city when offered 90 cents an hour and steady employment.

Wage Increase by Haverhill Shoe Manufacturers.

A voluntary wage increase of $1 a week was granted on June 25 by the Haverhill Shoe Manufacturers' Association to the women packers. Approximately 1,000 girls benefit by the advance, which is effective the first working week in July. The increase will be paid in every factory in the city, as the factories outside the association have agreed to abide by the price paid in the association plants. The girls now receive $19 for some classes of work and $21 50 for others.

Automobile Production—Correction.

Since the publication by us last week (page 2831) of the figures of May 1923 production of automobiles by the Department of Commerce, the Department reports the following revised figures for that month:

Passenger cars, 350,180, instead of 344,690
Trucks, 42,983, instead of 42,817

Current Events and Discussions

The Week With the Federal Reserve Banks.

Aggregate increases of $55,800,000 in earning assets, of which $42,400,000 represents an increase in discounted and purchased paper and $13,400,000 an increase in United States securities, are shown in the Federal Reserve Board's weekly consolidated bank statement issued as at close of business on June 27, and which deals with the results for the twelve Federal Reserve banks combined. Deposit liabilities show an increase for the week of $15,300,000, Federal Reserve note circulation increased by $4,600,000, while cash reserves fell off $12,500,000. In consequence of these changes the reserve ratio shows a decline for the week from 77.6 to 76.9%. After noting these facts, the Federal Reserve Board proceeds as follows:

Holdings of discounted bills show a further advance of $43,900,000. The New York Reserve Bank shows an increase of $21,500,000 in its holdings of discounted paper, Chicago an increase of about $17,000,000, San Francisco an increase of over $10,000,000, and four other banks a combined increase of $9,300,000. Decreases in the holdings of discounted paper totaling about $14,000,000 are shown for the Boston, Atlanta, St. Louis, Minneapolis and Kansas City banks.

Gold reserves show a decline for the week of $18,300,000. The gold movement, partly through the settlement fund, was largely away from New York City, the local Reserve Bank reporting a decrease in its gold reserves of $36,100,000. Chicago reports a decrease of $5,800,000, and smaller decreases, totaling $6,800,000, are shown for five other Reserve banks. The largest increase in gold reserves for the week, amounting to $9,100,000, is reported by the Cleveland Bank; St. Louis shows an increase of $7,200,000 and smaller increases, aggregating $14,200,000, are shown for the Philadelphia, Boston and Richmond banks.

Holdings of paper secured by Government obligations increased during the week from $352,700,000 to $383,300,000. Of the total held on June 27, $243,000,000, or 63.4%, were secured by United States bonds, $121,500,000, or 31.7%, by Treasury notes, and $18,800,000, or 4.9%, by Treasury certificates, compared with $225,000,000, $110,200,000 and $17,500,000 reported the week before:

The statement in full in comparison with preceding weeks and with the corresponding date last year will be found on subsequent pages, namely pages 2970 and 2971. A summary of changes in the principal assets and liabilities of the Reserve banks, as compared with a week and a year ago, follows:

	Increase (+) or Decrease (—) Since	
	June 20 1923.	*June 28 1922.*
Total reserves	—$12,500,000	+$54,100,000
Gold reserves	—18,300,000	+89,900,000
Total earning assets	+55,800,000	—65,500,000
Discounted bills, total	+43,900,000	+305,900,000
Secured by U. S. Govt. obligations	+30,600,000	+193,400,000
Other bills discounted	+13,300,000	+112,500,000
Purchased bills	—1,500,000	+50,200,000
United States securities, total	+13,400,000	—421,600,000
Bonds and notes	—400,000	—116,500,000
U. S. certificates of indebtedness	+13,800,000	—305,100,000
Total deposits	+15,300,000	—2,700,000
Members' reserve deposits	—6,600,000	+2,400,000
Government deposits	+23,200,000	+200,000
Other deposits	—1,300,000	—5,300,000
Federal Reserve notes in circulation	+4,600,000	+102,500,000
F. R. bank notes in circulation—net liability	----------	—65,700,000

The Week with the Member Banks of the Federal Reserve System.

Aggregate reductions of $226,000,000 in demand deposits, as against a total increase of $109,000,000 in Government deposits, in connection with collection of checks in payment of income and profits taxes and the allotment on June 15 of a new series of Treasury certificates, are shown in the Federal Reserve Board's weekly consolidated statement of condition on June 20 of 774 member banks in leading cities. It should be noted that the figures for these *member banks* are always a week behind those for the Reserve banks themselves.

Total loans and discounts show a reduction for the week of $33,000,000. Loans on corporate securities decreased by $31,000,000, loans on Government securities by $6,000,000, while all other, mainly commercial loans and discounts, show a further advance of $4,000,000. Security investments increased by $42,000,000. Of the total increase, about $30,000,000 represents an increase in Treasury certificates, $5,000,000 an increase in other Government securities, and $7,000,000 an increase in corporate and other securities. Further comment regarding the changes show by these *member banks* is as follows:

Member banks in New York City report decreases of $39,000,000 in loans on corporate securities, and of $5,000,000 in loans on Government securities, as against an increase of $11,000,000 in all other loans. Their security investments show but a nominal change, a decrease of $9,000,000 in Treasury notes being offset by an equal increase in other investments. Their net demand deposits show a reduction of $47,000,000, while their Government deposits advanced $27,000,000.

Borrowings of the reporting institutions from the Federal Reserve banks increased from $441,000,000 to $462,000,000, or from 2.7 to 2.8% of their combined loans and investments. For member banks in New York City a decrease from $118,000,000 to $78,000,000 in their borrowings from the local Reserve bank and from 2.3 to 1.8% in the ratio of these borrowings to total loans and investments is noted.

In keeping with the substantial decline in demand deposits, reserve balances of all reporting institutions show a decrease of $22,000,000, and those of the New York City members a decrease of $5,000,000. Cash in vault fell off $11,000,000, the New York City members reporting a decrease of $2,000,000 under this head.

On a subsequent page—that is, on page 2971—we give the figures in full contained in this latest weekly return of the *member banks* of the Reserve System. In the following is furnished a summary of the changes in the principal items as compared with a week and a year ago:

	Increase (+) or Decrease (—) Since	
	June 13 1923.	*June* 21 1922.
Loans and discounts, total	—$33,000,000	+$906,000,000
Secured bu U. S. Govt. obligations	—6,000,000	—36,000,000
Secured by stocks and bonds	—31,000,000	+243,000,000
All other	+4,000,000	+699,000,000
Investments, total	+42,000,000	+312,000,000
U. S. bonds	+10,000,000	+159,000,000
Treasury notes	—5,000,000	+424,000,000
Treasury certificates	+30,000,000	—112,000,000
Other stocks and bonds	+7,000,000	—159,000,000
Reserve balances with F. R. banks	—22,000,000	+11,000,000
Cash in vault	—11,000,000	+2,000,000
Government deposits	+109,000,000	+77,000,000
Net demand deposits	—226,000,000	—98,000,000
Time deposits	+5,000,000	+667,000,000
Total accommodation at F. R. banks	+21,000,000	+339,000,000

Proposed Call for Deposit of Mexican Bonds July 9 Under Plans for Readjustment of Debt.

The intention to issue a formal call on July 9 for the deposit of Mexican bonds under the agreement of June 16 1922 between the Mexican Government and the International Committee of Bankers on Mexico, was made known informally on June 28 by T. W. Lamont of J. P. Morgan & Co., and Chiarman of the International Committee. Regarding this the New York "Commercial" of yesterday (June 29) said:

No statement was made by Mr. Lamont as to what percentage of deposits would be required before the plan could be declared operative. From other sources, however, it was learned that if 50% of the 28 different Mexican bond issues outstanding are deposited the plan will be declared operative and interest payments made as per schedule.

Of the issue which will get 100% payments of current interest during the 5-year period of 1923 to 1927, are the 5% consolidated external gold loan of 1899, 4% external gold loan of 1910 and the 6% 10-year Treasury notes of 1913, Series A, of which the 5s are listed on the New York Stock Exchange and the 4s and 6s on the New York Curb Market.

We also quote the following from the "Daily Financial America" of yesterday (June 29):

In connection with his announcement of the date of the call for the deposit of Mexican Government bonds, Mr. Lamont made public copies of the following statement which he gave to "El Excelsior," a daily newspaper of Mexico City, under date of June 23, and which was in reply to an article published by that paper:

"My attention has just been called to your issue of June 16 in which you speak of the delay in issuing the call for deposit of Mexican Government bonds under the agreement which was executed in New York a year ago between Finance Minister de la Huerta and the International Committee of Bankers on Mexico, of which I have the honor to be Chairman. In your article you speak, if you will allow me to say so, as if there were some hidden or mysterious reason for the undoubtedly long delay in calling for the deposit of bonds, which I am very glad to say is not the case, and for the information of "Excelsior" and its readers I may say that I anticipate that the official call will be issued in the very near future.

"If I may for a moment review the situation you will perceive that the delay has not been as unreasonable as you appear to indicate in your article. First, you will recall that the agreement was not ratified by the Mexican Congress until Sept. 30 last. Until such ratification took place, it was, of course, quite impossible for the Committee to make any definite move in calling for the deposit of bonds, as such a move, in anticipation, might have been construed as a discourtesy to the Mexican Government. As soon as your Congress had ratified the agreement steps were immediately taken to arrange the complex detail prerequisite to the call for a deposit of bonds.

"The chief thing necessary was the preparation of an omnibus form of deposit agreement which could be used equally well in the case of bonds deposited in Americ, in England, in France, in Belgium, in Switzerland, in Holland and in Germany. Now you will recall that the tax laws of these various countries differ very greatly. In many of the countries a receipt in certian form is subject to heavy stamp duty. If the Mexican bondholders were subjected to heavy stamp duties in addition to the sacrifices that they are called upon to make under the terms of the agreement itself the value to them of depositing their bonds would be diminished.

"Hence, it became necessary to try to devise a form that would, at one and the same time, comply with all the varying laws and usages of the different countries interested and would avoid, so far as possible, any unnecessary stamp duties and yet would make an effective document which would bind the bondholders to accept the terms agreed upon with the Mexican Government. The difficulties of varying languages were, of course, considerable but the chief difficulty, as I say, lay in devising this form of agreement and deposit certificate, which I have just described. It soon became apparent that it would be impossible to satisfactorily arrange all these difficult fiscal and legal questions by cable and accordingly, in December last, representative of the American section of the Committee, accompanied by counsel, proceeded to London where conference were held with representatives of the various foreign sections. These conferences were later followed by a series of conferences in Paris.

"In the course of this work the Finance Minister despatche l a competent commission here to scan the various documents prepared in connection with this great plan and as you are aware this commission spent many weeks in going into this matter thoroughly. I have just returned from abroad, where I was able to clear up one or two other vexing points and now, as I say, I anticipate an early call for deposit of bonds.

"I wish to make it clear once more that the delay has been due only to natural causes. The international Commictee has at all times moved with the utmost expedition. No outside circumstances have delayed or interfered with the call in any way. At all times the Committee has been working steadily toward the end of completing and perfecting in every detail a plan, the carrying out of which naturally means so much for the good name and credit of the Mexican Government, in whose good faith the Committee again is pleased to express its confidence."

Berlin Now Uses Aluminum Coins—All "Small Change" Money Minted from This Metal.

The New York "Evening Post" on June 25 printed the following from Berlin under date of June 8:

It will not be long before the jingle of metal coins will again be freely heard in Berlin shops and banks. It is estimated that there will soon be 210,000,000,000 marks in aluminum "small change" in circulation.

The enormous depreciation of the mark has made the pfenning pieces such insignificant bits that they have disappeared from virtually all cash tills. Before the war there were I and 2-pfenning coins in copper, 5, 10 and 25-pfenning pieces in nickel, and 50-pfenning coins in silver, besides the 10 and 20-mark gold pieces.

The practice of minting aluminum coins originated during the war, when this material was used to replace the copper coinage in the smaller denomination. Later iron also was used, and the Saxon town of Meissen, famous for its porcelain ware, even resorted to the use of porcelain for this purpose.

All the new coins now being minted are made of aluminum. Only recently a large number of 200-mark pieces were put into circulation, and plans are nearly completed for issuing 500-mark coins as well. The former are about the size of an American quarter and the latter will measure something like a United States half-dollar. The mintage of 1,000-mark coins also is being considered.

Great Britain Not to Dispose of West Indies in Settlement of Debt to United States.

Associated Press advices from London June 25 said:

Prime Minister Baldwin declared in the House of Commons to-day that Great Britain has not the slightest intention of selling or bartering any portion of the British West Indies in settlement or part settlement of the British debt to the United States.

The Premier's utterance was a reiteration of the statement on the subject made by the then Prime Minister, Lloyd George, in 1920.

Proposed French Loan to Jugoslavia.

The Foreign Affairs Committee of the French Chamber of Deputies adopted on June 27 a report of Deputy Margaine authorizing the loan of 300,000,000 francs to the Government of Jugoslavia.

Dealings in Foreign Exchange Suspended in Poland Account of Fall in Mark—Telephone Service Also Cut.

Besides the issuance of orders calling upon the Polish Stock Exchanges to cease dealing in foreign exchange on account of the decline in the mark, the suspension of telephone service for private communication in Poland and Upper Silesia is said to have been prompted with a view to preventing a further fall in the Polish mark. Under date of June 20 Warsaw Associated Press advices said:

In consequence of measures taken by the Government to halt the fall of the Polish mark the dollar to-day was quoted at 100.000 marks, as compared with 170,000 last night. About fifty speculators and brokers have been arrested.

The Ministry of Finance ordered all Polish stock exchanges to cease dealing in foreign exchange and certain banks were ordered to stop transactions in exchange and to deliver their supplies to the Government. Measures also are to be taken to prevent exporters from keeping funds abroad.

Regarding the suspension of private telephone communication the Associated Press had the following to say on June 21 in a cablegram from Danzig:

The stock exchanges in Warsaw, Lodz and Posen have temporarily suspended issuing quotations in money exchange, it is stated in messages received here, in consequence of severe measures inaugurated by the Polish Government authorities, including the suspension of all private telephone traffic. Telephone service for private communication is understood to have been cut off in both Poland and upper Silesia, as well as between Poland and this city.

According to advices received here, thirty Polish banks hitherto authorized to buy and sell foreign moneys were deprived of the privilege, which now is left solely to the State Bank of Warsaw. Some holders of foreign currencies are required to report and deliver up their holdings.

Yesterday's exchange rate reached 180,000 marks to the dollar. The Polish Government made extensive purchases on the Danzig Bourse designed to bolster up the mark, and succeeded in bringing the rate back to 120,000 to the dollar.

The cutting off of the telephone service between Poland and Danzig was also the subject of the following (Associated Press) from Danzig June 20:

By order of the Polish authorities, all telephonic communication between Danzig and Poland, excepting on official business, has been suppressed since Tuesday night. The cause for the order of suppression is not known here.

The latest point of difference between Danzig and Poland grew out of the treatment of the nationals of the respective countries. The Polish General Commissioner in Danzig recently advised the President of the Free State Senate that 16 Danzig citizens had been ordered deported from Poland because the Danzig Government had taken what in effect was similar action in forbidding further activity in Danzig by 16 Poles.

The President of the Senate notified Poland that Poland's action was in violation of the Danzig-Polish agreement of Nov. 9 1920, under which such differences were to be submitted to the local Commissioner of the League of Nations. The Senate expressed itself ready to permit the Poles to continue working here without investigating their cases individually if Poland would recall her deportation order against the 16 citizens of Danzig.

Offering of $2,000,000 Bonds of State of Ceara, Brazil.

At 99½ and interest, J. S. Bache & Co., New York City; the Mortgage & Securities Co., New York and New Orleans; the Interstate Trust & Banking Co., New Orleans, and Mark C. Steinberg & Co., St. Louis, offered yesterday (June 29) $2,000,000 State of Ceara, United States of Brazil, external 25-year secured 8% sinking fund gold bonds, maturing Dec. 1 1947. The bonds are redeemable as a whole only at 105 and accrued interest upon eight weeks' notice at the option of the State on any interest date on and after Dec. 1 1937. They are coupon bonds in $500 and $1,000 denominations, registerable as to principal. Interest is payable semi-annually June 1 and Dec. 1. Principal, premium and interest are payable in United States gold, free of all present and future imposts, contributions and taxes of the State of Ceara and the United States of Brazil, at the office of the Interstate Trust & Banking Co., New Orleans, trustee, or at the First National Bank, New York City. As to the purpose of the issue the offering circular says:

About $1,000,000 of the proceeds from this loan will be used for the purpose of retiring the balance outstanding of a 15,000,000 franc loan, not yet due, which was placed in France in 1910, and the balance will be used to complete the construction of the sewerage and water system of Fortaleza, on the construction of which $1,000,000 has already been spent. All payments due on the French loan have been made. The only reason for retiring it in advance of maturity is to take advantage of favorable exchange conditions which will permit of the prepayment at a very great saving.

We also take the following from the official announcement:

Security of the Bonds.

The bonds will be the direct obligation of the State of Ceara and in addition to the full faith and credit of the State will, upon completion of this financing, be specifically secured by a first charge upon all export duties and taxes and the tax known as the industries and professions tax and sewerage and water tax. Based upon the average rate of exchange prevailing, the export tax and industries and professions tax averaged for the past five years $861,385 87. These revenues alone for the past five years averaged over five times the maximum interest requirements on this issue. The sewerage and water tax is just being put into effect and it is estimated that it will provide approximately $100,000, based on normal rate of exchange.

With the completion of the present financing this will be the only outstanding and authorized external debt of the State and no additional bonds can be issued with the same security as the bonds we are offering.

The State agrees that in the event of the reduction of any of said taxes it will substitute other taxes acceptable to the Trustee, and also that it will maintain the total amount of the revenues derived from these taxes at an amount not less than twice the amount of the service charge of this loan, computed upon the then prevailing rate of exchange.

Sinking Fund.

In each of the first four years of this loan $20,000 is to be paid into the sinking fund; thereafter commencing April 1 1927 the State agrees to pay semi-annually into the sinking fund the sum of $40,000, or if such payment of $40,000 would bring the unexpended amount of the sinking fund above the sum of $80,000, then such portion of $40,000 as may be required to bring the sinking fund up to $80,000. The sinking fund is to be applied to the payment of bonds at par and accrued interest or less, whenever bonds are so purchaseable.

Public Debt.

Upon the completion of the present financing, the total foreign debt of the State will amount to $2,000,000 and the internal debt, based on the present rate of exchange, to approximately $690,000, the total debt representing approximately $2 per capita.

Ceara is a coast State ranking seventh among Brazilian States with respect to foreign trade. Its principal agricultural product is long staple cotton, although tobacco, sugar cane, rice and coffee in considerable quantities are produced. Fortaleza is the capital of the State and principal seaport. Its population in 1920 was 78,000.

Application will be made to list the bonds on the New York Stock Exchange. They were offered when, as and if issued, and received, and subject to prior sale.

Offering of Bonds of Central Iowa Joint Stock Land Bank.

A $2,000,000 issue of 5% Farm Loan bonds of the Central Iowa Joint Stock Land Bank of Des Moines was offered on June 25 by the Equitable Trust Co. of New York, Hayden, Stone & Co., C. F. Childs & Co. and P. W. Chapman & Co., Inc., at 103 and interest, to yield 4.62% to April 1 1933 and 5% thereafter. The bonds, in coupon form of $1,000 denominations, fully registerable and interchangeable, are dated April 1 1923, become due April 1 1953, and are redeemable on April 1 1933 or any interest date thereafter at 100 and interest. Interest is payable April 1 and Oct. 1 in New York, Chicago or Des Moines. The bonds carry the usual exemption from Federal, State, municipal and local taxation, excepting only inheritance taxes. The Central Iowa Joint Stock Land Bank of Des Moines was organized in May 1919 and is authorized to operate in the States of Iowa and Minnesota. The original capital was $250,000; it has been increased from time to time as provided by law as the volume of loans increased, and the present capital is $500,000, fully paid. The statement of condition of the Central Iowa Joint Stock Land Bank as of May 31 1923 follows:

Assets—	
Loans secured by first mortgages on farms	$7,570,600 00
Accrued interest on loans	119,129 26
U. S. Liberty bonds on hand	2,236 30
Accounts receivable	6,732 86
Real estate	5,778 78
Furniture and fixtures	443 58
Accrued interest on Liberty bonds	31 63
Cash and due from banks	103,949 45
Farm Loan bonds authorized for sale	1,200,000 00
Accrued interest on bonds on hand	10,000 00
Total assets	$9,018,901 86
Liabilities—	
Capital paid in	$500,000 00
Profits and earned reserve	47,102 86
Amortization payments on principal of loans	83,664 60
Due borrowers, balance unpaid on loans in process	41,663 10
Reserve for coupons not presented	10,700 00
Interest accrued on Farm Loan bonds outstanding	33,500 00
Farm Loan bonds outstanding	6,770,000 00
†Bills payable, secured by completed mortgages	1,521,312 50
Amortization payments paid in advance	8,033 77
Accrued interest on bills payable	2,850 03
Other liabilities (abstract deposits)	75 00
Total liabilities	$9,018,901 86

† It is the custom of this bank to borrow funds as needed to complete farm mortgages. When we have accumulated $1,000,000 or more of mortgages, bonds are secured and sold, the borrowed money paid and the same process repeated.

George G. Hunter is President of the Central Iowa Joint State Land Bank. Previous bond offerings of the bank have been referred to in our issues of Jan. 7 1922, page 18; Feb. 14 1922, page 464; April 1 1922, page 1356; July 1 1922, page 23; March 3 1923, page 880, and June 16 1923, page 2714.

New Issue of $45,000,000 Federal Land Bank Bonds.

A new issue of Federal Land Bank bonds, to the amount of $45,000,000 was offered on Monday of this week, June 25, by a country-wide group, composed of the twelve Federal Land Banks, investment houses, institutions and upwards of one thousand dealers. The banking group was headed by Alex. Brown & Sons of Baltimore; Harris, Forbes & Co.; Brown Brothers & Co.; Lee, Higginson & Co.; The National City Co. and the Guaranty Co. of New York. The present is the third offering of Federal Land Bank bonds this year—the previous ones, of $75,000,000 each, having been referred to in the "Chronicle" of Jan. 6, page 26, and April 21, page 1711. The issuance of the $75,000,000 Land Bank bonds in April followed the call for redemption and payment on May 1 of $55,032,000 then outstanding 5% Federal Land Bank bonds. The $45,000,000 bonds placed on the market this week were offered at 100¼ and interest, to yield over 4.45% to the redeemable date and 4½% thereafter to redemption or maturity. The bonds, which bear 4½% interest, are dated July 1 1923, mature July 1 1953 and are redeemable at par and interest at any time after ten years from the date of issue. The bonds are exempt from Federal, State, municipal and local taxation. They are in coupon and

registered form, interchangeable, in denoms. of $10,000, $5,000, $1,000, $500, $100 and $40. Interest is payable Jan. 1 and July 1 at any Federal Land Bank or Federal Reserve Bank. The bonds are acceptable by the United States Treasury as security for Government deposits including Postal Savings funds. The Federal Farm Loan Act provides that the bonds shall be lawful investments for all fiduciary and trust funds under the jurisdiction of the United States Government. They are eligible under the laws of many of the States for investment of all public and private funds and have been officially held eligible for investment by savings banks in 36 States. The Supreme Court of the United States has upheld the constitutionality of the Act creating the banks and exempting these bonds from Federal, State, municipal and local taxation. We quote as follows from the official circular:

Issuing Banks.—The twelve Federal Land Banks were organized by the United States Government with an original $9,000,000 capital stock which has since increased through the operation of the system to over $39,000,000.

Security.—These bonds, in addition to being obligations of the Federal Land Banks, all twelve of which are primarily liable for interest and ultimately liable for the principal on each bond, are secured by collateral consisting of an equal amount of United States Government bonds, or mortgages on farm lands which must be:

(*a*) First mortgages, to an amount not exceeding 50% of the value of the land and 20% of the value of the permanent improvements as appraised by United States appraisers;

(*b*) Limited to $25,000 on any one mortgage;

(*c*) Guaranteed by the local national farm loan association of which the borrower is a member and stockholder. The stock of these associations carries a double liability;

(*d*) Reduced each year by payment of part of the mortgage debt.

Values.—The conservatism of appraisals made for the Federal Land banks is indicated by the fact that, during the year ended Nov. 30 1922 4,714 farms against which the banks had made loans totaling less than $15,000,000, were sold for approximately $40,000,000.

Operation.—In five and one-half years of active operation the twelve Federal Land banks have been built up until on May 31 1923 their capital was $39,808,297; reserve, $3,403,000; surplus and undivided profits, $3,741,105; and total assets, $787,750,071. All twelve banks are on a dividend-paying basis and every bank shows a surplus earned from its operations.

The United States Government, as of May 31 1923, owned approximately $3,000,000 of the capital stock of the Federal Land banks. The farm loan associations, during the year 1922, acquired approximately $8,500,000 of Federal Land Bank stock, 25% of the proceeds of which was used to retire stock owned by the Government, as required by the Farm Loan Act. The United States Treasury has purchased and now holds over $100,000,000 Federal Land Bank bonds. While these bonds are not Government obligations, and are not guaranteed by the Government, they are the secured obligations of banks operating under Federal charter with Governmental supervision, on whose boards of direction the Government is represented.

The following is the consolidated statement of condition of the Twelve Federal Land Banks at the close of business May 31 1923 (as officially reported by the Federal Farm Loan Board):

Assets.

Net mortgage loans		*$715,979,532 41
Accrued interest on mortgage loans (not matured)		11,614,624 13
United States Government bonds and securities		44,661,947 29
Accrued interest on bonds and securities (not matured)		274,857 47
Farm Loan bonds on hand (unsold)		1,455,430 00
Accrued interest on Farm Loan bonds on hand (not matured)		20,004 65
Other accrued interest (uncollected)		147,135 32
Notes receivable, acceptances, &c		331,112 56

Undivided profits		3,441,104 75
Total liabilities		$787,750,071 25

* Unpledged mortgages (gross), $15,088,234 77.

Federal Land Bank bonds have been officially held eligible for investment by savings banks in the following States:

Alabama, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

Federal Farm Loan Board Enlarges Basis for Loans.

Washington advices June 22 to the "Journal of Commerce" said:

Responding to demands from farming interests in the South and on the Pacific Coast the Farm Loan Board, it was announced to-day, has added several commodities to its list of "staple agricultural products" which may be warehoused and serve as the basis for loans through the intermediate credit banks.

The products newly listed are broom corn, beans, including soya beans, and canned fruits and vegetables. The Board's list formerly had been confined to grain, cotton, wool, tobacco and peanuts. Dairy products and eggs still remain subject to future consideration.

In its announcement of the new list the Board added the following as a "cautionary" note:

"Nuts and canned fruits and vegetables suggest special warehousing problems in addition to the ordinary warehousing questions which must be solved before loans or advances may be made, particularly as to marketability and as to peculiar warehousing facilities necessary to qualifying these products as non-perishable."

J. T. Holdsworth Elected President of Pennsylvania Joint Stock Land Bank.

The Bank of Pittsburgh, N. A., of Pittsburgh, announced on June 21 the resignation of Dr. J. T. Holdsworth as Vice-President, in charge of its foreign department, effective July 1 1923, when he is to become President of the Pennsylvania Joint Stock Land Bank at Philadelphia, Pa. The latter was organized Nov. 4 1922.

Companies May Store Silver—Sudden Halt in Government Purchases Causes Mines to Reduce Tonnage and Store Ore.

The following from Philadelphia appeared in the "Wall Street Journal" of June 23:

Precious metal mining companies may revert to the practice, inaugurated early in the war of storing silver and using gold production, with possibly some drawing on surplus account, to keep properties in operation. Termination of government purchases of silver earlier than had been expected found mining companies unprepared for the transition, and they are slowly feeling their way. Some silver companies are attempting to meet the overnight drop in silver metal from $1 to 65 cents an ounce by reducing tonnage and sorting the ore so as to increase value, and an effort will also be made to reduce costs. Possibility of storing silver and operating properties from proceeds of gold production will partly depend upon ability to effect some reduction in costs. Silver stored by many companies during the war was subsequently sold at substantially higher prices than obtained at the time metal was stored. The stored silver was carried at 50 cents an ounce at that time.

Suspension of Silver Purchases by Government—Under Secretary Gilbert Asked to Testify Before Senate Committee.

An indication that the suspension of silver purchases by the Government was still being contested was contained in Washington press advices June 25, which stated that Under Secretary of the Treasury S. P. Gilbert Jr. had been notified by the special Senate committee investigating the causes of the depression in the gold and silver mining industries that it desired him to appear before it this week to give testimony concerning the revocation of the allocation of about 9,000,000 ounces of silver under the Pittman Act. The "Journal of Commerce" from which this is learned, added:

Senator Key Pittman of Nevada, who is handling this phase of the inquiry, has announced that the committee will continue its fight to require the Treasury to purchase the full 209,000,000 ounces, which amount, he asserts, was specified by Congress in passing the Pittman Act, despite the position taken by the Treasury that it does not have to buy more than sufficient silver to replace the standard silver dollars actually sold to Great Britain.

The fight will be taken to the next Congress, it is stated, to upset the ruling of Comptroller General McCarl, who advised Secretary Mellon that he need not purchase at the arbitrary price of $1 an ounce silver to replace so much of the bullion obtained from melting silver dollars as was used for the coinage of subsidiary silver.

While we have already published various letters which passed between Senator Key Pittman on the one hand and Director of the Mint and Under Secretary of the Treasury Gilbert on the other, one letter which was addressed by the latter on May 9 to Senator Pittman, relative to the suspension of silver purchases by the Government under the Pittman Act, has apparently escaped notice. This has recently come to us; it is in answer to the Senator's letter of April 23 which was given in our issue of May 12, page 2073. As we stated June 16 (page 2715), the Government purchases of silver were terminated on June 14, and our various references to the matter have appeared in these columns April 7, page 1484; April 14, page 1603; April 28, page 1857: May 12, page 2073; June 2, page 2463; June 9, page 2589, and June 16, page 2715. One of these references included a letter addressed on May 31 to Senator Pittman by Under Secretary Gilbert, this having been given by us on page 2589 of our June 2 number. In order that we may have our record complete, we give herewith also Mr. Gilbert's letter of May 9:

May 9 1923.

My Dear Senator—I received your letter of April 23 1923, with respect to the cancellation under the Pittman Act of allocations of silver for subsidiary coinage, in which you suggest that, without regard to the question of the legal authority of the Treasury Department to cancel these allocations, it is morally obligated to treat such allocations as sales under the Act and to add the amount of such allocations to the purchases to be made under the Act. I note that you refer particularly to the statement issued by the Director of the Mint on March 30 1923, stating that there were then only about 20,000,000 ounces of silver remaining to be purchased under the Pittman Act, and imply that the difference between this figure and previously published figures was due to cancellation of the allocations for subsidiary coinage. This, I should say at the outset, is in error, for the Secretary of the Treasury had already announced on Dec. 31 1922 that the amount of silver bullion remaining to be purchased under the Pittman Act was then about 49,667,478 fine ounces. A copy of this statement is enclosed for your information. This figure took into account the cancellation of the allocations of silver for subsidiary coinage, and received wide public notice at the time. The reduction in the amount remaining to be purchased which occurred between Dec. 31 1922 and March 30 1923 was due to wholly different causes, entirely beyond the control of the Treasury, namely, first, the greatly increased production of silver, particularly as a by-product of other metals, and second, unusually heavy tenders of silver by large vendors, representing silver actually received at reduction works for smelting or refining, for which settlement had already been made with American miners on the basis of $1 per ounce, 1000 fine, pursuant to the Act.

As to the allocations of silver for subsidiary coinage, it is necessary to distinguish between the allocations of silver resulting from the melting down of silver dollars, and the allocations of silver bullion purchased under the provisions of the Pittman Act. By letter date Feb. 11 1922, acopy of which is enclosed, the Director of the Mint was authorized and directed to restore to the Pittman silver bullion account 4,341,753.61 ounces of silver, this amount representing a part of an allocation of 6,000,000 ounces of silver for subsidiary coinage which had been previously authorized out of silver bullion purchased under the Act, but which had not in fact ever been used for subsidiary coinage and much of which had never even been transferred on the books from the Pittman silver bullion account to the subsidiary silver bullion account. As to this 4,341,753.61 fine ounces, there can be no doubt about the authority of the Secretary of the Treasury to revoke the allocation, for under the express terms of Section 2 of the so-called Pittman Act it is provided, as to silver purchased under the Act, that "any excess of such silver so purchased over and above the requirements" for the purpose specified in Section 3 of the Act, "shall be coined into standard silver dollars or held for the purpose od such coinage." Notwithstanding the authority previously given to the Director of the Mint to use up to 6,000,000 of the silver purchased under the Act for subsidiary coinage, it had become evident that the amount in question was not needed for the purpose, and the 4,341,753.61 ounces being "excess of such silver so purchased over and above the requirements for such purposes," it was clearly within the authority of the Treasury to declare this silver excess silver and and put it back into the Pittman silver bullion account, thus making it available for the recoinage of standard silver dollars under the Act. The provision of Section 3 of the Act, to which you refer, stating that "The allocation of any silver to the Director of the Mint for subsidiary coinage shall, for the purpose of this Act, be regarded as a sale or resale," manifestly does not have any bearing on the question for the reason that, until carried out by the Director of the Mint, the authorization to use the silver for subsidiary coinage would be merely an authorization, and, it appearing that there was no necessity for it, could be revoked by the same authority which gave the original authorization. Certainly the Mint would not be expected, on account of what would be at the most a bookkeeping transaction, to go out and buy more silver to replace silver which had never left the Mint and at the most had only been transferred from one acocunt to another on the books of the Mint.

The remainder of the silver as to which the allocation for subsidiary coinage was revoked involved silver resulting from the melting of standard silver dollars, and the question of the authority to revoke this allocation, since it raised questions both of law and accounting, was presented to the Comptroller General of the United States for consideration. The Comptroller General gave his decision in the matter under date of Nov. 29 1922, a copy of which is herewith enclosed for your ready reference. This decision held that the Secretary of the Treasury was authorized, as a matter of law, to revoke allocations of silver amounting to 10,247,976.52 fine ounces and to restore this amount of silver to the standard silver dollar account, thus making it available for recoinage. This decision speaks for itself and shows, among other things, that in making it the Comptroller General had before him the provisions of the last sentence of Section 3 of the Act, as to allocations of silver subsidiary coinage, which you particularly emphasize in your letter. Under the laws governing the Executive Departments the Comptroller General's decision is conclusive and binding on the Secretary of the Treasury, and the questions of law and accounting having thus been disposed of, the Treasury proceeded forthwith to revoke the allocations of silver for subsidiary coinage covered by the decision, amounting in the aggregate to 10,247,976.52 fine ounces, and instructions accordingly were given to the Director of the Mint.

On the question of moral obligation as distinguished from legal authority, I think you will agree upon further consideration that there is no basis for questioning these revocations of allocations of silver for subsidiary coinage. The purpose of the repurchase provisions of the Pittman Act, as generally understood, was to assure to American producers the fixed price of $1 per ounce, 1,000 fine, for silver produced by mines situated within the United States and reduction works so locted, up to such amounts as might be necessary to coin "an aggregate number of standard silver dollars equal to the aggregate number of standard silver dollars theretofore melted or broken up and sold as bullion" under the provisions of the Act. The whole object, in other words, was to replace silver which had been sold as bullion out of the Treasury's holdings, and there would certainly be no equity whatever in expecting the Mint to purchase at the artificial price of $1 per ounce, 1,000 fine, a further amount of silver representing an amount allocated for subsidiary coinage but which had never in fact left the Treasury and was still being held as bullion in the vaults of the Mint. The silver thus held in the vaults, never having left the Mint, manifestly would not have to be replaced, and ordinary common sense would require the Treasury, in the proper administration of the Department, to restore the bullion back to the standard silver dollar bullion account as soon as it became evident that it would not be needed for subsidiary silver coinage, thus making it immediately available for recoinage into standard silver dollars and reducing the amount of silver to be purchased in the market at the artificial price of $1 per ounce. The fact of the matter is, therefore, that American producers have not in any way been prejudiced by the revocation of these allocations and have no standing in equity to ask that the Treasury buy these additional amounts of silver, beyond what is needed to cover the recoinage of standard silver dollars under the provisions of the Act.

Entirely apart from the fact that producers of silver have no speica equity in the matter, you will appreciate that in administering the provisions of the Act the Treasury of the United States must keep in mind the best interests of the country as a whole, and not merely the special interests of the silver producers. The revocation of these allocations of silver for subsidiary coinage means a saving to the people of the United States or, in other words, to the whole body of taxpayers, of over $5,000,000 representing in part the saving realized through not having to purchase over 14,500,000 ounces of silver at a price averaging about 30 cents an ounce over the regular market price, and in part a saving of interest resulting from making available for immediate coinage into standard silver dollars bullion which would otherwise be kept as a dead asset in the subsidiary silver bullion account until such later time as further silver might be needed for subsidiary coinage. The Comptroller General of the United States, the highest authority in these matters, having decided that the course was authorized, the Treasury's duty was clear and the allocations in question were accordingly revoked. This action has saved the people of the United States about $5,000,000, without depriving the silver producers of anything to which they were properly entitled under the law. To reverse this action now and make the additional purchases, would mean a gift of about $5,000,000 of the public funds to the producers of silver, and throw upon the Treasury of the United States the burden of carrying, at an artificial price, over 14,500,000 ounces of silver not needed for any purpose.

Very truly yours,
S. P. GILBERT, JR., *Under Secretary.*

Hon. Key Pittman, Vice-Chairman, Senate Commission of Gold and Silver Inquiry, United States Senate, Washington, D. C.

Amendment to Constitution of New York Stock Exchange Restricting Operations of Members Acting for Affiliated Corporations.

An amendment to the constitution of the New York Stock Exchange, which, it is pointed out in the "Journal of Commerce," is designed to prohibit incorporated firms which deal in securities, but which are not members of the Exchange, from dealing directly in stocks and bonds through allied member interests was adopted by the Governing Committee of the Exchange on June 27. It is stipulated that "a member of the Exchange or firm registered thereon shall not act as broker for any corporation or association in the purchase or sale of stock, bonds, or other securities if such corporation or association is controlled through stock ownership or otherwise by such member or firm." Furthermore, the amendment states, if a member of the Exchange, or partner of such a member, is an officer, director or employee of any such corporation, he "shall not participate in any commission paid by such corporation unless either such member or the firm in which he is a partner is engaged in general brokerage business and in connection with such business actively participates in the transaction on which such commission is paid or such member is actively engaged in business as a floor broker." The adoption of the amendment was announced as follows on June 28 by the Secretary of the Exchange, E. V. D. Cox:

The following amendment to the Constitution was adopted by the Governing Committee on June 27 1923 and is submitted to the Exchange in accordance with the provisions of Article XXXVIII of the Constitution and will become law if not disapproved within one week by a majority vote of the entire membership:

Amend the Constitution by inserting therein a new Article, to be known as Article XXXVI, and to read as follows:

ARTICLE XXXVI.

Corporations and Associations.

"A member of the Exchange or firm registered thereon shall not act as a broker for any corporation or association in the purchase or sale of stocks, bonds or other securities if such corporation or association is controlled through stock ownership or otherwise by such member or firm, or by a member or members of such firm and is itself engaged in the business of buying and selling stocks, bonds or other securities as broker for others.

"If a member of the Exchange or a partner of such member is an officer, director or employee of any corporation or association engaged in the business of buying and selling stocks, bonds or other securities for its own account or as broker for others, or if such member or his partner or firm is a stockholder in any such corporation or association, such member shall not participate in any commission paid by such corporation or association unless either such member or the firm in which he is a partner is engaged in a general brokerage business and in connection with such business actively participates in the transaction on which such commission is paid or such member is actively engaged in business as a floor broker.

"No member of the Exchange or firm registered thereon shall suffer or permit any corporation or association engaged in the business of buying and selling stocks, bonds or other securities for its own account or as broker or agent for others to use as its office the office or any branch office of such member or firm, or to employ in its business the same business organization as that employed by such member or firm, nor voluntarily suffer or permit any such corporation or association to conduct its business under a name that does not clearly differentiate such corporation or association from such member or firm.

"If a member of the Exchange or a firm registered thereon, or a member or members of such firm control, directly or indirectly through stock ownership or otherwise, a corporation or association engaged in the business of buying and selling stocks, bonds or other securities for its own account or as broker or agent for others, such member or firm shall be responsible for any fraud committed by such corporation or association or for any act or proceeding of such corporation or association contrary to just and equitable principles of trade or detrimental to the interest and welfare of the Exchange, or tending to defeat the purpose of the commission law of the Exchange or any provisions of the Constitution of the Exchange or resolutions adopted by the Governing Committee, to the same extent and in the same manner as though such fraud or act or proceeding had been the fraud, act or proceeding of such member or firm and such member or firm shall be under the same duty to produce the books, records and papers of any such corporation or association for the examination and inspection of the Governing Committee of the Exchange or of any standing or special committee thereof, or of anyone acting under the authority of any such committee, and to furnish evidence in regard to the acts and proceedings of such corporation or association, and shall be subject to the same penalties for the neglect of such duty, as if such books, records, papers, acts and proceedings were the books, records, papers, acts and proceedings of such member or firm."

Renumber the present Article XXXVI to read Article XXXVII, the present Article XXXVII to read Article XXXVIII and the present Article XXXVIII to read Article XXXIX.

New York State Attorney-General Sherman Suggests that Exchanges Require Waivers of Immunity—Position of New York Stock Exchange.

According to State Attorney-General Carl Sherman, a suggestion by him that an agreement to sign a waiver of immunity be made a prerequisite to membership in any of the exchanges in New York is not met, in the recent resolutions adopted by the New York Stock Exchange and the Curb Market, although, says Mr. Sherman, "I am inclined to think that the Stock Exchange and the Curb were trying to give me what I asked for in their resolutions." The resolution of the Stock Exchange calling upon members to give testimony or produce their books in legal proceedings was given in our issue of June 16, page 2716; the resolution of similar purport of the Curb Market appears in this issue of our paper. According to an item in the New York "Times" of the 21st the Exchange officials are of the opinion that the Board of Governors would not have power to pass a resolution providing for such waiver of immunity, but indicated that they would consider a plan to propose an amendment to the constitution of the Exchange embodying the request for the waiver of immunity. Attorney-General Sherman in referring to his suggestion stated, according to Albany press advices June 15:

I suggested to representatives of the exchanges that they incorporate in their constitutions a requirement that each member sign a written waiver of immunity in order that when the Attorney-General finds it necessary to examine the books of any member or concern there can be no question as to any waiver. Agreement to sign such waiver should be a prerequisite to membership, I urged.

I take the position that there is a vital public interest in the proposed house-cleaning and in any investigations that are made. In view of what has happened this is doubly true. It is the public that has suffered.

If the exchange authorities have acceded to the suggestions I have made it will do much to facilitate the production of books and disclose violations of the law.

Likewise, the books of a concern will be available without impairment of full responsibility before a trustee in bankruptcy is appointed, as has been the case in the past. The enforcement of the immunity waiver rule will permit action before the public has been drained to the point of a forced insolvency.

The New York "Times" of the 17th inst. reported the Attorney-General as making the following statement to it by telephone:

The resolution adopted by the Stock Exchange and the Curb Market, as I have read them in the newspapers, are a step in the right direction, but they are not what I intimated to them that I wanted. What I asked for was that the Exchanges should incorporate in their constitutions a requirement that each member sign a written waiver of immunity in order that when the Attorney-General finds it necessary to examine the books of any member or concern, there can be no question of any waiver. I urged that an agreement to sign such a waiver should be a prerequisite to membership, and that any broker already a member of the Exchange who refused to sign such a waiver should be expelled.

Of course, the law does not give me any right to dictate to any Stock exchange what kind of a constitution it shall have for the government of its own members. Therefore, I didn't make any demand on them or tell them what to do. I merely had a talk with the presidents and attorneys of the three exchanges—the big Exchange, the Curb and the Consolidated—and put my suggestion in the form of a request.

Conferred With Exchange Heads.

I was more concerned about the Curb and the Consolidated than the big Exchange. The Curb and the Consolidated had started out to make a house-cleaning of their own ad to purge their membership of bucket shops and crooks, according to their own statements, and I thought that the public, which had been the chief sufferer from the bucket shops, had a vital interest in such investigations. Therefore, I called in Mr. Curtis, President of the Curb, and Mr. Silkworth, President of the Consolidated, and asked permission to co-operate in their investigation. They agreed to co-operate with me, and we talked the whole thing over.

I was not so much interested in the big Exchange, for I did not regard the situation there as critical. However, I assume that the Governors of the Stock Exchange heard that I was taking up the matter with the Curb and the Consolidated. At any rate, it was suggested to me that I call in Mr. Cromwell also.

I have been conferring with the representatives of the three exchanges separately for the last two weeks. In the course of the conferences I made my suggestion, which, if adopted, would have provided for the only satisfactory, permanent solution of the bucket-shop problem. If I could proceed against any broker under the Martin law, with the danger of giving immunity eliminated, I could immediately step out and investigate with a free hand. I would not have to worry then lest I might let some crook get by without holding him responsible for his criminal acts. I would not have to be so ultra-careful as I have had to be in my investigation to date.

For example, I had under subpoena the books of two of the orokerage houses that have failed recently, but we had to refrain from examining the books because we suspected they were about to crash. Had we taken their books, they would have failed anyway, and our investigtion would have been futile, for all we seek to do under the Martin law is to close up the bucket shops. It is for the County Prosecutor to prosecute them for bucketing orders and other criminal offenses, and our examination of the books would have given them immunity from such prosecution. At present, we are careful not to examine the books of any concern unless it looks as if they were likely to remain in business. In such cases, we feel that we protect the public by forcing them out of business, even if we have to give them immunity.

Even though the exchanges do not give me what I ask for in the waiver of immunity, bucket shops need not think that the Attorney-General's office is impotent. I intend to close up all the bucket shops under the Martin law before I have finished with the job, whether the immunity question is settled in the way I desire, or not.

I am inclined to think that the Stock Exchange and the Curb were trying to give me wht I asked for in their resolutions and that they did not succeed in doing just what they intended to do. When I saw the papers this morning I telephoned to Judge Dwyer, who is in charge of the New York office, and asked him to see the representatives of the Stock Exchange and the Curb and ask them whether their resolutions were intended to meet my suggestion. Of course, I do not know that they were so intended. The resolutions may have been adopted to meet an entirely different situation.

Now Asks for Full Waiver.

But if they were intended to do what I suggested, I asked Judge Dwyer to point out to the two exchanges that they did not cover the ground, and that what we wanted was a full written waiver of immunity whenever we wish to examine the books of any broker we are investigating. I also asked Judge Dwyer to point out to them that we can already compel such brokers to produce their books under the authority conferred upon us by the Martin law, but that the law also specifically provides for immunity unless it is waived. Judge Dwyer told me he probably could not do this until Monday, as Saturday is a hard day to do business.

With reference to a conference held on June 20 at the office of Seymour L. Cromwell, President of the Stock Exchange, between representatives of the Exchange and the Attorney-General, the "Times" on the 21st said:

Mr. Cromwell, E. H. H. Simmons, a Vice-President of the Exchange, and Mr. Taylor of counsel for the Exchange, met Deputy Attorney-General John J. Dwyer and Abraham Rosenthal.

Says Resolutions Mean Nothing.

"We told the representatives of the Exchange," said Mr. Dwyer later, "that the Attorney-General regarded the resolutions adopted by the Exchange last week as a step in the right direction, but did not think they went far enough. We pointed out that the resolutions really were of no effect at all, as far as our investigations under the Martin law are concerned, because they merely require all members of the Exchange to give testimony and produce their books in legal proceedings, without refusing to do so on the ground that it would incriminate or degrade them and because the Martin law already gives us the right to compel brokers under subpoena to testify and produce their books.

"The point is that the law also grants them immunity from prosecution for any crimes that come out from such testimony or examination, unless they waive immunity. In all our investigations to date, nine out of ten brokers have refused to waive immunity, and we are up against the problem of trying to get any information in a way that won't prevent District Attorney Banton from sending the brokers who prove to be crooks to jail.

"Therefore, we told Mr. Cromwell and his associates that what we wanted was that members of the Stock Exchange, when proceedinsg were instituted against them by the Attorney-General under the Martin law, should sign a waiver of immunity from crominal prosecution for anything about which they might testify, and that a refusal to sign hsould be sufficient cause for suspension or expulsion by the Board of Governors.

"After consulting among themselves, the Exchange officials, on advice of counsel, replied that they did not think that the Board of Governors would have power to pass a resolution providing for such a waiver of immunity, and therefore they refused to propose such a resolution to the Governors. They said that the reason they thought the Governors were powerless in the matter was that members of the Stock Exchange could not be compelled to waive their constitutional rights without their own consent. We replied that they had already directed their members to waive their constitutional rights in one instance, as the resolutions adopted last week prevents members from using tehir constitutional right to refuse to testify or produce their books on the ground that it might incriminate or degrade them, but they did not agree with us.

Members to Vote on Waiver.

"They did say, however, that they would consider a plan to propose an amendment to the constitution of the Exchange embodying our request for the waiver of immunity, so that every member of the Exchange would have an opportunity to vote on it, but they said that this would take from four to six weeks. They said a notice of the proposed amendment would have to be posted for ten days, and a meeting of members called in advance to consider the matter."

Mr. Dwyer announced that he also conferred yesterday with representatives of the New York Curb Market Association, whose Board of Governor passed resolutions similar to those of the big Exchange last week, and that the Curb officials showed a disposition to give the Attorney-General what he asked for.

"The Curb Market is still consiedring the question of amending the resolutions so as to inc de the waiver of immunity," Mr. Dwyer said. "They at least have not turned us down. I might say at this point that in our investigations of complaints aecently, which have been largely against Curb houses, the Curb officials have given up complete co-operation and have acted in a very commendable manner in every respect. They promise us to consider the immunity matter further and to give us an answer in the next few days."

Members of New York Stock Exchange Ask to Supply Latter with Recent Private Wire Communications.

The following communication asking members of the New York Stock Exchange to forward to the Committee on Business Conduct certain telegraphic communications relating to the financial condition of members was addressed to the latter by Secretary Cox on June 22:

New York June 22 1923.

To Members of the Exchange

Referrring to the circular issued by the Secretary of the Exchange under date of December 1 1920, reading as follows:

"I am instructed by the Committee on Business Conduct to notify you to keep on file for at least two weeks, all communications sent and received over private wires, as the Committee may wish to inspect them,"

the Committee on Business Conduct now requests you to please send to ir promptly all telegraphic communications relating in any way to the financial condition of members of the Exchange sent or received by you during the two weeks ending to-day.

Very truly yours,
E. V. D. COX, *Secretary.*

As to the reason therefor, the New York "Tribune" of June 24 said:

The New York Stock Exchange announced yesterday that it was using all its facilities to ascertain the source of the unwarranted rumors that followed last week in the wake of the appointment of receivers for Knauth, Nachod & Kuhne, and Zimmermann & Forshay, the two most important failures of recent years.

So pernicious and persistent were the whisperings of the rumor mongers that houses of unquestioned standing and stability were brought into the gossip of brokerage offices. The effect on the stock market was seen in price declines, which, according to many observers, caused many issues to sell below their intrinsic worth. This was due not only to hurried liquidation by holders whose confidence had been shaken, but to the activities of bear traders who played an important part in accelerating the break.

Committee on Bears' Trail.

Plans of the Stock Exchange to learn if any of its members have been guilty of helping the dissemination of the recent bearish propaganda include the transmission of a circular issued by E. V. D. Cox, Secretary of the Exchange, as far back as December 1 1920.

Questionnaires to Members of New York Stock Exchange to Go Out June 30.

The following is from the "Daily Financial America" of June 29:

The New York Stock Exchange will send out the customary questionnaire to members on June 30 calling for their condition as of that date. It is stated that it will not differ materially from the one sent out on Dec. 31 last.

Einstein, Ward & Co., New York Stock Exchange Firm, Fail.

Announcement that Einstein, Ward & Co., 25 Broad Street, this city, had failed to meet their obligations was made from the rostrum of the New York Stock Exchange on Monday morning, June 25. An involuntary petition in bankruptcy was filed in the Federal District Court on Saturday afternoon against the firm, and Judge Knox appointed William C. Fitts receiver under a bond of $10,000. The failed firm consisted of Samuel E. Einstein (the floor member of the Exchange), Marshall E. Ward and David S. Einstein. The firm as constituted at the time of the failure had only been in existence, it is said, four years, but Mr. Einstein had been a member of the New York Stock Exchange for twenty-three years. Through their attorneys, Burnstein & Geist, 276 Fifth Avenue, Einstein, Ward & Co. on Saturday issued the following statement:

The concern's liabilities are $125,000, and its assets consist of a membership and a seat on the New York Stock Exchange, held in the name of Samuel E. Einstein. No stocks, bonds or other securities are in its possession belonging to customers, and in fact it has not traded for customers or in its own behalf for more than two years past.

The present liabilities are practically all old liabilities, not more than $25,000 being incurred since the firm was suspended. Bankruptcy proceedings were necessary to carry out the reorganization of the firm. Friends interested in the welfare of the partners will lend every assistance to rehabilitate them in business. Efforts have been made to adjust doubtful claims. If the book accounts are collected they will render the firm completely solvent.

In March 1921 the firm of Einstein, Ward & Co. were suspended from the New York Stock Exchange for a period of one year and reinstated. With regard to the failure, Seymour Cromwell, President of the New York Stock Exchange, said:

The firm was suspended March 23 1921, charges having been brought on Jan. 20 of that year under a clause in the constitution which had to do with reckless and unbusiness-like dealings, which means that they were trading without enough capital, or carrying accounts without sufficient capital. It was, therefore, a risk to their customers, and it was considered, according to the wording of the constitution, conduct or proceeding inconsistent with just and equitable principles of trading.

A questionnaire was mailed to them on Sept. 23 1922 to report as of Sept. 30, and the answer was to be filed before Oct. 15. There was a letter dated Oct. 14 of the same year to the Committee on Business Conduct, which said: "We beg to advise you that we have no account of any nature whatsoever on our books, as the only business we are doing is being done by Samuel E. Einstein as a floor broker. We have no bank loans." In other words, that eliminated them from coming under the questionnaire.

The Stock Exchange then sent a letter on Oct. 17 saying no answer to the questionnaire was, therefore, required. In addition, an inspection of their books had been made which disclosed that what later developed in answer to the questionnaire was true.

Laurence Tweedy Heads New York Consoliated Stock Exchange.

On Tuesday of this week (June 26) William S. Silkworth's promised resignation as President of the New York Consolidated Stock Exchange went into effect, two days before the date he had said he would resign. Mr. Silkworth also sold his seat in the Exchange, thereby completely severing his connection with the organization. After a special meeting of the Board of Governors held on Monday, at which Mr. Silkworth's resignation was presented and accepted, the following statement was issued by the Board:

The Special Committee of Five made a preliminary report to the Board.

W. S. Silkworth resigned as President, to take effect Tuesday, June 26. His resignation was accepted. He also sold his seat to the exchange and thereby ceased to be a member.

The Special Committee will make a further report soon.

Mr. Silkworth was succeeded in office by Laurence Tweedy, heretofore First Vice-President of the Exchange. After conferring with the Special Committee of Five and the Governors of the Exchange late Tuesday afternoon, Mr. Tweedy gave out the following statement:

At the regular meeting of the Board of Governors on Thursday one of my first acts as President of the Exchange will be to present to the Board for its approval the various committees which conduct a large part of the exchange's business. The present Board of Governors is undoubtedly the ablest Board that has held office during the last twenty years, and the personnel of the committees ought to immediately receive the stamp of public approval.

The present Board believes that the first duty of the exchange is toward the public. If the public is rigorously protected, the exchange and its members will prosper. For my part, I am determined to see that every customer in every commission house gets a square deal.

The events that happened on the exchange more than a year ago will never occur again. For a year the Board has been working to correct conditions that had their inception three or four years ago. It has made great progress in eliminating unworthy and undesirable members. Our houses, according to the best of my knowledge, are now doing a clean, straight commission business. The reorganization of the exchange, however, has not been completed, and various reforms and constructive changes in the public interest will be inaugurated from time to time.

The Ways and Means Committee, the most important committee of our exchange, will consist of seven members of unusual ability and unimpeachable character. It will unquestionably be the strongest Ways and Means Committee that has held office during my membership on the exchange. Ogden D. Budd, a former President, and Chairman of the Special Committee of Five, will be Chairman of this committee. Leopold Spingarn has accepted the Vice-Chairmanship. The other members are William E. Power, Thomas B. Maloney, R. Tracy Falk and Chester I. Crowell, leaving one vacancy, which will soon be filled. The other committees are not entirely formed, but will be announced after Thursday's meeting.

The whole Board is working together. The whole membership of the exchange is heartily co-operating with the Board and with the President. All complaints will be given my immediate and personal attention. The new management of the exchange feels that it merits the confidence of the public. Constructive criticism, no matter what the source, will always be welcomed.

The first formal meeting of the Board of Governors of the Exchange under the new regime was held on Thursday, June 28. The principal business transacted at the meeting was the appointment of the various committees which direct the larger part of the affairs of the Exchange. Following the meeting, Mr. Tweedy gave out a statement (according to the New York "Times") in which he said:

The special committee of five, headed by Ogden D. Budd, made a brief report of progress to the Board to-day. The Committee will continue to function and will make recommendations to the Board from time to time as to ways in which the administrative machinery of the Exchange may be improved and strengthened. The so-called reorganization plan, which was proposed by the Exchange's attorneys, Sullivan & Cromwell, is still being considered by counsel, and consequently no announcement concerning it can be made now.

The principal business transacted at the meeting was the appointment of the various committees, which conduct a large amount of the Exchange's business, and their ratification by the Board. These committees are undoubtedly the strongest that have held ofice during the past twenty years, and the membership on the Exchange of each individual on the committees averages above twenty years. The Ways and Means Committee, the Membership Committee and the Committee on Law are particularly able and well fitted for their tasks. I am positive that in the hands of these members the future of the Exchange is most bright.

J. Frank Mowell, who joined the Exchange in 1900 and who for fifteen years was a member of the Board and served as President of the Exchange between 1917 and 1919, was unanimously elected to the Board to-day. Mr Howell will be Second Vice-President, filling the office left vacant by Leopold Spingarn, who is now First Vice-President. Mr. Howell typifies, to my mind, every thing that is best in Wall Street.

Nelson S. Murray Expelled from New York Curb.

The New York Curb Market Association on June 28 announced the expulsion from regular membership in the exchange of Nelson S. Murray, a broker, at 67 Wall Street, this city. Murray was declared to have violated Article 17 of the Curb Market's constitution.

C. Ernest Gault, Montreal, Fails.

The following press dispatch from Montreal yesterday (June 29) reported the failure of C. Ernest Gault of that city:

C. Ernest Gault, a member of the local Stock Exchange, has assigned for the benefit of creditors. His failure is due to complications arising from nofes given to New York interests and nas nothing to do with local operations. His local collateral loans amounted to only $300,000.

Time for Tax Refund Extended to Sept. 1—Revised New York State Income Returns Should be Filed by Owners of Bank Stocks and "Moneyed Capitalists."

The "Wall Street Journal" announced the following from Albany June 20:

Shareholders in national and State banks and trust companies have been granted a general extension of time by the State Tax Commission until Sept. 1 1923 to file amended 1922 returns claiming refunds on dividend payments during that year.

In announcing this "breathing time" postponing the July 1 due date in the law, the Commission requests careful attention by interested taxpayers to the details of these amended returns. It asks that wherever possible a return be rpepared on the same form as the old one and a schedule showing the amount of each item of bank or trust company dividends with the name of the institution. If taxpayers, submit complete facts prompt approval of the refunds is possible without correspondence. If the data is insufficient, the refund will necessarily be held up until additional information makes possible its approval.

If taxpayers are unable to readily secure return blanks, the Commission will accept affidavits, but these should carry detailed facts similar to the information necessary on the amended return.

No individual requests for extensions will be necessary. If the amended returns or affidavits are mailed before Sept. 1, they will be accepted by the Commission.

New York Curb Market Adopts Resolution Compelling Members to Give Testimony and Produce Their Books and Papers in All Legal Proceedings.

At a special meeting of the Board of Governors of the New York Curb Market held June 15 1923 the following resolution was unanimously adopted:

Resolved That no member of this exchange shall in any legal proceeding, whether civil or criminal, refuse to give testimony or to produce his books and papers, or the books and papers of his firm, concerning his transactions or the transactions of his firm as a broker, on the ground that such testimony or the production of such books and papers will tend to incriminate or degrade him.

Violation of this resolution shall be punishable by suspension or expulsion as the Board of Governors may determine.

JOHN W. CURTIS, *President.*

Federal Reserve Board Decides Cuban Bank Agency—Atlanta and Federal Reserve Banks to Open Agencies, Working Co-operatively.

A decision by the Federal Reserve Board on the question of the establishment of a Cuban agency was announced on June 27, when it made known that it had approved a plan whereby the Federal Reserve Banks of Atlanta and Boston would open agencies in Havana, "working co-operatively along certain definite lines." Considerable agitation had arisen over the move by the Federal Reserve Board of Boston to secure authority from the Federal Reserve Board to establish a branch bank in Havana—the Federal Reserve Bank of Atlanta, as we noted in our issue of June 2, page 2465, opposing the action of the Boston Reserve Bank on the ground that it would infringe on the Atlanta's bank's natural territory and would impair the "usefulness and ability of Atlanta to serve her large agricultural territory by eliminating its circulation in Cuba." The adjustment of the controversy was announced as follows by the Federal Reserve Board on June 27:

For some time the Federal Reserve Board has been considering the matter of the use of Federal Reserve and other currency of the United States in Cuba. Our relations with Cuba are unique, because of the provisions of the Platt Amendment, and also because the currency of the United States has been made legal tender by act of the Cuban Government, but no adequate machinery has ever been set up by which unfit paper currency could be sent back to the United States for redemption and replacement.

The Board has finally decided to approve a plan agreed upon by the Federal Reserve banks of Atlanta and Boston by which they are to open agencies in Havana working co-operatively along certain definite lines. It happens that a considerable part of the paper currency in Cuba consists of notes issued by the Federal Reserve Bank of Atlanta and the plan is expected to continue these notes in circulation.

It is expected that currency will be presented to the agencies for the purchase of cable transfers and that the currency received will be at once sorted so that the unfit bills can be sent back to this country for replacement by new currency. The new money will then be put into circulation through the purchase by the Reserve agencies of bills of exchange from the banks operating in Cuba.

This, it is expected, will result not only in replacing unfit paper money with new currency, but will have a tendency to stabilize banking conditions. Banks operating in Cuba will be enabled to carry on their business without the necessity of holding abnormal reserves, and will be able at any time to obtain currency by selling prime bills of exchange originating in import or export transactions. The Board's regulations have undertaken in some detail to safeguard these transactions.

It was on the application of the Boston Reserve Bank that the matter first came definitely before the Board, and it was through agreement between the Atlanta Reserve Bank and the Boston Bank that it was worked out in detail. Some changes in detail may become necessary when the agencies get into operation, as the establishment of such an agency is an entirely new thing, and the Board has reserved the right to terminate the agencies at any time if it deems such action advisable.

Federal Reserve Board Withdraws Member Bank Privilege to Rediscount for Non-Members.

In indicating that the privilege accorded to member banks to act as agents in rediscounting for non-member banks had been withdrawn D. R. Crissinger, Governor of the Federal Reserve Board, on June 26 said:

The Federal Reserve Board announces that the general privilege given to member banks during the emergency of 1921 to act as agents in rediscounting for non-member banks is now withdrawn and the Board further announces that hereafter this privilege shall be allowed only upon application of the non-member bank concerned and the approval thereof by the Federal Reserve Board.

As to the Board's action, the "Journal of Commerce," in its advices from Washington June 26 said:

A step in the direction of increasing the numerical strength of bank membership in the Federal Reserve system was taken to-day by the Federal Reserve Board in withdrawing the rediscounting privilege formerly extended to non-member banks. Announcement of the Board's action was made by Governor Crissinger.

Actually very little use of the rediscounting privilege was made by non-member banks during the critical times of two or three years ago, but the extension of this facility by the Reserve system was considered to be of considerable psychological value in certain sections of the country. Lately, however, a number of the member banks have objected to the continuance of the policy on the theory that should it become of actual value non-member banks could enjoy virtually the same rediscounting privileges as institutions complying with the regulations of the system.

Secretary of Treasury Mellon Sails for Europe.

Secretary of the Treasury Andrew W. Mellon sailed for Europe last Saturday, June 23, on the steamer Majestic of the White Star Line. All matters of official import, including the liquor seizure tangle and the funding of foreign debts to the United States, will be barred from Mr. Mellon's mind during his trip abroad, he said, as he embarked, according to the "Journal of Commerce," of the 25th from which we take the following:

He said, however, he expected to meet Premier Baldwin of Great Britain, provided this would be a purely social visit.

He refused to be worried concerning the seizure of liquors aboard the Baltic Saturday, and declared he knew nothing more about it than he had read in the newspapers.

He expects to remain abroad until the latter part of August.

S. P. Gilbert Jr. Resigns as Under Secretary of United States Treasury.

Announcement was made on June 22 by Secretary of the Treasury Mellon of the resignation of S. Parker Gilbert Jr. of New York as Under Secretary of the Treasury. The resignation will become effective after Mr. Mellon's return from Europe in the fall, Mr. Gilbert in the meanwhile functioning as Acting Secretary. Mr. Gilbert will return to the practice of law, becoming a member of the newly formed firm of Cravath, Henderson & de Gersdorff. This firm succeeds to-day (June 30) that of Cravath, Henderson, Leffingwell & de Gersdorff, the change in name being made incident with the retirement of R. C. Leffingwell, who withdraws to become a member of the firm of J. P. Morgan & Co.

Degree of Doctor of Laws Conferred on J. P. Morgan by Harvard College.

The following is taken from the "Daily Financial America" of June 22:

Doctor of Laws, W. L. McKenzie King, Prime Minister of Canada; J. P. Morgan of New York; Samuel W. Stratton, President of Massachusetts Institute of Technology, and James H. Dellard, of Charlottsville, Va.

In conferring the honorary degree of doctor of laws on Mr. Morgan, the announcement said: "John Pierpont Morgan, a son of Harvard, heir to the power and responsibilities of a great financial house, he has used them with courage in a dark crisis of the World War and at all time with uprightness, public spirit and generosity."

Judge Warwick Made Fiscal Agent of Panama.

The appointment of Walter W. Warwick, of Ohio, former Comptroller of the Treasury, as fiscal agent for the Republic of Panama was announced on June 25 by Dr. Eusebio A. Morales, Secretary of the Treasury of Panama, now on a special mission to the United States. Judge Warwick has more recently been assistant to General Lord, Director of the Budget. His contract with the Republic of Panama becomes effective July 1; it covers a two-year period.

President Harding's Itinerary to Alaska and Return.

Regarding the itinerary of President Harding's trip to Alaska, to which reference has already been made in these columns June 2, page 2482, and June 9 page 2591, the New York "Tribune" on June 28 announced the following advices from Seattle:

The itinerary of President Harding from the time he leaves Tacoma on July 5 until he returns to Seattle, July 27 after a visit to Vancouver, B. C., July 26, has been received by the Seattle Chamber of Commerce from Governor Scott C. Bone of Alaska.

Departing from Tacoma on the army transport Henderson, the Presidential party is to touch at Ketchikan on July 7, spending part of the day there, and to be at Wrangell on July 8, reaching Juneau, the capital of Alaska on July 9. The Henderson will start across the Gulf of Alaska on July 10, and will reach Seward on July 13 and Anchorage on July 14.

From Anchorage the President is to go to Fairbanks by the Alaska Railroad, being due in Fairbanks on July 15. Then the party is to travel by automobile stage to Chitina, whence the Copper River & Northwestern Railway is to be taken to Cordova, where the Henderson will be in waiting.

On the return from Cordova stops are to be made at Sitka on July 21, and if time permits, at Annette Island on July 22 and Metlakhatla on July23.

The President will not visit the Yukon.

Death of Several Members of President Harding's Party as Result of Automobile Accident.

The President's tour in the West has been marred by an automobile accident which has resulted in the death of several men in the Presidential party. The accident occured on Sunday last, June 24, when an automobile, in which four members of the party were riding, plunged over an embankment into Bear Creek Canyon, a short distance from Denver. One of the party, Sumner Curtis of Washington, Representative of the Republican National Committee, was killed instantly. Thomas French of Denver, a representative of the Great Western Sugar Company, who was driving the car, died on the way to the hospital. Donald

Craig, Manager of the Washington Bureau of the New York "Herald" and Col. Thomas Dawson, Colorado State Historian and veteran Washington newspaperman, the two other occupants of the car, were injured, Col. Dawson dying from the result of his injuries on the 25th. It was stated on the latter date that Mr. Craig, who was still in the hospital, would probably recover.

President Harding Discussing Cost of Living Urges Scheme of Co-operation Among Consumers Financed By Savings Banks.

Asserting that "one of the most engrossing problems of our time, confronting countries and all societies, is the exorbitant cost of living," President Harding, in an address at Idaho Falls, Idaho, June 28 stated it to be the need of this time "to shorten the bridge between producer and consumer, and to reduce the toll that must be paid for passing over it." "We have in recent years," he pointed out, "given much attention to developing a system of agricultural finance, particularly adapted to the needs of American farm producers," and he said, "we might with profit to the whole people consider the possibility of an analogous organization to promote and encourage, through measures of credit and finance a proper organization of the consuming community, in both cities and countries." "I have wondered," observed the President, "if it were not possible, for example, that a scheme of co-operation among consumers, financed in part, at least, through a carefully organized and supervised adaptation of the savings banks or the building and loan society might be made to serve a splendidly useful purpose in this department of our economic life." "The development of such a general program into a sound, working business scheme," said the President, "would doubtless be found chiefly an affair of the State Governments, but one in which the jointure of State and National authorities might prove practicable and even necessary." From the Associated Press accounts of the President's speech, we quote the following:

"One of the most engrossing problems of our time, confronting all countries and all societies, is the exorbitant cost of living," said the President in his address. "We realize that the real producer, under our elaborate and costly system of distribution, is not permitted a fair share of his product for his own use and enjoyment. We have become convinced that somehow our system of distribution has grown too cumbersome, too costly, too complex, too indirect, too unrelated to the interests of real producers and legitimate consumers. We must find methods to take up as much as possible of the slack in the long line between producer and consumer: to give the producer a better share in that which he furnishes to the community, and to enable the consumer to meet his requirements at a reasonable cost.

"To this end many experiments have been made in co-operative production, transportation, distribution and purchasing. To a great extent, these experiments have proceeded from the enterprise and initiative of the Western people, to whom these problems have presented themselves with especial insistence. But for the spirit of co-operation, the willingness to be mutually helpful, the determination to give first place to the interests of the community, you could not have made your West what it is. Working co-operations on a great scale, practical in operation and adequate to cope with our problems, can never be possible except where there is this spirit, determination and purpose. It is because the West has led so far in devising such working programs that I have thought to say a few words along this line to-day.

"Developments of the last generation have brought the instrumentalities of transportation, of finance, of corporate organization and operation into a closer harmony with the true public interest than ever before. The Government has sought to make itself helpful, to point the way, to remove ancient barriers of custom or tradition, and to curb the excessive demands of privilege, in order to cheapen for the great public many of the services which formerly were dominated by the private interests and operated with too exclusive a consideration for private profit.

"Anything tending to break down personal initiative, to destroy enterprise and ambition, must not enter into any program which can hope for the approval of the American people. Ours is an individualistic society and we want it to remain so. We want this Republic to remain always the land of opportunity wherein every man's abilities and usefulness shall measure his personal advancement and prosperity. The kind of a program to encourage co-operation and co-ordination which I have in mind would not interfere with the freedom of proper opportunity, rather it would enhance the individual's chance to better his individual fortune.

"The need of this time is to shorten the bridge between producer and consumer and to reduce the toll that must be paid for passing over it. We all know a good deal about the various co-operative societies, associations and corporations which have undertaken, in many cases with notable success, to improve the position of the agricultural producers. Such organizations have been successful in all parts of this country and in many parts of the Old World. They have already done a great work and taught us many valuable lessons. Where there are obstacles imposed by unfortunate statutes or public policies, or in the way of expanding such activities as these, they might well be gradually removed through measures of helpfulness and encouragement.

"On the whole, I think the agricultural community has been more alive to the promotion of its interests along these lines than has the urban community. The farmers have seen where their interest lay, and have been more prompt and energetic in adopting effective measures to promote them, than the people of the city and town have been. There is need to have working and practical co-operative associations of producers in the country, and at the same time to have equally effective co-operations among the consuming communities of the cities and towns; and, finally, to link these two sets of co-operators together in a co-ordination for mutual advantage to both.

"I believe it is possible, and altogether desirable, that systems of credit and finance should be developed, under public auspices, to encourage both these kinds of co-operation; and to draw them together into a harmonious working scheme of widespread distribution at the lowest possible expense.

"We have in recent years given much attention to developing a system of agricultural finance, particularly adapted to the needs of American farm producers. Some critics have, indeed, protested that it was class legislation. Perhaps it was, but as I suggested in discussing the problems of agriculture in Kansas the other day, it was in the interest of a vitally important section of the community which has heretofore had altogether too little consideration.

"Not only have I no apology for what has been done in the interest of the agricultural community; not only do I regard it as one of the monumental achievements of the last generation in developing our country's institutions, but I venture that we might with profit to the whole people consider the possibility of affecting an analogous organization to promote and encourage, through measures of credit and finance, a proper organization of the consuming community in both cities and country.

"I have not attempted to work out even an outline, much less the details, of such a system; but I believe it is possible, feasible and certain to command the sympathy of men and women who have the true interest of the country at heart. I hope to be able, as the result of studies and investigations, to recommend for the consideration of the Congress measures which shall represent a beginning along this line. It is a big and pregnant subject to which no man or woman can deny the fullest and most careful consideration.

"My thought is that the Government should give the largest encouragement, consistent with sound economics and proper Government functions, to every effort of the people to help themselves in dealing with the high cost of living and the relationship of incomes to our household budgets.

"I have wondered if it were not possible, for example, that a scheme of co-operation among consumers, financed, in part at least, through a carefully organized and supervised adaptation of the principles of the savings bank or the building and loan society, might be made to serve a splendidly useful purpose in this department of our economic life. I think this would be preferable to having limited sections of the community undertaking to establish financial independence and economic solidarity, as some of them have lately been doing.

"The development of such a general program into a sound, working business scheme would doubtless be found chiefly an affair of the State Governments, but one in which the jointure of State and National authorities might prove practicable and even necessary.

"I bring this suggestion of a direction which might be given to activities of the kind. I believe the suggestion is worthy of careful examination and consideration. I am convinced that its discussion would be fruitful of good results, and a reminder to some who are disposed to take tolls from both the consuming and the producing public that this public has the right, the power and the ability to devise means to protect itself.

"The aim and object of our every policy must be the establishment and maintenance of an independent and self-respecting, reliant and industrious, intelligent and self-helpful American citizenship. We seek to encourage thrift, to promote saving to make the American home the headquarters of an ever broadening culture, a larger understanding of the complex problems of our times and of a determined inspiration for the fullest measure of economic and social justice."

President Harding's Pacific Coast Tour—Address at St. Louis Renewing Plea for Adherence to World Court.

President Harding, who left Washington on June 19 to begin his trip to the Pacific Coast, Alaska, the Panama Canal Zone and Porto Rico, which will absent him from Washington about two months, made his first speech of the nineteen formal addresses which he plans to deliver during his tour at St. Louis on June 21. In this address the President renewed his plea for adherence by the United States to the Permanent Court of International Justice of the League of Nations. The President in his address declared that "I neither advance nor retreat from the position which I assumed in my recent message to the Senate. My sole purpose to-night has been to amplify the constructive suggestion, which, at what appeared to be a proper time, I placed before the country for consideration and judgment." The President's message to the Senate urging adherence to the Court was given in these columns March 3 1923, page 889. Two conditions, said President Harding in his St. Louis speech this week, may be considered indispensable:

First, that the tribunal be so constituted as to appear and to be, in theory and in practice, in form and in substance, beyond the shadow of doubt, a world court and not a League court.

Second, that the United States shall occupy a plane of perfect equality with every other Power.

"I care not," said the President, "whence the Court came. I insist only that its integrity, its independence, its complete and continuing freedom be safeguarded absolutely." "Granting," he said further, "the noteworthy excellence, of which I, for one, am fully convinced, of the Court as now constituted, why not proceed in the belief that it be made self-perpetuating? This could be done in one of two ways (1) by empowering the Court itself to fill any vacancy arising from the death of a member or retirement for whatever cause, without interposition from any other body; or (2) by continuing the existing authority of the Permanent Court of Arbitration to nominate and by transferring the power to elect from the Council and Assembly of the League to the remaining members of the Court of Justice." "If American adherence could be made effective in the reconstruction of the Court, with respect to its continuing operation," the President contended, "that would seem to dispose conclusively of all other cited apprehensions of danger from the exercise of any influence whatsoever, either open or furtive, by the League of Nations or by any other organization."

Answering "the voice of the doubter" to the effect that "the forty nations which have signed the protocol will refuse to make these changes," the President said:

Primarily, at this time, it is to satisfy the acknowledged hope and to comply with the earnest wish of our sister States that we are striving to find a way to join and strengthen the one body created by them which bears promise of eliminating the need of war to regulate international realtions. We wish no more of war. To submit terms which we consider essential to the preservation of our nationality is not an act of discourtesy; it is the only fair, square and honorable thing a great, self-respecting nation can do. So far from being unfriendly, it springs from a sincere desire, through frank and intimate association, to help to restore stability, and in the words of Washington, to "cultivate peace" throughout the world.

* * * * * * * *

The United States is not a suppliant. Nor has it the slightest desire to become a master. It is and must be an equal, no more and no less, regardless of its relative material power or moral authority, ever conscious of its own rights, but never denying the like, in even proportion, to another.

And what is the crux of conditions which I have ventured to suggest as constituting a basis for negotiation?

The making of the world court precisely what its name implies, and for which we have so earnestly spoken.

Can it be possible that, despite their protestations to the contrary, this is not what some of our sister States at heart desire? Must there be a test of sincerity abroad as well as at home? Then the more quickly it can be made, the better for them and the better for us. There is nothing to be accomplished in ambiguity. We want to know. And the only way to find out is to inquire.

The President in his speech declared:

I shall not attempt to coerce the Senate of the United States. I shall make no demand upon the people. I shall not try to impose my will upon any body or anybody. I shall embark upon no crusade. Hereafter, from time to time, as to-right, acting strictly within, but to the full limit of, my constitutional authority, I shall make further exposition of my matured views and maturing proposals, to the end that we not only "remind the world anew" by our words, but convince the world by our deeds, that we do, in fact, stand "ready to perform our part in furthering peace," and in regaining the common prosperity which can come only through the restoration of stability in all affairs.

But I shall not restrict my appeal to your reason. I shall call upon your patriotism. I shall beseech your humanity. I shall invoke your Christianity. I shall reach to the very depths of your love for your fellow men of whatever race or creed throughout the world. I shall speak, as I speak now, with all the earnestness and power of the sincerity that is in me and in perfect faith that God will keep clear and receptive your understanding.

The following is the President's address in full:

My Countrymen:

In an official journey from Washington to our great Territory of Alaska, our first stop hal's us in your hospitable city and affords an opportunity for renewed acquaintance and better understanding. I suppose it is a perfectly natural expectation that when the President travels he must stop and make report to the community he is seeking to serve. It has seemed to me that nearly every city and village from the Potomac to the Paicific has bestowed an invitation and a tender of hospitality. I like to say to you, because in saying it to you I am speaking to many others in this marvelous age of communication, that I very genuinely regret the impossibility of accepting all of them. Quite apart from the personal satisfaction and renewed assurance in direct contact with our people, I think there is vast benefit in bringing the Government a little closer to the people, and the people a little closer to Government and closer to those temporarily charged with official responsibility.

You view Government from afar, and I am not surprised that you wonder now and then, because you received occasional reflexes which are so erroneous that official Washington itself cannot understand them. And those of us who are in Washington live in an atmosphere of officialdom which often hinders our knowledge of the thoughts around the American fireside, and the activities which daily make the essential life of the nation. These are conditions not easily to be avoided. Our Government is the biggest business in the world, and like any other business it requires the management to be more or less diligently at work.

Congress has been more or less continually in session for eight years, and under our co-ordinated form of government the President must be more or less "in session" at the same time. So I have welcomed this opportunity to see the great Central Valley, the Mountain West, the Pocific Coast and our treasure land in Alaska. I am rejoiced to speak to you as your President, reporting on the state of affairs to the stockholders of this Republic.

I do not come with a partisan report, though I am politically a partisan and believe in the utter necessity of political parties. One only serves his party by first serving his country well, and good service to his country ought to be the aspiration of every citizen of our land.

The present national Administration came into responsibility at a very difficult time. Our country found itself in a bad way in the aftermath of the World War. We had expended in heedlessness, we had inflated in madness, we had rushed into the abnormal and found ten thousand difficulties in resuming our normal stride. There was the inevitable business slump. It follows every war. It applies to business in every line—finance, industry, agriculture. And business reflexes are felt by every citizen, no matter how humble or how great. We found in the inevitable reflux of the war tide threatened financial ability, agricultural distress and vast unemployment. A survey of unemployment revealed four and a half to five millions of workers without jobs.

I leave the appraisal of all relief efforts, legislative, executive, or administrative, to your own judgment. The thing I want to say is that this distressing situation has been wholly reversed, and to-day employment is calling for men. There is complaint about that, too, but since we cannot always preserve the actual balance, I prefer a land which is seeking workmen to a country where discouraged men are hunting for jobs.

I like to believe that the recovery is based mainly on confidence in the American policy and the fundamental righteousness of our institutions. I like to believe we have recovered because we avoid the paths of destructive experimentation, ignore theories and cling tenaciously to the foundations of business and property rights and human rights, which have made ours the most rapidly and most safely developed representative democracy in all the world.

We have done more than banish unemployment; we have made our way to financial stability, without which there is little permanent employment. And we halted the extremists who caught their inspiration in European madness and proposed to destroy our social order because of temporary ills, rather than cure the ills.

I believe America to-night is a fine example to the world, with confidence in herself, of a people capable of laying aside their arms, grappling a reconstruction problem and digging down to hard work to effect the needed restoration, rather than to fling aside all we had wrought in a century of hopeful progress and thereby subscribe to destruction in the name of social democracy. We gave business a chance to resume and assured it that honest success is no crime in the United States. We assured it that the Government was not going into business, but that we meant to get out of it. Then, to prove that we meant to have more business in government, we struck at the extravagance which grew in war's fevered activities, we pruned Government expenditures and reduced the Government personnel, not by thousands by by tens of thousands, and went a long way in reducing Government outlay.

Measures were adopted to lighten the taxation load and distribute the burdens more equitably. We sought to substitute for the exactions of war the convictions of peace. We inaugurated the budget system of Government financing and thereby effected reductions in Government outlay amounting to billions. Of course, this enormous reduction was made possible mainly because we suspended war activities and ended war commitments, but we drove at the ordinary expenditures in the peacetime business of Government, and lopped off hundreds of millions at a time and we have proven to the world, in spite of a gigantic debt and its interest burdens, that here is a Government resolved to live within its income.

The fiscal year, now near its close, threatened an $800,000,000 deficit when its financial budget was in the making, but we cut and trimmed, and insisted upon reduced expenditures, and it will close with a $200,000,000 surplus.

These are rather dull facts, but they are interesting to the Government because they afford the proof that Government itself joined in the tremendously essential task of striking at its own cost. We were always keeping in mind the people who pay in lifting our country out of the slough of depression and despondency.

In the simplest expression possible, we were trying to get this great country of ours on the right track again. The anxiety was in behalf of no one interest, but for all interests. We were anxious alike for the great captain of industry and his working army. We had concern for him whom we sometimes call the little chap, who makes up the great industrial procession, but who is little noted because he walks in the ranks, but whose good fortune is a foremost essential to a national happiness and contentment. We safeguarded against our own destruction being effected by the world's demoralization, but we never hindered the world's honest efforts at recovery. On the whole, we contemplate fortunate conditions to-day, and I believe they are going to abide. We are the most prosperous people in the world. I do not share the belief that we have effected only temporary relief. I never did share the convictions of many men that our permanent recovery could only come after complete collapse, which we have so happily avoided.

It is too early now to safely appraise the competition of the world restored, but the world must take cognizance of the new order as well as we. War wrought an emancipation of men and changed conditions of production which the Old World must recognize before a stable order is restored to it. Our recovery is based on a prompt recognition of the new order, socially just and economically sound, and I am sure we will carry on.

It is very gratifying to contemplate our conditions at home, wrought amid many manifestations of impatience, but, in spite of discouragements, the record is made. I share your gratification, and have full confidence for the morrow.

These things, briefly related, with great satisfaction in progress made, are meant to serve as a foundation for a wholly frank statement to you of St. Louis and Missouri, and to all the United States, concerning my convictions about the attitude of this republic toward other nations of the world. The President's impressions concerning international relationships are necessarily founded upon official experience which can come, because of the duties of office, to none other except the Secretary of State.

The endless problems of foreign relations are relatively little revealed to the world. Most frequently they are more readily adjusted because they are not revealed, though it is fair to assure you that nothing of vital importance is unduly hidden from the people for whom the Government speaks. Week by week, day by day, often hour by hour, there are problems in our international relations which are no more to be avoided than the vital questions of our own relationships at home. The citizen who believes in aloofness is blind to inescapable obligations and insensible to the twentieth century world order and unmindful of our commercial interdependence about which the modern business fabric has come to be woven.

Washington's Admonition.

In his never-to-be-forgotten Farewell Address, in which the first President compressed the gospel of our mutual interests at home and our proper relations abroad, he said:

"Observe good faith and justice toward all nations. Cultivate peace and harmony with all. Religion and morality enjoin this conduct. And can it be that good policy does not equally enjoin it? . . . The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas, is it rendered impossible by its vices?"

This solemn admonition was addressed by George Washington to his fellow-countrymen 127 years ago. That it has been heeded scrupulously we are proud to assume the world believes. That we have, indeed, observed good faith and have exalted justice above all other agencies of civilization, barring only Christianity, surely none can deny with truth.

And we have cultivated peace, not academically and passively merely, but in practical ways and by active endeavors. Even as Washington appended his signature to his most memorable and far-reaching declaration, a new principle had been written into the treaty of peace between Great Britain and the United States, had been sustained by the Congress at his resolute insistence, and was in full force and effect. That principle was arbitration, which was not only employed successfully at the time, but became from that moment an established policy of the Republic, from which to this day there has been no departure.

Two Conditions Indispensable.

Thus, clearly, by the method already operative, in substituting reason for prejudice, law for obduracy, and justice for passion, the Father of his Country bade us, no less than his contemporaries, not merely to countenance and uphold, but actively to cultivate and promote peace. It is with that high purpose in mind and at heart, men and women of America, that I advocate participation by the United States in the Permanent Court of International Justice.

Two conditions may be considered indispensable:

First, that the tribunal be so constituted as to appear and to be, in theory and in practice, in form and in substance, beyond the shadow of doubt, a World Court and not a League Court.

Second, that the United States shall occupy a plane of perfect equality with every other Power.

There is no consequential dispute among us concerning the League of Nations. There are yet its earnest advocates, but the present Administration has said, repeatedly and decisively, that the League is not for us. There admittedly is a League connection with the World Court. We can-

not hope to get anywhere except in the frankest understanding of facts. The authors of the Court protocol, co-operating with a brilliant American leadership, turned to the League organization for the Court electorate, to solve a problem in choosing judges heretofore unsolvable. Though I firmly believe we could adhere to the Court protocol, with becoming reservation, and be free from every possible obligation to the League. I would frankly prefer the Court's complete independence of the League.

Just as frankly let me say that I have not held it seemly, in view of oft-repeated declaration favorable to the World Court establishment, to say to the nations which have established very much what we have wished, that they must put aside their very commendable creation because we do not subscribe to its every detail, or fashion it all anew and to our liking, in every specific detail, before we offer our assistance in making it a permanent agency of improved international relationship.

Government can never successfully undertake the solution of a great problem unless it can frankly submit it to the people. It is for these reasons that I confess these objections. I recognize the constitutional requirement of Senate ratification, and I believe that the tide of public sentiment will be reflected in the Senate. I am so eager for the ultimate accomplishment that I am interested in harmonizing opposing elements, more anxious to effect our helpful commitment to the Court, than I am to score a victory for executive insistence. Let us, therefore, appraise some of the determining factors which must be considered in hopefully mapping our course.

Nearly three years ago, by an overwhelming majority, the people rejected the proposal of the Administration then in power to incorporate the United States in the League of Nations. To assert that those 16,000,000 voters did not know what they were doing is to insult their intelligence, and to deny the facts.

Whatever other considerations may have influenced their judgment were purely incidental. The paramount issue, boldly, defiantly advanced in unmistakable terms by the Democratic Party and espoused by the Democratic candidate for President, was indorsement of the demand of the then Democratic President. I dislike the use of party names in dealing with a problem which has now passed far beyond party association, but I want the World Court proposal utterly disassociated with any intention of entrance into the League, and recite the history to paint the background. Moreover, I am so earnest in my desire to have the United States give support to the Court that I would gladly wipe out factional difference to effect the great accomplishment.

If the country had desired to join the League in 1920, it had its opportunity. It most emphatically refused. It would refuse again, no less decisively to-day.

There has been no change in condition. It is the same League. Not a line in the rejected covenant has been altered, not a phrase modified, not a word omitted or added. Article X still stands as the heart of the compact. Article XI and all other stipulations objected to and condemned by the American people remain untouched, in full force in theory, however circumspectly they are being ignored in practice.

In the face of the overwhelming verdict of 1920, therefore, the issue of the League of Nations is as dead as slavery. Is it not the part of wisdom and common sense to let it rest in the deep grave to which it has been consigned, and turn our thoughts to living things?

But let there be no misunderstanding. I did not say three years ago, and I do not say now, that there is no element in the League organization which might be utilized advantageously in striving to establish helpful, practical co-operation among the nations of the earth. On the contrary, I recognized generally then, and perceive more precisely now, rudiments of good in both the League and The Hague Tribunal. Having marked the fundamental difference between a Court of International Justice, which I espoused, and the Council set up by the League Covenant, which I disapproved, as "the difference between a government of laws and a government of men," I said plainly on Aug. 28 1920: "I would take and combine all that is good and excise all that is bad from both organizations."

Says Court Is Firmly Established.

That is exactly what I am now proposing to do. The abstract principle of a World Court found its genesis in The Hague Tribunal. The concrete application of that principle has been made by the League. Sound theory and admirable practice have been joined successfully. The court itself is not only firmly established, but has clearly demonstrated it utility and efficiency.

Safeguarding Continuing Freedom.

It is a true judicial tribunal. Its composition is of the highest order. None better, none freer from selfish, partisan, national or racial prejudices or influences could be obtained. That, to the best of my information and belief, is a fact universally admitted and acclamied. I care not whence the court came. I insist only that its integrity, its independence, its complete and continuing freedom be safeguarded absolutely.

The sole question is whether the requirments which I have enumerated as essential to adherence by the United States can be met. My answer is that where there is a unamious will, a way can always be found. I am not wedded irrevocably to any particular method, I would not assume for a moment that the readjustment of the existing arrangement which appears to my mind as feasible is the best, much less the only one. But, such as it is, I submit it, without excess of detail, as a basis for consideration, discussion and judgment.

Granting the noteworthy excellence, of which I, for one, am fully convinced, of the court as now constituted, why not proceed in the belief that it may be made self-perpetuating? This could be done in one of two ways (1) by empowering the court itself to fill any vacancy arising from the death of a member or retirement for whatever cause, without interposition from any other body; or, (2) by continuing the existing authority of the Permanent Court of Arbitration to nominate and by transferring the power to elect from the council and assembly of the League to the remaining members of the Court of Justice.

The fixing of compensation of the Judges, the supervision of expenditures, the apportionment of contribution, &c., could also be transferred from the League to either Court of Arbitration or a commission designated by the member nations. Thus, incidentally, would be averted the admitted unfairness of the present system, which imposes a tax upon members of the League who are not subscribers to the court.

The exclusive privilege now held by the League to seek advisory legal guidance from the court might either be abolished, or, more wisely perhaps, be extended to any member or group of member nations. Thus all would be served alike, subject as now to determination by the court itself of the kind of questions upon which it would render judgments.

The disparity in voting as between a unit nation and an aggregated empire, which now maintains in the assembly of the League, to which many object, because of apprehensions which I do not share, would, under this plan, disappear automatically.

These observations are not to be construed as suggesting changes in the essential statute of the Court, or the enlargement or diminution of its numerical strength, or modifying the proper provision that a nation having a cause before the Court, which is not represented among the Judges, may name one of its own nationals to sit in that particular case.

Such, in brief, is an outline of the basis upon which I shall hope, at the opening of Congress, for the consent of the Senate to initiate negotiations with the Powers which have associated themselves with the Permanent Court of International Justice.

No program could be devised that would win unanimous approval either at home or abroad. We cannot hope to attain perfection or to satisfy extreme demands. The best and the most we can do is to appeal, let us hope successfully, to reasonable minds and, with sturdy faith, be true to ourselves and ready for our duties as liberty-loving, duty-realizing Americans.

There are those who openly advocate our proposed association with the Court of Justice as a first step toward joining the League of Nations. Their number is not large, and they cannot hope to prevail. There are those who, in fear and trembling, proclaim their opinion that this mighty Republic should live as a hermit nation. They, too, are few and hold to an impossible position. Both are extremists. In an endeavor to obtain actual results, both may be safely omitted from serious consideration.

But two great groups, comprising a vast majority of our people, need to be considered. And between these there lies no difference in professed desire. I am striving for fulfillment of that expressed desire. Both urge participation of the United States in a World Court of Justice, in fulfillment of our age-long aspiration and in conformity with our unbroken tradition. They agree that to achieve its fundamental purpose of substituting justice for warfare in the settlement of controversies between nations, such a tribunal must be its own master. The distinction between the two is not one of essential principle or of avowed intent, but one only of fact and opinion.

There are those who hold that the creation of the existing Court under a distinct protocol, instead of directly under the Covenant of the League, removes every tincture of subservience or obligation. For present purposes, granting its correctness, there can be no real objection to clarifying the fact in plain, simple terms, to the end that all doubts shall be dispelled and that all minds shall be wholly convinced by ready understanding, instead of being only partially persuaded by intricate exposition. If, as we all believe, the cornerstone of every judicial structure is unquestioning faith in its integrity, I am unwilling to deprive it of any particle of strength which would enhance popular respect for and confidence in its decisions. Surely no harm, but rather much good, might spring from simplification of an admitted condition.

The other large group comprises those who, while equally earnest in advocacy of an international tribunal, regard the present Court with suspicion because of its origin. This objection, for reasons which I have noted, is unimportant. Indeed, from a practical viewpoint, I consider it a matter of distinct congratulation that there is in existence a body which already has justified itself upon its merits, by demonstration of its character and capabilities.

If American adherence could be made effective in the reconstruction of the Court, with respect to its continuing operation, that would seem to dispose conclusively of all other cited apprehensions of danger from the exercise of any influence whatsoever, either open or furtive, by the League of Nations or by any other organization.

The whole question of support or opposition on the part of these two controlling groups clearly resolves into a test of sincerity. When once American citizens have comprehended that vital point, I shall have no doubt of their answer.

I have taken very frank cognizance of the avowed objections because we have come to this very test of sincerity. Except for the very inconsiderable minority, which is hostile to any participation in world effort toward security, which our better impulses are ever urging, there is overwhelming sentiment favorable to our support of a World Court. But I want the United States to give its influence to the World Court already established. Since any adherence must be attended by reservations, I am willing to give consideration to our differences at home and thereby remove every threatening obstacle worth considering, so we may go whole-heartedly to the world with an authorized tender of support.

"Voice of the Doubter."

So much for the domestic phases of this problem. But there is another. I hear the voice of the doubter: "This is all very well, but it cannot be done. The forty nations which have signed the protocol will refuse to make these changes. They have formulated their plans, have arranged their procedure, have constructed their machinery, have established a going concern; they are no only themselves content, but they can see no reason why the few remaining powers should not be equally satisfied with the result of their endeavors. They will resent the mere suggestion of such proposals by the United States as an attempt at dictation. It would be an act of discourtesy, if not indeed of unfriendliness, on the part of the American Government to approach them along these lines. They will spurn the offer. They will not brook interference from an outsider. They will not consent to upset or modify their fait accompli. The whole project will fall to the ground."

To which I reply: Primarily, at this time, it is to satisfy the acknowledged hope and to comply with the earnest wish of our sister States that we are striving to find a way to join and strengthen the one body created by them which bears promise of eliminating the need of war to regulate international relations. We wish no more of war. To submit terms which we consider essential to the preservation of our nationality is not an act of discourtesy; it is the only fair, square and honorable thing a great, self-respecting nation can do. So far from being unfriendly, it springs from a sincere desire, through frank and intimate association, to help to restore stability, and, in the words of Washington, to "cultivate peace" throughout the world.

Manifestations of resentment at our pursuing this natural and usual course would appear far less as evidences of indignation than would attend a course of aloofness, or an utter disregard for so notable an international endeavor.

The United States is not a suppliant. Nor has it the slightest desire to become a master. It is and must be an equal, no more and no less, regardless of its relative material power or moral authority, ever conscious of its own rights, but never denying the like, in even proportion, to another.

And what is the crux of conditions which I have ventured to suggest as constituting a basis for negotiation?

The making of the World Court precisely what its name implies, and for which we have so earnestly spoken.

Can it be possible that, despite their protestations to the contrary, this is not what some of our sister States at heart desire? Must there be a test of sincerity abroad as well as at home? Then the more quickly it can be made, the better for them and the better for us. There is othing to be accomplished in ambiguity. We want to know. And the only way to find out is to inquire.

Very recently a striking message was flashed through the air from Rome to Washington. "Tell America," said the vigorous Prime Minister, "that I like her, like her because she is strong, simple and direct. I wish Italy to be the same and shall try to make her so." God speed him. And God grant that America shall never forfeit the high honor borne by that sentient tribute from Mussolini.

Neither Advances Nor Retreats from Views Expressed to Senate.

I cannot doubt that you will accord, at least, the merit of simplicity and directness to what I have said. Understand clearly, I do not advocate compromise. I merely reiterate and stand squarely for every pledge I have made. I still reject as unwise, untraditional and un-American any foreign political alliance or entanglement. I still "favor with all my heart association of free nations, animated by considerations of right and justice, instead of might and self-interest, so organized and so participated in as to make the actual attainment of peace a reasonable possibility." I strongly urge adherence to the Permanent Court of International Justice as the one and only existing "agency of peace," to which we can safely subscribe without violating the basic principles of our national being.

I neither advance nor retreat from the position which I assumed in my recent message to the Senate. My sole purpose to-night has been to amplify the constructive suggestion which, at what appeared to be a proper time, I placed before the country for consideration and judgment. Broadly, and yet I trust with sufficient particularity, I have indicated ways and means for realization of our common aspiration.

Will Make No Demand on People.

Further than that I shall not go. I shall not attempt to coerce the Senate of the United States. I shall make no demand upon the people. I shall not try to impose my will upon any body or anybody. I shall embark upon no crusade. Hereafter, from time to time, as to-night, acting strictly within, but to the full limit of, my constitutional authority, I shall make further exposition of my matured views and maturing proposals, to the end that we not only "remind the world anew" by our words, but convince the world by our deeds, that we do, in fact, stand "ready to perform our part in furthering peace," and in regaining the common prosperity which can come only through the restoration of stability in all affairs.

But I shall not restrict my appeal to your reason. I shall call upon your patriotism. I shall beseech your humanity. I shall invoke your Christianity. I shall reach to the very depths of your love for your fellowmen of whatever race or creed throughout the world. I shall speak, as I speak now, with all the earnestness and power of the sincerity that is in me and in perfect faith that God will keep clear and receptive your understanding.

I could not do otherwise. My soul yearns for peace. My heart is anguished by the sufferings of war. My spirit is eager to serve. My passion is for justice over force. My hope is in the great court. My mind is made up. My resolution is fixed.

I pass from Washington to Lincoln. "With malice toward none, with charity for all," accurately depicts our attitude toward other nations. All in equal measure hold our sympathy in their distress and our hope for the quick coming of better days. We would make no invidious comparisons.

It is but natural, nevertheless, that we should feel, and it is proper that we should express due appreciation of conduct which conforms notably to our own conceptions of what honor, integrity, sagacity and gratitude require of self-respecting nations. I consider it eminently fitting at this time to voice the keen admiration and enhanced regard of this country for Great Britain as an immediate consequence of her frank acknowledgment and sturdy assumption of a financial obligation which, though incurred for the preservation of her very existence, added materiaally to her already heavy burdens.

Nor can I withhold from the German democracy just recognition of its new Government's clear manifestation of faith in our consciousness of fairness as the chief requisite of a peace settlement between her Government and ours, and of our disinterestedness in all matters pertaining to the adjustment of European affairs.

It has ever been an irresistible impulse of our liberty-loving people to welcome a triumph of democracy over autocracy and a substitution of popular government for monarchal domination. Hence, our earnest hope that a just settlement, terms of which we do not pretend to indicate, will be made in Europe, satisfying the just dues of democratic and heroic France, so that Germany may make good in her promises of reparations, and therein German democracy may establish a national honor which the monarchy had not conceived, and then take her place in support of the Permanent Court of International Justice.

Time for America to Act.

Our neighbor to the South, for whom we have only good-will and good hope, will soon, I trust, be in a position to make practicable resumption of fraternal relations with this country, and, following that happy consummation, what more natural than that Mexico, too, along with Germany and, let us hope, Turkey, should accompany the United States, upon terms equally essential to her welfare, into the great tribunal? Then it will become, indeed, a true World Court.

Thus, briefly, my friends, I have revealed the hopeful anticipations of my mind, and the trustful longing of my heart. I feel that the time for America to take the first long stride in restoration of a desolate and despairing world has come, and that the way stretches clear, though far, before our eyes. May our vision never be clouded by spectres of disaster or shadows of dismay. If, in our search for everlasting peace, we but let lead, and follow humbly but dauntlessly, the "Kindly Light" of divince inspirations to all human brotherhood, gleaming like a star in the heavens, from the most beautiful hymn ever written, God will not let us fail.

Greater New York's Silver Jubilee.

Greater New York's silver jubilee, held to signalize the twenty-fifth anniversary of the consolidation of the five boroughs comprising the city, and to depict its progress in that period, was brought to a close on Saturday last, June 23. Three parades were held during the four weeks of the celebration, from May 26 to June 23. While the exposition at the Grand Central Palace, at 44th Street and Lexington Avenue, was not officially opened until Monday, May 28, the celebration was brought under way the preceding Saturday, May 26, with a parade on Fifth Avenue of 40,000 city employees; Mayor Hylan headed the parade with its start at 95th Street and continued in it until the reviewing stand at 59th Street was reached. Regarding this parade the New York "Times" on May 27 said in part:

Everything contributed to make the parade one of the greatest of its kind ever held. The day was beautiful and the sky cloudless. The parade itself went with military precision. The marchers, particularly the units of women, made a fine appearance. Just enough variety was provided by floats and apparatus used by the different departments. The thousands that filled the reviewing stands and crowded the sidewalks along the route showed their approval by almost continuous applause, and Mayor Hylan and other city officials visibly showed their satisfaction. . . .

Much of the credit for the parade went to Grover A. Whalen, Commissioner of Plant and Structures, who was chief of staff to Mayor Hylan as Grand Marshal. The parade took fifteen minutes less than five hours to pass the reviewing stand, and no doubt was expressed that the estimate of 40,000 marchers was correct. The largest divisions were the Police Department with 5,200 men, the Fire Department with 2,500 and the Department of Plant and Structures and the Street Cleaning Department with 1,800 each. There were more than 100 bands in line.

Comptroller Charles L. Craig was conspicuous by his absence. The Comptroller, who hasn't been particularly enthusiastic about the celebration, spent the afternoon at his summer home near Carmel, N. Y. Neither did the Finance Department, of which the Comptroller is the head, have any part in the parade. It was the only city department, commission or bureau not represented.

The second parade which featured the celebration took place on Saturday, June 16, and was participated in by the industrial interests of the city, which contributed a number of floats typical of the city's business advancement. An indication of the scope of this parade is furnished in the following, which we quote from the New York "Times" of the 17th inst.:

One of the largest delegations in the parade was from Wanamaker's, Rodman Wanamaker being Chairman of the Mayor's Celebration Committee. This contingent was led by Preston P. Lynn and the band of Wanamaker's Commercial Institute. Then came long lines of men employees in blue serge coats, white flannel trousers and straw hats, and a float showing the flags of America.

Wanamaker's Store Band led a body of girl marchers in blue skirts, zouave jackets and white waists. Other floats showed a scene at the Island Heights Camp for Wanamaker employees. . . .

Nearly a thousand girls and men, employed by the Metropolitan Life Insurance Co., marched behind a series of floats, the first of which contained a model of the Metropolitan Building. . . .

The most expensive float was that of Messmore & Damon, float builders, representing a jungle with lifelike figures of animals. The "Pictorial Review" had a large delegation of employees and a number of floats depicting its growth.

A handsome motor boat mounted on a truck was shown by the Consolidated Shipbuilding Corporation. The Todd Shipyards Corporation displayed an even larger boat, the "W. H. Todd," and a number of floats showing equipment. James Butler, the grocer, who has increased his business from 75 to 750 stores in 25 years, made an extensive showing, with marchers representing his brands of staple groceries.

The float of Mallinson's Silks, showing an Oriental scene with handsome women, was one of the prettiest in the parade. Thirty boys playing harmonicas filled the float of M. Hohner & Co. A model of a house with painters at work was shown by DeVoe & Raynolds.

There were floats or delegations from A. G. Spaulding & Bros., many automobile companies, the Ex-Lax Co., the American Safety Razor Co., the Standard Oil Co., the United Cigar Stores Co., Richardson & Boynton, the Weber McLoughlin Co., and Benn Rigel, a Rockaway contractor.

The "Times" also had the following to say relative to the parade on the 16th:

Mayor Hylan, who reviewed the parade from a stand at 59th Street, pronounced it the greatest of its kind that had been, or ever would be, held.

"I think that General Dyer (the Grand Marshal) and the business interests of the city are to be congratulated on this wonderful parade," the Mayor said. "It is the most marvelous demonstration I have ever witnessed. The business men of the city came forward and contributed liberally to the 25th anniversary exposition. To-day under the leadership of General Dyer they have given us the greatest civic demonstration that the city of New York will ever see. . . .

Nearly one-third of the parade was made up of food products divisions, with marchers, floats and decorated trucks from the city markets predominating. Commissioner of Public Markets O'Malley led these divisions. Not far behind him came a float bearing a mammoth plaster pig heading the pork products division. . . .

The final parade, on the closing day of the celebration, last Saturday, June 23, numbered nearly 50,000 marchers—all members of fraternal organizations of the city. The Salvation Army led the various divisions, which included veterans of America's wars, Masonic organizations, Independent Order of Free Sons of Israel, the Foresters of America, the Order of Shepherds of Bethlehem, the Modern Woodmen of America, the Fraternal Order of Eagles, Junior Order of American Mechanics, the Daughters of America, the Knights of Columbus, the Independent Order of Odd Fellows, etc., etc. Indian chiefs and Sagamores marched with the Red Men of America, it was pointed out in the "Times," squaws of the order appeared in the delegation of the Degree of Pocahontas.

The jubilee was officially terminated at 12.15 a. m., June 24, at the Grand Central Palace, where the exposition was held. In addition to the four floors which were occupied there to display the city's progress, a part of the exhibit was displayed on Park Avenue from 44th to 49th Street, where an arcade had been formed to house some of the city's exhibits. Regarding the exhibits in the Grand Central Palace, we take the following from the New York "Times" of May 28:

The main floor display is built around a "fountain of jewels." Forty feet in height and built in the shape of a bell it contains 30,000 pieces of Austrian cut glass in half a dozen colors. Each piece hangs from the framework flashing at the slightest movement as it reflects the rays from colored searchlights.

The Mayor's office, the Board of Estimate and the five Borough Presidents will have exhibits on the main floor. This floor is surrounded by a series of mural paintings, depicting familiar New York City scenes. For Manhattan there is the Hudson River sky-line from the Battery to Grant's Tomb; for the Bronx, the Hall of Fame, the Zoological Park, Poe's cottage and the Con-

course; for Brooklyn, the East River sky-line, the Navy Yard and Brooklyn Bridge. The Queens mural paintings depict the Queensboro Bridge, the Rockaway and views of suburban sections. The painting for Richmond shows the waterfront at St. George.

Gigantic Map of the City.

There is also on the main floor a map of the city, 30 by 32 feet, in which every building and piece of property owned by the municipality is shown by electric lights, colored differently to show each department. Thus, the Police Department buildings are marked by green lights, the Fire Department buildings by red lights, etc. The 2,600 lights will be flashed by departments and en masse at intervals to give visitors an idea of the magnitude of the city's holdings.

The second floor exhibits include those of the Department of Plant and Structures with models of the East River bridges, the Child Welfare Commission, the Bureau of Records, Department of Water Supply, Gas and Electricity, the Board of Purchase and bureaus of the Health Department.

The various hospitals have space on the third floor, where the Municipal Art Commission and the Tenement House Commission have exhibits. On the fourth floor the Department of Correction, the Park Board, the Street Cleaning Department and the Police Department will have displays. Part of the fourth floor has been given over to the American Institute of Architects for a show which the institute has been arranging for more than a year. This exhibit illustrates the projected and suggested work for the beautifying of New York City in years to come. The Fire Department and several other departments will have exhibits in the arcade from 45th to 49th Street, in Park Avenue.

Mayor Hylan on several occasions during the celebration had something to say regarding the event. On May 24, just prior to its opening, he said:

Because I have tremendous faith in New York City and the fine spirit behind it; a spirit of pride and enterprise which has made it the greatest metropolis that the world has ever known, I have always been supremely confident that the commemoration of Greater New York's 25th birthday, which we are calling New York's Silver Jubilee, was going to be a tremendous success, and it is. The work done by the heads of every department of municipal endeavor has been done so earnestly and thoroughly that I am very confident that even as a spectable New York's Silver Jubilee will far surpass our Hudson-Fulton celebration, or any purely civic exhibition that has ever been held by any municipality.

Parades are common. It sounds simple enough to say merely that New York's Silver Jubilee will start with the parade on Saturday, but as a matter of fact, this parade is going to excel in a great many ways any parade ever before held in New York City and when it is through and the accounts of it are published broadcast in the newspapers of the world it is my firm belief that it will have proved the best and most dignified advertisement for this city, which we all love, that could possibly have been devised.

Nor was I wrong in my belief that as this commemorative celebration was strictly non-partisan; that before the day for the beginning of the celebration arrived we should find a vast majority of New York people sturdily and loyally behind the idea and that the whole thing would be backed up and supported by the best among our New York newspapers.

This 25th birthday which we are about to celebrate is but the first forward step in a march of municipal progress that sets an example to all the cities of the earth. No man is wise enough to foresee what the next 25 years may bring forth, but when, in 1948, Greater New York celebrates its Golden Jubilee, I am proud to think that the citizens of that time will look back to this, our Silver Jubilee, and be able to realize that they owe something of their greatness and their realized ambition to the work that we are doing to-day and to the foundations we are so firmly laying on which our sons may build.

At its conclusion last Saturday he was reported by the New York "Times" as saying:

I regret as far as I am concerned, that this is the last night of the exposition. The newspapers did not give the exposition support in the beginning, but, now that it is over, they are writing editorials praising and suggesting that the exhibits be perpetuated. It is like the story of locking the stable door after the horse was stolen.

The exposition has demonstrated clearly that the people want to know their city and that they appreciate the opportunity offered to them to visualize the machinery of the City Government. This has been attested by the enormous crowds. I have never heard a word of criticism of the exposition. The one thought of everybody seems to be that it would be wise to make permanent some of its features.

Grover A. Whalen, Commissioner of Plants and Structures, and Vice-Chairman of the Celebration Committee, was also among the speakers at the closing exercises of the celebration, and what he had to say was indicated as follows by the New York "Times":

Mr. Whalen in introducing the Mayor said that the exposition had cost $500,000 and that there would be enough money in hand to meet all obligations, making it unnecessary to draw upon the fund guaranteed by eight men who had volunteered to underwrite the cost. About half the money required had been obtained by subscriptions, he said, and the other half had been realized by the sale of tickets and the proceeds from concessions.

Reference to the enjoining of a bond issue of $400,000 proposed by Mayor Hylan to meet the cost of the celebration was made in these columns March 31, page. 1372.

Tax Exemption of New Dwellings in New York City Erected from April 1 1923 to April 1 1924, Approved by the Board of Aldermen.

An ordinance which continues the exemption from local general taxation until Jan. 1 1932 of buildings, used for dwelling purposes, except hotels, construction of which is started between April 1 1923 and April 1 1924, was passed by the Board of Aldermen of New York City on June 26. The Board acted under authority of the Act passed at the recent legislative session which allows local government bodies to exempt from local taxes new dwellings, the construction of which is begun between April 1 1923 and April 1 1924. It is to be noted that this State Act is merely an amendment of the old law which granted local communities power to exempt new dwellings from taxation, and the validity of which was upheld by the Appellate Division of the New York Supreme Court (see "Chronicle" of April 7 1923, p. 1489). Just as it previously did, New York City has taken advantage of the enabling Act. The new ordinance adopted by the Board of Aldermen is similar to the old one, except that exemptions of $5,000 for each apartment in a multi-family dwelling were allowed in the old ordinance. The new ordinance reads:

It is hereby determined that until Jan. 1 1932 new buildings in the City of New York, planned for dwelling purposes exclusively, except hotels, shall be exempt from taxation, as herein provided, for local purposes other than assessments for local improvements during construction and so long as used or intended to be used exclusively for dwelling purposes, or if a building of four stories or more in height used exclusively for dwelling purposes above the ground floor, provided construction was completed since April 1 1920, or, if not so completed, that construction be commenced before April 1 1924, and completion for occupancy be effected within two years after such commencement, or, if on Sept. 27 1920 in course of construction, within two years thereafter.

It is further ordained that such exemption shall be granted to the extent only of $1,000 for each living room, including the kitchens but not including the bathrooms, in each such building, provided that the total amount of such exemption shall not exceed, for every single family house coming within the terms of the statute, $5,000 of the value of the building, and for every two-family house coming within the terms of the statute, $10,000 of the value of the building, and for every multiple-family house coming within the statute, if construction be commenced after April 1 1923 and before April 1 1924, and completion for occupancy be effected within two years after such commencement, $15,000 of the value of the building; and if the construction of such multiple-family house was completed since April 1 1920 and prior to April 1 1923, or its construction was commenced prior to April 1 1923 and completion for occupancy be effected within two years after such commencement, then an amount of the value of the building equivalent to $5,000 for each separate family apartment therein.

This ordinance shall take effect immediately upon approval by the Board of Estimate and Apportionment.

An amendment to the old ordinance presented by Alderman Bruce M. Falconer, Republican, was defeated by a vote of 55 to 9. He favored tax exemption upon homes for which the rent was not in excess of $17 per room per month. William T. Collins, Vice-Chairman of the Board, said that speculators in multifamily apartments obtained manifold financial advantages, some receiving as high as $100,000 tax exemption.

"It was not to aid that class of builders that tax exemption was placed on the statute books," said Alderman Collins, "and for that reason it was decided that the best interests of both the working people and the city treasury would be served if the one- two and multi-family houses only were granted the best exemption advantages."

New Regulations Governing Future Grain Trading Signed by Secretary of Agriculture Wallace.

The signing by Secretary of Agriculture Wallace at Des Moines on June 22 of general rules and regulations governing future trading grain markets was announced in press dispatches from that city, which stated that they had been sent to Washington for promulgation. The Omaha "Bee" in a Des Moines dispatch June 22 said:

The purpose of the regulations, Secretary Wallace explained, is to prevent the dissemination of untrue and misleading rumors or information which may affect the price of grain; to prevent manipulation of prices or the running of corners; to acquire information concerning operations on future trading markets which will make it possible to make a thorough and systematic study of the manner in which grain prices are registered on these markets.

The rules provide that reports shall be made to the supervisors of the various future trading markets, either by every individual firm which operates on these markets or through a responsible clearing house at each market. Reports must be made before the opening of the market the following day.

To Protect Speculators.

Secretary Wallace, in his statement, says it was not the intention of the framers of the law to prevent future trading, hedging or legitimate speculation, nor to interfere with the normal and proper operation of future trading markets. The Secretary declares that it was not his purpose to enforce the law in a manner which would annoy legitimate operators either at market centres or at country points, nor to discourage normal and proper speculation.

"It is my purpose," he added, "to put a stop, if possible, to the circulation of unfounded rumors set afloat by designing operators to deceive unwary speculators, and further to do everything possible to put an end to unfair price manipulation.

"Legitimate operators on the market need have no fear of unwarranted meddling with their business. While they are required to report, they will be handled in absolute confidence and with every safeguard which it is possible to throw around them. Reports of the business of individual speculators are not required except in the case of very large operators whose business is of such volume as to have a pronounced effect upon the market."

From the New York "Commercial" of June 28 we take the following, contained in Washington advices, regarding the regulations:

The regulations provide that the reports shall show separately for each kind of grain and each delivery month the following facts:

"The net position at the beginning of the period covered by the report.

"The quantity of grain purchased and the quantity of grain sold on such contracts during the period covered by the report.

"The quantity of grain delivered and the quantity of grain received on such contracts during the period covered by the report.

"The net position at the end of the period covered by the report.

Long and Short Accounts.

"The aggregate of all 'long' and the aggregate of all 'short accounts' carried at the end of the period covered by the report of the clearing member for whom the report is made.

"The net position, at the end of the period covered by the report, of each separate account carried by such clearing member, when such net position equals or exceeds such amuont as shall be specified in a written notice from

time to time by the grain futures administration to such contract market."

Rollin E. Smith is in charge of the administration of the Grain Futures Act in the Department of Agriculture.

"Members of the grain exchanges will not be required to report each individual transaction," Mr. Smith said. "All that is required is that they shall report the net position of all their transactions. That is, whether they are short or long on any grain at the end of the day. They will be required, however, to keep separate records and show the position of the big traders at the end of the day.

Fixes Minimum of Big Trades.

"The minimum of what may be called big trades will possibly be fixed at about 1,000,000 bushels for Chicago and 500,000 bushels for Minneapolis. The regulations provide that for the purpose of keeping track of big trade a distinguishing designation shall be used instead of the name of any person, but the name and address of such person shall be given upon request to a representative of the grain futures administration. The same designation must be used for the same person and may be changed only by or with the approval of the representative of the grain futures administration."

The regulations provide that each member of a contract market shall keep records with respect to transactions for future delivery and cash transactions in chronological order in such manner as will be readily acceptable. They are to be exhibited to a representative of the Department of Agriculture upon request.

The records as to transactions for future delivery are to be so kept that to show whether or not the person for whom such transactions are executed are engaged in the cash grain business.

Rules on Information.

Representatives of the Department of Agriculture are forbidden to give information relative to the business of any member of the Chamber of Commerce. Each contract market is required to give the office of the grain futures administration information relative to changes proposed or approved in membership or by-laws, rules or regulations and any official order or announcement not previously reported.

Members of contract market are required to submit to the governing board and to the officer in charge of the grain futures administration, when requested by him, copies of reports, circulars, letters or telegrams published or given general circulation concerning crop or market information that affect or tend to affect the price of commodities and to give the source or authority for the information contained in these various documents.

Members of contract markets are required to submit to the governing board and to the officer in charge of grain futures administration all information relating to any attempted manipulation of prices or corner of any grain by any dealer or operator on boards of trade.

The regulations are to go into effect as soon as the forms of reports are prepared by the department and placed in the hands of members of the Exchange together with copies of the regulations which will be sent out within a few days.

Secretary of Agriculture Amends Grain Regulations Dealing with Inter-State Shipments.

An amendment to the regulations under the United States Grain Standards Act recently promulgated by the Secretary of Agriculture, deals with the inter-State shipment of grain by grade between non-inspection points without inspection by a licensed inspector. The amendment becomes effective July 1 1923, says the Department, adding:

The law provides that grain may be sold by grade and shipped in inter-State commerce without inspection between points at which no inspector is located upon compliance with the rules and regulations prescribed by the Secretary of Agriculture and subject to the right of either party to the transaction to refer any dispute as to the grade of the grain to the Secretary of Agriculture. The new regulation requires shippers of such grain to transmit to the purchaser an invoice bearing a statement to the following effect:

This grain not inspected by licensed inspector; grade subject to dispute under United States Grain Standards Act.

In addition, shippers are required by the terms of the regulation to report the details of such shipments if requested by the Bureau of Agricultural Economics.

New York Cotton Exchange to Open in New Building July 23.

Announcement was made by the New York Cotton Exchange this week that it would adjourn business at noon Friday, July 20, and remain closed until Monday morning, July 23, when it will re-open in its new board rooms in the new Cotton Exchange Building at Beaver and William streets and Hanover Square. While trading on the floor will not begin in the new quarters for another month, tenants have been occupying the new building since early in May, as was indicated in our issue of May 5, page 1967.

Amendment to Packers Act Requiring Livestock Market Agencies to Give Surety Bonds.

An amendment to the regulations under the Packers and Stockyard Act, which makes detailed provisions for bonding of individuals and firms engaged in the livestock commission business, effective Sept. 1 1923, has been signed by the Secretary of Agriculture, according to an announcement by the Department June 25, which said:

A large number of livestock exchanges on the principal markets already had made provision for the bonding of members (commission men) and in a few States bonding of these market agencies has been required by law. This amendment assures that all of those handling livestock on markets doing an inter-State business will provide safeguards against loss to those consigning animals to them.

The bonds required under this newly promulgated amendment are of such size, depending upon the business transacted in the preceding year, as to secure to the owner or consigner of livestock "faithful and prompt accounting for and payment of the proceeds of sales." The amount of the bond cannot be less than the nearest multiple of $2,500 above the average amount of the gross proceeds of sale of livestock handled by the agency during two business days, based upon the total number of business days and the gross proceeds of sale for the preceding 12 months. In any case the bond can not be less than $5,000 and it need not exceed $50,000. Conditions not specifically provided for by the amendment may be included in a bond providing they are not inconsistent with the regulations.

In addition to the bonds requirement, the revised regulations make obligatory an immediate written accounting of each sale, showing the number, weight, and price of each kind of animal sold, the name of the purchaser, the date of sale, and such other facts as may complete the account.

A further important provision has to do with the use of funds resulting from the sale of livestock. These funds must not be intermingled with other accounts or funds of the market agency kept or used for other purposes

Livestock Exchanges Provide for Bonding of Members.

In indicating the livestock exchanges which have adopted the practice of having their members bonded, the U. S. Department of Agriculture, under date of April 13, said:

That most of the market agencies handling livestock on a commission basis on the various markets are rapidly adopting methods and precautions that will afford protection to their patrons is shown by reports made by the Packers and Stockyards Administration. In most instances, this, like many other needed changes which have taken place, is going forward without pressure from the Government, and in others they have been brought about in anticipation of action by the United States Department of Agriculture.

For years a number of livestock exchanges have had their members bonded, and recently the exchanges on several markets, including Chicago, and Kansas City, have adopted the practice. The following list shows the exchanges all members of which are bonded, and the amounts of the bonds required:

	Minimum.	*Maximum.*
Chicago Livestock Exchange	$5,000	$50,000
Denver Livestock Exchange	5,000	20,000
Kansas City Livestock Exchange	20,000	40,000
Lafayette (Ind.) Livestock Exchange	10,000	
Los Angeles Livestock Exchange	15,000	
Nashville Livestock Exchange	20,000	
Ogden Livestock Exchange	10,000	
Omaha Livestock Exchange	5,000	up, according to volume of business.
South St. Joseph Livestock Exchange	5,000	25,000
South St. Paul Livestock Exchange	20,000	40,000
Wichita Livestock Exchange	10,000	25,000

In addition to the members of these Exchanges, commission men in New Orleans, Louisiana, have executed bonds under a State law in the amount of $1,000 each. In San Antonio, Tex., bonds have been executed under a State law by each commission man for $20,000. The Sioux City Exchange has provided a cash indemnity fund of $35,000 with which to meet losses on the part of its members.

In some instances, where no bonds are required by the exchange or the State, as a precautionary measure individual market agencies maintain bonds for the protection of their shippers.

It is probable that the Department of Agriculture, through the Packers and Stockyards Administration, in the near future put into effect some general requirements with respect to bonding of commission firms, but before a provision of this kind can be made effective a great many problems must be solved. However, says the department, this necessary delay need not deter any exchanges from making local bonding rules. The Packers and Stockyards Administration wishes to encourage this voluntary action and is anxious to assist in every way possible.

Hearing Before Inter-State Commerce Commissioner Hall on Linking of Central RR. of New Jersey with New York Central—Port Authority's Opposition—Statement of A. H. Smith.

A hearing before Inter-State Commerce Commissioner Henry C. Hall on the intervention of the Port of New York Authority in the proceedings relative to the proposed consolidation of railroads into several systems, particularly with regard to a suggested merger of the Central Railroad of New Jersey with the New York Central Lines, was had this week in the rooms of the Merchants' Association in the Woolworth Building. Julius Henry Cohen, counsel for the Port of New York Authority, and others, were heard by Commissioner Hall on Monday, June 25, the New York Central being represented at the hearing by Clyde Brown, General Solicitor for the railroad. In opposing the idea of linking the Central Railroad of New Jersey with the New York Central, the Port Authority calls attention to the fact that such a merger could take in lines which are part of the comprehensive plan for the development of the Port of New York which Congress and the States of New York and New Jersey have directed the Port Authority to effectuate President Smith, in a statement issued on June 26, following Mr Cohen's testimony before Commissioner Hall on Monday, said:

Our proposal is primarily a suggestion with respect to increasing the facilities for the handling of through traffic upon which, after all, the port of New York must depend for its prosperity. It was not and is not now thought that this proposal conflicts in any way with any plans which may be made by the Port Authority and the Inter-State Commerce Commission in co-operation with the railroads for the development and more efficient operation of the terminal facilities of the port district.

It can make no difference in the final working out of the Port Authority's plans whether the Central Railroad of New Jersey is owned by the Baltimore & Ohio, as proposed by the Commission, by the Philadelphia & Reading, as proposed by the Philadelphia interests, by the New York Central, as proposed by us, or is independently owned. Whatever the Port Authority is able to direct in the exercise of its lawful power with the approval of the Inter-State Commerce Commission in the lawful exercise of its jurisdiction can as well be done under one form of ownership as another.

President Smith also, according to the New York "Times," said in his statement:

At the hearing just concluded in this city by the Inter-State Commerce Commission on the subject of the railway consolidations, Mr. Julius Henry Cohen, counsel for the Port Authority, and the engineering staff, have made a violent attack upon the suggestion of the New York Central with respect to the consolidation of it with the Central RR. of New Jersey. I desire to call the attention of the public to some incidents connected with this attitude of the Port Authority.

C. of N. J. Grouped with B. & O.

On Aug. 3 1921, nearly two years ago, the Inter-State Commerce Commission issued its tentative consolidation order, accompanied by a voluminous report from Professor William Z. Ripley of Harvard University, who had been employed by the Commission to make a nation-wide study of the subject. In this tentative order the Central RR. of New Jersey and the Philadelphia & Reading were assigned in their entirety to the Baltimore & Ohio to System No. 3, which the Commission called the Baltimore & Ohio System. It has at all times during the past two years been obvious that in this system, if perfected under the order of the Commission, the Baltimore & Ohio would be the predominant factor. It has also been obvious to all students of transportation that under the system of port differentials a railroad composed of the Baltimore & Ohio, Philadelphia & Reading and Central RR. of New Jersey could not afford to haul any export traffic to the port of New York, through the port of Baltimore, which could possibly be delivered at the port of Baltimore, since the addition to the Baltimore rate for the New York delivery is far less than the actual out-of-pocket cost of transportation for the 190 additional miles which the traffic must be hauled.

It has always been obvious that System 3, composed of the Baltimore & Ohio, Philadelphia & Reading and Central RR. of New Jersey, would at all times have an inducement to prefer, first, the port of Baltimore, and, second, the port of Philadelphia, as against the port of New York.

Nevertheless, during all the time that this proposal of the Inter-State Commerce Commission had been before the public, the Port Authority of New York did not see fit to oppose the suggestion of this consolidation. Even now, at the present hearings, the Port Authority has introduced no evidence in opposition to the Baltimore & Ohio plan.

New York Central Proposal Assailed.

But when the New York Central, realizing this situation and appreciating that System 3 was not, in its judgment, as promotive of the interests of the port of New York as other proposals which could be made, ventured to suggest a consolidation of the New York Central and the Central RR. of New Jersey, with a suitable part (not all, as has been assumed) of the terminal facilities of the Central RR. of New Jersey, this proposal was, as I have said, violently attacked.

Now, whatever may be said of the merits or demerits of this proposal, upon which I am perfectly willing to invite discussion, it was at least a proposal made by a New York railroad primarily interested in the port of New York, and it cannot possibly be open to any objections which do not apply with equal or greater force to the proposal of the Baltimore & Ohio consolidation.

I therefore venture to say that the counsel and staff of the Port Authority have during the past two years either been overlooking a very important matter, or on the other hand, if that is not so, then it must be assumed that the matter of these proposals with respect to the Baltimore & Ohio System or the proposal made by the New York Central are really matters about which it is not necessary for the Port Authority to concern itself. The latter appears to me to be the correct view to take of the matter.

The New York Central now has, in addition to its main line, a line of railroad extending from Ashtabula, Ohio, to Newberry Junction, Pa., over which a large traffic is being handled under disadvantageous conditions. The purpose of the proposal of the New York Central is to consolidate that line with a branch of the Philadelphia & Reading and the main line of the Central RR. of New Jersey, with the allocation of a portion of the terminal facilities of the Central RR. of New Jersey. The object of this suggestion is to make possible the development of an alternative route which would relieve the very heavy traffic lines of the New York Central east of Buffalo and would facilitate the movement of through traffic—freight, passenger, mail and express—between the New York Port Terminal District and western points.

The territory between Buffalo and Albany is practically a continuous line of towns and cities where business is rapidly increasing, where land values are rising and important street interferences and other obstacles to expansion of railway facilities exist which materially limit possible future railway development.

I have no doubt that within the next few years it will become perfectly apparent to everybody that with the vast growth and expansion of traffic of the State of New York it will be absolutely necessary that an additional through trunk line route from the city of New York to western points will have to be secured, and the proposal which we have made, in my opinion, furnishes the best and perhaps the only opportunity for the establishment of such a route. In a communication to Governor Miller I predicted two years ago that within ten years, and perhaps nearer five than ten, it would be a question whether commutation users of the railroads as well as through passengers of the railroads could move into or out of the city of New York as and when they desired. The number of passes through the Allegheny Mountains is limited. All of them are occupied, and this proposed route is perhaps the only one that is not now utilized almost to its maximum capacity.

Mr. Cohen, replying on June 27 to the statement of Mr. Smith, said:

President Smith seems to think that the counsel and the engineering staff of the Port Authority love the Baltimore & Ohio better than they love the New York Central. As a matter of fact, we love all the girls. They are all nice. But we haven't married any of them.

Speaking seriously, let me emphasize that both in the motion papers and in the argument of counsel, as well as in the testimony of the witnesses, it was made clear that the Port Authority regarded the Central Railroad of New Jersey facilities as so essential to the effectuation of the Comprehensive Plan that no trunk line should be given control of them. In answering specifically to the questions of counsel for the New York Central, it was stated that the Port Authority was opposed as well to the Baltimore & Ohio securing control of the Central of New Jersey under the plans proposed by Professor Ripley and the Inter-State Commerce Commission. President Smith was absent from these proceedings, so we had no opportunity to cross-examine him and he had no opportunity to hear our position stated; and he is so busy a man that he doubtless has not yet had opportunity to read the printed motion papers.

I note in one sentence of his statement President Smith says it makes no difference in the effectuation of the Comprehensive Plan what road gets the Jersey Central, but in another paragraph he says it makes a big difference if the Baltimore & Ohio gets it, because if the Baltimore & Ohio got it that line would be induced to divert business from New York to Baltimore.

We may concede that the New York Central is more interested in bringing business here than the Baltimore & Ohio, but the power to divert through control of terminal facilities is also the power to control for competitive purposes, and if one road controls so much of the terminal facilities as to give it a dominating influence—dominating, moreover, so much of the waterfront for the service both of piers and industries as those terminal facilities could serve—that is a situation dangerous to the entire port.

The Port Authority, therefore, is consistently opposed to any of the trunk lines acquiring so great an influence as would be involved in the ownership of the Central of New Jersey facilities, those facilities being essentially terminal facilities necessary to the development of the Comprehensive Plan.

President Smith modestly admitted before the Inter-State Commerce Commission in the recent hearings that he was a fine "horse trader." Whatever else is in dispute, that fact must be conceded.

Inasmuch as President Smith is pleased to level his shafts at me, I wish to make it clear that the engineering staff of the Port Authority and its counsel appeared before the Inter-State Commerce Commission in the proceeding for the consolidation of railroads by direction of the Commissioners of the Port Authority, under a resolution adopted June 20 1923, which instructed counsel "to bring to the attention of the Inter-State Commerce Commission the legal status of the Comprehensive Plan, as approved by Acts of Congress, the potential conflict between the Comprehensive Plan and the consolidation plans as affecting the Port of New York District, especially with reference to the belt lines and terminals embraced in the Comprehensive Plan, and to take such steps as he may deem appropriate to make clear to the Inter-State Commerce Commission the effect of the laws and the pending concurrent hearings before the Inter-State Commerce Commission and the Port Authority, especially the features of the proposal of President A. H. Smith that lines of the Central Railroad of New Jersey be consolidated with the New York Central Railroad."

Upon this resolution the formal motion made asked the Inter-State Commerce Commission to "exclude from consideration . . . (in the consolidation proceeding) the lines of railroad and the terminals embraced in the Comprehensive Plan, and that the . . . Port Authority be treated as a party to this proceeding, with right to appear at the hearings, introduced, cross-examine witnesses, and appear on brief and on arol argument."

President Smith criticises the engineering staff of the Port Authority for not having previously taken an active interest in the consolidation plans of the Inter-State Commerce Commission. He may be right upon this score, and counsel for the Port Authority publicly acknowledged his indebtedness to Mr. Smith for directing attention to the relationship between the terminal facilities and the line haul. Up to the time that Mr. Smith gave his testimony, it seemed to be tolerably clear that the inter-State Commerce Commission would separate the consideration of the terminal problem at each port from the general consolidation scheme, but reading Mr Smith's testimony in the light of the Chicago Junction case, the potential danger to New York of conflict between the Comprehensive Plan and the consolidation of railroads became real. The overworked engineering staff of the Port Authority has been busily engaged in preparing for matters of immediate construction relief to the Port of New York. While engaged in the garden raising summer vegetables, the cow broke loose in the corn. The staff just had to stop attending to the garden long enough to tie up the cow.

If Mr. Smith's railroad appears more conspicuously in Port Authority hearings than any other carrier, it is because both he and counsel for the New York Central openly contest the wisdom and legality of the first principle of the Comprehensive Port Plan, namely, the unification of terminal facilities.

Every other congested centre in the country has accepted this principle as a matter of sound economics, but Mr. Smith contests it in New York. In every congested centre it has come to be realized that open access of every ship- per to every trunk line and intensive use of existing capital investments by all carriers is the only safe policy for the community and in the end the only wise policy for the carriers. New York is the last of the congested centres to awaken to this economic necessity, and the Port Authority is the agency of the two States and of Congress to effectuate the policy.

The Port Authority, in a statement made public on June 25, regarding the motion in its behalf for intervention in the consolidation proceedings, said in part:

The special feature of the application bears upon the proposal of the New York Central, through A. H. Smith, its President, to have included in the New York Central lines the Central Railroad of New Jersey, which owns more terminal railroad facilities in the Jersey section of the Port District than any other carrier. Part of the lines of the Jersey Central are embraced in the Comprehensive Plan for the Development of the Port of New York, which the Port Authority is directed to effectuate by Congress and the States of New York and New Jersey. If the New York Central were successful, it would have, in virtue of its control of the Manhattan Island situation, the West Shore and the New Jersey Junction Railroad, an overpowering and overwhelming influence in the determination of the facilities for service to the shippers and consumers in the whole Port District. By virtue of its competition with other lines and its strategic control of the situation, it would be in a position i n its own interest to impede the effectuation of the Comprehensive Plan, and thus deprive shippers who are entitled to access to all of the through routes of access except to lines controlled by the New York Central.

In the motion papers it is said:

The Central Railroad of New Jersey is a terminal road, connecting with with all trunk lines in the Port of New York, except the New Haven Railroad. The shippers located in the intensely industrial districts which the network of the Central Railroad of New Jersey tracks serves have access to-day to all of these trunk lines, and will have better and greater access when the Comprehensive Plan is effectuated. It is, therefore, important that the interests of these shippers be protected and not subordinated to a through traffic which the New York Central or any other railroad would bring into the Port District if it acquires the Central Railroad of New Jersey.

Mr. Cohen on the 24th inst. had the following to say regarding the proceeding:

The Port of New York Authority, by resolutions of Congress and legislation of the two States, is charged, as a matter of law, with the duty of safeguarding the interest of the Port of New York. Within the Port District are embraced many miles of belt lines now serving through carriers. When Professor William Z. Ripley presented his plans for the consolidation of the railways, the Comprehensive Plan for the Development of the Port of New York had not yet been approved by the Congress of the United States. It was approved by Public Resolution 66, 67th Congress, on July 1 1922. There is now pending before the Inter-State Commerce Commission, Division 5, in concurrent hearings with the Port Authority! the consideration of the steps to be taken by the Inter-State Commerce Commission in effectuating the mandate of Congress. It is obvious that the Inter-State Commerce Commission, in considering its plans for consolidating the railroads, before making determinations affecting the Port

of New York District, must await the results of its own determinations with regard to the Comprehensive Plan for the development of the port, or else there is grave danger that there will be conflict between the two proceedings pending before it.

We shall, therefore, urge that all of the railroad belt lines and terminals embraced in the Comprehensive Plan and set forth in detail in the statutes and shown on the map filed as part of the legislation be excluded from consideration in the present proceedings for consolidation. *We shall especially bring to the attention of the Commission the grave danger f the defeat of the east project authorized by the two States and Congress if any portions of these railroad belt lines and terminals are now consolidated into the through routes of any of the competing carriers entering the Port.*

The Central of New Jersey's facilities are especially needed in providing adequate service to the whole Port District.

Railroad Labor Board Again Takes Pennsylvania Railroad to Task for Attitude Toward Unions.

The United States Railroad Labor Board asserted in an opinion on June 27 that the Pennsylvania Railroad system, after ignoring the decision of the Board in refusing to acknowledge the elected representatives of the clerks' organization, "has persisted in such violation in contempt of the unanimous decision of the United States Supreme Court," which sustained the Board's jurisdiction. The excoriation of the Pennsylvania system—the second of similar nature within eleven days—resulted when the railroad refused to deal with the elected representatives of the clerks' organization as officials representing employees' organization, although the railroad was ready to consider them as individuals. The Board, in its opinion, said the position of the Pennsylvania system in this case was -"devoid of intrinsic merit, violative of the will of Congress and destructive of the rights of the employees." The Board's opinion in part follows:

The position of the Pennsylvania system in this matter is devoid of intrinsic merit, violative of the will of Congress and destructive of the rights of the employees. The employees were not seeking any advantage over the carrier and the Railroad Labor Board had not presumed to encroach on the prerogatives of the management in any sense. The public should also understand that no question of wages, rules, discipline or management was involved.

The mooted question of the open or closed shop was not at issue. There was no proposal to arbitrarily require the carrier to deal with any particular labor organization. The only issue was one of such insignificant import to the carrier as to make its flagrant course one of astonishment to disinterested citizens. The issue is tersely stated, stripped of all surplusage, in the following question and answer quoted from the record of the statement, at the hearing, of a Vice-President representing the Pennsylvania system:

Question: Simply drawing this distinction, that if they will agree to deal with you as individuals you will deal with them; but if they deal with you as officials representing employees' organizations, you will not deal with them?

Answer: You have stated it correctly.

Says Workers Are Oppressed.

In the face of this statement of the carrier's position, the fact remains that the carrier has negotiated agreements with the four train and engine-service brotherhoods which are now outstanding and on file in this case, and which are signed by the officials of those organizations as such and not as individuals. This inconsistent course involves the admission on the part of the road that it respects the rights of employees when they are backed by the four powerful train and engine brotherhoods, but not when they have only the support of the newer and less potent clerks' organization.

The Railroad Labor Board cannot subscribe to such a doctrine. It is contrary to the very essence and spirit of the Transportation Act, 1920, which is predicated on the idea that the rights of neither the carrier nor the employees should be dependent upon force and power, but upon justice and reason. If the same just recognition had been accorded to the clerks' organization that was conceded to the engineers, firemen, conductors and trainmen, this dispute would never have arisen and the Pennsylvania System would not now find itself in the lone attitude among all the great railroads of the United States of attempting to nullify the Transportation Act, and that, not in the defense of its rights, but in the oppression of its employees.

Employees' Conduct Commended.

Throughout this controversy the employees concerned and their representatives have borne themselves in a manner worthy of the highest commendation. Deprived of their rights, they did not strike and visit their grievances upon the heads of an unoffending public. Sustained in their requests by the Railroad Labor Board, which in turn was approved by the courts of the country, they have proceeded quietly about the performance of their duties, awaiting ultimate justice.

Surely, the Congress of the United States when it reconvenes will take proper steps to guarantee to the employees and to the public that no carrier, however great and powerful, shall again propagate industrial discord and endanger public tranqui lity by flouting the will of Congress as interpreted by the established courts and tribunals of our country. This thought is embodied here in response to the petition of these employees that the Railroad Labor Board formally call the attention of Congress to this situation.

Election of Employees on Northwestern Region of Pennsylvania RR. Completed.

Ignoring the rebuke of the United States Railroad Labor Board directed against the Pennsylvania RR. because of the carrier's defiance of one of the Board's decisions, the Northwestern region of the road completed on June 24 the election of employee representatives of the shopmen and miscellaneous forces under the road employee representation plan. It was over the manner of electing shop craft representatives that the road and the Board clashed. The Board has no power to enforce its rulings, and the railroad has ignored its decision in the matter. The election, the official announcement said, was conducted in private voting booths at all road shops in the territory, and the ballot count was tabulated by the employees' shop crafts committee at Fort Wayne, Ind. Results showed a 76.4% ballot of the eligible employees, which was declared to surpass the percentage of ballots usually cast in municipal elections.

Clerks, Station Employees and Common Laborers Get Wage Increase on New York New Haven & Hartford Railroad.

Clerical and station employees and common laborers in and around station, storehouses and warehouses will receive wage increases effective July 1, C. L. Barde, General Manager of the New York New Haven & Hartford RR. and the Central New England Ry. companies advised the Railroad Labor Board on June 23. The clerical forces receive an increase of 3 cents an hour; the station employees an increas- of 2 cents per hour. Common laborers are given a flat 40 cents an hour wage scale. The increase will affect about 6,100 employees and will mean an additional yearly wage of about $316,000.

Shopmen Get Wage Increase on the Lackawanna.

The Delaware Lackawanna & Western RR. will increase the wages of its shopmen 2 cents an hour beginning July 1. Notice to this effect was posted at all shops of the system. First class mechanics who have been receiving 80 cents an hour, will now receive 82 cents. The new rate for others follows: Grade B, 77 cents; Grade C, 74 cents; Grade D, 72 cents; Grade E, 69 cents.

Canadian Shopmen Ask Wage Increase.

Shopmen of Canadian railways submitted to the Railway Association of Canada on June 26 a request for 10 cents an hour increase in wages and proposals for altered working conditions. The new scale would give to mechanics 80 cents an hour, to freight carmen 75 cents, and helpers 57 cents.

Anthracite Miners Again to Ask Twenty Per Cent Increase in Wages.

A demand for a 20% increase in the contract wage scale, with an increase of $1 a day for all men paid by the day, was presented to the anthracite miners' convention in Scranton, Pa., on June 29 for adoption and submission to the mine owners next week. The list of demands drafted by the convention's scale committee follows the general lines of the demands formulated in January 1922, and fought for five and a half months last year. The present wage scale, adopted last September, expires Aug. 31. Other demands submitted to the convention on June 29 for adoption include the following:

A two-year contract, with complete recognition of the union.

That the differential between classification of labor previous to the award of the United States Anthracite Coal Commission shall be restored.

Uniformity and equalization of all day rates and skilled mechanics such as carpenters and blacksmiths, etc., be paid the recognized standard rates existing in the region, which shall not be less than 90 cents per hour as a basis.

All day men to be paid time and a half for overtime and double time for Sunday work.

That the eight-hour day clause in the present agreement apply to all persons working in and around the anthracite collieries coming under the jurisdiction of the union.

That where coal is paid for by the car the system shall be changed and the miner paid on the ton basis of 2,240 pounds, and where penalties are mposed for refuse that the amount of the refuse be fixed by a mine committee and colliery officials.

A more liberal and satisfactory clause in the agreement covering the question of miners who encounter abnormal conditions in their working place.

The list includes other demands of a technical nature, most of which were embodied in those presented to the operators last year.

New Ruling of Association of Foreign Security Dealers of America, to Protect Holders of Drawn Bonds.

In announcing a new trading regulation affecting drawn bonds "not good delivery," A. W. Kimber, Secretary of the Association of Foreign Security Dealers of America, hsa the following to say under date of June 21:

This new ruling provides a remedy in case of erroneous delivery of drawn bonds which have been drawn for payment on or before the date of delivery and clears up a situation which has become very troublesome to dealers in foreign bonds and to their customers.

Most drawings for account of sinking fund of bonds take place in London, Paris, Brussels or some other foreign city and the numbers of the bonds drawn are not received in this country for two weeks or more after the dat of the drawing. In numerous cases a bond has been delivered when it had been drawn for payent, and was, therefore, not an interest bearing security;

such as the purchaser intended to buy. The new ruling establishes the right of the purchaser in such a case to obtain a current bond from his seller and conversely the right of the seller to recover such a bond upon tender of a similar bond that has not been drawn.

The new regulation is announced as follows effective June 12 1923:

New Trading Regulation—Drawn Bonds Not Good Delivery.

Relative to foreign bonds, not listed on the New York Stock Exchange:

Securities which have been drawn for payment are not a good delivery. In case of erroneous delivery of drawn securities, the buyer, on receipt of undrawn securities, and on allowance being made for any drawing or interest payment of which he may have lost the benefit, shall deliver the drawn securities back to the person who held them at the time of the drawning, or shall pay to him any proceeds received from such drawing provided said securities or the proceeds thereof be traced to and remain in the possession and under the control of such buyer all intermediate members being released from liabilities.

In case the said securities do not remain in the possession or under the control of such buyer he shall be obliged, upon demand, to give the name of the party of whom he has sold them.

No claim by the seller in respect of erroneous delivery of drawn securia ties will be entertained by the Association unless made within nine calendar months after such drawing.

Irving H. Meehan on Problem of Issuing Duplicates of Securities Lost.

A paper in which he stated "it may be safely said that The Problem of the Issuance of Duplicate Securities Against Those Lost, Destroyed or Stolen is of particular interest to banker," was presented by Irving H. Meehan, Assistant Vice-President of the Fa mers' Loan & Trust Co. of New York before the Trust Company Section of the New York State Bankers' Association, at the latter's recent convention. Mr. Meehan stated that "the attention now being centered on this phase of financial activity by trust companies and other financial institutions gives a fair estimate of its importance." He added in part:

This interest is perhaps intensified by the recurring robberies involving loss of securities aggregating many thousands of dollars, accounts of which so frequently grace the front pages of our newspapers. Aside from being interested as owners of securities, individually, and in various fiduciary capacities, financial institutions have a further interest for as transfer agents, registrars and trustees the burden of the resultant trouble, expense and responsibility incident to the issuing of substitute securities falls on their shoulders without any provision being made for proper compensation.

I shall not attempt to provide a solution for the many problems that might properly come within the scope of our subject but will confine myself solely to discussing present practices and the making of some suggestions which will show the imperative need of co-operation the part of bankers and attorneys in formulating a uniform practice. If we bankers can agree among ourselves as to the best practice to follow in the issuing of securities in lieu of those lost or stolen and then enlist the co-operation of attorneys upon whom falls the responsibility of preparing the instruments under which we act, whether it be the by-laws of the company of the mortgage securing a bond issue, much will be done to make the replacement of securities less burdensome to all those immediately concerned.

A typical case will probably serve to freshen our recollection of the general form of procedure followed when we are confronted with the question under discussion. A woman, legatee under a will, has received a certificate of stock which she very carefully places in her desk for safe-keeping. The inevitable day arrives, however, when the desk is placed in order; old papers, including our certificate, are thrown out and destroyed with the result that in due course you are advised of the lst certificate and asked to issue another in its place.

What do you do? Your first thought is to place a "stop transfer" and advise the registrar of the lost security. You then refer to the company's by-laws, or, in the case of bonds, to the instrument under which you are acting. In general, it will be required that the applicant for such substitute certificate furnish to the company or to the trustee satisfactory evidence of the destruction, loss or theft of the certificate in question in the form of an affidavit in which is embodied a statement to the effect that the certificate has not been sold, assigned or hypothecated. A bond of indemnity will also be required of the owner, and which bond, if not issued in triplicate original form is, in some cases, retained by the transfer agent, in others by the issuing company. In any event, it should be issued in favor of the principal company, the transfer agent and the registrar. The by-laws may require that due notice of the loss be published in several papers having the largest circulation in the cities where the security is actively traded in and that the secretaries of the several exchanges be notified. Copies of these notices are then filed with the principal company since it will only issue the substitute security after a suitable length of time has elapsed and the consent of the local exchange obtained. The board of directors of the issuing company, must, by proper resolution, authorize the issuance and registration of the substitute securities and copies of this resolution must be sent both to the transfer agent and to the registrar. As a precautionary measure, since very often the certificate comes to light, it is well in every case to delay the issuance of a certificate as long as it can be safely done without subjecting the issuing company, the transfer agent or the registrar to criticism.

A word as to bonds of indemnity may not be amiss. While the forms now used by indemnity companies are couched more or less in the same terms, still it is well in each case where a form other than the issuing company's own form is used, to scan the bond very carefully to ascertain if any restrictive clauses have been inserted which will in any way affect the security of the issuing compny, the transfer agent or the registrar. Care should be taken to see that the bond is drawn in perpetuity and not for a stated period, also that it contains no requirements which make it compulsory on the part of those indemnified under the bond to file stated notices or comply with certain conditions during the life of the same. The standing of the bonding company too, should receive careful consideration. Indeed, this is of primary importance since the bond of indemnity is only as strong as the issuing compny. The par and market values of a security have an important bearing on the amount of the bond required and an amply sufficient margin should be allowed to take care of all contingencies including legal expenses that may arise following the issuing of a substitute certificate.

While the amount of the bond is fixed by the principal company, it should in every instance, be in an amount satisfactory to both the transfer agent and registrar. In any event, no bond should be accepted for less than $500 and in the case of a stock selling below its stated par value a bond in twice the amount of the par value should be required. Again, with respect to a stock selling for more than its stated par value, or a stock having no par value, bonds of indemnity in twice the amount of the market value should be obtained. With respect to bonds, it is customary to require a bond of indemnity in twice the amount of the face of the bond and the coupons attached thereto.

In conclusion, therefore, it would seem that much can be done to lighten the present burden of corporations and corporate trustees, transfer agents and registrar provided proper methods are evolved among banking institutions to standarize those practices which, while expediting the issuance of substitute securities, in no way lower the safeguards so necessary to be maintained for investors in general (1) A complete and comprehensive form of bond of indemnity which would meet the needs of all principals is within the range of possibility. (2) A uniform clause in the by-laws of corporations and in mortgages securing bond issues covering lost, stolen, destroyed or multilated certificates will also help to standardize the practice of issuing substitute securities. (3) Suggested changes to corporations having burdensome provisions in their by-laws covering the issuance of duplicate securities might properly come from the banker. (4) It would also seem logical and eminently proper to enlist the good offices of the local stock exchange which is in a position to make it obligatory on all corporations whose stock is traded in on that exchange to comply with standard requirements covering the issuing of substitute securities.

In connection with the subject under discussion, or, for that matter, with any of the many problems which properly come to the banker, I want to urge upon you the necessity of leadership on our part. Where we know that uniformity of practice based upon an intelligent understanding will provide additional safety for the customer and additional efficiency for the institutions involved, it is up to us, not individually, but as a body to insist upon such practices. One of the greatest lessons that the Bankers' Association can teach to its members is that, guided by intelligent honesty and fair dealing, "United we stand, Divided, we fall."

Dr. J. T. Holdsworth's "Fighting Program" for Business.

Describing American business as slowly "recovering from the attacks of chills of business hesitation and timidity which it experienced a few months ago," Dr. J. T. Holdsworth, Vice-President of the Bank of Pittsburgh, N. A., of Pittsburgh, in an address before the New York State Bankers Association at Atlantic City on June 13 declared that "all indications point to good business for months to come." While Dr. Holdsworth devoted a large part of his remarks to "the statistical evidence of sound business prevailing everywhere in this happy land," the outstanding feature of his address was the "fighting program" for business which he proposed in seeking to show "What Confronts American Business." In his presentation of this program he said:

Why, then, if the business prospect is so promising, why should the title of this address carry such a challenging word as "confronts"? Because continued business prosperity which rests upon the observance of sound economic principles is threatened by radicals within Congress and without who by legislation would abolish economic order, displacing competition and the law of supply and demand by Government ownership and control of the great industries of the country. Business men as individuals and as organized units must rally to the defense of our modern capitalistic system under which the economic world has made such amazing progress, must come to to-morrow's contest against radicalism armed with a thoroughgoing understanding of the basic principles of sound government and sound economics.

The following outline of attack and defense is suggestive:

1. Take the Government out of business and keep it out. Organize to fight the Plumb plan and every other scheme looking to Government ownership or control of our utilities and industries.

2. Insist upon rigid economy in the administration of our public affairs, the inviolability of the budget system and the reduction of taxes.

3. Fight the fallacy of "soaking the rich" through repressive taxes on business, excessive inheritance taxes, the proposed renewal of excess profits taxes, and other taxes directed against the accumulation of capital, which is the very life blood of our economic organism.

4. Attack radicalism masquerading as progressivism and by an aroused public opinion drive its leaders from life or into exile.

5. Expose the economic fallacy of the proposed schemes for price fixing of basic products, and of every other attempt to inhibit or to interfere with the normal operation of economic law.

6. Preserve that great charter of our banking and credit security, the Federal Reserve System, inviolate against partisan politics.

7. Defend our railroads, owned *voluntarily* as they are by thousands of stockholders and investors of moderate means, from those who for selfish or partisan ends would still further harass and embarrass them in order to create a widespread dissatisfaction with their present administration and bring them again under Government control when all the people would be taxes *involuntarily* for their support.

8. Preserve the gold standard against the apostles of "Muscle Shoals" currency and the advocates of like monetary nostrums discredited by our history and by current experience in Russia and Germany.

9. Back up vigorously everywhere the banker-farmer movement and the effort to bring industry and agriculture into closer harmony and co-operation.

10. Develop a strong public opinion committed to the active participation by the United States in an effort to restore Europe to sound economic health and order.

11. Groom strong business men of progressive thought and disposition for Congress and the State Legislatures and get actively and intelligently into politics yourselves.

Basically all these problems are economic, but most of them involve in one way or another legislation, and that unfortunately means politics. The great business questions of to-day and to-morrow pressing for solution can best be solved out of the experience and the informed judgment of business men familiar with the problem of business, its limitations, its possibilities and its needs. Only as business men interest themselves actively, intelligently and continuously in politics will we continue to enjoy and to merit prolonged business prosperity. That is to-day's challenge to the business man.

Dr. Holdsworth in depicting the promising business conditions of the country said in part:

The recent slackening of business which followed the rather rapid expansion earlier in the year culminating in March has been normal for this season of the year, and, too, has been wholesome in that it gave opportunity to check up on the general situation and establish a fact basis for future business judgments. Now business may go ahead again prudently, normally, but with confidence in the fundamental soundness of American business.

Looking back over the last few months it appears that the warnings of economists and bankers may have induced an over-cautious attitude; we may have been reviewing too intently the dreary record of 1920, and so have sacrificed safe business opportunities and profits. As a matter of fact, since the peak of March we have not had any serious over-expansion, much less any real inflation. Business has been fundamentally sound and free from the dangerous speculation, top-heavy inventories, feverish production and wild bidding for labor and materials at rapidly mounting prices and the peril of exhausted bank reserves, which characterized the fateful months of 1919-1920. Nor is there now any actual danger, as some timid observers would have us believe, of a "buyers' strike," such as characterized the debacle of three years ago. The temporary check to the building boom, which has been in progress for over two years and which is the logical result of the starving of that industry during the war, is due to the fact that costs of materials and labor, and, perhaps, contractors' profits, have so risen as to be out of line with other consumption goods—and the public has for the moment declined to pay the price. But with the demand for homes still so insistent there is little probability of a long or serious slump in the building industry, though the peak of the boom has probably passed.

The movement looking to the curtailment of public construction work in order that private home building may have first call upon the limited supply of labor and materials is to be encouraged. A recent development in the building industry which may have a valuable lesson for other industries is the establishment of a statistical and forecasting committee under the authority of Secretary Hoover and the American Construction Council. The committee is to publish weekly a statement showing the supply of and demand for building materials and labor and a forecast of construction needs and prospects throughout the country. With this broad survey of actual conditions in the industry builders can plan construction with greater assurance and confidence, and the peaks and valleys in the building industry can measurably be smoothed out to the great advantage of every one concerned.

American business men have become used, though surely never reconciled to the recurring ups and downs, periods of prosperity followed by deflation and depression of the so-called "business cycle," and many regard these cyclical movements as an unavoidable element in our economic life. It is high time that we disabuse our minds of this economic fatalism. Overproduction, so called, accompanied by rapid expansion, rising prices, overextended credits and bank loans, and followed by contraction, deflation, depression and hard times—these familiar phenomena of the business cycle are no more fixed and inevitable than are the illnesses that inflict the human system. Just as disease results from violation of the laws of health and hygiene, so these business ailments are traceable to neglect or violation of fundamental economic law. And in large part this neglect or violation is due to economic ignorance. Given a sound working knowledge of economic fundamentals and a broadly-based, up to date summary of economic conditions of the governing factors in production, distribution and consumption, prevailing throughout the country and the world, the business of the future can be balanced with a much finer relation to supply and demand, the peaks and valleys of the business cycle can be smoothed out considerably, and a much larger measure of business stability be attained. This is not an attempt to rescind the immutable law of supply and demand; it is rather a foreshadowing of a more intelligent understanding and application of that law. The results of the experiment along these lines in the building industry will be awaited with keen interest.

It is needless to recount here the statistical evidences of sound business prevailing everywhere in this happy land. The story is being told and proofs attested in trade reports and dispatches day by day—the story of freight car loadings in excess of anything previously known in our railroad history; of maximum production in the iron and steel industry, output being limited only by available labor supply; of record sales by five-and-ten-cent stores and mail-order houses, and sustained buying in the retail trade generally; of unslackened activity in the automobile business with impatient buyers waiting at the doors of the factory to drive away their cars; of labor fully employed at highly remunerative wages, yet without disposition to extravagant spending; and of the movement in general of industry's full product into immediate consumption.

The business picture is not—it never has been—wholly free from shadows. One of these is the increase in manufacturing costs as a result of the continued rise in wages. In recent months competition among employers for the limited supply of labor, due in part at least to the restrictive immigration law, has resulted in the steady bidding up of wages, and not a few factories are operating on reduced schedules owing to the scarcity of both skilled and unskilled labor, or have closed down completely rather than meet the excessive demands of labor. Some agricultural sections have suffered acutely from this industrial and building competition for laborers and fear is expressed that this farm labor shortage will seriously interfere with the harvesting of the crops. And it must be remembered that the farmer's prosperity measures that of the country at large. There still remains an unduly wide spread between the price of what the farmer has to sell and the price of what he wants to buy. On the whole the farmer is our largest buyer, as too, he is our largest seller, and until this spread between his buying and his selling prices is contracted the consuming power of the country at large cannot be greatly expanded.

A chief reason, of course, for the disparity between the returns to agriculture and to industry is that farm products are so largely "surplus" products and must find foreign markets—for example, over one-half of our cotton goes abroad and a large fraction of our wheat, flour, and animal products—otherwise they will back up and flood the home markets with resulting low prices and bad times. The manufacturer is not nearly so dependent upon over-seas markets, and when demand slackens he can curtail his output; the farmer goes on producing. He, therefore, is vitally and directly interested in the early restoration of the purchasing power of Europe, his best foreign customer. Moreover, when he has had time to think matters through, he will not be misled by farm bloc radicals who propose such false remedies as a tariff on farm products, dirt farmers to direct the Federal Reserve System, regulation of the grain exchanges, price fixing in defiance of the basic principles of economic law, and similar legislative nostrums that have been prescribed as a cure for the agricultural situation.

Some observers, habituated to the use of green or blue glasses and unable to stand the strong light of business prosperity, affect to see in the recent reversal of our foreign trade the end of our business prosperity. A few weeks ago the commercial world was startled by an official statement that the visible balance of trade, instead of being in favor of the United States, was against us to the extent of $50,000,000 for the first quarter of the current year. The amount of the adverse trade balance for March, $41,000,000, was the largest for any single month in our whole commercial history. This turning of the merchandise trade balance, though not to be predicted as permanent upon the showing of a single month or quarter, nor to be apprehended as an indication of immediate reaction in domestic business, does mark, perhaps, the change from war to peace conditions. This change from a favorable to an adverse merchandise balance is, however, not difficult to understand. The prevailing prosperity in the United States has made this the best market in the world in which to sell. As pointed out by the Federal Reserve Board last week, the recent large volume of domestic production has resulted in greater demand on the part of our manufacturers for such raw materials as wool, hides, and producers' goods like wood pulp, hemp and rubber. This has been a good market to sell in not only for ourselves but for the outside world. While this condition continues the stream of the world's surplus products will flow to our shores despite the obstacles imposed by a high tariff and the restriction of immigration.

While imports of merchandise have been expanding and exports have remained relatively steady, gold has continued to flow into this country, though fortunately on a scale much lower than in preceding years. Since the lifting of the gold embargo our net importation of gold has exceeded a billion of dollars, and to-day our total is close to four billions, nearly one-half of the world's available supply. This huge accumulation of gold, unparalleled in the history of any country, which had a casual influence in the unhappy inflation of 1919, and which doubtless has had some effect in the recent period of high price levels, has been regarded by some thoughtful observers as dangerous, in that it affords a basis for possible credit inflation. It should be remembered that our absorption of a large share of the world's gold reserves is the result of abnormal international conditions, and that when economic order is restored in Europe with the possible re-establishment of the gold standard, we must be prepared to return to it from our great stores the necessary gold. If, as a result of hard work, economical production and consistent saving, Europe can turn the tide of trade in her favor, the gold needed for her rehabilitation will be returned to her and the problem of our superfluous gold will automatically solve itself. That happy time may be long in coming, but meanwhile we must be careful not to build up a credit superstructure upon a foundation of gold reserves a considerable proportion of which must sooner or later be exported back to Europe.

This running survey of business conditions would be incomplete without reference to our strong banking and credit situation. Heretofore booming business has been accompanied by dwindling money supply and high interest rates. Current business prosperity, though marked recently by increases in both commercial and Federal Reserve Bank loans, has been carried forward on the basis of our new importation of gold, leaving the resources of Federal Bank reserves practically untouched. The strength of our banking and credit position is almost without parallel in our recent history. Conscious of their strength but ever careful to conserve and maintain it, the banks of the country may safely go forward on the broad path of business prosperity.

Richmond Federal Reserve Bank Seeks Rehearing in Par Collection Action.

In support of its application for a rehearing in the North Carolina par collection bank check controversy, the Federal Reserve Bank of Richmond, Va., filed in the U. S. Supreme Court on June 23 a petition in which it declared "that the conclusions of the Court would have been modified substantially had it taken into consideration certain aspects of this case which do not seem to have been considered in rendering the opinion." Associated Press advices of the 24th inst. from Washington said:

The petition further asserted that "there are certain statements made in the opinion the effect of which is not clear to the respondent (the Federal Reserve Bank of Richmond) and regarding which the respondent feels that it is entitled to be enlightened in order that it may be fully conversant with its rights in the premises.

The petition further asserted it was important to present to the court "the possible effect which the decision, unmodified, may have upon the future course of banking in this country." It would be most unfortunate, it added, "if in the operation of these institutions certain important rights are denied to them (Federal Reserve banks) without thorough and careful consideration of the effect thereof." The Federal Reserve banks should not be hampered, the petition continued, "in rendering to the public a very essential service and one which a large majority of the banking and business interests of the country desire, unless the necessity is clear."

ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

Two New York Stock Exchange memberships were reported posted for transfer this week, the consideration being stated as $92,000 and $90,000, respectively. The last preceding sale was at $90,000.

Russell C. Leffingwell retires to-day (June 30) from the law firm of Cravath, Henderson, Leffingwell and de Gersdorff to become identified with J. P. Morgan & Co. as a partner in their New York, Philadelphia, London and Paris firms. Mr. Leffingwell was Assistant Secretary of the Treasury during President Wilson's Administration, under Secretaries McAdoo, Glass and Houston. His proposed new connections were made known as follows by the firm of Cravath, Henderson, Leffingwell & de Gersdorff:

Mr. Leffingwell retires from our firm on June 30 to become a member of the firm of J. P. Morgan & Co.

S. Parker Gilbert Jr., who has resigned as the Under Secretary of the Treasury, will become a member of our firm when his resignation becomes effective early in the fall.

Charles A. Roberts, A. I. Henderson and Leonard D. Adkins have become members of our firm, which will continue under the name of Cravath, Henderson & de Gersdorff.

Mr. Leffingwell entered this office immediately upon his graduation from the Columbia Law School in 1902, and has been a member of this firm and its predecessor firms since 1907, except during the war and shortly thereafter

when he was in the Treasury of the United States. He served first as a dollar-a-year man, and was later appointed Assistant Secretary of the Treasury. He resigned from the Treasury in 1920.

Mr. Leffingwell was born in New York City and is 44 years old. He graduated from Yale in 1899, with the degree of A. B. He graduated from Columbia Law School in 1902, with the degree of LL.B. He also holds an honorary M. A. degree from Yale, conferred in 1919.

The Farmers' Loan & Trust Co. of this city announces that with the purpose of extending its facilities for travelers it will maintain an office aboard the S. S. Leviathan. The company says:

This office will handle foreign exchange and letter of credit transactions, and receive and transmit payments by wireless between ship and shore or shore and ship.

The establishment of this first "ocean bank" of an American financial institution, aboard the largest of the world's passenger ships, is in accordance with the policy of the company to extend every possible banking facility to travelers.

Travelers or those requiring foreign banking services are invited to avail themselves to the fullest extent not only of the facilities of the "Leviathan" office, but of the conveniently located offices in New York, London and Paris.

The Farmers' Loan & Trust Co. of this city has insured all of its employees under a group insurance plan of the Metropolitan Life Insurance Co. The New York "Evening Post" of June 15 said:

The trust company assumes the entire cost of the insurance, which guarantees to dependents of employees an amount equal to a year's salary. There is also a provision for annuities for incapacitated employees.

In announcing this step, James E. Perkins, President of the trust company, said: "The plan now adopted, providing insurance for all employees of the company without cost to them, is an expression of appreciation of the services of the men and women in all ranks who contribute to the upbuilding of this institution."

A special meeting of the stockholders of the Battery Park National Bank of this city will be held on July 16 to act on the proposed merger of the institution with the Bank of America, plans regarding which were referred to in our issue of June 9, page 2599. As an incident thereto, the Battery Park National will be placed in voluntary liquidation, and the institution will be reincorporated under the State laws preliminary to the transfer of its business to the Bank of America.

The Bowery Savings Bank has entered the uptown banking district with the opening on Monday of this week (June 25) of its new branch at 110 East 42d Street. According to the officers of the bank 2,839 new accounts with total deposits of $502,340, or average deposits of $178 were opened at the new quarters during the first day of business there. The bank's new 42d Street quarters are opposite the Grand Central Terminal. It is a 16-story building which has been erected by the bank, the lower portion being utilized for its own needs and the rest of the building being rented for offices. The bank will retain its building at 128-130 Bowery, corner Grand Street. On the 23d inst. $202,000,000 in negotiable securities were transferred from the Bowery location to the new quarters. The securities were conveyed in 14 armored motor cars. The Bowery Savings Bank had its inception in 1834, when it was organized to promote thrift among workers in the Bowery. In the beginning deposits were received two nights a week in a corner of the Butchers' and Drovers' Bank at 126 Bowery. Two years late a building at 128 Bowery was purchased and occupied by the bank. In 1852 a new building was erected at 128 and 130 Bowery, and in 1864 this building was enlarged. The present structure in the Bowery was erected in 1894.

Lafayette B. Gleason, of the firm of Gleason & Carlton, has been elected a director of the Bigelow State Bank of New York.

Hugo S. Radt, heretofore Assistant Cashier of the Capitol National Bank of this city, was appointed Vice-President of the bank at a meeting of the directors this week.

The American National Bank of Mount Vernon, N. Y., announces the purchase by it on June 19 of the property located in the centre of the business section of Mount Vernon, known as 2 North 4th Avenue, formerly owned by Charles A. and Walter G. Barker. The property has a frontage of 23 1-3 feet on North 4th Avenue, the main business thoroughfare, and runs 157 feet on the First Street side, 202 feet on Stevens Avenue and 44 feet on North 5th Avenue, comprising, with the exception of a small parcel, the entire block bound by Fourth, Fifth and Stevens Avenues, Mount Vernon. This property was held by the Barker family for over 30 years. The bank leased the property under an option and opened for business Oct. 4 1920 with deposits of $136,000. Its total assets to-day are over $3,460,000, and the purchase was made from earnings. Plans have been drawn for the erection of a modern bank and office building on this site. The erection of the new building will be deferred temporarily.

Jersey City's banking facilities were added to this week with the opening on Monday last, June 25, of the recently organized Franklin National Bank. According to the officials, the bank opened with over 600 individual accounts and a total of $200,000 in deposits, which, it is claimed, is a record for the recent Hudson County banks which have opened. The bank has a capital of $200,000 and surplus of $50,000; the stock, we are advised, was all subscribed and paid for last January. The bank is located at Palisade Avenue, corner Perry Street. The officers are: Dr. James H. Freile, President; William V. O'Driscoll, Henry R. Hansen and A. J. Goldstein, Vice-Presidents; Irwin G. Ross, Vice-President-Cashier; Edward J. Cavanagh, Asisstant Cashier, and Lewis G. Hansen, Trust Officer. The following are the directors: William B. Quinn, William Neumann, Geo. Knoll, Henry Kusel, Carl Lampe, John Guckenberger, Dr. Wm. Freile, Franklin Martens, Henry R. Hansen, Henry Rader, Irwin G. Ross, Lewis G. Hansen, Henry Mack, Wm. V. O'Driscoll, Chas. Rubens, A. J. Goldstein, Edward Rollfs, Gustav Hollsteih, Dr. Jas. H. Freile, Jos. Spingarn, Geo. Fielding, Geo. Riefler and Jos. Schuchman.

At a meeting of the board of directors of the First National Bank of Hoboken, N. J., on June 26, Edwin A. Harriss was elected a director to fill the vacancy in the board consequent upon the death of Theo. Butts. Mr. Harriss is Vice-President of the R. B. Davis Co., manufacturers of baking powder, one of Hoboken's largest industrial enterprises.

Harry H. Pond was elected President of the Plainfield Trust Co. of Plainfield, N. J., on June 21, succeeding the late Orville T. Waring. Mr. Pond, who is Vice-President of the Mechanics & Metals National Bank of New York, and had been Vice-President of the Plainfield Trust, became Secretary and Treasurer of the Plainfield Trust Co. in 1910. In 1913, although continuing as a member of the board of directors of the latter, Mr. Pond resigned as Secretary-Treasurer to become Vice-President of the Mechanics and Metals National Bank of New York. In 1913 he was chosen President of the New Jersey Bankers Association and during the World War served as chairman of one of the local Liberty Loan committees. He began his banking career as an office boy in the Vineland National Bank. He rapidly advanced to greater responsibilities and while Cashier of the Vineland bank he organized the Savings Bank of Cumberland County, which he afterward converted into the Vineland Trust Co., and for several years was the active head of both institutions. Another change in the Plainfield Trust on the 21st inst. was the creation of the post of chairman of the board and the election thereto of Charles W. McCutcheon, one of the organizers of the company, and a member of the board of directors since its inception; the election also occurred at the same time of DeWitt Hubbell as Vice-President in addition to the office of Secretary and Treasurer, which he has held since 1913. Mr. Hubbell was formerly connected with the Mutual Alliance Trust Co. and the First National Bank of New York. The Plainfield local paper, in referring on the 22nd inst. to the growth of the trust company, said:

Since June 4 1902, when the Plainfield Trust Co. was founded, its development has been remarkable. Beginning with deposits of $124,000, the deposits of the bank now amount to over $9,300,000.

The past year has been an auspicious one for the bank. It marked the second increase in capital stock since the organization of the company. Last December a 66 2-3% stock dividend was declared, which increased the capital stock from $300,000 to $500,000, giving the company a combined capital, surplus and undivided profits of over $1,000,000, with total resources of over $10,000,000.

The men associated with the management of this institution as members of the board of directors, insure a prosperous future. The directorate is composed of the following: Charles W. McCutcheon, chairman of the board; Henry M. Cleaver, Frederick Geller, Arthur M. Harris, Augustus V. Heely, DeWitt Hubbell, Edward H. Ladd, Jr., Harry H. Pond, Charles A. Reed, Frank H. Smith, John P. Stevens, Samuel Townsend, Conelius B. Tyler and Lewis E. Waring.

The executive management of the bank is in charge of: Harry H. Pond, President; Augustus V. Heely, Vice-President; DeWitt Hubbell, Vice-President, Secretary and Treasurer; F. Irving Walsh, Assistant Secretary-Treasurer; H. Douglas Davis, Assistant Secretary and Trust Officer; Russell C. Doeringer, Assistant Treasurer.

Ernest B. Dane and Elmer E. Silver have been elected directors of the Boston Safe Deposit & Trust Co. of Boston.

The proposed consolidation of the Fourth-Atlantic National Bank and the Commonwealth National Bank (until recently the Commonwealth Trust Co.), both of Boston, was unanimously approved by the stockholders of the respective institutions at meetings held on June 25. The resulting institution—the Commonwealth-Atlantic National Bank—will begin business on Monday next, July 2. As stated in these columns in our June 16 issue, plans have been completed looking towards the absorption of the Boylston National Bank of Boston by the new Commonwealth-Atlantic National Bank.

The newly-organized Community Trust Co. of Philadelphia opened for business on the 18th inst. in the Shubert Building, or 252 South Broad Street. Normand S. Sherwood is President of the new institution; H. R. Disston, Vice-President; Raymond S. Stevenson, Secretary and Treasurer. The directors are: George A. Brennan, H. R. Disston, George Fleck, George H. Grone, Joseph Gazzan, Jr.; Grant Hultberg, Clarence F. Hand, John S. Krauss, Ambrose Hunsberger, William W. McKim, J. C. O'Callaghan, Dr. Hubley R. Owen, David H. Rishel, Normand S. Sherwood, C. A. Stern, Raymond S. Stevenson and William P. Wood. As indicated in our issue of April 7, page 1494, the company has been formed with a capital of $200,000 and surplus of $40,000.

B. G. Moore was recently elected 2d Vice-President of the Market Street Title & Trust Co. of Philadelphia. Mr. Moore is also a director of the institution, and President of B. S. Janney Jr. & Co., wholesale grocers.

On June 22 the People's Savings & Trust Co. of Pittsburgh took over the Real Estate Trust Co. of that city. This latter institution, which had a capital of $2,000 000 surplus and undivided profits of $2,073,740, and total resources of approximately $8,000,000, was an outgrowth of the old real estate firm of Black & Gloninger and began business in 1910 when that firm decided to extend its business into the banking field. The officers and employees of the acquired institution are to be retained by the People's Savings & Trust Co. and David P. Black, who was President of the Real Estate Trust Co. since it was founded, will become a member of the board of directors. The People's Savings & Trust Co. (which is closely allied with the First National Bank of Pittsburgh) has a capital of $3,000,000, with surplus and undivided profits of $6,937,792 and total resources of $25,000,000. It controls the East End Savings & Trust Co. of Pittsburgh, with which the Liberty National Bank and its affiliated institution, the Liberty Savings Bank, were consolidated on May 14 last. Interests affiliated with the People's Savings & Trust Co., it is said, recently obtained control of the Squirrel Hill Bank of Pittsburgh by purchase of a majority of the stock of that institution. C. A. Robinson is President of the People's Savings & Trust Co.

David Glenn Stewart, Vice-President of the Western National Bank of Pittsburgh and for many years prominent in the business and civic affairs of that city, died at his home on Morewood Heights, Pittsburgh, on June 5 at the age of 83.

Referring further to the proposed consolidation of the East Pittsburgh National Bank of Wilmerding, Pa., and the Wilmerding National Bank, mentioned in our issue of June 16, page 2735, the officials of the banks have announced, according to newspaper advices from Pittsburgh, that the merger of the institutions will be consummated on July 10. The consolidated bank—the First National Bank of Wilmerding—will occupy, it is said, the present quarters of the East Pittsburgh National Bank at Westinghouse Avenue and Commerce Street, where extensive alterations will be made to take care of the increased business. These alterations, which will include a large steel vault of the latest type to be constructed, in the main banking room; the redecorating of the interior of the building and the installing of new fixtures and equipment, will be carried on without interfering with the business routine of the enlarged bank. The new institution will have combined capital, surplus and undivided profits, it is said, of more than $500,000 and total assets of approximately $6,000,000.

Charles H. Coover, Secretary and Treasurer of the Waynesboro Trust Co., Waynesboro, Pa., was on June 19 arrested for the alleged embezzlement of the bank's funds to the extent of $158,000 and later was released under $20,000 bail. With reference to the matter, a special press dispatch to the Philadelphia "Ledger" under date of June 19 said in part:

> The trust company will not lose a cent through Coover's alleged defalcation, however, and to-day is just as safe as it ever was. Mr. Coover was bonded for $125,000 and has turned over property valued at approximately $27,000 to help cover the loss.
>
> The directors of the trust company, as a whole, have underwritten the balance of the shortage, so that no loss will be sustained. Mr. Coover on Friday afternoon [June 15] is alleged to have admitted the shortage when accused by an investigating committee, and to have said that he had used the money in speculations that had decreased in value. He could not give the exact amount of the shortage, but investigation revealed the correct total as given above.
>
> Mr. Coover, the bank's officials assert, admitted using bonds of the institution as security for his own notes and also admitted using fictitious names on other notes for which he had put up bonds of the company as security. While it is thought that the speculations have been going on for some time the shortage is believed to be recent.

The stockholders of the Riggs National Bank of Washington, D. C., have been notified that in accordance with a resolution passed by the directors on June 11, a special stockholders' meeting will be held on July 18 to vote on the question of increasing the capital from $1,000,000 to $2,500,000. In the notice to the stockholders R. V. Fleming, Vice-President and Cashier, says:

> The resolution adopted by the board of directors provides for the transfer from surplus to undivided profits of the sum of $1,00,000 and the declaration of a stock dividend of 100%. It also provides for the sale at par to the stockholders of $500,000 in new stock. It is contemplated that a dividend of 13% per annum will be paid upon the new capitalization.

Milton E. Ailes, President of the bank, under date of June 15, has the following to say in a statement relative to the proposed capital:

> *To Our Shareholders:*
>
> The capital of the Riggs National Bank is now $1,000,000; its surplus $2,000,000 and its undivided profits $700,000. Its dividend rate is 26% per annum, payable semi-annually, April 15 and October 15. Its deposits are $27,000,000 and its resources $33,000,000.
>
> It is necessary to increase the capital of the bank for two reasons. One is the rapid growth in deposits. These have increased from $8,500,000 in 1915 to $27,000,000 in 1923. The other relates to the real estate account, which, on completion of buildings now in course of erection and remodeling, will stand at about $1,850,000, or $850,000 in excess of present capitalization.
>
> A committee of the board of directors, consisting of Mr. Charles C. Glover, chairman; Mr. Louis E. Jeffries, Mr. H. Rozier Dulany, Mr. Frank J. Hogan, General Counsel of the bank, and Mr. M. E. Ailes, with Mr. R. V. Fleming, Vice-President-Cashier, acting as Secretary, has unanimously approved a plan of recapitalization; and in turn the Board of Directors has unanimously recommended to the stockholders the adoption of such a plan. It is as follows:
>
> 1. Transfer $1,000,000 from surplus to undivided profits account, thu enabling the bank to declare out of undivided profits a stock dividend o $1,000,000. This will give the existing stockholders twice the number of shares they now hold without additional cost.
> 2. At the same time sell $500,000 new stock to these same stockholders at $100 a share.
> 3. All this should be done as of Oct. 15 1923, the next dividend day.
>
> Thus ahe capital will be raised from $1,000,000 to $2,500,000, on which it is contemplated a dividend of 13% per annum shall be paid. This insures a 26% return to present stockholders on the very interests they now have in the bank, and also a 13% return on their new investment.
>
> Under the plan the stockholders will be entitled to subscribe to one share of new stock at $100 per share for each two shares of Riggs stock held by such stockholders at the time the increase of capital is made effective.
>
> M. E. AILES, *President.*

The stockholders of the Lorain Street Savings & Trust Co. of Cleveland on May 22 approved plans whereby the capital will be increased from $200,000 to $400,000. The present stockholders will be given the privilege of subscribing to 1,000 shares of the new stock at $150 a share, while the other 1,000 shares will be offered to outside interests at $215 a share.

The directors of the Hill State Bank, located in the Albany Park district of Chicago, announce the election of Major-General George Bell, Jr., as President and director.

At a meeting of the directors of the National Bank of the Republic, Chicago, on June 6, Orton W. Bartlett was elected an Assistant Vice-President in charge of sales of the bond department. For the last eleven years Mr. Bartlett has been with the American Slicing Machine Co., where he was General Sales Manager. He is widely known, it is said, as a lecturer and author on topics connected with sales management.

A meeting of the stockholders of the West Englewood Trust & Savings Bank of Chicago will be held July 11, for the purpose of considering the question of increasing the capital from $350,000 to $500,000. The new stock will be offered to present shareholders at $150 a share. The increased capital will become effective as of August 1.

The officers and directors of the Bank of Sheboygan, of Sheboygan, Wis., announce that the 50th anniversary of the institution will occur June 27. They say:

> With our splendid facilities and wide experience we shall continue to promote the interests of our large clientele. We take pride in our half century of uninterrupted service.

John Lawrence Mauran of the firm of Mauran, Russell & Crowell, architects, has been elected a director of the Mercantile Trust Co. of St. Louis. Mr. Mauran was formerly President of the American Institute of Architects. One of the buildings which his firm has designed is the new Federal Reserve Bank of St. Louis.

Rudolf S. Hecht, President of the Hibernia Bank & Trust Co., of New Orleans, has been honored as New Orleans' most constructive citizen by being awarded the "Times-Picayune" loving cup for having accomplished the greatest good for the city of New Orleans during 1922. Mr. Hecht received this honor principally because of his services as President of the Board of Port Commissioners, which is an honorary office and carries no remuneration. In addition to his work on the Dock Board, Mr. Hecht also was the outstanding figure in the reorganization of the New Orleans Railway & Light Co., and is now chairman of the board of that body. He was also instrumental in organizing the Mississippi Shipping Co., which gives New Orleans its first direct service to the east coast of South America. Other activities with which Mr. Hecht has been intimately identified and which have characterized his service to the community have been the organization of the Federal International Banking Co., of which he is a director, and the re-financing of the New Orleans city debt.

R. S. Hecht, President of the Hibernia Securities Co., Inc., of New Orleans, announces the appointment of James M. Rhett as Manager of their New York office to succeed Harold S. Schultz, who has resigned to take up the practice of law. Mr. Rhett, who has been Manager of the bond department of the New York office, was formerly Manager of the bond department of the Equitable Trust Co. of New York, and has had a wide experience in the New York investment banking field, both as salesman and as sales manager. Charles L. Frost, who has been associated with the New York office ever since it was opened several years ago, has been appointed Assistant Manager.

The stockholders of the First National Bank of Los Angeles, the Pacific-Southwest Trust & Savings Bank and the First Securities Co. have been advised by President Henry M. Robinson of the organization of the Pacific Southwest Realty Co., and are being offered the prior right until July 1 to subscribe to a total of $3,000,000 6½% cumulative preferred serial stock of the realty company at $100 per share. An announcement with regard thereto June 19 says:

The Pacific Southwest Realty Co. has been incorporated for the purpose of purchasing from the First National Bank of Los Angeles and the Pacific-Southwest Trust & Savings Bank the real estate and buildings owned by these institutions and utilized wholly or in part in the conduct of their banking business. The acquisition of additional property in the future suitable for banking premises and the construction of buildings thereon will likewise be undertaken by the realty company, which, after July 1 1923, will own and manage all properties.

This plan provides for a lease of the banking premises to the Pacific-Southwest Trust & Savings Bank for an annual rental which, when combined with the revenue which may be obtained from other sources, assures the payment of operating costs, up-keep, maintenance, repairs, insurance on the properties, etc., together with all interest and dividend and amortization charges on the securities to be issued by the realty company. Under the terms of this lease all of the bonds and preferred stock to be issued by the realty company will be retired in serial maturities over a period of 30 years, thus providing a constantly increasing equity for stockholders.

The entire common stock of the Pacific Southwest Realty Co. will be owned and held by the First Securities Co.

Every effort has been made to make the preferred stock as sound an investment security as possible and having established its safety at the outset to provide that the stockholders' equity will never be impaired. To this end the Articles of Incorporation provide that the issuance of securities is to be based on the appraisement of the properties made as of the date the realty company acquires such properties. Such appraisement will be made by an appraiser selected by the Superintendent of Banks or by the Commissioner of Corporations of California or by their successors.

In the issuance of its cumulative preferred serial stock, the realty company agrees that the total amount of preferred stock to be issued shall not exceed 100% of the appaised value of the property purchased, and that the aggregate indebtedness secured by mortgage or deed of trust shall not exceed 50% of the appraised value of the property. It is further provided that the total amount of preferred stock at any time outstanding, together with the total outstanding bonded indebtedness shall never combined exceed 100% of the appraised value of the properties by which they are secured.

The banking premises owned or held under contract by the banks have been valued at approximately $4,000,000. An additional investment in such properties of $2,000,000 is contemplated within the near future.

Provision is made for the issuance now by the realty company of securities aggregating $6,000,000 divided equally between bonds and stock. The $3,000,000 6½% cumulative preferred serial stock will be offered at this time to stockholders of the First National institutions for prior subscription until July 1, after which date any amount unsubscribed may be offered to the public by leading California investment banking houses, who have underwritten the entire $3,000,000 preferred stock.

The Comptroller of the Currency announces that the name of the American National Bank of Santa Rosa, Cal., has been changed to "The First National Bank of Santa Rosa."

Arthur O. Dawson, Vice-President and Managing Director of Canadian Cottons, Ltd., was chosen a director of The Molsons Bank, Montreal, at a meeting of the board on June 15.

On June 21 W. R. Allan, President of the Union Bank of Canada (head office Winnipeg) announced in a signed statement sent to the shareholders of the institution that in order to cover losses arising out of "certain unauthorized transactions in foreign exchange," in addition to losses incurred by the bank from loans during the period of inflation and the "ordinary losses inseparable from commercial and agricultural banking, no matter how conservatively and carefully conducted," the directors of the bank had authorized the transfer of $4,250,000 from the rest account of the institution to the contingent reserve account and in pursuance of a policy of rigid economy which had been inaugurated to reduce the annual dividend rate of the bank from 10% to 8%. Mr. Allan further announced in his letter to the shareholders that R. T. Riley, a former Vice-President and director of the Union Bank of Canada, who for many years had rendered the institution most valuable service, had consented to rejoin the board of directors and act as chairman of the new executive committee of the board. Mr. Allan's statement to the shareholders was as follows:

Shortly before the last annual general meeting, your then General Manager reported to the President and directors the discovery of certain unauthorized transactions in foreign exchange, from which a considerable loss to the bank resulted, which loss had then been fully provided for.

Having regard, however, to all the surrounding circumstances, and in view of the change in the general management of the bank, a thorough examination and revaluation of the bank's assets was later decided upon.

This has been conducted by the present General Manager, the chief executive officers and the auditors of the bank, and, in addition, an independent examination has been made by a high executive officer of the Bank of Montreal loaned for the purpose.

This valuation has now been completed, and, after the most earnest and careful consideration, your President and directors, your executive officers and auditors, and the officer of the Bank of Montreal above referred to, unanimously concur in the following:

(1) Losses have developed in connection with certain loans made during the period of inflation and, in addition to taking care of these, it is prudent to make provision in respect of loans, the full liquidation of which has been delayed by the well-known abnormal conditions which followed that period.

(2) The ordinary losses inseparable from commercial and agricultural banking, no matter how conservatively and carefully conducted, would have been readily taken care of by the usual provisions had it not been for the unexpected and abnormal items above referred to. Prudence and sound practice call for adequate provision for such risks in the current business of the bank.

(3) To provide amply for the foregoing losses and risks, it has been deemed advisable to transfer from the Rest account to Contingent Reserve account the sum of $4,250,000. This leaves the present position of the bank as follows:

Capital	$8,000,000
Rest account	1,750,000
Profit and Loss account	159,360

Your President and directors believe that the investigation and appraisement of the bad and doubtful accounts have been so searching and thorough and the relative appropriations so liberal as to warrant the confident expectation that considerable recoveries will be ultimately realized. A policy of economy, as rigid as is consistent with unimpaired efficiency, has been inaugurated. which has already reduced, and will further materially reduce, the operating and overhead charges of the bank, and, in order to further implement this policy, it has been decided to reduce the dividend for the time being to 8% per annum.

While your President and directors deeply regret the necessity for this announcement, they are confident that you will appreciate that it is a complete and candid statement of the facts and will, in the circumstances, approve their decision.

They cannot too strongly assure you of their belief in the fundamental soundness of the bank's position. They point out that, with all bad and doubtful accounts provided for, not only is the bank's capital unimpaired, but its Rest account is still substantial.

As a going concern, with a long established and widespread business, a splendid earning power, a good-will founded on more than half a century of banking service, a loyal and experienced staff and a reorganized executive, actuated by a policy of strict economy and prudent conservatism, it only requires the continued confidence and support of its shareholders and customers to insure for it a future of progress and prosperity.

Mr. R. T. Riley, who was a director and Vice-President for many years, and rendered most valuable service to the bank, has, we are pleased to advise, again accepted a seat on the board of directors. Mr. Riley has consented to act as chairman of the newly-constituted executive committee of the Board, where his wide experience and sound judgment will be of invaluable assistance.

With regard to the affairs of the Union Bank of Canada, Sir Frederick Williams Taylor, President of the Canadian Bankers Association, said: "The Union Bank is to be commended on adopting a wise and courageous course which should inspire confidence."

On June 12 J. A. McLeod, heretofore Assistant General Manager of the Bank of Nova Scotia (head office Halifax),

was elected General Manager as successor to the late H. A. Richardson, whose death was recorded in these columns in our issue of May 19. Mr. McLeod, according to the Montreal "Gazette" of June 13, has been in the service of the Bank of Nova Scotia since 1887, when he entered the branch of the bank at Charlottetown, P. I., as a clerk. In 1905 he was transferred to the management of the Bank of Nova Scotia in Havana, Cuba, and from there to Chicago as Manager of the bank's branch in that city. Subsequently he was sent to Toronto as Superintendent of branches and in 1917 was appointed Assistant General Manager. Mr. McLeod is located in Toronto, where the executive offices of the Bank of Nova Scotia are situated.

The Standard Bank of Canada has declared a dividend for the current quarter ending the 31st of July 1923 at 3½%, being at the rate of 14% per annum upon the paid-up capital of the bank and which is to be payable on and after Aug. 1 to shareholders of record as of July 18.

The 63rd annual report of La Banque Nationale (head office Quebec) for the fiscal year ending April 30 1923 was presented to the shareholders at their annual meeting on June 13 and showed favorable results for the period covered. Net profits, after paying interest on deposits and deducting bad and doubtful debts, amounted to $327,238, which when added to $57,379, representing balance to profit and loss brought frrward from the preceding twelve months, made the sum of $348,618 available for distribution. From this total, the report shows, the following allocations were made: $167,146 to pay four quarterly dividends at the rate of 6% per annum; $125,000 to cover depreciation in values and for contingencies and $27,863 to take care of war tax on circulation, leaving a balance of $64,608 to be carried forward to next year's profit and loss account. Total assets are given at $50,397,217 (of which $19,839,084 are liquid assets) and total deposits are shown as $41,273,904. The capital of the institution is $2,982,800, with a rest fund of $400,000 and undivided profits of $641,608. George E. Amyot is President of La Banque Nationale; J. H. Fortier, Vice-President, and H. Desriviers, General Manager.

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

Wall Street, Friday Night, June 29 1923.

The stock market this week suffered a further bad break, and day after day repeated new low records for the year were established. The railroad list has been particularly weak, notwithstanding the issuance of strikingly favorable returns of earnings for the month of May. On Saturday railroad securities advanced slightly but as the session opened on Monday the downward trend was resumed. The weakness on that day, however, was not confined to any one group. Railroad shares dropped from one to two points, while the decline in other groups was pretty general. In Tuesday's market, United States Steel dropped to 90¼, a new low mark, and New York Central fell off 4 points from the high reached last week. A rally in Studebaker near the close of the day carried with it some of the automobile and steel stocks. The recovery was not maintained and prices closed generally with net declines. The market was again weak on Wednesday. There was hardly a group which showed resistance to selling. Railway shares broke sharply and losses of from 1 to 3 points were frequent. Notable among the declines were Du Pont, 9½ points, and Remington Typewriter 8 points.

The decline in prices was checked in the early hours of Thursday's stock market. The recovery became more apparent as the day advanced. Many securities that had followed the downward trend of prices advanced from two to five points. Conspicuous in the upward turn were American Can, which advanced from 87¾ to 88¾, American Locomotive, 132 to 134½; Baldwin Locomotive 119 to 120⅞, Kelly Springfield 31¼ to 33. On the other hand, a number of well known securities did not participate in the upward movement and closed the day with net declines. In the latter class were Bethlehem Steel, which fell off 1⅜, Pere Marquette 1½, Baltimore & Ohio, 1¼. The upward swing of prices in Thursday's closing market was not maintained on Friday. The general list was weak and sagged to the low levels of the fore part of the week. United States Steel again dropped back to 90⅛, American Locomotive declined 2½ points and Baldwin Locomotive receded 2⅜ points. The bond market has also been conspicuously weak throughout the week.

THE CURB MARKET.

Weakness was the chief characteristic of the Curb Market this week as a result of selling pressure, the result being quite a number of new low levels for the year. Gillette Safety Razor was a conspicuous feature. Dropping from 270 to 238 it recovered to 250 and closed to-day at 247. Dubilier Condenser & Radio was an exception to the rule, advancing from 7½ to 9¼ and closing to-day at 8¾. Cleveland Automobile com. sold down from 28¼ to 26 and ends the week at the low figure. The pref. at 90 was off five points from the last preceding transaction. Durant Motors declined from 48 to 42¼ with the final transaction to-day at 42⅝. Roamer Motor Car Co. was added to the list this week and fluctuated between 10¼ and 10⅝, with sales to-day at 10⅜. Glen Alden Coal lost three points to 64¼, with a final recovery to 65½. National Supply Co., after early gain of two points to 55, sold down to 51⅝, with the close to-day at 52½. Losses in the oil shares for the most part were held to moderate proportions. Standard Oil (Indiana) was one of the most prominent issues, selling down on a heavy business from 57½ to 54, the close to-day being at 54⅛. Buckeye Pipe Line was off from 84½ to 83¼. Galena-Signal Oil com. sank from 61½ to 59½. Illinois Pipe Line lost four points to 155½, and to-day sold to 159, with the final transaction at 157. New York Transit dropped from 110 to 99. Ohio Oil fell from 62 to 58. Prairie Oil & Gas moved down from 200 to 181 and up finally to 185. Prairie Pipe Line weakened from 104¼ to 100. Standard Oil (Kentucky) receded from 89¾ to 85½ and finished to-day at 86½. Standard Oil of New York declined from 38⅞ to 36⅞, and Vacuum Oil from 48¼ to 45¼. Imperial Oil of Canada dropped from 100½ to 96. Gulf Oil of Pennsylvania weakened from 53 to 50½. Magnolia Petroleum sold down from 130¼ to 126½ and up to 127½ finally. Maracaibo Oil Exploration was off from 22⅝ to 19⅞, the final figure to-day being 20⅛.

COURSE OF BANK CLEARINGS.

While bank clearings again show an increase over a year ago, the ratio of gain continues small. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day (Saturday, June 30) aggregate bank clearings for all the cities in the United States from which it is possible to obtain weekly returns will show an increase of 5.0% as compared with the corresponding week last year. The total stands at $7,776,306,355, against $7,403,139,806 for the same week in 1922. At this centre, however, there is a falling off of 2.8%. Our comparative summary for the week is as follows:

Clearings—Returns by Telegraph. Week ending June 30.	1923.	1922.	*Per Cent.*
New York	$3,550,000,000	$3,653,183,621	—2.8
Chicago	473,933,748	420,983,428	+12.6
Philadelphia	406,000,000	363,000,000	+11.8
Boston	301,000,000	242,000,000	+24.4
Kansas City	106,747,353	106,200,966	+0.5
St. Louis	a	a	a
San Francisco	120,800,000	*94,800,000	+27.4
Pittsburgh	145,825,255	*109,000,000	+33.8
Detroit	109,198,332	120,900,360	—9.7
Baltimore	74,325,833	62,712,653	+18.5
New Orleans	44,338,805	40,408,799	+9.7
Ten cities, five days	$5,332,169,326	$5,214,089,827	+2.3
Other cities, five days	1,148,085,970	955,193,345	+20.2
Total all cities, five days	$6,480,255,296	$6,169,283,172	+5.0
All cities, one day	1,296,051,059	1,233,856,634	+5.0
Total all cities for week	$7,776,306,355	$7,403,139,806	+5.0

* Estimated. a No longer report clearings.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday), and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for *the week previous*—the week ending June 23. For that week there is an increase, but it is only 3.4%, the 1923 aggregate of the clearings being $7,855,103,206 and the 1922 aggregate $7,599,053,323. Outside of this city, however, the increase is 15.9%, the bank exchanges at this centre showing a falling off of 5.2%. We group the cities now according to the Federal Reserve districts in which they are located, and from this it appears that in the Boston Reserve District the increase is only 0.4%, in the Philadelphia Reserve District 22.9%, while for the New York Reserve District (because of the falling off at this centre) there is a loss of

4.8%. In the Cleveland Reserve District there is an expansion of 27.7%, in the Richmond Reserve District of 25.7%, and in the Atlanta Reserve District of 23.0%. The Chicago Reserve District records 9.5% improvement, the St. Louis Reserve District 22.4%, and the Minneapolis Reserve District 17.6%. For the Kansas City Reserve District the totals are larger by 2.2%, for the Dallas Reserve District by 9.9%, and for the San Francisco Reserve District by 27.1%.

In the following we furnish a summary by Federal Reserve districts:

SUMMARY OF BANK CLEARINGS

Week ending June 23 1923.		1923.	1922	Inc./Dec.	1921	1920.
Federal Reserve Districts.		$	$	%	$	$

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of June 6 1923:

GOLD.

The Bank of England gold reserve against its note issue on the 30th ult. was £125,699,790, as compared with £125,697,975 on the previous Wednesday. As inquiry from India is moderate, it is possible that a good proportion of the supplies coming on the market this week will be sent to America. No fresh arrivals of gold are reported by New York.

SILVER.

Th market has continued to be influenced sympathetically by the news that the Pittman Act has practically ceased to be a bull factor. We have been informed by cable that, though purchases under the Pittman Act have been suspended, further tenders will be received until June 15, when a final decision will be given as ot what amount, if any, of these tenders will be accepted in order to complete purchases.

The Continent has sold freely and fresh bear sales have been made; America has also been a seller. The Indian bazaars have bought freely for shipment, and some covering has been made by bears, open at higher rates, who have been disposed to cover at falling prices. Yesterday China came in as a buyer at the now comparatively low level. In view of the fact that the fall has been largely sentimental, and that the United States output is not likely to add to the world's supplies possibly for some months to come, the present rate for forward silver would seem to be fairly low, though there are rumors of more Continental selling imminent.

We have on occasion referred to the fact that the demand and price of lead, copper, etc., are of more importance to the mining interests of America than the price of silver—which is mainly a by-product. We append an extract from the American Mining Congress Bulletin which bears upon the matter:

"John Hays Hammond, mining engineer, considers it important to stabilize the price of silver and believes the Senate Gold and Silver Commission will be helpful in bringing this about. He favors combination of silver producers in order to maintain the price at a figure to assure a fair profit over cost of production, but is said to feel that the only drawback to such a combination would be the unwillingness of smelting companies who handle silver as a by-product to hold their silver at a higher price, as it could be sold cheaper by being a by-product, and because of the further fact that it would involve considerable money to finance a holding corporation. Mr. Hammond also says that the lead industry has a great future."

The Deputy Master of the Royal Mint thus alludes in his report for the years 1920 and 1921 to the exchange of old U. K. for new U. K. silver coin:

"During the war an enormously increased circulation of silver coin was required, and it is estimated that the amount in the United Kingodm at the passing of the 1920 Act exceeded £60,000,000, or approximately double the pre-war circulation. . . . It may be noted that between the passing of the 1920 Act and the end of 1921, the amount of old silver soin received by the mint amounted to 11¾ million pounds, while the amount of new coin issued was about 13½ millions, these figures including Colonial withdrawals and issues. If allowance be made for the old silver likely to be returned from the Colonies and Dominions, by the end of 1921, a withdrawal of roughly one-sixth of the total old coin in circulation has thus been made by the mint."

INDIAN CURRENCY RETURNS.

The silver coinage during the week ending 31st ult. amounted to 2 lacs of rupees.

The stock in Shanghai on the 2nd inst. consisted of about 23,500,000 ounces in sycee, and 28,500,000 dollars, as compared with about 24,900,000 ounces in sycee, 34,000,000 dollars and 870 silver bars on the 26th inst. The Shanghai exchange is quoted at 3s. 1¼d. the tael. Statistics for the month of May are appended:

	—Bar Silver per oz. Std.— Cash Delivery.	Forward Delivery.	Bar Gold per oz. Fine.

Average	31.812d.	31.479d.	89s 0.8d.

The silver quotations to-day for cash and forward delivery are respectively 13-16d. and ¾d. below those fixed a week ago.

We have also received this week the circular written under date of June 13 1923:

GOLD.

The Bank of England gold reserve against its note issue on the 6th inst. was £125,704,045, as compared with £125,699,790 on the previous Wednesday.

India was a larger buyer of gold this week than it has been for several weeks past.

The monsoon has broken in Bombay, a few days or so after it had reached Bengal. A Reuter message from Simla states that the total rainfall in the Peninsula is likely to be small, with excess especially in Mysore and Malabar. No forecast is possible with regard to Northern India and Burma, where the evidence is colorless.

The Transvaal gold output for May 1923 amounted to 786,564 fine ounces, as compared with 743,651 fine ounces for April 1923 and 629,786 fine ounces for May 1922.

SILVER.

Prices have fluctuated from day to day owing to more or less pressure from supplies. These have been amplified by offerings from the Continent. The Indian Bazaars continue to take an adverse view of future prospect and have sold some silver for forward delivery when buying for shipment. China has checked any rising tendency by sales, but has been willing to buy for forward delivery at any substantial fall. America has not operated extensively in this market. The future remains uncertain, but there is not much confidence manifested in it.

It is not anticipated that the Canton Mint will be as active this year as last, when more than half of the silver imported into China was there coined into 20-cent pieces. The estimated imports for 1920, 1921 and 1922 were 91,200,000, 58,300,000 and 80,300,000 fine ounces, respectively. The imports for the first four months of the current year are up to the average of the three preceding years.

The Chairman of the Hong Kong & Shanghai Banking Corporation in his speech at the last annual meeting alluded to the amusing competition between Chinese mints, whose chief aim being to obtain a profit, are apt to disregard such mere details as the fineness and weight of coins. He stated that the Anhui Mint produced large forgeries of the Canton Mint's 20-cent pieces, which were seized by the Maritime Customs and prohibited from transit from one port to another. The Chairman added that if Shanghai sycee were to disappear, chaos would come. Each mint would vie with the other in turning out debased dollars and we might in course of time see a coin that had in it more copper and foreign matter than silver. So until there are seriously administered mints in China, it is absolutely essential to hold on to the honest Shanghai sycee.

The "North China Herald" thus comments upon the depreciated currency in certain provinces of China:

"Mints have always been a source of revenue to provincial officials, but while the potentates were content with a modest and moderate squeeze, coins a little under value, if not too numerous, were accepted as notes are accepted, and no one suffered. It was an official, lately Tuchun of Hupeh, who set the fashion of turning out scandalously low-valued coins in enormous quantities, thereby foisting them upon the local public and shipping them, freight-free, into provinces near and far, for paying his troops with them, and for purchasing good silver dollars to stow away in his personal strong box. . . . One of the weak spots in this game is that after a time the depreciated subsidiary coinage begins to come back into the provincial treasury in the form of taxes. There is only one remedy for this from the official point of view, and that is to pay everything in bad money and collect everything in good. Nothing is calculated to make an official more unpopular than this. Everyone from the farmer to the big employer of abor feels it at once, and resents it with a ferocious resentment, for where the small coinage has depreciated as it has in Hupeh, it is equivalent to a doubling or trebling of taxes."

CURRENT NOTICES.

—E. Bernard Williams, formerly with Sutherlin, Barry & Co. of New Orleans, has opened offices in the Hibernia Bank Building, New Orleans, and will engage in a general investment security business.

—The Metropolitan Trust Co. has been appointed registrar of $2,000,000 preferred stock, par $100, and 1,500 shares of common stock, no par value, of the Credit Alliance Corporation.

—The American Trust Company has been appointed transfer agent and registrar of the capital stock of the Durability Utilities Manufacturing Co.

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, June 28, and showing the condition of the twelve Reserve Banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. *The Reserve Board's comment upon the return for the latest week appears on page* 2938, *being the first item in our department of "Current Events and Discussions."*

Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the 774 member banks, from which weekly returns are obtained. These figures are always a week behind those for the Reserve Banks themselves. Definitions of the different items in the statement were given in the statement of Oct. 18 1917, published in the "Chronicle" Dec. 29 1917, page 2523. *The comment of the Reserve Board upon the figures for the latest week appear in our Department of "Current Events and Discussions" on page* 2939

1. Data for all reporting member banks in each Federal Reserve District at close of business June 20 1923. Three ciphers (000) omitted.

Note.—The above table includes only sales of coupon bonds. Transactions in registered bonds were:

32 1st 3½s	100[10/32] to 100[29/32]	11 3d 4¼s	98 [7/32] to 98[17/32]
6 2d 4s	97[26/32] to 98 [1/32]	72 4th 4¼s	97[24/32] to 98[12/32]
64 2d 4¼s	97[27/32] to 98[12/32]	4 Treasury 4¼s	99[7/32]

Foreign Exchange.—Sterling exchange was quiet but weak and rates declined to the lowest level of the year on light trading. The Continental exchanges moved irregularly with fresh weakness in marks, which established another new low record.

To-day's (Friday's) actual rates for sterling exchange were 4 54⅝@4 56¾ for sixty days, 4 56¾@4 58½ for cheques and 4 57@4 58¾ for cables. Commercial on banks sight 4 56½@4 58¼, sixty days 4 53¾@4 55½, ninety days 4 54¼@4 56 and documents for payment (sixty days) 4 54¼@4 56. Cotton for payment 4 56½@4 58¼ and grain for payment 4 56½@4 58¼.

To-day's (Friday's) actual rates for Paris bankers' francs were 5.98@6.06½ for long and 6.01@6.09½ for short. Germany bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' guilders were 38.71@38.79 for long and 38.96@39.04 for short.

Exchanges at Paris on London 75.10 francs; week's range 74.68 francs high and 75.10 francs low.

The range for foreign exchange for the week follows:

	Sixty Days.	Cheques.	Cables.
Sterling Actual—			
High for the week	4 59 5-16	4 61 7-16	4 61 11-16
Low for the week	4 54⅝	4 56¾	4 57
Paris Bankers' Francs—			
High for the week	6 14¾	6 19¾	6 20¾
Low for the week	5 98	6 03	6 04
Germany Bankers' Marks—			
High for the week	----	0.0010¼	0.0010¼
Low for the week	----	0.0005¾	0.0005¾
Amsterdam Bankers' Guilders—			
High for the week	38.84	39.14	39.23
Low for the week	38.71	39.01	39.10

Domestic Exchange.—Chicago, par. St. Louis, 15+25c. per $1,000 discount. Boston, par. San Francisco, par. Montreal, $23 75 per $1,000 discount. Cincinnati, par.

Quotations for U. S. Treasury Notes and Certificates of Indebtedness.—See page 2985.

The Curb Market.—*The review of the Curb Market is given this week on page* 2959.

A complete record of Curb Market transactions for the week will be found on page 2984.

New York Stock Exchange—Bond Record, Friday, Weekly and Yearly

Jan. 1 1900 the Exchange method of quoting bonds was changed and prices are now "and interest"—except for income and defaulted bonds.

BONDS. N. Y. STOCK EXCHANGE Week ending June 29	Interest Period	Price Friday June 29		Week's Range or Last Sale		Bonds Sold	Range Since Jan. 1

RAILROAD GROSS EARNINGS

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. *The returns of electric railways are brought together separately on a subsequent page.*

FINANCIAL REPORTS

Financial Reports.—An index to annual reports of steam railroads, street railway and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will *not* include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of May 25. The next will appear in that of July 7.

Central RR. of New Jersey.

(Annual Report—Year ended Dec. 31 1922.)

President William G. Besler writes in substance:

Additions & Betterments.—The following charges were made for addition and betterments during the year: (1) Investment in road, $3,655,260; (2) investment in equipment, $4,110,136; (3) improvements on leased railway property, $1,808,429; total, $9,573,825.

Capital Stock.—Authorized, $30,000,000; outstanding, $27,436,800; none issued during year.

Funded Ddebt.—The total funded debt at the close of the year was $60,579,500 (including $1,167,000 held in treasury), as against $59,545,000 at the close of 1921, an increase of $1,034,500 for the year, as follows: Equipment Trust, Series "I," $2,000,000 (less $965,500 Equipment bonds retired), $1,034,500.

Of the $50,000,000 Gen. Mtge. 5% bonds, $45,091,000 have been issued, of which $1,167,000 are held in the treasury, leaving a balance unissued of $4,909,000.

New Equipment.—(1) Equipment purchased and received during the year: 25 Mikado locomotives, 50 steel coaches, 10 steel combination cars, 10 steel baggage cars, 52 box cars, 37 refrigerator cars, 75 steel coal cars 50 steel gondola cars, 1 steam derrick car, 1 floating pile driver, 1 tugBelmar.

(2) Equipment completed at company's shops during the year: 1 catamaran, 1 insulated box car. (3) Equipment rebuilt at company's shops during the year: 2 steel cafe cars, 122 caboose cars, 16 box cars. (4) Equipment rebuilt by the American Car & Foundry Co.: 240 box cars.

Guaranty Settlement.—The balance of the claim against the Government for the six months ended Aug. 31 1920, known as the guaranty period, has not been settled. Company has furnished the I.-S. C. Commission with complete statements of the account and its representatives are now making an examination of our claim and it is expected that final settlement will be made in the near future.

American Dock & Improvement Co. Bonds.—The $4,987,000 1st Mtge. bonds of the American Dock & Improvement Co. which have been assumed as a part of the funded debt of this company constitute a first lien on the property deeded to this company on March 15 1917. At the time the conveyance was made a nominal amount of $1,000,000 was set up in the property investment account and the balance of $3,987,000 was charged to the account in current year; the total representing the par value of the bonds.

Reduction in Earnings.—Gross operating revenues for 1922 aggregated $49,488,471, a decrease of $2,930,243, or 5.9% as compared with 1921. There was a loss in potential earnings for the year due principally to three causes, viz.:

(1) The strike of the coal miners, April to September, which resulted in a decrease of approximately 3,509,772 tons of anthracite, aggregating a loss in revenue of $6,799,497 and a loss in revenue account bituminous coal aggregating $605,286.

(2) Reduction on freight rates, &c., ordered by the I.-S. C. Commission, effective July 1, approximating $1,329,259.

(3) The increased division of 15% allowed by the I.-S. C. Commission to certain New England railroads, approximately $155,000. A grand total of approximately $8,889,042.

The losses from reduction of 10% in freight rates and the contribution to the New England railroads as ordered by the I.-S. C. Commission were effective for a period of only six months, and will be reflected in the operations for 1923 upon an annual basis of approximately double the amount.

Taxes.—Railway and miscellaneous taxes aggregated $3,789,446, an increase of $607,126 or 19%, as compared with 1921, and, as a matter of information, increased $2,170,143, or 134%, as compared with the year 1912.

Expenses.—Operating expenses show a decrease of $1,984,516, or 4.5%, notwithstanding the extra expense incurred by reason of the strike of the federated shop crafts, which occurred on July 1.

New Equipment.—Contracts have been made for the following new equipment: 20 Mikado type freight locomotives, 5 Pacific type passenger locomotives, 6 suburban type passenger locomotives, 15 switching locomotives, 100 steel passenger cars, 10 steel baggage cars, 5 steel combination cars, and 3 mail and baggage cars.

Coal Tonnage.—There were handled 6,763,680 net tons of bituminous coal, a decrease of 930,047 tons, and 6,383,358 net tons of anthracite coal, a decrease of 3,509,772 tons, compared with the preceding year.

The average revenue tonnage per train mile was 631.20 tons, a decrease of 80.78 tons, and the average distance each ton was carried was 66.36 miles, a decrease of 6.27 miles.

* Including Federal guaranty for half-year ended Aug. 31 1920, but **excluding** Federal compensation during operation by U. S. Government, Jan. 1 1918 to Feb. 29 1920.

y Dividend income in 1921 includes approximately $19,780,302 received from two semi-annual dividends of 6½% each and the cash div. of 150% paid March 5 and a cash div. of 70% paid Nov. 29 on the $8,489,400 stock owned in the Lehigh-Wilkes-Barre Coal Co. In 1920 includes a semi-annual div. of 6½%, the second dividend having been deferred on account of litigation. In 1919 includes the usual $1,103,622 (two semi-annual dividends). Out of this sum there were paid the customary special dividends on Central RR. of N. J. stock, 4% in 1921, 2% in 1920 and 4% in 1919, making total payments on that stock 14% in 1921, 10% in 1920 and 12% in 1919.

Note.—Federal lap-over items of 1921 recorded on the Federal books, only, are included in this statement, but not in the corporate income acct.

Wheeling & Lake Erie Railway Co.

(6th Annual Report—Year ended Dec. 31 1922.)

Chairman W. M. Duncan, Cleveland, O., May 1 1923, reports in brief:

Corporate Income Account.—Company's income account for 1922, briefly stated, follows:

Railway operating revenues, $13,153,888; railway operating expenses, $11,146,707; net revenue from railway operations	$2,007,181
Taxes and uncollectible railway revenue	1,230,590
Operating income	$776,591
Non-operating income	160,001
Gross income	$936,592
Balance of income received in final settlement with U. S. RR. Administration for use of property during Federal control	1,056,035
Total	$1,992,627
Deductions—Equipment rents, net, $344,535; joint facility rents, $38,175; interest and discount, $1,403,650	1,786,360
Corporate income for year	$206,267

Operating revenues and expenses were adversely affected by business and labor conditions during the year. The coal mines located on the property were closed from April 1 to the latter part of August, owing to a strike of the miners. The company's shops were closed in July, owing to a strike of the shop crafts, and were not reopened until the latter part of Oct.

Additions and Betterments.—During the year the company expended $405,805 for additions and betterments, classified: For roadway and structures, $332,436; and for equipment, $73,368.

The "Shell" Transport & Trading Co., Ltd.

(25*th Annual Report—Year ended Dec.* 31 1922.)

The annual report, dated London June 27, says in brief:

Results.—Including the balance, £2,069,594 brought forward from 1921, there is a credit to the profit and loss account of £7,007,680.

Deducting management, interest, cost of issue of 2d Pref. shares, legal, &c., expenses, which in all amount to £304,925, there remains £6,702,755 to be carried to the balance sheet.

From this amount 5% 1st Pref. divs. (absorbing £100,000), 7% 2d Pref divs. (absorbing £216,542) and interim dividend on Ordinary shares (absorbing £1,936,514) have already been paid.

After payment of the dividends distributed there remains a balance of £4,449,699, from which directors recommend that a further and final dividend for the year,1922 on Ordinary shares of 2s. 6d. per share be paid on July 5 (making 22½% for the year), leaving a sum of £2,029,056 to be carried forward to the current year subject to provision for excess profit duties. The dividends on the Ordinary snares are paid free of income tax.

This company's profits depend on the dividends declared by the companies in which it is a shareholder, and it is on this basis that the accounts are presented.

General.—Directors are satisfied that ample provision for depreciation has been made over the numerous companies in which they are interested, and the reports received from them enable the directors to assure the shareholders of the satisfactory condition of the business. Company's financial position is as strong as ever and the present dividend is paid without in any way trenching on the company's reserves, and represents the result of the working of the year under review. The dividend can be considered satisfactory in view of the world-wide fall in values.

The representation of the company on the boards of the Anglo-Saxon Petroleum Co., Ltd., and the Bataafsche Petroleum Maatschappij has been increased by the addition of Andrew Agnew, C.B.E., to the former board.

x Land, buildings, machinery, tools, dies and other equipment, $9,260,333 less depreciation reserve, $633,810. y Common stock represented by 100,000 shares of no par value.

Note.—Dividends on Preferred stock for the period from April 1 1920 to June 30 1922 amounting to $1,800,000, were paid from advances made by Fisher Body Corp. under a guarantee. In accordance with a resolution of the directors May 29 1923, this amount was repaid to the Fisher Body Corp. by a dividend declared out of the above surplus on that date.—V. 116, p. 2771.

International Mercantile Marine Co., New York.

(*Report for Fiscal Year ending Dec.* 31 1922.)

The advance figures for the year 1922 were given in the issue of June 9, p. 2633. The final report is signed by Pres. P. A. S. Franklin under date of June 16, who says in substance:

Results.—The net result of operating the International Mercantile Marine Co. and its subsidiary companies (American Line, Red Star Line, White Star Line, Atlantic Transport Line and Leyland Line) for 1922, after deducting regular depreciation, shows a loss of $1,269,784, as compared with a profit for 1921 of $5,797,347, a decrease of $7,067,131. The details are as follows:

	1922.	1921.
Gross voyage earns., miscell. earns. & ins. fund sur.	$81,563,911	$99,632,698
Oper. & gen. exp., miscell. charges, incl. U. S. & British income tax, also int. on debs. of sub. cos.	74,592,780	85,563,644
Net earnings	*$6,971,131	$14,069,053
Interest on I. M. M. Co. bonds	2,256,254	2,153,725
Depreciation on steamers	5,984,661	6,117,980
Net result	def$1,269,783	$5,797,347

* For proper comparison with results of previous years the earnings of the British companies have been converted at $4 85 per £ sterling.

It will be seen that the actual operation of all the steamers and business of the company and its subsidiaries for 1922 resulted in a profit of $4,714,877 after deducting all expenses, taxes and bond interest. However, against this profit must be charged the full depreciation on the steamers, after which the net result shows a loss of $1,269,784.

The International Mercantile Marine Co. from the dividends received from its subsidiary companies out of their earnings for the year 1922 and prior thereto and from the operation of the steamers it owns directly, shows a profit amounting to $3,699,750 for 1922, after deducting all expenses, bond interest and depreciation on the steamers directly owned.

	1922.	1921.
Total net earnings of I. M. M. Co. plus divs. from sub. cos., after deducting taxes & gen. expenses	$6,354,838	$8,329,309
I. M. M. Co. bond interest	2,256,254	2,153,725
Depreciation on steamers directly owned	398,835	998,835
Surplus	$3,699,749	$5,176,748

Dividends received from foreign subsidiary companies have been converted at the market rate of exchange on date received.

The marked decrease in the consolidated earnings for 1922, as compared with 1921, was largely caused by the decrease in the movement of third-class passengers, both east and west bound, due to the immigration laws and the unsettled conditions in Europe, which heavy loss of business was only slightly compensated for by a very moderate increase in the movement of first and second class passengers.

Freight Situation.—In addition to this unfavorable passenger situation, the freight business has been exceedingly bad, there having been a reduction in the volume of general traffic moving all over the world, but particularly between the United States and the United Kingdom and Continent of Europe, and also more active competition including that of Government-owned steamers with a consequent reduction in freight rates to a point where in many cases the actual cost of loading and discharging the cargo was hardly covered.

It has unfortunately been impossible to materially reduce the cost of operating the steamers, largely due to the cost of fuel and the high cost of labor, both afloat and ashore.

Result for 4 Months of 1923.—The business for the first 4 months of 1923 shows even less satisfactory results than for the corresponding period of 1922, due to the continuation of the same conditions as outlined above, and a supply of tonnage far in excess of the present requirements of either the passenger or the freight business moving. It must be recognized that until the political situation in Europe materially improves and the present serious economic difficulties are remedied, business cannot be expected to begin to approach a normal condition, and until that is accomplished the movement of both passengers and freight will be seriously interfered with, which is most prejudicial to the business of the company.

We are holding our full share of traffic in the important trades in which we are established and our steamers are all being maintained in excellent condition so that we are in strong position to take advantage of any improvement when it comes.

Sinking Fund for First Mtge. Bonds.—$400,000 was paid in 1922 to the trustees and $446,000 6% bonds were purchased (of which $99,000 purchased and cancelled since Dec. 31 1922), making total bonds as purchased $2,633,000 of the total originally issued of $40,000,000.

Bonds Outstanding.—The $500,000 1st Mtge. & Coll. Trust 6% bonds, held in the company's treasury since 1916, were sold in May 1922. The total amount of this issue of bonds outstanding and in the hands of the public on Dec. 31 1922 was $37,466,000.

The debenture bonds of subsidiary companies held by the public amounted on Dec. 31 1922 to $7,025,225, as compared with $7,839,540 on Dec. 31 1921.

Insurance Fund.—The result of the working of the insurance department for 1922 was satisfactory, showing a net profit of $627,015.

Dividends.—Since Jan. 1 1917 dividends aggregating 77½% have been paid on the Preferred stock, leaving a balance of 43½% unpaid back dividends on the Preferred stock.

Reduction of Obligations.—During the years 1915 to 1922, inclusive, the bonded debt of I. M. M. Co. and subsidiary companies have been reduced from $84,146,033 to $46,461,225, or $37,684,808, and the interest charges from $3,867,656 to $2,682,295, or $1,185,361

Panama-Pacific Line.—Owing to the higher cost of operating American flag steamers as compared with foreign flag steamers, it has been decided to transfer the American flag passenger steamships Finland and Kroonland from the New York-Continental trade, where they are in competition with foreign flag steamers and Government-owned steamers, to the protected coastwise trade between New York and San Francisco, which it is believed offers profitable employment.

With this object in view, the Panama-Pacific Line, formerly operated by us, will be re-established next October with the sailing of these and other steamers, calling en route at Havana, Canal ports and Los Angeles.

New Tonnage.—Since the issue of the 1921 annual report the SS. Belgenland—27,200 gross tons—has been completed as a very attractive passenger carrier, and took her place in the Red Star Line, New York-Antwerp service in April 1923.

The following new steamers have been added to your fleet: Doric, passengers and freight, 16,300 gross tons; Davisian, freight, 6,400 gross tons; Delilian, freight, 6,400 gross tons; Dorelian, freight, 6,400 gross tons; total, 35,500 gross tons.

GENERAL INVESTMENT NEWS

RAILROADS, INCLUDING ELECTRIC ROADS.

The following news in brief form touches the high points in the railroad and electric railway world during the week just past, together with a summary of the items of greatest interest which were published in full detail in last weeks' "Chronicle" either under "Editorial Comment" or "Current Events and Discussions."

Canadian Line Reduces Freight Rates.—Quebec & Montreal Southern Ry., Canadian subsidiary of Delaware & Hudson RR., announces straight reduction of 25% on all freight carried. "Fin. America," June 30.

Canadian Shopmen Ask Wage Increase.—Straight raise of 10 cents an hour demanded of Ry. Association of Canada by 35,000 shopmen. "Fin America," June 30.

Pennsylvania RR. Again Scored by U. S. RR. Labor Board.—"Destruction of rights of the employees," declares Board because road refuses to deal with employees' representatives except as individuals. "Evening Post," June 28, p. 5.

President Rea of Pennsylvania RR. Declares Road Obeys Every "Valid Law" Enacted by Properly Constituted Authority.—"Times," June 29, p. 19.

I.-S. C. Commission Forbids Assigned Cars After Sept. 1.—Forbids railroads to allot any extra cars to soft coal mines whose product is intended for railroad fuel or to give any preference in car supply to mines which own their own cars. "Times," June 27, p. 21.

Wage Increases.—Brooklyn City RR. Co. announced general increase of from 4% to 5%, effective Aug. 3. "Wall St. Jour." June 28, p. 1.

New York New Haven & Hartford RR. increases wages of all station employees from 2 to 3 cents per hour, effective July 1. "Times," June 24, sec. 2, p. 7.

Central New England RR. Co. also increased wages of all station employees from 2 to 3 cents an hour, effective July 1. "Times," June 24, sec. 2, p. 7.

Lackawanna RR. raises shopmen's wages 2 cents an hour, effective July 1. Boston "News Bureau," June 28, p. 3.

Chicago Rock Island & Pacific raised wages of clerks and station employees. Boston "Financial News," June 26, p. 7.

Car Surplus and Shortage.—Surplus freight cars in good repair and immediately available for service totaled 51,988 on June 14, an increase of 10,882 over the total number of such cars on June 7. At the same time the total reported car shortage for the country as a whole amounted to 12,787 cars, or a decrease of 191 within the same period.

This increase in the number of surplus cars and decrease in car shortage took place in the face of the fact that loading of revenue freight for the third time within a month and the second consecutive week exceeded the million-car mark.

Of the total number of surplus freight cars in good repair, 29,860 were box cars, an increase of 9,549 within a week. Surplus coal cars numbered 3,129, a decrease of 399 since June 7. Surplus refrigerator cars numbered 11,636, an increase within a week of 965, while there was an increase within the same period of 760 in the number of surplus stock cars which brought the total for that class of equipment to 6,223.

The reported shortage in box cars numbered 1,697, a decrease since June 7 of 64. Shortage in coal cars on June 14 amounted to 9,257, an increase since June 7 of 331.

Car Loadings.—Loading of revenue freight continues to be the heaviest on record for this time of year, the total for the week ended June 16 being 1,007,253 cars. This is the third time within a month and the second consecutive week that the million mark has been exceeded.

At the same time the number of surplus freight cars in good repair continues to increase, there having been on June 14 52,000 such cars, while the reported car shortage decreased to 12,787.

Total freight loading on June 16 exceeded the corresponding week last year by 158,596 cars, and exceeded the corresponding week in 1921 by 231,925 cars. Substantial increases over the corresponding weeks in 1918, 1919 and 1920 were also reported. Compared with the week before this year the total was a decrease of 5,996 cars.

Principal changes compared with the loadings for the week ended June 9 were: Forest products, 78,058 cars, increase 1,678; ore, 79,298 cars, increase 3,206; merchandise and miscellaneous freight, which includes manufactured products, 585,357 cars, decrease 3,354; coal, 187,009 cars, decrease 3,140; coke, 15,167 cars, increase 363; grain and grain products, 33,903 cars, decrease 487; livestock, 28,461 cars, decrease 4,262.

Compared by districts, increase over the week before in the total loading of all commodities were reported in the Eastern Pocahontas and Northwestern districts, while decreases were reported in the Allegheny, Southern, Central Western and Southwestern districts, the first two, however, only being slight. All districts, however, reported increases over the corresponding week last year except the Pocahontas and Southwestern, while all except the Southwestern reported increases over the corresponding week two years ago.

Loading of freight cars this year to date, compared with that of the two previous years, have been as follows:

	1923.	1922.	1921.
Month of January	3,380,296	2,785,119	2,823,759
Month of February	366,965	3,027,886	2,739,234
Month of March	4,583,162	4,088,132	3,452,941
Month of April	3,763,963	2,863,416	2,822,713
Month of May	4,873,427	3,841,683	3,733,137
Week of June 9	1,013,249	836,208	787,283
Week of June 16	1,007,253	848,657	775,328
Total for year to date	21,988,315	18,291,101	17,134,395

Matters Covered in "Chronicle" June 23.—(a) Labor Board rebukes Pennsylvania RR., p. 2819 and 2846. (b) Annual report of N. Y. Central RR., p. 2820. (c) Additional electric railway earnings in 1922, p. 2829. (d) Government ownership of railroads seen as "colossal blunder" by President Harding; regional consolidation favored, p. 2844. (e) Negotiations under way for wage increases to railway and steamship clerks, freight handlers and station employees, p. 2846. (f) Shopmen get wage increase on Louisville & Nashville RR., p. 2846. (g) Wage increase on Rock Island RR., p. 2846. (h) Wage increase on Boston & Albany RR., p. 2846. (i) American Express Co. workers ask wage increase of 15 cents per hour, p. 2846.

American Electric Power Co.—*Notes Called.*—All of the outstanding Americans Rys. Co. 3-Year 7½% Extended gold notes have been called for redemption Aug. 1 at 101 and int. at the Pennsylvania Co. for Insurances &c., Phila. See V. 116, p. 514.

The Pennsylvania Co. for Insurance, &c., will until July 5 receive bids for the sale to it of 5-year 8% gold notes of the American Rys. Co., to an amount sufficient to absorb $151,540.—V. 116, p. 2765.

Baltimore & Ohio RR.—*Preliminary Statement for the Six Months ended June 30 1923.*—An official statement, dated June 27, says:

The result of the first six months' operations (see below) when taken in connection with the present outlook, would no doubt have justified the resumption of dividends to the Common shareholders out of the earnings of that period.

The board, however, after giving careful consideration to all the facts and conditions, decided unanimously that the real interest of the Common shareholders would be best served at the present time by using the available surplus resulting from the first six months' operations to anticipate the final payment of $1,750,000 and to thus complete the full appropriations required under the $35,000,000 loan, and to provide also out of the half year's income for the cash payments, approximately $5,000,000, required in connection with the new equipment ordered. It will be remembered that the loan of July 1 1919 above referred to provided for the appropriation of $3,500,000 annually out of the income for capital expenditures before the declaration of dividends until the sum of $17,500,000 had been so appropriated.

This course will enable the company to complete the appropriation of $17,500,000 for capital expenditures as required under the terms of the $35,000,000 loan, and also to complete the financing of more than $22,000,000 of new equipment. The company will, therefore, enter the last half of the year with no charges against the net income ahead of the Common stock, except the fixed charges for that particular period.

The regular semi-annual dividend of 2% on the Preferred stock for the six months ending June 30 1923 was declared, payable Sept. 1 to holders of record July 14.

Income Account for Six Months ended June 30 (June 1923 Estimated).

	1923. (June Est.).	1922. (Actual).	Increase.
Railway operating revenues	$129,981,844	$98,679,159	$31,302,685
Railway operating expenses	99,635,416	77,698,924	21,936,492
Net railway operating revenue	$30,346,428	$20,980,235	$9,366,193
Taxes, hire of equipment, joint facility rents, &c	7,525,110	6,399,940	1,125,170
Net railway operating income	$22,821,318	$14,580,295	$8,241,023

Amount required for full year's div. on Preferred stock	$2,400,000	------	------
Appropriation as required under the terms of the $35,000,000 Collateral Gold loan, dated July 1 1919	$3,500,000	------	------
Total surplus applicable to dividend on Common stock	$6,858,350	------	------

—V. 116, p. 2765, 2515.

Beaver Valley Traction Co.—*Wage Increase.*—
An agreement was recently entered into between the trainmen, carhousemen and shopmen and the company, whereby the men will receive an increase in wages approximating 12%. Employees on trackwork were also given an advanced rate.—V. 114, p. 2239.

Birmingham (Ala.) Ry. Light & Power Co.—*Wages.*—
The company and its employees recently reached agreement, effective June 1 1923, providing for a material increase in the minimum wage scale. The new contract will run for three years and succeeds a one-year contract now in effect.—V. 116, p. 2387.

Boston & Albany RR.—*To Issue Bonds.*—
The company has petitioned the Massachusetts Department of Public Utilities for authority to issue $3,000,000 5% 40-year bonds to meet cost of permanent additions and improvements.—V. 116, p. 2876.

Boston Elevated Ry.—*Tenders.*—
Treasurer Henry L. Wilson, 108 Massachusetts Ave., Boston, Mass., will, until July 5, receive bids for the sale to the company of 2d Pref. stock to an amount sufficient to absorb $72,528.—V. 116, p. 2515, 2387.

Boston & Maine RR.—*Equip. Trusts Offered.*—Harris, Forbes & Co., Curtis & S nger, and Kidder, Peabody & Co. are offering at 100 and int. $2,115,000 Equip. Trust 6% Gold certificates (Philadelphia Plan).

Dated June 1 1923. Maturing in equal annual installments of $141,000 each from June 1 1924 to June 1 1938 both inclusive. Divs. payable J. & D. at First National Bank, Boston, trustee.

These certificates are issued to provide for part of the cost of the following standard new railway equipment: 10 Santa Fe type locomotives, 10 Pacific type locomotives, 200 35-ton steel underframe refrigerator cars, 300 55-ton steel underframe flat cars, and 100 50-ton steel underframe Hart convertible ballast cars. These certificates represent only 75% of the above stated cost, the remaining 25% being provided by the B. & M.

Judge Pierce of the Massachusetts Supreme Court has overruled a demurrer of the respondents in a bill in equity brought by Edwin D. Codman against Frederic C. Dumaine and other directors of the Boston & Maine RR., who served between 1913 and 1923, to hold them personally liable for a loan of $240,000 made to the Hampden RR. on Dec. 27 1913.

The loan was made while Charles S. Mellen was President of the Boston & Maine and the New York New Haven & Hartford RR. and the Hampden line was to have been a link between the two roads.

The respondents claimed that the plaintiff, who brought his bill for the benefit of the stockholders of the Boston & Maine, must first invoke action on the part of the directors to bring suit, and it was only when that had failed that the plaintiff could maintain his bill.

The respondents are Frederic C. Dumaine of Concord; Edwin Farnham Greene of Wayland; Fred. E. Richards, Portland, Me.; Morris McDonald, Portland, Me.; Howard Elliott, New York City; Charles W. Bosworth, Springfield; Edward B. Winslow, Portland, Me.; Edward P .Ricker, South Poland, Me.; Frank P. Carpenter, Manchester, N. H.; James D. Upham, Claremont, N. H.; Alvah W. Sullowey, Franklin, N. H.; and the executors of Richard Olney, Lucius Tuttle, James M. Pendergast, Alexander Cochrane, Samuel Carr and George H. Prouty.

Judge Pierce in the Massachusetts Supreme Court, took under advisement a petition of Edmund D. Codman asking that the New Haven be enjoined from voting stock of the Boston RR. Holding Co. in such a manner as would effect any control over or influence upon stock of the Boston & Maine RR. owned by the Holding company. He ordered that pleading be completed in a week's time.—V. 116, p. 2881.

Boston & Worcester Electric Cos.—*Refinancing Plan.*—
See Boston & Worcester Street Ry.—V. 105, p. 1305.

Boston & Worcester Street Ry.—*Refinancing.*—
A plan for refinancing the $2,460,000 1st Mtge. bonds which mature Aug. 1 has been formulated and will be submitted to the directors and stockholders of the company and to the trustees and shareholders of the Boston & Worcester Electric Cos., which owns all the common stock of the street railway company.

The plan provides for the exchange of $2,260,000 1st 4½s of the Railway company and $37,000 Framingham Southborough & Marlborough 1st Extended 7s, both due Aug. 1 1923, for new 1st Mtge. 6% bonds maturing Aug. 1 1933. In consideration of this exchange the Electric companies will subscribe at par to $934,000 new Common stock of the Railway company, the proceeds to be devoted to payment of $115,000 notes of the Railway company held by the public and $288,000 bonds and notes held by the Electric companies. The balance of $531,000 will be spent for improvements to the road and purchase of equipment.

The Electric companies will offer its Preferred shareholders the right to purchase Common stock of the Railway company in the ratio of 87-100 of a share for each share of Electric companies Preferred held at $27 58 for each whole share of Railway company stock. The Common stock thus offered not purchased by the Preferred shareholders of the Electric companies will be offered pro rata to Common shareholders at the same price.

The Electric companies will thus raise $814,450, of which $168,450 will be applied to payment of notes of the Electric companies and the balance of $646,000 paid to the Railway company for its stock, the balance of $288,000 due the Railway company for its stock being paid in its own bonds and notes.

As an inducement to the shareholder of the Electric companies to subscribe to the shares of the Railway company the Electric companies will cancel $182,000 notes of the Railway company held by it and will turn over to the Railway company, after payment of interest and other liabilities, the unsold Common stock of the Railway company and all other assets. The subscription to the Common stock of the Railway company will be underwritten by a syndicate.

The Preferred stockholders of the Railway company are to waive accrued and unpaid dividends amounting to 27% as of March 1. The bondholders and Preferred stockholders of the Railway company are asked to deposit their securities with the American Trust Co. for exchange of bonds and endorsement of the Preferred stock with the waiver of dividends up to Mar. 1.

Capitalization of the Railway Company Now Consists of—

First Mortgage 4 ⅛s	$2,460,000	Notes payable to Elec. Cos.	$247,000
1st Mtge F. S. & M. 7s	60,000	Preferred stock	457,200
Notes payable to public	115,000	Common stock	2,025,000

Under the Refinancing Plan Capitalization Will Consist of

First Mortgage 6s, 1933	$2,297,000	Common stock	$2,959,000

▶ Against total interest payments of $145,387 for the 12 months to March 31 last interest requirements under the plan will be only $137,820 annually.
▶ The committee in charge of carrying out the plan consists of William M. Butler, Charles Hayden and Arthur E. Childs.—V. 116, p. 1410.

Brooklyn City RR.—*Wages Increased* —
A general wage advance for the employees of the company is announced by Clinton E. Morgan, Vice-Pres. & Gen. Mgr. The increase, effective Aug. 3, averages from 4 to 5% and affects about 2,500 motormen and conductors. Corresponding increases apply to the supervisory force, including inspectors, starters and workers similarly employed.

Under the new schedule, Mr. Morgan explained, employees during the first year of their service will receive 50 cents an hour, with gradual increases during the initial 5-year period of employment as follows: 2d year, 52 cents an hour; 3d year, 54 cents; 4th year, 57 cents; 5th year, 62 cents.

The hourly wage under the existing arrangement is 45 cents for the first six months, 48 cents for the second six months, 50 cents for the second year, 52 cents for the third year, 55 cents for the fourth year and 60 cents for the fifth year. All increases will take effect on the same date.—V. 116, p. 1646.

Brooklyn-Manhattan Transit Corp.—*Wages Increased —Accident Causes Eight Deaths and Injures Eighty.*—
The directors have voted to increase the wages of motormen and conductors on the surface lines and of miscellaneous employees, whose agreement with the company expires Aug. 1. The wages of subway and elevated men are to be fixed as of Sept. 1, when their agreement expires. The wage increase amounts to between 4 and 5%.

Due to an accident on June 25 on the Fifth Avenue elevated line, 8 people have died and about 80 passengers were injured.

The directors on June 18 voted to expend more than $1,750,000 on new equipment and improvements. Of this amount $1,250,000 will be for the purchase of 50 new cars. About $580,000 will be expended for cables and sub-stations. The new cars will be ordered at once for delivery during the coming fall and are to be of the type now in use.—V. 116, p. 2881.

Central RR. of New Jersey.—*Special Dividend.*—
A special dividend of 2% has been declared on the capital stock, payable July 16 to holders of record July 11. Special dividends at the rate of 4% per annum have been paid since Dec. 1899. The regular quarterly dividend of 2% has also been declared payable Aug. 15 to holders of record Aug. 10.—V. 116, p. 2636.

Chesapeake & Ohio Ry.—*Notice of Removal.*—
The offices of this company and of the Hocking Valley Ry. Co., heretofore maintained at 61 Broadway, N. Y. City, will be removed to Marshall Bldg., Cleveland, Ohio, effective June 23 1923.—V. 116, p. 2881.

Chicago Great Western RR.—*Notes Authorized.*—
The I.-S. C. Commission June 20 authorized the company to issue, payable to the order of the Pullman Co., not exceeding $588,048 of promissory notes, consisting of 40 notes of $14,701 each; said notes to be delivered to the Pullman Co. in the procurement of 300 double-sheathed 40-ton box cars at $2,000 each, or a total cost of $600,000. The report of the Commission says:

The applicant proposes to enter into a contract under date of May 7 1923, with the Pullman Co. whereby it will lease such equipment from that company and will make an initial payment of $150,000 to the lessor as advance rental therefor. The remainder of the rent is proposed to be represented by 40 promissory notes, or lease warrants, in equal amounts, which, when executed, will be delivered to and accepted by the Pullman Co. at their face value.

Pursuant to such agreement, the applicant proposes to execute the notes, payable to the order of the Pullman Co. at the Illinois Merchants' Trust Co. Bank, Chicago. They will be dated May 7 1923, and will mature at successive quarterly intervals from Feb. 15 1924 to Nov. 15 1933, both incl. Each note is to be in the amount of $14,701 and if unpaid at maturity will thereafter bear interest at the rate of 5½% per annum. The proposed notes will be non-interest-bearing prior to their maturity, but there will be included in the face amount of each note a proportionate amount of the cost of the cars and interest thereon from Nov. 15 1923, computed at the rate of 5½% per annum.—V. 116, p. 2510,-1639.

Chicago Milwaukee & St. Paul Ry.—*Branch Line.*—
The I.-S. C. Commission on June 18 authorized the company to abandon that portion of its Babcock-Lynn Branch extending from Lynn in a northwesterly direction to Romadka, a distance of 5.34 miles, all in Clark County, Wis.—V. 116, p. 2636, 2122.

Chicago Rock Island & Pacific Ry.—*Notes and Bonds.*
The I.-S.C. Commission on June 20 authorized the company (1) to issue $7,000,000 3-year 5½% secured gold notes, at not less than 97½% and int., the proceeds to be used for specified purposes; (see offering in V. 116, p. 2388); and (2) to pledge $11,666,000 of 1st & Ref. Mtge. 4% gold bonds as security therefor, and such additional amount of bonds as may be necessary to maintain the value of the securities pledged equal at all times at market price to not less than 120% of the aggregate face value of the notes outstanding.

The proceeds of the notes will be used for the following purposes: (1) for the first payments, aggregating $2,214,747, on certain equipment; and (2) for additions and betterments to roadway and structures and to existing equipment, involving expenditures aggregating $4,790,169.—V. 116, p. 2255, 2388.

Chicago & State Line RR.—*Consolidation Approved.*—
See New York Chicago & St. Louis RR. below.—V. 116, p. 1275.

Cleveland Painesville & Eastern RR.—*Annual Report.*

[Including United Light & Power Company.]

Calendar Years—	1922.	1921.	1920.	1919.
Gross earnings	$726,479	$758,645	$794,733	$691,197
Oper. expenses & taxes	530,214	571,210	605,892	457,935
Net earnings	$196,265	$187,435	$188,841	$233,262
Other income	2,092	2,948	2,634	1,661
Gross income	$198,357	$190,383	$191,474	$234,928
Interest	164,130	164,100	164,103	165,457
Miscellaneous charges	2,714	2,162	1,171	5,725
Net income	$31,513	$24,121	$26,200	$63,741

—V. 116, p. 2255.

Columbia (S. C.) Ry., Gas & Elec. Co.—*Bus Ordinance.*
The City Council of Columbia, S. C., recently passed an ordinance prohibiting jitneys from running through the principal business streets soliciting passengers. The fare on the jitneys is 10 cents and on the cars of the railway company 7 cents.—V. 114, p. 1406.

Connecticut Co.—*Equip. Trusts Offered.*—Putnam & Co., Hartford, Conn., are offering at 100 and int. $487,500 6% Equipment Trust Certificates, Series "F." Issued under Philadelphia plan.

Dated July 2 1923. Due $50,000 semi-annually Jan. 1 1924 to Jan. 1 1928, inclusive, and $37,500 July 1 1928. Denom. $1,000 and $500 c*. United States Security Trust Co., Hartford, Conn., trustee.

The certificates are to be issued in part payment for standard railway equipment consisting of 50 new double-truck light-weighted passenger cars of the most recent design, arranged for operation by either one man or two men as occasion may require, each car to have four 25 h. p. motors of the very latest design, full air-brake equipment and the latest development of automatic safety features. The present value of this equipment is placed at $650,000. The face value of these certificates, therefore, will represent 75% of such value.—V. 116, p. 2881.

Cuba RR.—*Capital Increased.*—
The stockholders on June 27 increased the authorized Common stock from 200,000 shares, par $100, to 1,000,000 shares, no par value.—V. 116, p. 2515.

Denver & Rio Grande Western RR.—*Resignations.*—
Joseph H. Young, receiver, has submitted his resignation to Judge Symes of the U. S. District Court at Denver.

James Russell has resigned as Vice-President of the company.—V. 116, p. 2881.

Duluth Street Ry.—*Valuation.*—
The Wisconsin RR. Commission has fixed the value of the operating property in Superior, Wis., at $1,225,000. This is an increase of $268,000 since the last valuation in August 1921, following the appeal of the company for a new valuation upon which a new rate could be determined. The valuation fi ed by the Commission shows an increase of $508,313 over that of June 30 1911. "Electric Ry. Journal."—V. 115, p. 1209.

Eureka Nevada RR.—*Control.*—
See Eureka Smelting Co. under "Industrials" below.—V. 115, p. 1631.

Fairmount Park Transit Co.—*Back Dividends.*—
The company has declared a dividend of 3½% on the Pref. stock for the six months ended June 30 1923 and a dividend of 14% against accumulations at the rate of 7% for the years 1917 and 1918, all payable July 10 to holders of record June 30. There are still unpaid accumulated dividends for the four years from 1919 to 1922 incl.—V. 107, p. 1670.

Ft. Wayne Cinc. & Louisv. RR.—*Consolidation Approved.*
See New York Chicago & St. Louis RR. below.—V. 116, p. 1275.

Grand Trunk Ry. of Canada.—*Interest Payments.*—
The estimated earnings of the Wellington Grey & Bruce Ry. for the half-year ending June 30 1923, applicable to meet interest on the bonds, will admit of the payment of £3 9s. 8d. per £100 bond; this payment will be applied as follows, viz., £2 17s. 6d. in final discharge of Coupon No. 78 due July 1 1909, and 12s. 2. on account of Coupon No. 79 due Jan. 1 1910, and will be made on and after July 1 next at the offices of the Canadian National Rys., Orient House 42-45, New Broad St., London, Eng. The coupons must be left three clear days for examination. On Jan. 1 last £3 16s. 2d. was paid.—V. 116, p. 1644.

Great Northern Ry.—*Bonds Authorized.*—
The I.-S. C. Commission on June 22 authorized the company to procure authentication and delivery to its treasury of $60,000,000 of General Mortgage 5% Gold bonds, Series C. The report of the Commission says in substance:
The company proposes to issue $24,200,000 of Series C bonds in respect of a like amount of its 1st & Ref. Mtge. Gold bonds, which have been redeemed by the company from pledge with the Secretary of the Treasury as security for loans, and which have been pledged and deposited with the trustee under the General Mortgage. The company also proposes to issue $25,000,000 of Series C bonds in lieu of an equal amount of Series A bonds heretofore issued. The company states that $22,810,000 of the $25,000,000 of Series A bonds are now in its treasury and that $2,190,000 thereof are held by the Secretary of the Treasury as collateral for a loan. The remainder of the proposed issue of $60,000,000 of Series C bonds, namely $10,800,000, the company desires to issue in respect of expenditures for additions and betterments made after July 1 1921.
The company estimates that its cash requirements in the near future for its improvement budget, taxes, interest on bonds, dividends, repayment of loan and adequate working capital will amount to $48,659,633; and that to meet these requirements funds amounting to $23,305,600 will become available from the following sources: Cash on hand, liquid assets, expected dividends from stock of the Chicago Burlington & Quincy RR. and estimated net railway operating income from March 1 to June 30 1923. As originally filed, the application requested authority to sell $20,000,000 of the proposed bonds to provide funds to meet the company's needs. The company represents that it has made arrangements for borrowing the necessary funds on short-term notes, and has amended its application so as to request authority to place the entire amount of $60,000,000 of Series C bonds in its treasury, there to be held awaiting a favorable market for disposition.—V. 116, p. 2636, 2255.

Hocking Valley Ry.—*Notice of Removal.*—
See Chesapeake & Ohio Ry. above.—V. 116, p. 2516.

Indiana Columbus & East. Trac. Co.—*Service.*—
Due to loss in revenue attributed by the company to unregulated bus competition, service on the Orient-Grove City branch line was discontinued June 16 This was in accordance with orders of the Federal District Court and the Ohio P. U. Commission.—V. 116, p. 2388.

Indianapolis Street Ry.—*Fares.*—
The company will charge, after June 30 1923, a fare of 10 cents for passengers riding on its owl cars. The Indiana P. S. Commission granted the company an increase of 5 cents on its plea that the old rate was unprofitable —V. 116, p. 822.

Interborough Consolidated Corp.—*Sale.*—
James R. Sheffield, trustee in bankrupty, sold at public auction for $37,628, under direction of the Federal Court, part of the assets of the bankrupt estate. See V. 116, p. 2884.

Ithaca Traction Corp.—*Employees Strike.*—
All trolley cars of the corporation ceased operation June 26 on the East Hill, State Street, Tioga Street, Heights and East Ithaca lines in the first strike on the local traction sytem since its inauguration here in 1887. The traction company officials had refused to meet the demands of the employees for an increase of 8 cents an hour in wages, or at a rate of 50 cents an hour.—V. 116, p. 615.

Jamaica Public Service Co., Ltd.—*Offering of Bonds* — The $1,000,000 1st Mtge Sinking Fund 6½% bonds, Series "A," dated July 1 1923, due July 1 1943, are being offered at 100 and int by Greenshields & Co, Ltd, Montreal, Toronto and Ottawa, as syndicate managers; Mackenzie & Kingman, Montreal, and Aemilius Jarvis & Co, Ltd., Toronto, Montreal and New York. See description in V. 116, p. 2884.

Johnstown (Pa.) Traction Co.—*Wages Increased.*—
The company has granted all employees an increase in pay effective June 1.
Employees in service three months or less than one year have been granted a 2½-cent advance and those in service one year, an increase of five cents. This increase will bring the pay of the former up to 52½ cents and of the latter to 55 cents an hour.—V. 116, p. 1411.

Lake Erie & Western RR.—*Consolidation Approved.*—
See New York Chicago & St. Louis RR. below.—V. 116, p. 1275, 176.

Missouri Kansas & Texas Ry.—*Settlement With Govt.*—
The company has agreed to pay the Director-General of Railroads $3,600,000 in final settlement of its account for maintenance of operation during period of Federal control.—V. 116, p. 2637.

Morgantown & Wheeling RR.—*New Co Incorporated*
The *Scott's Run Ry.*, capital $1,000,000, has been incorporated at Morgantown, W. Va., for the purpose of buying and taking over for operation the *Morgantown & Wheeling RR.* when it is offered on July 6 at receivership sale. The incorporators of the new company include H. C. Nutt and Albert Ward of Pittsburgh; Frank Cox, George C. Baker and Stanley R. Cox, Morgantown ("Manufacturer's Record).—V. 116, p. 823.

Nashville Chattanooga & St. Louis Ry.—*Listing.*—
The New York Stock Exchange has authorized the listing of $747,000 additional 1st Consol. Mtge. 5% Coupon bonds, due April 1 1928, making the total amount applied for $16,100,000.
The $747,000 were issued for the redemption and cancellation of $747,000 prior liens as follows: Jasper Bracnh 1st Mtge. 6% bonds, dated Jan. 1 1883, due Jan. 1 1923, $371,000; Centreville Branch 1st Mtge. 6% bonds, dated Jan. 1 1883, due Jan. 1 1923, $376,000.—V. 116, p. 2256, 2389.

New Orleans Public Service., Inc.—*Coupon Paying Ag't.*
The Irving-Bank-Columbia Trust Co. will act as coupon paying agent of the 6% Mtge. income bonds.—V. 116, p. 2767.

New Orleans Ry. & Light Co.—*Securities of New Co.*—
The holders of certificates of deposit issued under the bondholders' agreemen for New Orleans Ry. & Light Co. Ref. & Gen. Lien 5% Gold bonds dated Jan. 21 1919, and the plan for reorganization of New Orleans Ry. & Light Co. dated June 12 1922, were notified under date of June 25 that 6% Mtge. Gold Income bonds of New Orleans Public Service, Inc. (tne new company), Series A and Series B, deliverable in accordance with the terms of the plan, and tne cash payable in accordance therewith, was ready for delivery and payment respectively on June 28 1923, upon surrender of the dertificates of deposit at Pennsylvania Co. for Ins. on Lives & Granting Annuities, depositary, Philadelphia, and Interstate Trust & Banking Co., sub-depositary, New Orleans, La.—V. 116, p. 2129.

New York Central RR.—*Federal Court Sustains Right to Acquire Stock Yards Switching Tracks.*—
Sitting in the U. S. District Court for the Eastern Division of the Northern District of Illinois, Judges Carpenter, Baker and Wilkerson denied the injunction of the Baltimore & Ohio and other railroad companies against the U. S. of America, New York Central RR. Co., et al., and allowed the motion of the United States to dismiss. The case dealt with the I.-S. C. Commission's order (V. 114, p. 2241) authorizing the New York Central to acquire the stock of the Chicago River & Indiana RR. at a price not to exceed $750,000.

A statement by R. J. Cary, General Counsel for the New York Central, says:

"The New York Central RR., impleaded with the United States, was successful June 27 in the proceeding brought by a number of railroad companies, competitors of the New York Central, to annul the order of the I.-S. C. Commission entered on May 16 1922, authorizing the New York Central to acquire control of the Chicago Junction Ry. property.
"The Baltimore & Ohio RR., the Chicago Indianapolis & Louisville Ry., the Chicago & Erie RR., the Grand Trunk Western Ry., the Pennsylvania RR., the Pittsburgh Cincinnati Chicago & St. Louis RR. and the Wabash Ry. filed a bill in the Federal Court in April to annul the order of the Commission and to set aside the stock purchase and the lease whereby the New York Central acquired control of the Junction property. The United States was made a party defendant as representing the Commission.
"The contention was made by the plaintiff that the order of the Commission was void, because the permission granted by it to the New York Central to lease the Junction property amounted virtually to a consolidation of such properties with the New York Central system and that until the I.-S. C. Commission had announced its final plan for the grouping of railroads, it had no power to permit a lease of he character above mentioned. The case was dismissed without passing upon this point, upon the ground that the plaintiff showed no rignt in equity.
"The claim that tne control of tne Junction property would divert business to the New York Central lines as against their lines was held to be of no value as showing that they had suffered any loss for which they were entitled to protection of the Court. In other words, it simply amounted to a claim of a competitor that a rival, through its own enterprise, was fairly taking the business of the competitor.
"Counsel for the plaintiff disclaimed any charge that the New York Central, in operating the Junction property, was violating the Inter-State Commerce law in any respect. His claim was of a prospective character, based alone upon the proposition that the New York Central Lines would develop business at the expense of their competitors, and tne Court directed that an order be entered denying the motion of the plaintiffs for a tejmporary injunction and dismissing their bill for want of equity."—V. 116, p. 2884 2875.

New York Chicago & St. Louis RR.—*Consolidation Approved.*—The I.-S. C. Commission on June 22 approved the merger of the New York Chicago & St. Louis (the old Nickel Plate), the Lake Erie & Western, the Toledo St. Louis & Western, the Fort Wayne Cincinnati & Louisville and the Chicago & State Line RR. into the New York Chicago & St. Louis RR.

The New York Chicago & St. Louis RR. has also been granted authority by tne Commission to issue 327,800 shares of 6% Preferred and 462,479 shares of Common in exchange for all the issued stock of the five constituent companies. It was also authorized to sell, from time to time, at best price obtainable, subject to certain conditions, any part of this stock which may be returned to or acquired by it through contributions, and to use the proceeds for corporate purposes; also to pledge 8,000 shares of Preferred and 7,000 shares of Common in substitution for the stock of tne Chicago & State Line RR. now pledged under its 2d & Impt. Mtge., and to dispose of the stock if and when it shall be released from the lien of the mortgage. (Compare consolidation plan in V. 116, p. 721.)

Dividends of 3% Declared on Both the New Common and Preferred Stocks.—
The directors have declared a dividend of 3% on the new Cumul. Pref. stock and a dividend of 3% on the Common stock, both payable July 15 to holders of record July 7. The dividend on the Pref. stock represents the cumulative dividend from Jan. 1. Both dividends are payable to stockholders of record of full shares of stock of the new company, and to holders of certificates of deposit of the stocks of the constituent companies now listed on the New York Stock Exchange.
President J. J. Bernet in a statement to stockholders of the constituent companies announced that the action of the board of directors in declaring a 3% dividend on both the Pref. and Common stocks was based on net income of $3,869,000 for the consolidated lines in the first five months of this year.—V. 116, p. 2516.

New York New Haven & Hartford RR.—*Suits.*—
See Boston & Maine RR. above.—V. 116, p. 2884.

Norfolk & Western Ry.—*Equipment Program.*—President N. D. Maher in a letter to the stockholders on June 19 says:
We have pledged our company, together with all the other railroads in this country, to do whatever is necessary to give adequate service to the public. To accomplish this we have purchased motive power and equipment as follows:

(1) During 1922 we contracted for 7,000 cars costing $13,630,000; during 1923 we will contract for 4,000 cars, costing approximately $10,000,000; total	$23,630,000
(2) During 1922 we contracted for 42 engines, costing $3,492,000; during 1923 we will receive four heavy electric engines, costing $1,200,000; total	4,692,000
(3) During 1922 we expended in improving facilities at terminals as well as along the line, in order to expedite the movement of business $3,256,000; during 1923 we will expend approximately $4,000,000; total	7,256,000
Total	$35,578,000
As of June 2 we had freight cars needing repairs	4%
And locomotives needing repairs	13%

I am giving you this brief statement so that you may see the efforts we are making to provide service for our patrons, and I want to ask you to assist me in presenting to the public the facts about the railroads—their present condition and financial needs, and the efforts we are making to provide transportation at reasonable rates, promptly and efficiently.
I would suggest that you communicate with your Senators and Representatives in Congress, urging that no action be taken by the next Congress changing the Transportation Act of 1920, nor any legislation enacted detrimental to the interests of the railroads, which are commencing to recover from the financial depression affecting the whole country.
In order to meet the growing demands of our country, the railroads must not only be fairly paid for the public service they perform, but must also be permitted to accumulate a surplus to provide adequate transportation n lean years.—V. 116, p. 1760.

North Carolina Public Service Co.—*Report.*

Years ended Mar. 31.	1922-23.	1921-22.	1920-21.	1919-20.
Gross earnings	$1,274,019	$1,165,787	$1,063,969	$889,520
Operating expenses	878,837	803,238	726,293	564,893
Taxes	20,828	22,636	18,271	15,905
Interest charges	191,136	182,336	184,398	174,493
Balance, surplus avail. for deprec. & divs	$183,219	$157,577	$135,007	$134,229

I. W. Iglehart of Hambleton & Co., Baltimore, Md., has been elected a director, succeeding H. N. Varner, Greensboro, N. C. The number of directors has been increased from 11 to 12 by the election of Mr. Boyce

of the Mercantile Trust & Deposit Co. of Baltimore. The two above institutions, it is expected, will do such financing as the needs and growth of the company may require.—V. 116, p. 1412.

Northern Massachusetts Street Ry.—*Wage Increase.*—The company has granted blue uniform men and track workers an increase in wages of 5 cents an hour. This is practically a 10% advance and restores the scale in force before the cut of April 1922 was put it effect. "Electric Ry. Journal."—V. 116, p. 2637.

Northern Pacific Ry.—*Listing—Earnings.*—The New York Stock Exchange has authorized the listing of $10,000,000 Ref. & Impt. 5% Gold bonds, Series D, due July 1 2047, making the total amount of Ref. & Impt. Mtge. bonds applied for: 4½% Series A, $20,000,000; 6% Series B, $115,000,000; 5% Series C, $8,702,300, and 5% Series D, $10,000,000 (see offering of Series D in V. 116, p. 410).

Of the $115,000,000 6% Series B bonds applied for, there have been issued and are outstanding $107,295,600, and no more of said 6% Series B bonds may be issued.

Income Account for 3 Months to March 31 1923.

Ry. oper. rev., $22,624,514; ry. oper. exp., $20,056,859; net rev. from railway operations	$2,567,655
Ry. tax accruals, $2,087,424; uncollect. ry. rev., $5,917	2,093,341
Railway operating income	$474,314
Total non-operating income	$4,317,892
Gross income	$4,792,205
Deduct—Rent for leased roads, $12,830; miscell. rents, $2,365; int. on funded debt, $3,719,915; int. on unfunded debt, $30,879; amort. of discount on funded debt, $4,498; miscell. income charges, $57,837; total deduction	$3,828,326
Dividend appropriations	3,100,000
Income balance (deficit)	$2,136,121

The I.-S. C. Commission on June 14 authorized the company to construct a branch line of road extending from a connection with its main line, about 6 miles west of Forsyth, in a southerly direction, a distance of 30½ miles, all in Rosebud County, Mont.—V. 116, p. 1650, 1639.

Pennsylvania Company.—*Usual Dividend of 3%.*—The company has declared the usual semi-annual dividend of 3%, payable June 30 to holders of record June 27. On Dec. 30 last, in addition to the usual semi-annual dividend of 3%, the company paid an extra dividend of 20% as a further step in liquidating the Pennsylvania Company, all of whose stock is owned by the Pennsylvania RR.—V. 116, p. 2389.

Pennsylvania-Ohio Electric Co.—*Sale of Branch.*—The company recently applied to the Ohio P. U. Commission for authority to sell to the East End Traction Co., Youngstown, Ohio, a line of railway in East Youngstown. The appraised value of the line is $525,994, in payment of which the East End Traction Co. agrees to sell $360,000 in 7% 1st Mtge. bonds and to issue $165,994 in Common stock at $100 a share, in order to raise the necessary funds. "Electric Ry. Journal."

Fares—Bus Ordinance.—Street car fares in Youngstown, O., were advanced on June 11 from 7c. cash, or 3 tickets for 20c. and 1c. for transfer, to 8c. cash, or 7 tickets for 50c. and 1c. for transfer. On June 18 the City Council of Youngstown, O., passed an ordinance properly known as a Jitney Regulation Ordinance, being a duplicate of the ordinance passed by the City of Toledo and through wnich the city of Toledo was enabled to practically eliminate the jitney. This ordinance establishes a safety zone in the downtown district and prompts the City Safety Director to prohibit jitneys from operating in this district.—V. 116, p. 2638.

Philadelphia Rapid Transit Co.—*City to Appeal.*—Mayor Moore of Philadelphia declared June 25 that the city will make an appeal from the decision of the Pennsylvania P. S. Commission in the company's valuation case. Mayor Moore said:

"The agreement of 1907 made numerous important concessions the P. R. T. Co., waiving license fees on cars and the more important street paving requirements in main part to sustain the then existing rate of fare, which was five cents. Mr. Mitten professed to want to continue the five-cent fare, but early in this administration secured an order from the Pennsylvania P. S. Commission for a temporary rate of seven cents. This rate has profited the company but the valuation proceedings from the city's point of view did not justify a continuance of the seven-cent fare. The P. S. Commission, after 2½ years, during which the cost of valuation proceedings to the city has been $250,000, has found a way to make the seven-cent fare permanent.

"We intend in this case to see whetner the agreement of 1907 is to be invalidated as to the Philadelphia Rapid Transit Co., though it receives under it from the city the greater consideration, a consideration which since 1907, in the matter of street paving alone, nas probably meant more than $25,000,000 of relief to the company, since the city now does all the paving which the various companies agreed to do when they sought their franchises."—V. 116, p. 2884.

Pittsburgh & West Virginia Ry.—*New Directors, &c.*—The following new directors have been elected: Alfred C. Dent and W. T. Smith (both Vice-Presidents of W. A. Harriman & Co.), and Joseph Kraus (Vice-Pres. of the Union Trust Co., Cleveland, O.). They succeed Haley Fiske (Pres. of the Metropolitan Life Insurance Co.), Ernest Stauffen Jr. of N. Y., and W. H. Coverdale, Chairman of the board.

The new directors represent the new interests who have recently become active in the acquisition of Pittsburgh & West Virginia issues. The action in election of three new members to the board to succeed those resigning is a further step in carrying out the program in which the option on the Metropolitan Life Insurance Co. holdings of 25,000 shares of Common stock and 7,500 shares of Preferred stock of Pittsburgh & West Virginia was exercised, the Common being taken at $65 a share and the Preferred at a reported price of $90 a share.

Clarence E. Tuttle, recently elected to the board and representing the new interests, declared following the meeting that it would be the policy of his interests to maintain the same conservative program that has heretofore been exercised.—V. 116, p. 2131.

Portland Ry., Light & Power Co.—*Listing—Earnings.*—The New York Stock Exchange has authorized the listing of $2,000,000 additional 1st Lien & Ref. Mtge. Gold Bonds, Series B (6%), due May 1 1947, making the total amount applied for $6,000,000 Series A (7½%), due May 1 1946, and $4,500,000 Series B (6%), due May 1 1947 (see offering in V. 116, p. 1761).

Results for Four Months Ended April 30 1923.

Gross earnings	$3,605,345
Oper. exp., $1,773,614; rentals, $36,068; taxes, $331,352	2,141,036
Interest, bond discount, &c	694,674
Depreciation	239,128
Dividends: Prior Pref. Stock (7%), $38,647; First Pref. Stock (6%), $93,750	132,397
Balance	$ 398,109

It is the policy of the company to charge into operating expenses $717,386 annually for depreciation in accordance with the requirements of the Public Service Commission of Oregon.—V. 116, p. 2385.

Reading Co.—*Court Files Final Decree—Third Modified Plan Accepted—Certain Stockholders Appeal.*—Judges Buffington, Davis and Thompson filed a final decree in the U. S. District Court June 28 at Philadelphia directing the dissolution of the Reading Co. and its subordinate concerns within six months.

The decree adopted the third modified segregation plan submitted May 10 last by the Reading interests.

The Government and other parties in interest have ten days to file exceptions. Further litigation, however, is indicated. Henry P. Brown, counsel for holders of 6,000 shares of the 2d pref. stock of the Reading Co., announced that he would take an appeal from the approved plan to the U. S. Supreme Court. Mr. Brown contends that common stock should be the only class.—V. 116, p. 2389, 2384.

Sacramento Northern Ry. (of Calif.).—*Fares.*—The California RR. Commission has authorized the company to adopt the weekly unlimited pass system of fares in Sacramento, Chico, Vecino; Barber, Chapmantown, Mulberry, Marysville, Yuba City and between Marysville and Yuba City, where it operates local car lines. It will not be effective on the Sacramento-Swanston line. The plan is experimental and is to be tried during the period beginning immediately and ending Nov. 25.—V. 114, p. 2360, 1064.

Saginaw-Bay City (Mich.) Ry.—*To Resume Car Service.*—The citizens of Saginaw, Mich., on June 25 voted 3 to 1 in favor of a 15-year franchise for the operation of street cars with motor bus auxiliaries and extensions. The franchise provides for the organization of a new transportation company, two-thirds of the directors of which are to be Saginaw citizens. The cash fare will be ten cents with tickets at four for 25 cents.—V. 115, p. 2794.

Savannah Electric & Power Co.—*New Financing—Acquisition.*—The company has petitioned the Georgia P. S. Commission for authority to issue $1,000,000 2-year 6½% gold notes to be dated July 1 1923, the proceeds to be used to purchase the property, &c., of the Savannah Lighting Co.—V. 116, p. 2768.

Scott's Run Ry.—*To Acquire Road.*—See Morgantown & Wheeling RR. above.

Scioto Valley Ry. & Power Co.—*Bonds Offered.*—The Huntington National Bank and the Ohio National Bank, Columbus, O., are offering at 97½ and int., to yield over 6.20%, $1,400,000 20-Year 1st Mtge. 6% Sinking Fund gold bonds. (See advertising pages.)

Dated June 1 1923. Due June 1 1943. Interest payable J. & D. at Huntington National Bank, Columbus, trustee, or at First National Bank, New York, without deduction for normal Federal income tax not exceeding 2%. Penn. and Conn. 4 mill tax refunded. Denom. $1,000 and $500 c*. Callable, all or part, at 105 on any int. date on 30 days' notice except for sinking fund purpose (as below).

Data from Letter of President Frank A. Davis, June 15.

Company.—Formerly Scioto Valley Traction Co., the change of name having been made recently in order to reflect the growing importance of the light and power branch of the company's business. Incorporated in Ohio in 1899, and commenced operation in 1905. Owns and operates a high speed third rail standard gauge electric railroad running between the cities of Columbus, Lancaster and Chillicothe, Ohio. Owns its own right of way with the exception of trackage in Columbus and Lancaster, Ohio, where it uses the tracks of the local companies under satisfactory contract. All stations, car barns, our power house and sub-stations, &c., are owned in fee, with the exception of the Columbus terminal, on which it holds a 99-year lease.

Company produces own power, and in the past few years has expanded its productive capacity to meet an increasing demand from the territory which it serves. At the present time has a large and growing list of customers, and holds the street lighting contracts in 15 towns.

Capitalization After This Financing—	*Authorized.*	*Outstand'g.*
First Mortgage Gold Bonds	$2,500,000	$1,400,000
Cumulative First Preferred 5% Stock	500,000	489,300
Cumulative Second Preferred 5% Stock	1,200,000	1,200,000
Common Stock	1,800,000	1,800,000

Purpose.—To retire $1,426,000 First Mtge. 5% Bonds due Sept. 1 1923.

Sinking Fund.—Commencing Nov. 15 1925, an annual sinking fund is payable to the trustee sufficient to retire $400,000 bonds between 1925 and 1942. This sinking fund will be used by the trustee to buy bonds in the market up to and including 102. If unobtainable at this figure, bonds will be called by lot at 102. A sinking fund of 1½% will be applied towards any additional bonds issued in accordance with provisions of the mortgage.

Earnings Calendar Years—	1919.	1920.	1921.	1922.

—V. 116, p. 936, 823.

Toledo St. Louis & Western RR.—*Consol'n Approved.*—See New York Chicago & St. Louis RR. above.—V. 116, p. 2249, 2007.

Twin States Gas & Electric Co.—*Bus Service.*—Vice-President W. A. Butterick recently announced that motor buses will replace trolley cars in Brattleboro, Vt., soon and that tracks will be torn up. Mr. Butterick states that the company cannot be expected to operate the railway at a loss and claims that it may substitute bus service under the recent law putting bus lines under the supervision of the Vermont P. S. Commission. A 10-cent fare for buses is proposed.—V. 116, p. 2131.

United Gas & Electric Corporation.—*Plan Approved.*—The holders of certificates of deposit issued under the plan and agreement for the readjustment of the company (V. 116, p. 1761) are notified that the committee has declared the plan operative and effective.

Holders of shares of stock of United Gas & Electric Corp. and Berkshire Corp. who have not already deposited the same may become parties to the plan until such date as the committee may determine, without penalty, by depositing their stock, accompanied by proxies, with Fidelity Trust Co., Phila., depositary, or with Chase National Bank, New York, or Lancaster Trust Co., Lancaster, Pa., sub-depositaries.

The stockholders will vote July 20 on approving the consolidation of the United Gas & Electric Corp. and the Berkshire Corp. into a single corporation to be known as the United Gas & Electric Corp.—V. 116, p. 2648, 2638.

United Rys. & Elec. Co. of Balt.—*Fare Decision.*—

The Maryland Court of Appeals on June 26 handed down a decision upholding the opinion of Judge Henry Duffy, in the Circuit Court, in the 7-cent carfare case. This sustains the right of the Maryland P. S. Commission to allow the company to charge a 7-cent carfare in Baltimore city. —V. 116, p. 1762.

United Rys. Co. of St. Louis.—*Extension of* $986,000 *Bonds, Due July* 1 1923.—

Rolla Wells, receiver, has made an offer to the holders of the $986,000 Compton Heights, Union Depot & Merchants Terminal RR. 1st Mtge. Ext. 5% bonds, due July 1 1923, to extend their bonds with the present mortgage security so that they will mature on Oct. 1 1923, the principal to be then payable at Mercantile Trust Co., St. Louis, Mo. The bonds as extended are to bear interest at the rate of 6% per annum from July 1 1923 until maturity, payable on Oct. 1 1923, at Mercantile Trust Co., St. Louis. The payment of the principal of and interest on the bonds as extended will be unconditionally guaranteed by endorsement on each bond by United Railways Co. of St. Louis.

Holders who wish to extend their bonds should present same ex-July 1 1923 coupon at Mercantile Trust Co in St. Louis for endorsement thereon of such extension. This extension offer applies only to bonds which shall be presented for extension on or before July 1 1923. Holders who fail to present their bonds on or before that date, and holders who do not wish to avail themselves of the extension privilege are referred to the following announcement of the syndicate handling the extension.

The following banks and bankers have underwritten the extension to Oct. 1 1923 with interest at the rate of 6% per annum of the above bonds. Mercantile Trust Co., St. Louis, Mo., is authorized to purchase for account of the undersigned on July 1 1923 at par, flat, ex the coupon due that day, all bonds not extended in accordance with the above offer. Guaranty Co. of N. Y., Wm. R. Compton Co., First National Co. of St. Louis, Mercantile Trust Co., Mississippi Valley Trust Co., Francis Bro. & Co., Mercantile Trust & Deposit Co. of Baltimore.—V. 116, p. 2638, 2517, 2512.

Virginia Ry.—*Construction of Branch Line Denied.*—

The I.-S. C. Commission has denied the company permission to construct an extension of 1¼ miles of railroad in Wyoming County, W. Va.—V. 116, p. 2768.

Wellington Grey & Bruce Ry.—*Bonds Called—Int.*—

Forty-five (£4,500) 1st Mtge. 7% bonds have been called for payment July 1 at par and int. at the offices of the Canadian National Rys. in Montreal, Can., and London, Eng. (See also Grand Trunk Ry. above.) —V. 115, p. 2906.

West Penn Co.—*To Increase Capital and Broaden Powers of Company's Charter.*—

The stockholders will vote July 9 (1) on adopting a new agreement of incorporation enlarging the powers of the corporation by substituting for the provisions of Article Third of the original certificate of incorporation certain new provisions, and (2) on increasing the authorized capital stock from 310,000 shares (consisting of $8,500,000 6% Cumul. Pref. stock, par $100, and $22,500,000 Common stock, par $100) to 1,000,000 shares, divided into 500,000 shares of Common stock without par value and 500,000 shares of Preferred stock ($8,054,700 6% Cumul. Pref. stock and $41,945,300 7% Cumul. Pref. stock, par $100).

Holders of certificates for outstanding shares of Common stock of par value will receive an equal number of shares of Common stock without par value.

The 500,000 shares of Pref. stock will be classified into 80,547 shares of 6% Cumul. Pref. stock (to be constituted of the 6% Cumul. Pref. stock now outstanding) and 419,453 shares of 7% Cumul. Pref. stock, redeemable at 115 and dividends.

The holders of the 6% Cumul. Pref. stock now outstanding will be permitted to exchange this stock, share for share, for the 7% Cumul. Pref. stock, any 6% Cumul. Pref. stock acquired by the corporation through such exchange to be not extinguished but converted into 7% Cumul. Pref. stock and as such held, sold and re-issued by the corporation.

President A. M. Lynn, in a letter to the stockholders June 22, says in substance:

The growth of the West Penn Power Co. and other subsidiaries within the West Penn System has been so rapid and the opportunities for profitable development of these properties have become so evident that it is of the utmost importance that the West Penn Co. adopt a comprehensive and constructive plan for future financing in order to enable it to take advantage of the opportunities now available. A large part of the cash requirements for this development of the properties of the subsidiary companies must be met by junior financing on the part of these copmanies, and a fair proportion of this through the sale of their Common stocks. The best interests of the West Penn Co. and its stockholders require that the West Penn System should own all of the Common stocks of its subsidiaries. The West Penn Co. should therefore be in a position where it can readily and economically provide funds necessary for the purchase of new issues of Common stock of the subsidiary companies.

War conditions compelled West Penn Power Co. to provide large amounts of new money for construction during recent years by the sale of its 1st Mtge. bonds. This resulted in an outstanding funded debt in excess of capital stocks and therefore it is important that future cash requirements should be provided in greater proportion by new issues of capital stock. The rapid growth of the power company may require as much as $50,000,000 of increased capital expenditures during the next few years. To secure new capital at most economical rates the company should procure say 50% through the sale of stocks. This would call for the sale of $25,000,000 of stock, of which about $12,500,000 should be secured by West Penn Power Co. through the sale of its Common stock.

What has been said of West Penn Power Co. applies in some degree to many of the other subsidiaries of the West Penn Co.

West Penn Rys. Co. owns directly or indirectly the Common stock of all power and railway subsidiaries (other than West Penn Monongahela Co., which is directly controlled by West Penn Co.), but the magnitude of their requirements and the immediate necessity of raising large amounts of new money on the most economical basis is beyond the ability of the railways company alone and unaided.

It is essential that the West Penn Co. itself should furnish a substantial part of the junior moneys required by its subsidiaries (either directly or through the railways company or West Penn Monongahela Co. as may seem advisable) and it will inure to the profit and advantage of the West Penn Co. so to do. The directors of the West Penn Co. have given this subject the most careful consideration and are convinced that the moneys required by it to purchase the Common stocks of the subsidiary companies should be raised through the sale of a new 7% Cumul. Pref. stock of the West Penn Co. It also seemed advisable to recommend to the stockholders at the same time a constructive broadening of the powers of the company's charter to permit it to function most effectively as the parent company of the system. It was also considered advisable to take advantage of the new non-par-value stock corporation law of West Virginia.

The directors are unanimous in their recommendations that the stockholders approve the proposals.

As the Preferred stockholders are asked to permit the issuance of the new 7% Preferred stock on a parity with their present stock, and as the issuance of a 7% stock might temporarily affect the market value of their present holdings, they are to be given the opportunity to exchange. The payment of 1% additional dividend on the present 6% Preferred stock, which exchanges for the 7% Preferred stock, will be more than justified by the economical financing which will be possible for the company under this new plan.

Application will be made to list the new 7% Preferred stock and the proposed no-par value Common stock upon the New York Stock Exchange. —V. 116, p. 2258, 1762.

York (Pa.) Rys.—*Sub. Co. Acquires Two Companies.*—

The Edison Light & Power Co., York, Pa., a subsidiary, has purchased the Delta Water & Power Co. and the Delta Electric Power Co.

See Metropolitan Edison Co. under "Industrials" below.—V. 116, p. 2258

INDUSTRIAL AND MISCELLANEOUS.

The following brief items touch the most important developments in the industrial world during the past week, together with a summary of similar news published in full detail in last week's "Chronicle" either under "Editorial Comment" or "Current Events and Discussions."

Steel and Iron Production, Prices, &c.

The "Iron Age," June 28, said:

"There has been some reduction in rolling mill output in the past week, particularly in sheets and tin plate, due to unseasonably hot weather, but buyers and sellers agree that with but few exceptions full shipments are being made on contracts. Manufacturing buyers still hold their orders close to requirements and are finding that on some products quite a little earlier delivery promises are now made by the mills.

"The shutdowns planned for July 1 affect a relatively small minority of producers, being only for necessary repairs. Most of the larger companies will continue the present scale of operations.

"Ingot production as a whole has not been materially affected by the heat, the sheet and tin plate curtailments, which in the Pittsburgh and Youngstown districts have run from 15 to 30%, being made up in part by larger outputs of other materials.

"The Carnegie Steel Co.'s ingot output has been greater in the past week than in the week preceding and the Illinois Steel Co.'s operations were at 93% of capacity.

"Indicating that some mills are catching up on orders, it is now possible to get bars in two or three weeks in the Pittsburgh district. Similar promises can be made by some plate mills, and a recent order for 50 miles of line pipe went to a Central Western mill because it was in position to make deliveries in three weeks.

"Some cancellation of oil country business and a falling off in new demand have made an easier situation in the pipe trade generally. Within the month deliveries of six to eight weeks have become quite common, as against 90 days in May.

"Rail buying, which is from three to four months earlier than usual, keeps up. The Illinois Central nas inquired for 60,000 tons, which will be divided between Chicago district and Alabama mills. This road has also bought 10,000 kegs of spikes and bolts. The Pere Marquette is buying 6,000 tons of rails. Of 50,000 tons for which the Norfolk & Western is in the market, half are 100-lb. and half 130-lb. rails, and deliveries are to run from September to April.

"Railroad specifications for track fastenings have been heavy. The carriers are also placing various lots of track supplies, cars, plates, shapes and sheets, as well as small tonnages of rails, for early shipment. They do not hesitate to buy anything needed in the remainder of the year except cars, and at the same time are calling for as liberal shipments as possible against contracts.

"A New York Central inquiry includes 6,500 tons of plates, shapes bars, sheets, forging billets, nails and staples, 2,000 locomotive tires and 2,000 axles.

"Continued contracting by private enterprises, as distinguished from railroad, public utility and public work, features the fabricated steel market. About two-thirds of the 15,000 tons awarded in the week were for business, residence and other investment buildings, including 3,000 tons for oil tanks, and nearly one-half of the 7,500 tons of inquiries was for private work.

"Melters of pig iron still adhere to their policy of buying sparingly and the long expected buying movement for the third quarter has not developed. Additional concessions at Pittsburgh have failed to bring out business and another reduction of $1 a ton at Chicago has had little effect upon orders, although inquiry has improved, as it has also at Cincinnati. Demand in the East is very light.

"Malleable foundries are operating well. Official reports for May from 85 plants having 71% of the country's merchant capacity show an output of 62,000 tons.

"In the export trade prices lately named indicate a more aggressive policy by some sellers. In Japan this week the Nippon Oil Co. opened bids on 35,000 to 40,000 boxes of tin plate. Awards are likely to come to American mills. The Imperial Government Railways of Japan are about to place 8,000 tons of 60-lb. rails, and recently bought 1,700 tons. Other Japanese buyers nave just taken 7,000 tons, presumably American rails.

"Automobile companies are moving cautiously in placing contracts for body sheets for the third quarter. Orders given to parts makers indicate capacity operation at many plants through July at least. Predictions of a pronounced lull July 1 have not been borne out.

"Warehouse business in iron and steel has fallen off in part because of better deliveries by mills.

"Some sheet mills that will shut down for two weeks in July have held up sheet bar shipments, but many sheet mills plan to operate the entire month."

Coal Production, Prices, &c.

The U. S. Geological Survey June 23 1923 estimated production as follows:

"The production of soft coal remains steady at about 10¾ million tons per week. The output in the week ended June 16 increased somewhat, and preliminary estimates placed the total at 10,775,000 net tons, against 10,676,000 tons in the week preceding.

"Early returns on car loadings during the present week (June 18-23) indicate a sharper rate of decline than in the week preceding, and the improvement shown on Monday was offset before Thursday. It seems probable that the total output for the week will again be slightly under 10,800,000 tons.

"The trend of output for the last 6 weeks is shown in the following statement of cars loaded daily:

	May 14–19.	*May* 21–26.	*May* 28–*June* 2.	*June* 4–9.	*June* 11–16.	*June* 18–23.
Monday	36,493	38,454	39,568	38,055	37,749	38,161
Tuesday	29,812	33,677	33,697	33,328	32,589	32,517
Wednesday	29,418	31,968	10,487	31,753	32,208	31,932
Thursday	29,078	31,768	34,843	31,117	30,143	-----
Friday	29,321	30,964	31,564	29,530	30,022	-----
Saturday	25,795	27,178	27,676	24,917	24,686	-----

"Production during the first 142 working days of 1923 was 252,593,000 net tons. During the corresponding periods of the six years preceding it was as follows (in net tons):

Years of Activity.		*Years of Depression.*	
1917	252,298,000	1919	200,617,000
1918	258,744,000	1921	165,197,000
1920	242,475,000	1922	177,261,000

"Thus it is seen that from the viewpoint of soft coal production 1923 stands slightly ahead of the average for the three years of industrial activity and 34.6% ahead of that for the three years of depression.

"Anthracite production was well maintained during the second week of June and again passed the 2-million-ton mark. The nine principal anthracite carriers reported loading 39,249 cars, and with this as the basis the total output was estimated at 2,053,000 net tons. In addition to the tonnage shipped, this estimate includes an allowance for mine fuel, sales to the local trade and the output from dredges and washeries.

"The cumulative production during 1923 to date which stands at approximately 47,245,000 tons compares favorably with the years of maximum production, and is considerably more than twice the output during the corresponding period of 1922.

Estimated United States Production in Net Tons.

Be hive Coke—				
June 2	395,000	8,446,000	97,000	2,786,000
June 9	416,000	8,862,000	99,000	2,887,000
June 16	390,000	9,241,000	106,000	2,993,000

The "Coal Trade Journal" June 27 reviewed market conditions as follows in brief:

"The absence of buying in the bituminous markets is forcing the less profitable operations to close down and as a result of this those mines which are continuing to operate are receiving a better car supply.

"All sections of the country report stagnant conditions in the purchases of soft coal. The dropping prices are keeping buyers out of the market. Prospective purchasers are playing a waiting game in the hope that prices will go still lower, at which time they will replenish their meagre stocks—

maybe. They neglect to consider, however, that a buyers' market will start prices in an upward trend. Their present attitude is responsible for not a few distress cargoes which are picked up at bargain prices.

"Lake shipments for the week ended June 17 aggregated 1,067,958 tons, which represented a falling off of 72,603 tons from the previous week. Dumpings for the season to that date totaled 7,909,446 tons as compared with 3,039,130 tons a year ago and 8,019,733 tons in 1921 and 3,011,378 tons in 1920.

"Price changes last week indicated a falling off. Compared with the preceding week, changes were shown in 50% of the bituminous quotations. Of these changes 49% represented reductions ranging from 5 to 50 cents per ton and averaging 17.2 cents. The advances ranged from 5 to 75 cents and averaged 36.6 cents per ton. The straight average minimum for the week, $2 14, was 3 cents higher than last week, while the maximum declined 8 cents to $2 49. A year ago, with a general strike on, the averages were $3 48 and $3 79, respectively.

"In some of the large anthracite centres there was a little better demand for domestic sizes, particularly stove. The steam sizes showed better activity at some points while at others it was necessary to shade prices to move them. Demand for independent coal continues brisk and these producers are still able to get from $3 to $4 more than company prices for domestic sizes."

Oil Production, Prices, &c.

The American Petroleum Institute estimates the daily average gross crude oil production in the United States for the week ended June 23 as follows:

In Barrels—	*June* 23 '23.	*June* 16'23.	*June* 9 '23.	*June* 24 '22.
Oklahoma	513,250	511,000	500,050	391,750
Kansas	84,550	83,450	83,400	84,000
North Texas	75,250	74,900	72,550	50,500
Central Texas	140,750	135,450	134,700	132,700
North Louisiana	65,450	66,800	66,550	91,650
Arkansas	130,550	139,350	151,700	33,400
Gulf Coast	100,450	98,100	95,800	107,750
Eastern	111,000	110,000	109,500	111,000
Wyoming and Montana	129,200	127,800	122,000	83,600
*California	785,000	785,000	740,000	355,000
Total	2,135,450	2,131,850	2,076,250	1,441,350

*California production was 785,000 barrels, the same as the previous week. Santa Fe Springs is reported at 258,000 barrels against 275,000 barrels; Long Beach, 214,000 barrels, against 192,000 barrels, and Huntington Beach, 102,000 barrels, against 111,000 barrels.

Crude Oil Price.—Ohio Oil Co. reduced Lima, Indiana, Illinois, Princeton, Plymouth and Waterloo crude 10c. a barrel. "Boston News Bureau" June 29.

Magnolia Petroleum Co. reduced Corsicana light 25c. to $1 per bbl.; Mexia, 10c. to $1 50 per bbl.; and Corsicana heavy, 5c. to 65c. per bbl. "Financial America" June 26, p. 1.

Texas Co. reduced Mexia 10c. to $1 50 a bbl., and Currie 20c. to $1 70 a bbl. "Boston News Bureau" June 25, p. 12.

Humble Oil & Refining Co. reduced price of Mexia crude 25c. to $1 25 a bbl., Currie, 35c. to $1 35 a bbl, and posted price of $1 per bbl. for Powell (a new field) crude. "Financial America" June 30.

Gasoline Price Increase.—Virginian State tax of 2c. per gallon, effective June 27, causes Standard Oil Co. of New Jersey to advance tank wagon price of gasoline to 23½c. per gallon in Richmond, 24½c. per gallon at Roanoke, and 22c. per gallon at Norfolk. "Wall St. Journal" June 28, p. 13.

Humble Oil Co., Magnolia Petroleum Co. and Texas Co. have reduced gasoline 1 cent per gallon in Houston tank wagon price now 16c. per gallon. "Wall St. Journal" June 25, p. 11.

Prices, Wages and Other Trade Matters.

Lead Price Reduced.—American Smelting & Refining Co. reduced lead from 7 to 6.85c. a pound. "Wall St. Journal" June 29, p. 3.

Refined Sugar Price.—On June 25 Federal and Pennsylvania advanced 25 pts., to 9.50c. per lb. June 26 Warner reduced 40 pts., to 9.50c., and National accepted business at 9.50, although list price remained at 9.90c. per lb. June 28 American, National, Pennsylvania, Revere and Warner each reduced price 25 points, to 9.25c. a lb.

Price of Milk in Chicago Advanced.—Retail price of milk in Chicago will be increased 1 cent a quart ,effective July 1. "Wall St. Journal" June 28,p.7.

Further Tire Price Reductions.—U. S. Rubber Co. announces reduction of about 11% on shoes and tubes and of 10% on solid truck tires. "Boston News Bureau" June 25.

Hood Rubber Co. reduced prices 15%, 7% and 10%, according to style. "Financial America" June 25, p. 1.

Goodrich Rubber Co. reduced prices 7 to 13½% on casings, 4 to 11% on tubes and 2½ to 10% on solid tires. "Wall St. Journal" June 25, p. 1.

Shoe Trade Disturbance.—Haverhill (Mass.) Shoe Manufacturers' Association grants $1 per week wage increase voluntarily. About 1,000 women packers will receive same about July 1.

St. Louis Plasterers Win Fight for $14 per 8-Hour Day.—Boston "News Bureau," June 27, p. 15.

Cement Workers Strike for 30 Cents per Day Increase.—2,000 members of Concrete and Cement Workers strike for $7 50 per day. Their former wage was $7 20 a day. "Sun-Globe" June 23, p. 15.

Silk Company's Wage Offer Refused.—Corticelli Silk Co. offers 10% increase to workers, but offer is refused. The 400 strikers demand a 15% increase for those earning less than $18 per week and a 10% increase for those earning more than $18 per week. "Sun-Globe," June 23, p. 15.

Employees to Control a $1,000,000 Manufacturing Firm.—H. S. Martin, President and owner of M. Martin & Co., manufacturers of undergarments, turns over entire business to 4 employees associated with the firm for more than 20 years, their earnings to pay for the same on terms extending over a period of years. "Times," June 24, sec. 2, p. 1.

New England Telephone Strike.—On Tuesday, June 26, operators of New England Tel. & Tel. Co. walked out for wage increase and 7-hour day. Union claims strike is effective. Company claims normal conditions prevailed in practically every exchange but Boston, where strike was 40% effective, but service was maintained by new employees and old ones who came back to aid the company.

Matters Covered in "Chronicle" June 23.—(a) Decrease in wholesale prices in May, p. 2831. (b) Increase in retail prices of food in May, p. 2831. (c) Automobile production continues large, p. 2831. (d) Bricklayers get $12 a day, ending strike against mason builders, p. 2832 and 2833. (e) Advances by War Finance Corp. account of agricultural and livestock purposes, p. 2836. (f) Repayments received by War Finance Corp., p. 2836. (g) Resignation of G. A. Marr as General Counsel of War Finance Corp., p. 2836. (h) N. Y. Stock Exchange firm of Knauth, Nachod & Kuhne, bankers and brokers, 120 Broadway, in hands of receiver, p. 2837. (i) N. Y. Stock Exchange firm of Zimmermann & Forshay, bankers and brokers, 170 Broadway, fails, p. 2838. (j) Sylvan L. Waitzfelder of Harris & Co., 25 Broad St., expelled from N. Y. Curb Market, p. 2839. (k) P. G. Stamm of P. G. Stamm & Co., brokers, 37 So. William St., expelled from N. Y. Consolidated Exchange. (l) James M. Glassman & Co., brokers, 89 State St., Boston, expelled from N. Y. Consolidated Exchange, p. 2840. (m) William S. Silkworth will resign Presidency of N. Y. Consolidated Exchange on June 28, p. 2840. (n) A. W. Coote, brokerage house, Los Angeles, fails, p. 2840.

Adams Express Co.—*New Subsidiary* —

The Adams Express Armored Car Co., a subsidiary, was incorporated in Delaware June 11 last with an authorized capital of $1,000,000. The incorporation of the new company is in line with the company's plans to expand its armored automobile service in other cities outside New York. Company at present has about 19 automobiles of this type in operation in New York City.—V. 116, p. 2639.

Aetna Life Insurance Co., Hartford, Conn.—*To Increase Capital*—100% *Stock Dividend Proposed.*—

The stocknolders will vote July 24 on increasing the authorized Capital stock from $5,000,000 to $10,000,000, par $100, by the transfer of $5,000,000 from surplus, which amounted to $12,694,482 on Dec. 31 1922. If the increase is authorized, it is proposed to declare a 100% stock dividend to be payable Oct. 15 to holders of record Sept. 15.—V. 115, p. 2381.

Aetna Mills, Watertown, Mass.—*Resumes Dividends.*—

A regular semi-annual dividend of 3% has been declared on the Preferred stock, payable July 1 to holders of record June 25. This is the first dividend declared on the Preferred stock since Oct. 1 1920.—V. 114, p. 856.

Alabama Co.—*Clean Up Unpaid Dividends.*—

The directors have declared a dividend of 15¾% on the 1st Pref. stock, in settlement of all back dividends, payable July 20 to holders of record July 10.—V. 115, p. 2479.

Allis-Chalmers Mfg. Co.—*Earnings, &c.*—

Results—Period Ending May 31—	*Month.*	5 *Months.*
Net profits after taxes	$203,044	$862,170
Billings	2,031,269	9,158,379

—V. 116, p. 2769.

American Bank Note Co.—*Obituary.*—

Secretary George H. Danforth died at Summit, N. J., on June 28.—V. 116, p. 1414.

American Can Co.—*Acquires Plant Under Lease.*—

The company is reported to have acquired under lease the plant of the Chisholm Shovel Co., Cleveland, O., and will equip it for manufacturing purposes. The plant includes several buildings having an aggregate floor space of approximately 50,000 sq. ft.—V. 116, p. 1535, 723, 716.

American Cotton Oil Co.—*Resignations.*—

The following officers have resigned: W. J. Cassidy, V.-Pres.; Edward Canfield Jr., Asst. to the Pres., and W. S. Reed, Treas. Randolph Catlin, formerly Secretary, has been elected Secretary and Treasurer.

It is reported that the present management is working on a proposed plan of readjustment of the capital structure of the company, which, it is understood, will not be ready until the fall.

It is stated that the new interests are working at economy plans and that already economies have been put into force which will save the company $1,000,000 per annum. Duplications in selling forces have been eliminated and selling personnel is to be cut from 135 to 90.—V. 116, p. 2886.

American Cyanamid Co.—*Shipments—Sales, &c.*—

Net value of shipments of the various products for April 1923 totaled $749,434. Sales of the various products for April represent a value of approximately $585,000.

The company has in hand as of April 30 1923 contracts for various products for delivery prior to June 30 1923, of a sales value of approximately $1,465,000.—V. 116, p. 2886.

American Investment & Realty Co.—*Bonds Sold.*—

Blyth, Witter & Co., San Francisco, sold at 100 and int. $1,000,000 1st Mtge. 6% Serial Realty gold bonds. The bankers state:

Dated May 1 1923. Due serially May 1 1924-1938. Int. payable M. & N. at Mercantile Trust Co., San Francisco, trustee. Red., all or part, on any int. date at 103 and int. Denom. $1,000 and $500 c*. Company agrees to pay normal Federal income tax not exceeding 2%.

Company.—A California corporation. Owns real property leased to the Zellerbach Paper Co. Stock of the American Investment & Realty Co. is owned by the principal stockholders of the Zellerbach Paper Co.

Bonds are secured by a closed first mortgage on improved real estate located in the commercial centres of San Francisco, Oakland, Los Angeles and Sacramento having an appraised value of $1,605,462.

The mortgaged properties will be leased to the Zellerbach Paper Co. for a term of 20 years at a rental sufficient to pay interest upon the bonds, to meet all serial maturities thereof and to provide for all expenses in connection with the operation of the properties. The leases will be assigned to the trustee as security for the payment of interest and principal of the bonds.—V. 116, p. 2391.

American Printing Co. (Fall River).—*Bal. Sheet Dec.* 30.

—V. 105, p. 2457.

American Public Utilities Co.—*Dividends—Injunction.*

Chancellor Wolcott, after a hearing at Wilmington, Del., granted a preliminary injunction to restrain the company from paying a dividend on the new Preferred stock, due July 1, before it pays cumulative dividends on the old Preferred stock, amounting to 24% in cash and 4½% in scrip. The order is dependent on whether the case is fully disposed of before July 1. See also V. 116, p. 2887.

American Refining Co.—*Leases Plant.*—

The stockholders have ratified the lease of the company's plant in Great Falls, Mont., to the Homestake Oil Co., but refused to ratify the option for the sale of the property.—V. 115, p. 1944.

American Rolling Mill Co.—*Definitive Notes.*—

The Guaranty Trust Co., 140 Broadway, N. Y. City, is now prepared to deliver definitive 15-year 6% S. F. gold notes dated Jan. 1 1923, in exchange for the outstanding temporary notes. (For offering of notes see V. 116, p. 79.)—V. 116, p. 2887.

American Shipbuilding Co.—*Dividends.*—

The directors have declared four regular dividends of 2% each in cash, on the Common stock, for the fiscal year beginning July 1 1923, payable Nov. 1 1923, Feb. 1, May 1 and Aug. 1 1924 to holders of record Oct. 14 1923, Jan. 15, April 14 and July 14 1924, respectively, to holders of record Oct. 15 1923, and Jan. 15, April 15 and July 15 1924 respectively. Like amounts have been paid quarterly since July 1922. Regular quarterly dividends of 1¾% each were paid from February 1919 to April 1922 incl. Extras, in cash, paid since February 1919 are: 2½% quarterly to February 1922; April 1922, 20%; June 1922, 10%.—V. 115, p. 2480.

American Steel Foundries.—*Offer to Purchase Company.*

The company, it is reported, has offered to take over the Damascus Brake Beam Co., Cleveland (V. 113, p. 2824), on an exchange basis under which 1½ shares of Steel Foundries pref. is offered for each share of Damascus Brake stock. The Damascus company has outstanding $500,000 capital stock.

[The company has leased for ten years from May 1 next, the 15th, 16th and a portion of the 17th floors of the north section of the Wrigley Building, Chicago, now under course of construction. The company at present has offices in the McCormick Building, 322 South Michigan Ave., Chicago.]—V. 116, p. 2010, 1530, 513.

American Stores Co., Phila.—*Listing.*—

The Philadelphia Stock Exchange on June 23 listed 1,493,921 2-3 additional shares of Common stock, no par value—1,397,946 2-3 shares issued in payment of stock dividend of 700% paid June 15 1923 (V. 116, p. 1535) and 95,975 shares being part of 202,346 2-3 shares subject to issue to employees (V. 116, p. 1764), making a total of 1,693,628 1-3 shares of said stock listed June 23, and leaving a balance of 106,371 2-3 shares to be listed on official notice of issuance.—V. 116, p. 2887.

American Telephone & Telegraph Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of $10,000,000 additional capital stock (of the total authorized issue of $1,000,000,000), upon official notice of issuance and payment in full, making the total amount applied for to the close of business May 31 1923 $739,513,100.

The amount of capital stock authorized on Mar. 27 1923 is $1,000,000,000; of which there has been issued and is outstanding at May 31 1923 $712,511,600; reserved to cover conversion of $6,837,300 Convertible 4¼% Gold bonds and $13,641,100 7-Year 6% Convertible Gold bonds (including $1,632,800 authorized but not yet issued and outstanding), maximum requirements at May 31 1923, $20,478,400.

The shares of additional stock have been offered for subscription to employees of the company and of its subsidiaries.

The proceeds will be used for the proper corporate purposes of the company but not for the acquisition of property, the construction, completion, extension or improvement of the company's facilities, or the improvement or maintenance of its service, within the State of New York, or for the discharge or refunding of obligations or reimbursement of moneys actually expended for such purposes within the State.

The London Stock Exchange has granted an official quotation to $10,481,800 additional capital stock, par $100, making the total stock listed at June 8 $709,829,200, par $100.—V. 116, p. 1764.

Anaconda Copper Mining Co.—*Listing.*—
The New York Stock Exchange has authorized the listing of $50,000,000 15-Year 7% Convertible debentures, due Feb. 1 1938.
The Exchange has also authorized the listing of $107,731,000 1st Consolidated Mortgage Series A Sinking Fund 6% Gold bonds, due Feb. 1 1953 (see offering of above issue in V. 116, p. 298).—V. 116, p. 2770, 2639.

Atlas Steel Corp.—*Transfer of Properties.*—
The formal transfer of the properties of the Electric Alloy Steel Co. and the Atlas Crucible Steel Co. to the above company has been announced.
J. A. Campbell, H. G. Dalton, L. J. Campbell, Robert J. Gross and John L. O'Brien will be voting trustees for the stock of the new company, which will be placed in a voting trust for a period of five years. Compare merger plan in V. 116, p. 1897.

Baldwin Locomotive Works.—*Unfilled Orders, &c.*—
The company has approximately $56,500,000 unfilled orders on hand. Operations, it is stated, are running at 95% capacity, and there has been no slowing down because of the intense heat wave. Business booked for the first six months of 1923 was approximately $56,000,000, as compared with $11,500,000 during the corresponding period of 1922.
President Vauclain has denied the report that the company is planning a recapitalization or that there is anything unusual pending in its affairs.—V. 116, p. 2260.

Bayuk Bros., Inc.—*To Change Name and Reduce Dividend Rate on Second Preferred Stock.*—
The stockholders will vote July 12 on changing the name of the company to *Bayuk Cigars, Inc.*, and on reducing the dividend rate on the 2d pref. stock from 8% to 7% per annum.
A letter addressed to stockholders says the proposed amendments provide:
(1) That the name of the corporation be changed from Bayuk Bros., Inc., to Bayuk Cigars, Inc.
(2) That the holders of the 8% 2d pref. stocks may on or prior to Sept. 28 1923 consent to a reduction of the dividend rate from 8% to 7% per annum, and that from and after Oct. 15 next all shares of 2d pref. stock in respect of which such consent may be given and all shares of 2d pref. stock issued out of the unissued stock of the company following the date of the proposed amendment shall be entitled to dividends at the reduced rate of 7% instead of the present rate of 8% per annum.
The amendment further provides that in consideration of such reduction in the dividend rate, the holders of shares of 2d pref. stock in respect of which consent to such reduction shall have been given, shall have the privilege of converting said shares on or before Aug. 1 1928, or if the stock be called for redemption before said date, then up to the 10th day preceding the redemption date, at the redemption price into common stock originally authorized but unissued at the price of $62 per share for the common stock, with dividend adjustments.
It is believed that the proposed change in the name will be beneficial since the present name does not indicate the nature of the company's products which the new name will help to advertise. It is also believed that it will be to the best interests of the company to encourage the conversion of 2d pref. stock into common stock by giving 2d pref. stockholders such conversion privilege in consideration of their consenting to a reduction of the dividend rate now being paid.—V. 116, p. 2770.

Bayuk Cigars, Inc.—*Proposed New Name.*—
See Bayuk Bros., Inc., above.

Bell Telephone Co. of Canada.—*Stock Sold.*—
The directors have accepted an offer made on behalf of British investors for 12,500 shares of stock at 121½. Application has been made to the Montreal Stock Exchange for the listing of the additional shares.—V. 116, p. 826.

Bell Telephone Co. of Pa.—*Listing.*—
The Philadelphia Stock Exchange has authorized the listing of $35,000,000 25-Year 1st Ref. Mtge. 5% Gold bonds, Series B, due Jan. 1 1948. (See offering in V. 116, p. 180.)—V. 116, p. 2518.

Benjamin Franklin Hotel, Phila.—*Bonds Offered*—Philadelphia Co for Guaranteeing Mortgages, Harrison, Smith & Co., Butcher, Sherrerd & Hansell and Reilly, Brock & Co., Phila., are offering at 100 and int. $4,300,000 1st (closed) Mtge. 6% gold bonds, Series "A," guar., p. & i., by the Phila. Co. for Guaranteeing Mortgages. (See advertising pages.)

Dated Feb. 15 1923. Due Feb. 15 1933. Denom. $1,000 r. A sinking fund provision, applicable to the Series "A" bonds, will be sufficient to retire $500,000 of these bonds before maturity. Land Title & Trust Co., Philadelphia, trustee.
These bonds are secured by a first closed mortgage on Philadelphia's newest and largest hotel, situated at the southeast corner of Ninth and Chestnut Sts., Phila. The hotel will be an 18-story building of the most modern fireproof construction, located in the heart of the shopping district in close proximity to all department stores, railway stations, &c. Guest rooms to the number of 1,210, each with private bath, also banquet rooms, dining rooms, rest rooms, with every arrangement made for the comfort and convenience of guests. The building will occupy the entire lot, 194 feet on Chestnut St. and 235 feet on Ninth St., to Sansom St., thus having three fronts. The ground and building have been conservatively appraised for mortgage purposes at $7,250,000, and it has been estimated that the total cost completed excluding furniture will reach $8,500,000.
The corporation owning the hotel is the *Benjamin Franklin Realty & Holding Corp.*, incorp. in Pennsylvania.
Officers.—John C. Martin, Pres.; Charles Gimbel, V.-Pres.; Albert M. Greenfield, Treas.; Edgar W. Nicholson, Sec. *Directors.*—Jacob D. Lit, Cyrus H. K. Curtis, Ellis A. Gimbel, Herbert J. Tily, Harry G. Sundheim and the foregoing officers.
The capital of the corporation owner is as follows:

1st Mtge. Series "A" bonds (fully guar. prin. and interest)	$4,300,000
1st Mtge. Series "B" bonds	2,300,000
2d Mtge. Series "A" bonds	2,100,000
2d Mtge. Series "B" bonds	1,300,000
Capital stock, no par value	3,500 shares

The 1st Mtge. Series "A" bonds are prior in lien and payment in all respects to the 1st Mtge. Series "B" bonds as well as the 2d Mtge. bonds.

C. L. Best Tractor Co.—*Notes Offered.*—Cyrus Peirce & Co., San Francisco, are offering, at prices ranging from 100 and interest to 100½ and interest, $600,000 6½% Serial Gold Notes. The bankers state:

Dated June 1 1923. Due $200,000 each June 1 1924-26. Interest payable J. & D. Redeemable, all or part, on 30 days' notice on any interest date at par and interest, plus a premium of ½ of 1% for each unexpired year, or portion thereof, prior to maturity. Interest payable without deduction for normal Federal income tax now or hereafter deductible at the source not in excess of 2%. Denom. $1,000. Bank of California, N. A., San Francisco, trustee.
Company.—Incorp. in California in 1910. Is the sole manufacturer of Best "Tracklayer" tractors, which it manufactures entirely in its own shops at San Leandro, and distributes throughout the world.

Capitalization—	*Authorized.*	*Outstanding.*
6½% Serial Gold Notes (this issue)	$600,000	$600,000
7% Cumulative Preferred Stock	5,000,000	1,250,000
Common Stock	5,000,000	500,000

Earnings.—For the past five years net earnings from the San Leandro plant before Federal taxes averaged over $225,000, equal to almost six times the interest charges on these notes. In 1922, on a volume less than 50% of capacity, profits, before Federal taxes, were $309,165, equal to more than 7½ times the interest on these notes. For the four months ending April 30 1923, the earnings, before Federal taxes, were $276,290, an annual rate of over 20 times the interest on this issue of notes.
Purpose.—Proceeds will be used to retire floating debt which has been incurred to care for a substantial expansion of business volume, and to retire $150,000 Gold Notes due Nov. 1 1923.—V. 116, p. 1536.

Boston Duck Co.—100% *Stock Dividend.*—
The company has filed a certificate with the Massachusetts Commissioner of Corporations showing an increase in capital from $350,000 to $700,000 by the issue of 3,500 additional shares, par $100, as a 100% stock dividend to holders of record June 20. Surplus as of Dec. 31 1922 was $1,732,842.—V. 106, p. 926.

Brandram-Henderson, Ltd.—*Bonds Offered.*—Royal Securities Corp., Ltd., Montreal, are offering at 94½ and int., to yield over 6.55%, $200,000 6% Consol. Mtge. Sinking Fund Gold bonds, maturing March 15 1939. A circular shows:

Capitalization—	*Authorized.*	*Outstanding.*
1st Mtge. Sink. Fd. Gold 6s, 1936 ($200,400 red.)	$500,000	$299,600
Consol. Mtge. Sink. Fd. 6s, 1939 (incl. this issue)	1,250,000	898,000
7% Preferred stock	500,000	500,000
Common stock (paying 4%)	1,250,000	1,179,900

Company.—Incorp. in 1906 to take over and operate the business of Henderson & Potts, Ltd., established 1875, and to operate the entire Canadian business of Brandram Bros. & Co., Ltd., of London, Eng. With subsidiaries, company constitutes one of the largest undertakings in Canada for the manufacture of white lead, colors, paints, varnishes and similar products.
Purpose.—Proceeds will be used to fund in part expenditures for additions and extensions to the company's properties and fixed assets, and for erection and equipment of a modern varnish factory and enamel plant at Montreal.

Earnings Available for Int. on Consol. Mtge. Bonds Calendar Years.				
1918.	1919.	1920.	1921.	1922.

—V. 116, p. 1765.

Brantford (Ont.) Computing Scales, Ltd.—*Bankrupt.*—
A statement by E. R. C. Clarkson & Sons, liquidators, shows total assets of $454,785, against which are liens aggregating $208,000, held by the National Trust Co., which forced the assignment on account of bondholders. This leaves nominal equity of $246,785 against which are claims of $70,300, leaving a book surplus of $176,485 for unsecured creditors. Unsecured creditors are not likely to secure much in the way of dividends, if anything, for the assets are book values only, including land and buildings. ("Monetary Times"). See also V. 115, p. 1324.

Brooklyn Borough Gas Co.—*Gas Rate Injunction.*—
See Brooklyn Union Gas Co. below.—V. 116, p. 2640, 2260.

Brooklyn Union Gas Co.—*Gas Rate Injunctions.*—
Preliminary injunctions have been issued to the company and its four subsidiaries, Kings County Lighting Co., New York & Richmond Gas, Queensborough Gas & Electric Co. and Brooklyn Borough Gas Co., prohibiting the enforcement of the $1 Gas Law and 650 B. T. U. standard gas. The injunctions were issued by the unanimous decision of the special statutory court in the Eastern District of the Federal Court of New York, consisting of Judges Mayer, Garvin and Campbell.
In announcing the decision, Judge Mayer said it was unanimous in the view that on the showing thus far made, the gas law was unconstitutional in so far as it applies to these companies, and that preliminary injunctions be issued restraining the enforcement of the law. He said in addition the Court held in order that the companies might know their financial condition, that the rates and minimum standard of 537 B. T. U., approved by the P. S. Commission should prevail. These rates are as follows: $1 15 to 95 cents in Brooklyn Union and subsidiaries; New York and Richmond, $1 45; and Brooklyn Borough Gas, Queensborough Gas and Kings County Gas, $1 30.
The decision also provides that the new rates can be charged. No bonds will be required other than that of the companies themselves. The Brooklyn Union Gas Co. will file with the Court its own bond for $3,000,000 for itself and subsidiaries to cover collections above the $1 rate held in the law, pending a final decision.—V. 116, p. 2640.

Brunswick-Balke-Collender Co.—*Sales.*—
Sales for the first four months of 1923 were about $8,700,000, an increase of 18.4% over the corresponding period of 1922. Plants located in Dubuque, Ia., and Muskegon, Mich., are operating at capacity. The company, it is stated, is turning out billiard tables at the rate of 20,000 annually.—V. 116, p. 2640.

Burns Brothers.—*Plan Temporarily Abandoned.*—
Burns Bros. and the National Coal Corp. have temporarily abandoned the merger plan which had been arranged to pave the way for recapitalization of Burns Bros. This action, it is stated, has been done because of the unwillingness of Burns Bros. to contest the temporary restraining order granted minority stockholders, which would involve considerable litigation and delay. Other contributing causes, it is said, are the unfavorable condition of the stock market and an impending action on another matter now before Burns Bros.
Carmen R. Runyon and Edward M. Colie, stockholders, have been granted an injunction by the New Jersey Court of Chancery restraining the company from putting into effect its recapitalization plan as approved by a majority of stockholders June 14. (See plan in V. 116, p. 2392.)—V. 116, p. 2770.

Calumet & Hecla Mining Co.—*Listing.*—
The New York Stock Exchange has authorized the listing of $2,500,000 capital stock (par $25) upon official notice of the issuance in exchange for present outstanding certificates, with authority to add $17,500,000 additional capital stock upon official notice of issuance as a stock dividend, making the total applied for $20,000,000.
Dividends at the rate of $55 a share were paid in 1918, at the rate of $10 a share in 1919, and at the rate of $5 a share in 1920. In 1921 no dividends were paid, and in 1922 dividends at the rate of $10 a share were paid. In 1923 cash dividends of $7 per share were declared, payable Mar. 15 1923, and of $10 per share, payable June 15 1923. A stock dividend of 7 shares (par $25 each) for each outstanding share of the par value of $25 was authorized on June 4 1923, and made payable to stockholders of record on June 23 1923.
The Mechanics & Metals National Bank, New York, has been appointed transfer agent in New York of the capital stock.—V. 116, p. 2888, 2641.

Canadian Explosives, Ltd.—*Annual Report.*—
The company and its subsidiaries report for the year ended Dec. 31 1922, gross sales of $6,744,951, representing 90.2% of the value of the business done in 1921.

Balance Sheet Dec. 31 1922.

—V. 110, p. 1417.

Carbon Steel Co., Pittsburgh.—*To Liquidate.*—
The liquidation of the company, involving equities of about $7,000,000, has been decided upon by the directors and stockholders. The processes will be carried on by a liquidating committee composed of Charles McKnight, Pres.; James Wardrop, Treas., and Attorney J. B. Orr, Sec.
A force of riggers, mechanics and laborers has been set to work dismantling the plant at the foot of 32d St. on the Allegheny River. On the 10 acres of ground located there are 7 acres covered by buildings. These, with the tools and machinery, will be sold, it is said. The land is said to be valued at about $2,000,000.
The company was organized in 1873 and was active in the manufacture of high grade steel until 1920. The company specialized in armor plate, protective deck plate, gun forgings and other ordnance equipment.
The company is said to have been one of the heaviest producers of war munitions and equipment in the Pitt burgh district and its forgings for rapid fire guns are said to have been of the best. With the declaration of peace, and later the success of the disarmament conference at Washington, the market for products of the carbon plant dwindled to the vanishing point. Pres. McKnight said that to change over the machinery equipment to

peace uses would require an outlay of $7,000,000 to $10,000,000.—V. 116, p. 415.

Carnegie Steel Co. (N. J.).—*Balance Sheet March 31.*—
(As filed with the Massachusetts Commissioner of Corporations.)

—V. 71, p. 1168.

Cayuga Southern Tel. Co.—*Purchase of Properties.*—
The I.-S. C. Commission on June 16 authorized the company to acquire the properties of the Farm & Village Telephone Co. and certain properties of the New York Telephone Co. The Farm Company owns and operates telephone exchanges, with connecting toll lines, in Moravia, Cayuga County, and Groton and North Lansing, Tompkins County, N. Y., and serves about 1,175 subscriber stations. The New York company properties involved consist of telephone exchanges at Moravia, Sempronius, and Groton, from which it operates approximately 315 subscriber stations. The capital stock of the Cayuga company, amounting to $10,000, is owned by the New York company. The Cayuga company proposes to acquire the entire capital stock of the Farm company, amounting to $20,000, for $70,000, of which $35,000 is to be paid in cash and $35,000 is to be evidenced by a promissory note, to be subsequently exchanged for a like amount of the Cayuga company's 6% mortgage bonds, when issued.

The Cayuga company also proposes to acquire the physical exchange properties of the New York company operated from its exchanges at Moravia, Sempronius and Groton, for $72,000, payable by $15,000 6% mortgage bonds and $57,000 of pref. stock of the Cayuga company. The price to be paid is the estimated value of the physical properties, as shown by the records of the plant accountant of the New York company.

Central Foundry Co.—*Time Extended.*—
See Iron Products Corp. below.—V. 116, p. 2641, 1653.

Century Ribbon Mills, Inc.—*Business—Sales.*—
In May the corporation did a larger gross business than in the corresponding month of any of the 45 years during which this business has been in existence. Gross sales showed an increase of 34% over May 1922. —V. 116, p. 1653.

Cities Service Co.—*New Interest—Guaranty of Bond.*—
See Massachusetts Oil Refining Co. below.—V. 116, p. 2888, 2261.

Cities Service Refining Co. of Mass.—*To Succeed Massachusetts Oil Refining Co. in Reorganization.*—
See that company below.

Columbia Motors Co., Detroit.—*No Par Shares.*—
The stockholders on June 26 approved a reduction in the capitalization by the exchange of the present $10 par stock for no-par stock on the basis of two shares of old for one of new.

The board of directors has been increased from seven to nine members by the election of A. R. Demory, former President & Gen. Mgr. of Timken Axle Co., and Charles Talbot, Vice-Pres. of National Bank of Commerce. —V. 116, p. 2888.

Commercial Solvents Corp.—*Initial Preferred Dividend.*
The directors have declared an initial quarterly dividend of 2% on the Cumul. First Pref. stock, payable July 1 to holders of record June 30. See also V. 116, p. 2012, 2135.

Computing-Tabulating-Recording Co.—*Stock Sold.*—
President Thomas J. Watson is quoted as saying that the recent issue of 19,655 shares of stock (V. 116, p. 1766) had all been sold and paid for by those who are already stockholders or employees of the company. The proceeds will enable the company to clear up its entire floating debt except ordinary current bills and leave a cash balance of over $1,000,000.

Net earnings for the first five months of 1923 after providing for Federal taxes, it is stated, are sufficient to take care of the full year's dividend of $6 a share on the entire issue of 150,688 shares of capital stock. These earnings do not include $513,818 judgment received in the recent settlement of a lawsuit for patent infringement.—V. 116, p. 2641.

Consolidated Gas Co. of N. Y.—*Truth About Gas Rates.*
Under the heading "The Truth About Gas Rates in New York City," the company has sent to the stockholders a pamphlet of 45 pages, which was revised for submission to the Mayor of New York City at the advisory hearing before him on May 28 on the Walker $1 gas bill.

The company in a brief notice accompanying the pamphlet says: "Because of the gross misstatements which are persistently made in some of the newspapers, relative to the operations and properties of the Consolidated Gas Co., the officers of the company feel that it is due to the stockholders to give them at this time an accurate statement of the actual facts."

Gas Injunction Granted.—Judges Rogers, Hough and Bondy, sitting as a special statutory court, on June 29 granted a temporary injunction to the Consolidated Gas Co. and the following subsidiaries: Bronx Gas & Electric Co., Central Union Gas Co., Northern Union Gas Co., New Amsterdam Gas Co., Standard Gas Light Co., New York & Queens Gas Co. and the East River Gas Co. This injunction holds up the enforcement of the $1 gas bill, recently passed by the Legislature.—V. 116, p. 2888, 2770.

Consumers Power Co.—*Bonds Offered.*—National City Co., Cassatt & Co. and Graham, Parsons & Co. are offering at 89¼ and int., yielding over 5¾%, $3,500,000 1st Lien & Unifying Mtge. Gold bonds, Series C, 5%, dated Nov. 1 1922, due Nov. 1 1952 (see description in V. 115, p. 1842, and advertising pages above).

Data From Letter of President B. C. Cobb, June 28.

Company.—Incorp. April 12 1910 in Maine. Owns and operates in lower Michigan one of the most extensive systems engaged in the generation, transmission and distribution of electric light and power in the entire United States, as well as modern and well maintained plants and distribut ing systems for the production and supply of artificial gas used principally as fuel for both domestic and industrial purposes. During the past year more than 60% of the output of company's electric generating stations was produced by water power. Company serves one of the most important industrial sections of the country, including eight of the ten largest cities in the State, and comprising about 64% of the urban population of the lower peninsula of Michigan, exclusive of Detroit. Population served estimated at 775,000.

Purpose.—Proceeds will reimburse company for construction expenditures to the extent permitted by the conservative provisions of the 1st Lien & Unifying Mtge. Since Nov. 1 1922 expenditures for property (in addition to those fundable through the issuance of bonds) amounting to over $2,500,000 have been made and financed principally through the sale of stock.

Capitalization Outstanding as of May 31 (to Which Has Been Added the Present Issue of Bonds.)

Common stock, paying 8% dividends	$16,404,300
Preferred stock, paying 6% cumulative dividends	12,694,200
Preferred stock, paying 6.6% cumulative dividends	2,208,000
Preferred stock, paying 7% cumulative dividends	3,347,000
1st Lien & Unifying Mtge., Series C 5s, 1952 (incl. this issue)	17,359,000
Underlying & Divisional Mtge. 5s, due variously to 1946	27,368,500

The $27,368,500 underlying and divisional bonds include $22,254,000 1st Lien & Ref. bonds, due Jan. 1 1936; $2,512,000 Michigan Light Co. 1st & Ref. Mtge. bonds, due Mar. 1 1946, and $2,602,500 representing several issues of underlying (closed) mortgages divisional bonds outstanding in the hands of the public. In addition there are pledged under the 1st Lien & Unifying Mtge. $6,687,000 1st Lien & Ref. bonds and $2,512,500 Michigan Light Co. 1st & Ref. Mtge. bonds.

Earnings for Years Ended Dec. 31.

	Gross Earnings.	*Net Earnings After Taxes.*	*Interest on Funded Debt.*	*Times Earned.*
1913	$4,432,739	$2,155,642	$831,020	2.59
1915	5,210,140	2,950,077	934,046	3.16
1917	7,442,104	2,931,639	1,191,640	2.46
1919	10,533,674	4,222,040	1,425,403	2.96
1921	13,174,247	5,700,017	2,137,221	2.67
1922	14,201,203	6,764,127	2,221,871	3.04
1923 (12 mos. May 31)	15,364,067	7,226,560	2,179,771	3.32

* In accordance with a new accounting practice approved by the Michigan P. U. Commission, the above gross earnings do not include revenue derived from the sale of gas residuals, such revenue being treated as a credia to operating expenses.—V. 116, p. 2880, 2770.

Continental Can Co.—*Quarterly Div. of $1 Per Share Recommended on Common Stock.*—
The executive committee has recommended to the board of directors that a quarterly dividend of $1 a share be declared on the Common stock, payable Aug. 15 to holders of record Aug. 4. The directors will meet July 11 to take action on the dividend. On Feb. 15 and May 15 last quarterly dividends of 75 cents per share were paid.—V. 116, p. 2519.

Copper Export Association, Inc.—*Copper Sold.*—
The Association organized in Dec. 1918, to handle exports of copper metal for local producers, has sold all of the 400,000,000 pounds of metal marked for export early in 1921. The Association, it is said, will continue to handle the export business for the larger American producers, despite the liquidation of the amount mentioned.

In Feb., 1921, the company sold $40,000,000 8% Secured gold notes, secured by 400,000,000 lbs. of refined copper. (V. 112, p. 655). The last of these notes were paid off on Feb. 15 last. (See V. 116, p. 301).—V. 116, p. 2135.

x After deducting $4,149,279 for depreciation reserve.
The usual comparative income account was published in V. 116, p. 1899.

Crocker Hotel Co.—*Bonds Offered.*—Bond & Goodwin & Tucker, Inc., San Francisco, are offering at par and int., $1,000,000 1st Mtge. 5% bonds.

Dated June 1 1923. Due serially, 1924 to 1933. Authorized, $2,000,000 of which $1,000,000 reserved for future requirements. Denom. $1,000. Interest payable J. & D. at Mercantile Trust Co., San Francisco, trustee, without deduction for Federal normal income tax up to 2%. Callable as a whole only on any interest date upon 60 days' notice at 102½.

This issue is secured by a first mortgage on the land and building known as the St. Francis Hotel (including an addition thereto to be presently constructed at a cost of $500,000) having a total value, according to a recent appraisement, of over $6,000,000.

Cumberland Tel. & Tel. Co.—*Application Refused.*—
Federal Judge Holmes in the U. S. District Court at Biloxi, Miss., refused the application of the company for an injunction restraining the State of Mississippi, the Attorney-General, the Mississippi RR. Commission and District Attorneys in each district of the State from interfering with its proposed rates. Judge Holmes declared the order sought was too far-reaching and that the parties against whom it was sought had not been notified as required by law.—V. 116, p. 1182.

See American Steel Foundries above.—V. 113, p. 2824.

DeBardeleben Coal Corp.—*Bonds Offered.*—Drexel & Co., Cassatt & Co. and Graham, Parsons & Co. are offering at prices ranging from 99½ and int. to 100.48 and int., to yield from 6% to 6½%, according to maturity, $4,000,000 1st Mortgage 6½% Serial gold bonds. (See advertising pages.)

Dated July 1 1923. To mature $200,000 each July 1 1924 to 1943, both incl. Int. payable J. & J. at Fidelity Trust Co., Phila., trustee, without deduction of normal Federal income tax up to 2%. Denom. $1,000 c*. Red., all or part, at 102½ and int. on 30 days' notice. Pennsylvania 4 mills tax and any Maryland tax up to 4½ mills refunded.

Data from Letter of President Henry T. DeBardeleben, June 20.

Purpose.—Proceeds will be applied to payment in part for the properties of the Corona Coal Co., the DeBardeleben Coal Co., Inc., and its subsidiaries (W. G. Coyle & Co., Inc., 50% of the stock of Sipsey Barge & Towing Co.) and the Empire Coal Co.

Company.—Will be organized under laws of Delaware. Properties will consist of approximately 50,000 acres of unmined coal lands, of which the mineral rights of 46,800 acres will be owned in fee and the balance controlled under favorable leases, situated in Walker, Cullman and Fayette Counties, Ala., in the heart of the well-known Warrior coal field, all highly developed, the mines being modern and well equipped with a capacity in excess of 1,500,000 tons per annum. The actual tonnage produced for the 5 years ended Dec. 31 1922 has averaged annually 1,114,435 tons. Edward V. d'Invilliers has estimated the recoverable proven coal from these properties to be in excess of 64,500,000 tons, with an additional indicated tonnage not yet proven of 80,000,000 tons.

Sinking Fund.—Mortgage will provide for a sinking fund of 10 cents per ton on all coal mined from the properties, to be applied first to the serial payments as due and any excess to be used to call bonds of the last maturity outstanding at 102½ and int., unless such bonds can be purchased in the open market at a lower price.

Capitalization—	*Authorized.*	*Outstanding.*

(D. G.) Dery Corp.—*Reorganization Plan.*—The reorganization committee, consisting of Emanuel Gerli, Allan Macfarlan, Gardner B. Perry, Arthur H. Titus and Allan B. Cook (with E. E. Beach, Sec., 16 Wall St., New York), has prepared the following reorganization plan and it is being submitted to all creditors for their approval. All assents to the plan must be given on or before July 15.

The plan has been prepared for the purpose of enabling the creditors to realize upon their claims at the earliest possible date, and because of the elimination of the issuance of notes for the balance of the amount due to creditors, it is possible to pay as large an amount as 25% in cash to creditors without having any expensive new financing. New financing at this time, if possible at all, would be very costly. The plan permits the obtaining of what is believed to be very satisfactory new management, and it is hoped that the Pref. stock which will be issued to creditors will, if the company is profitably operated, soon find a market, which will enable the creditors to dispose of the same and to realize upon their claims at a much earlier date than if notes were accepted. In order that the company shall be a vigorous and important factor in the trade, it is necessary that it have excellent credit standing, and this can best be accomplished by the acceptance by creditors of the Pref. stock. If notes were to be issued to creditors it would be necessary to subordinate such notes to indebtedness incurred by the company in the future operation of the business, and these notes, it is believed, would not be marketable, and the issuance of these notes would certainly have an unfavorable effect upon the company's future credit.

Digest of Reorganization Plan, Dated June 14 1923.

Liabilities as of March 26 1923 (*Date of Appointment of Receivers*).

Current Liabilities.—Notes payable, $19,950; trade acceptances payable, $3,980,970; accounts payable, $1,082,648; reserve for contingent liabilities and accrued liabilities, $189,310; total	$5,272,878
Bonds and Obligations.—1st Mtge. 7% gold bonds, $4,000,000; underlying mortgages, $292,500; due to subsidiaries, $293,194	4,585,694
Grand total	$9,858,573

Present Capitalization.

Preferred stock outstanding	$3,100,000
Common stock outstanding	200,000 shs.

Name of Co. to Be Changed and Capital Readjusted.—The name of D. G. Dery Corp. is to be changed to such name as may be selected by the reorganization committee, and the changes in capitalization accomplished pursuant to the laws of Delaware or by purchase of the assets by a new company, as the committee may determine.

Settlement with Creditors.—Creditors, other than bondholders, having provable claims at the date of the reorganization agree to accept in full payment of their claims the following:

(1) 25% in cash payable immediately upon the plan being declared effective; and (2) 75% by the acceptance at par of 7% Cum. Pref. (a. & d.) stock (or voting trust certificates therefor).

Creditors having claims of $1,000 or under to be paid in full, requiring an expenditure of approximately $39,000.

The stock or voting trust certificates to be received by the creditors and stockholders may be placed under a syndicate agreement, the managers to be selected by the committee, which syndicate shall continue for not more than three years under an agreement which will authorize the syndicate managers to sell the stock for the pro rata account of all the stockholders at a price of not less than 90 and divs. for the Pref. stock, and not less than $2 50 per share for the Common stock, or a combined price of 95% of the par of Pref. stock and divs. upon the Pref. stock for both the Pref. and Common stock during the first 18 months, or at a price of not less than 90 for the Pref. and $5 per share for the Common stock, or not less than a combined price of 100% of the par of the Pref. stock and divs. upon the Pref. stock for both the Pref. and Common stock during the remainder of the time that the syndicate agreement continues in effect.

The charter of the company shall be amended to provide, or if a new company is formed, its charter shall provide, in substance, that 50% of the net earnings for each semi-annual period ending June 30 and Dec. 31, commencing with the semi-annual period ending Dec. 31 1923, remaining after the payment of all interest and sinking fund installments under the indenture dated Sept. 1 1922 securing its 1st Mtge. bonds (as amended) and after providing for all other fixed charges, and divs. for such semi-annual period upon the outstanding Pref. stock shall be applied to the redemption of the Pref. stock at 110 and divs., if any.

Securities to Be Issued to Present Pref. Stockholders.—The present outstanding Pref. stock shall be reduced to an amount determined by the reorganization committee to be equal to the actual net quick assets of the company after the payment of all expenses of the receivership (but before the cash payment to the creditors as above provided) and when so reduced the present holders of Pref. stock whose stock has not been surrendered to or acquired by the company shall receive Pref. stock to the amount of such net quick assets of the same class as that accepted by the crdeitors in part payment for their indebtedness.

Outstanding Common Stock.—All or substantially all of the present outstanding Common stock is to be acquired by the company and is thereafter to be issued to the present holders of Pref. stock under an arrangement by which all of the Common stock will be placed under a voting trust agreement in conformity with the laws of New York, which voting trust shall continue for 5 years. The existing voting trust may be used for that purpose, or a new voting trust created. The voting trustees named in the agreement are to be A. Perry Osborn, Percy H. Mann and Emanuel Gerli.

New Management.—The committee has made arrangement with Percy H. Mann to become the active head of the company, and it is proposed that he will retain such of the experienced heads of departments that continue to perform their duties satisfactorily. The President and directors to serve until the next annual meeting are to be as follows: Percy H. Mann (Pres.), Joseph Gerli, M. Kobayashi, Lionel F. Straus, John P. Maguire, Oscar Heineman, Gardner B. Perry, and such additional directors not exceeding 4 as the committee may determine to be proper.

Majority of Common Stock to Be Placed Under an Option Agreement for the Benefit of New Management.

Voting trust certificates representing 51% of the total outstanding Common stock shall be held in escrow by the voting trustees, under an option agreement entered into between the company and Pres. Percy H. Mann, and such associates in the management as he may select, by the terms of which Mr. Mann and his associates are to acquire one-fifth of the voting trust certificates so held in escrow, annually in advance, commencing as of the date of declaring the plan effective, until Mr. Mann and his associates shall have acquired the entire 51% of such voting trust certificates. The agreement shall, however, contain a provision that in the event that Mr. Mann or any one of his associates participating in such agreement shall die or leave the employ of the company during the period of 5 years, the company shall have the option of repurchasing such of the stock as may have actually been delivered to Mr. Mann or any of his associates, and of cancelling the agreement for such portion as may not have actually been delivered.

The purchase price to be paid by the company for the certificates then delivered shall be arrived at by assuming that the value of the entire Common stock of the company is the increase in the net assets of the company from the date the reorganization becomes effective to the date of such repurchase, and the value of each share shall be a proportionate part of such increase. In the event of any dispute regarding the value of the stock the value shall be determined by the directors.

Distribution of Balance of Common Stock.—The voting trust certificates representing the balance of the Common stock in the hands of the company shall be distributed pro rata to the holders of the Pref. stock issued and to be issued in accordance with this plan.

Temporary Postponement of S. F. Installments in Respect of 1st Mtge. Bonds.

In order to improve the company's cash position, holders of 1st Mtge. bonds consent to the postponement of the sinking fund installments accruing under the indenture dated Sept. 1 1922 to and including the installment maturing Sept. 1 1926, provided, however, that the company shall covenant that:

(1) The company will, not later than March 1 1927, resume the payment of the sinking fund installments under the indenture, and will increase the amount of each of the last 6 installments payable under the indenture pro rata sufficiently to insure the retirement of the 1st Mtge. bonds within the period within which they would have been retired had the postponement of sinking fund installments not been made, and

(2) So long as any of the 1st Mtge. bonds shall be outstanding the company will not pay any divs. upon its outstanding capital stock except out of earnings or surplus accruing after July 1 1923, but in no event shall any divs. nor shall any capital stock of any class be purchased or redeemed or any other distribution made to the stockholders if, after the payment of such div. or such purchase or redemption of stock or other distribution to the stockholders, as the case may be, the net working capital be less than $4,500,000, or, in the event that the looms of the company in operation shall have been permanently reduced to less than the number in operation March 26 1923, such sum as the directors may determine as a proper working capital, not less in any event than $4,060,000.

The foregoing provisions shall be expressed in a proper supplemental indenture, and if a new company is formed it shall assume the 1st M. bonds.

The committee shall have power to determine when a sufficient number of bondholders have assented to the plan to make it in the judgment of the committee advisable to declare the plan effective.

Contribution of Capital by New Management.—Percy H. Mann agrees to purchase at par $100,000 Pref. stock of the same class, &c., as that to be accepted by the creditors in part payment of their claims, the proceeds of such purchase to be paid into the treasury for working capital. Mann's agreement of subscription will provide for the payment of $50,000 immediately upon the plan being declared effective against the delivery at that time of $50,000 of Pref. stock and for the payment of the remaining $50,000 on or before one year after the plan has become effective against the delivery of the remainder of the Pref. stock at the time of the making such final payment.

Declaring the Plan Effective.—The plan shall not be declared effective by the committee unless it has been assented to by the holders of 90% of the outstanding unsecured claims.

Computation of Creditors' Claims.—The claims of unsecured creditors shall be computed with interest to the date that the plan is declared effective and claims not then due shall be discontinued as of said date.—V. 116, p. 2135, 1766.

Detroit Edison Co.—*Stock Offering.*—

Of the $8,791,400 capital stock recently offered to the stockholders for subscription at par $5,249,100, or approximately 60%, was subscribed for, it is announced.—V. 116, p. 2771, 2393.

Detroit Motor Bus Co.—*Extra Dividend.*—

The company has declared the regular quarterly dividend of 2% and an extra dividend of 1%, both payable July 15 to holders of record June 30.—V. 115, p. 2586, 1538.

Detroit Steel Products Co.—*Recapitalization Plan.*—

The stockholders have approved a change in the capitalization of the company. The authorized capitalization will consist of $4,000,000 Preferred stock, par $100, and 250,000 shares of Common stock of no par value. Of this $2,132,600 Preferred and 142,176 shares of Common will be exchanged for the $3,544,000 Common now outstanding on the basis of 60% in new Preferred and four shares of new Common stock of no par value for each share of old Common stock, par $100. The old $250,000 7% Cumul. Pref. stock has been called for payment July 1 at 105 and divs. —V. 111, p. 2525.

Diamond Match Co.—*Dividend—To Retire Notes.*—

The company has purchased the Majestic plant of the United States Food Products Co., located at Peoria, Ill., and is having it remodeled for the manufacture of Butanol.—V. 116, p. 2135.

The company has declared the regular quarterly dividend of $2 per share, payable Sept. 15 to holders of record Aug. 31.

The directors have taken formal action for the calling of its outstanding 7½% debentures for payment on Nov. 1 1923. Legal notice of this redemption cannot be made until 80 days before the date of call.—V. 116, p. 2135.

(Louis F.) Dow Co., St. Paul, Minn.—*Bonds Offered.*—

Hyney, Emerson & Co., Chicago, are offering at 99 and int., to yield over 6½%, $300,000 First (Closed) Mtge. 6½% Serial Gold Bonds. A circular shows:

Denom. $1,000, $500 and $100 c*. Dated May 1 1923. Due annualy from May 1 1925 to May 1 1938, inclusive. Interest payable M. & N. in gold at State Bank of Chicago, trustee, Chicago. Redeemable, all or part, on any interest date upon 30 days' notice at 105 and interest up to and incl. May 1 1928, and thereafter at 105 and int. less ½ of 1% for each full year or fraction thereof, remaining between May 1 1928 and date of redemption. Free from normal Federal income tax not exceeding 2%. Tax of any State or United States possession not in excess of five mills refundable.

Company.—Is the most complete bank and office supply house in the United States and is also one of the largest producers and merchandisers of calendars and leather advertising specialties. Business established at St. Paul by present management in 1899 and in no year since inception has company failed to earn a profit—present capital and surplus of $673,867 having been built up entirely out of earnings from an original capital of only $200.

Purpose.—Construction of a new plant which will largely increase earning capacity.

Earnings.—Operations have shown a substantial profit in every year since inception of business in 1899. For 7 years and 7 months from July 31 1916 to Feb. 28 1923, inclusive, net earnings available for interest, depreciation and Federal taxes were as follows: 1916, $49,096; 1917, $54,128; 1918, $43,274; 1919, $52,350; 1920, $66,289; 1921, $32,860; 1922, $37,775; 7 mos. ending Feb. 28 1923, $31,883.

Eastern Steamship Lines, Inc.—*New Director.*—

Edward Lovering, Treasurer of the Massachusetts Cotton Mills, has been elected a director, succeeding J. B. Hardon.—V. 116, p. 2888, 2262.

Electric Auto-Lite Co.—*Earnings, Incl. Subsidiaries.*—

Operations of the company and subsidiaries for the period July 18 1922 to April 30 1923 have been extremely successful. Gross income of $2,072,367 was available for bond interest of $147,830, or over 14 times actual interest payments. The company has no other debt except current accounts.

The company has reduced funded debt from time to time by anticipating its sinking fund requirements for retiring bonds. The balance sheet as of April 30 1923 showed $1,998,000 1st Mtge. bonds outstanding, compared with an original amount of $3,000,000 issued July 1 1922, a total of $1,002,000 having been retired and canceled since that time.

Dividends amounting to $250,000 were paid in April on the no-par-value Common stock.

Income Account July 18 1922 *to April* 30 1923.

Net sales, $11,199,412; cost of sales, $9,183,790; net operating profit	$2,015,622
Non-operating income	56,745
Gross income	$2,072,367
Bond interest, $147,830; premium on bonds redeemed, $39,531; x Federal income tax, $223,085	410,446
Net income	$1,661,921

x Actual tax to Dec. 31 1922, $82,832; balance, $140,253, estimated, based on 12½% of net earnings.—V. 116, p. 2642, 2519.

Electric Bond & Share Co.—*Preferred Stock Offered.*—

Bonbright & Co., Inc., are offering at 97½ (and dividend from May 1 1923), to yield about 6.15%, $2,750,000 6% Cumulative Preferred (a. & d.) stock (see advertising pages).

Data from Letter of President S. Z. Mitchell, New York, June 25.

Capitalization After This Financing—	*Authorized.*	*Outstanding.*
Preferred Stock 6% Cumulative (incl. this issue)	$20,000,000	$20,000,000
Common Stock (all owned by General Electric Co.)	20,000,000	20,000,000

Company.—Incorp. Feb. 28 1905. Takes a financial interest in electric power and light enterprises. It buys, holds and sells securities issued on such properties, and renders expert assistance in connection with the financing and the operation of companies controlling and operating such properties.

Purpose.—Proceeds will be used for general corporate purposes in expanding its business.

Earnings.—For the year ended May 31 1923, net income, after Federal taxes, was $4,199,924, or practically 3½ times annual dividend requirements of $1,200,000 on the total amount of Preferred stock outstanding, including this issue. The net income since incorporation in 1905 has been sufficient to meet the Preferred dividend payments during all of that period, more than 4.1 times.—V. 116, p. 1899, 1057.

Empire Gas & Fuel Co.—*New Well.*—

The company has completed its Lynd No. One Well, in the Hull field o Liberty County, Texas, with a flow of 2,000 bbls. daily.—V. 116, p. 2262.

Ermita Sugar Co. (Compania Azucarera Ermita).—*Bonds Offered.*—

Hornblower & Weeks and Janney & Co. are offering at 100 and int. $1,200,000 1st (closed) Mtge. 20-Year 7½% Convertible Sinking Fund Gold bonds.

Dated Dec. 15 1922. Due Dec. 15 1942. Convertible into voting trust certificates for Common stock at the rate of 29 shares for each $1,000 of bonds. Int. payable J. & D. at Bankers Trust Co., New York, trustee, in U. S. gold coin, without deduction for present or future Cuban taxes and without deduction of U. S. income tax up to 2%; Penn. 4-mill tax refunded. Annual sinking fund commencing 1923 sufficient to retire entire issue by maturity. Denom. $1,000 and $500 c*. Red. all or part on any int. date upon 60 days' notice at 107½ and int. up to and incl. Dec. 15 1932, the premium thereafter decreasing ¾ of 1% annually to maturity.

Data From Letter of Chairman Robert W. Atkins, June 25.

Company.—Incorporated in Cuba, succeeding to the ownership of the fixed assets and equipment of the Ermita Sugar Corp. of New York. Company is a self-contained, low-cost sugar producer. Property, which includes a thoroughly modern cane sugar mill, about 9,200 acres of land and standard gauge railroad with complete equipment, is located in the Province of Oriente, Cuba, on the main line of the Guantanamo & Western RR. Central Ermita, with an annual capacity in excess of 150,000 bags of sugar, is one of the most efficient producers in Cuba. Operations for the past five crops have shown an average recovery of 12.35 pounds of sugar for each 100 pounds of cane ground.

Capitalization—	*Authorized.*	*Outstand'g.*
1st (closed) Mtge. Convertible bonds due 1942	$1,200,000	$1,200,000
8% Cumulative Preferred stock	300,000	300,000
Common stock (authorized, 85,000 shares; outstanding, 50,000 shares, par $30)	2,550,000	1,500,000

Earnings.—Earnings of Ermita Sugar Corp. for last five years, ended Dec. 31 1922, before int., depreciation and income taxes, have averaged $265,197.

The results of the crop to April 30 1923, based on actual production of 118,474 bags and final liquidation at 5½ cents per pound of unsold sugar on hand at that date, show a net revenue of $658,933 before int., depreciation and provision for Cuban income tax. As the new company took over operations as of the start of the crop only, no idle season expenses have been deducted from this revenue. After allowance for a complete dead season expense, and after depreciation and Cuban income taxes, it is estimated that earnings for the year 1922-1923 available for int. would amount to $273,400, or over three times the interest on these bonds.

Listing.—Application will be made to list these bonds on the New York Stock Exchange.

Estey-Welte Corp., N. Y. City.—*Initial Dividend.*—

An initial dividend of $1 per share has been declared on the outstanding Common stock, no par value, payable July 1 to holders of record June 27. A semi-annual dividend (No. 2) of 4% was also declared on the Pref. stock, payable on the same date. See also V. 115, p. 2691, 2799.

Eureka Smelting Co.—*Bonds Offered.*—A. L. Albee & Co., Boston, and J. S. McCord & Co., Phila., are offering at par and int. $2,500,000 8% 1st (closed) Mtge. 10-Year Collateral Trust, Convertible Sinking Fund gold bonds.

Dated May 15 1923, due May 15 1933. Denom. $1,000, $500 and $100 c*. Red. all or part on any int. date upon 30 days' notice after 5 years at 110. Int. payable M. & N. at Empire Trust Co., New York, trustee, without deduction for normal Federal income taxes not exceeding 2%. Penn. 4 mills tax, Conn. 4 mills tax and Maryland security tax not exceeding 4½ mills and Massachusetts income tax not exceeding 6% per annum on income from the bonds refunded.

Data from Letter of Pres. G. T. Wilson, New York, June 8.

Company.—Organized to control the transportation and smelting business of the famous Eureka District of Nevada, and tributary territory. Has purchased the Eureka-Nevada RR., 88.6 miles in length, connecting with the Southern Pacific and Western Pacific lines at Palisade, Nev. Company will construct and operate on a custom basis a smelter for the treatment of the ores of the mining districts centring about Eureka, Nev. Has purchased extensive and valuable mining properties to safeguard the enterprise and increase its earnings.

An important feature of the business will be the recovery of arsenic which the ores of the Eureka District contain in profitable quantities.

Purpose.—To build the first 500-ton unit of the smelter, finish paying for the railroad and provide additional equipment to handle the large increase of business the activities of the company will create.

Security.—Secured by first mortgage on all property now or hereafter owned, including telephone line 90 miles in length connecting Eureka and Palisade, Nev., and by deposit with the trustee of the entire Capital stock of the railroad company.

Capitalization.—Capital stock authorized, $10,000,000; outstanding, $6,250,000; remaining in treasury, $3,750,000; reserved for conversion of bonds, $2,500,000; balance, $1,250,000.

Earnings.—During the time required to complete the smelter, which is approximated at one year, net earnings of the railroad, less betterments planned, are estimated at $320,800, which is pledged for the payment of interest on the bonds. It is estimated that upon completion of the smelter net earnings will be 20% to 40% annually on the outstanding stock.

Sinking Fund.—For each ton of ore treated by the smelter $1 will be placed in a sinking fund with the trustee which shall be used for buying bonds in the open market at 103 or under and for the retirement of bonds after five years at 110.

Convertible.—Convertible at any time into Capital stock of the company par for par.

Directors.—August Heckscher, New York; James F. Ballard, St. Louis; Paul T. Brady, New York; Frederick Hurdle, London, Eng.; Frank L. Torres (V.-Pres.), Eureka, Nev.; Geo. W. Edmonds, Philadelphia; Thomas W. Pelham, Boston; Arthur E. Stilwell (V.-Pres.), New York; F. Lynwood Garrison, Philadelphia; E. C. Randall, Buffalo, N. Y.; A. R. Whaley, George T. Wilson (Pres.), E. Norman Scott, Richard W. Gardner, New York; Robert B. Todd (V.-Pres.), Reno, Nev.—V. 115, p. 1638; V. 116, p. 82.

Federal Light & Traction Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of $2,500,000 30-Year Convertible Debenture Gold Bonds, Series "A," 7%, due March 1 1953 (see offering in V. 116, p. 1177)

Income Statement for 3 Months Ended March 31 1923.

Total inter-company earnings, $273,977; total miscell. earns., $80,583; total income	$354,560
Expenses	53,255
Total interest, $115,024; total discount, $13,911; total int. & discount	$128,935
Net profit	$172,369

The Albuquerque Gas & Electric Co., a subsidiary, has been granted a franchise to distribute gas in the city of Albuquerque, N. M. The franchise provides that the cost of the first 3,000 cu. ft. of gas used shall be $2 per 1,000 ft. and $1 75 per 1,000 ft. After that the minimum cost is to be $1 per meter.—V. 116, p. 2636, 2255.

Fajardo Sugar Co.—*Dividend Increased.*—

A dividend of 7½% has been declared on the outstanding Common stock, par $100, payable Aug. 1 to holders of record July 20. On May 1 last a distribution of 2½% was made. Dividends of 1¼% each were paid quarterly on the Common shares from Aug. 1 1921 to Feb. 1 1923, incl.—V. 116, p. 1538.

Famous Players-Lasky Corporation.—*Earnings.*—

The corporation in its consolidated statement (which includes the earnings of subsidiary companies owned 90% or more) reports for three months ended March 31 1923, net operating profits of $1,018,100, after deducting all charges and reserves for Federal income and other taxes. After allowing for payment of dividends on the Preferred stock, the above earnings are at the annual rate of $14 66 on Common stock outstanding.—V. 116, p. 2642.

Federal Motor Truck Co.—*Dividend Increased.*—

A quarterly dividend of 3% has been declared on the outstanding capital stock, payable July 10 to holders of record July 3. This compares with 2% paid quarterly from July 1922 to April 1923, incl. Sales during the first five months of 1923 totaled $3,693,731, compared with $1,894,091 for the corresponding period of 1922. Shipments for the first five months of 1923 were 1,787 trucks, against 937 in 1922.—V. 116, p. 2014.

Foundation Co.—*Balance Sheet Dec. 31.*—

An income account for the past four calendar years was published in V. 116, p. 2520.—V. 116, p. 2642.

General Fireproofing Co.—*Dividend of 30 Cents.*—

The company has declared a quarterly dividend of 30c. per share on its Common stock no par value, payable July 2. This is equal to $1 50 per share on the old Common stock, par $100, which was exchanged for new no par stock on the basis of 5 new shares for each $100 share held. On April 2 last a dividend of $1 50 per share was paid on the Common stock, par $100.—V. 116, p. 942.

General Petroleum Corp.—*Production, &c.*—

The company's "Bulletin" June 1923 states that the growth in both the company's production and the purchased oil has continued steadily. On June 1 production was over 60,000 barrels and the total volume of produced and purchased oil was in excess of 100,000 barrels per day.

On June 1 company had 35 producing oil wells, 2 gas wells and 38 drilling wells in the Signal Hill and Santa Fe Springs districts. It is estimated that the drilling program will be reduced one-half in the next 60 days. The pipe line facilities are now adequate to take care of the present volume of controlled oil, and a new line from the refinery at Vernon to San Pedro has been authorized for the transportation of refined products. The new harbor facilities are completed to a point where the company can provide berths for the simultaneous loading of crude, residuum and gasoline.—V. 116, p. 2889, 2642.

Giant Portland Cement Co.—*Pref. Div. of 3½%.*—

A dividend of 3½% (on account of unpaid accumulated dividends) has been declared on the Preferred stock, payable July 16 to holders of record July 3. On Jan. 15 1923 a dividend of 2% was paid on the Preferred stock.—V. 116, p. 621.

Gimbel Brothers, Inc.—*Bonds Offered.*—First Wisconsin Co., Milwaukee, is offering at 101 and int., to net more than 5¾%, $356,000 5-Year 1st Mtge. 6% Gold bonds.

Dated May 1 1923. Due May 1 1928. Int. payable M. & N. Denom. $1,000 and $500. Red. all or part upon 30 days' notice on any int. date prior to and incl. May 1 1924 at 104 and int.; May 1 1925 at 103 and int.; May 1 1926 at 102 and int.; May 1 1927 at 101 and int., and thereafter at 100 and int. Interest payable at the office of First Wisconsin Trust Co., Milwaukee, trustee, without deduction of any income tax not exceeding 2%. These bonds are to be a direct, unconditional obligation of the company and shall be secured by a first mortgage upon the fee of the real estate and improvements fronting on Grand Avenue and Third St., Milwaukee. All of this property has been leased, the Grand Avenue frontage being under a long-term lease to the S. S. Kresge Co., the net return from which lease alone is approximately 2½ times the annual interest requirements on these bonds. The real estate and buildings thereon have been conservatively valued at $961,000. This bond issue is for less than 40% of the value.—V. 116, p. 2520, 2394.

Graham & Morton Transportation Co.—*Bonds Offered.*—Howe, Snow & Bertles, Inc., New York, &c., are offering at a price to net 6½%, according to maturity, $750,000 1st Mtge. 6% Gold bonds.

Dated June 1 1922. Due serially July 1 1923 to July 1 1942. Denom. $1,000, $500, $100 and $50 c*. Int. payable J. & J. at Michigan Trust Co., Grand Rapids, trustee, without deduction of Federal income taxes not exceeding 2%. Red. on July 1 1927 or any int. date thereafter on 40 days' notice at 103 and int. The mortgage provides for the retirement of $25,000 of these bonds annually, commencing July 1 1924.

Data From Letter of President J. S. Morton, June 11 1923.

Company.—Organized in Michigan. Owns and operates a passenger and freight steamship line between Chicago and Michigan City, St. Joseph, Benton Harbor, Saugatuck and Holland. Company was organized as a co-partnership in 1875 and as a corporation in 1880. Owns five steel double cabin freight and passenger steamers, making daily trips to all ports and double daily trips to some ports.

Security.—The issue is secured by direct closed first mortgage (constituting a preferred maritime lien under the merchant marine laws of the United States) on all of company's properties, consisting of five steel double cabin freight and passenger steamers as well as valuable dock, freight house and terminal properties at Benton Harbor, Saugatuck, and Holland, Mich., and leaseholds at Chicago and Michigan City.

Purpose.—To clear up obligations incurred during the past two years for the refunding of approximately $107,000 of bonds outstanding, the purchase of two new steamers, the "City of Holland" and the "City of Saugatuck," and reconditioning the same, and the further extension of the company's business to take care of demands in excess of present capacity.

Earnings.—For 17 years, ended 1922, average earnings available for interest and depreciation have been $62,800. In the past four years (3 years with 3 boats, 1 year with 5 boats) average earnings available have been over $90,000. It is estimated net earnings for 1923 with six boats operating will be in the neighborhood of $150,000.

Habirshaw Electric Cable Co.—*Reorganization Plan.*—A plan of reorganization of Habirshaw Electric Cable Co., Habirshaw Electric Cable Co., Inc., N. Y., Electric Cable Co. and the Bare Wire Co., Inc., has been prepared by the reorganization committee (representing all classes of creditors of the above companies except the U. S. Government) and has been approved by the following committees who recommend its adoption by the creditors represented by them, respectively. The plan makes no provision for the stockholders, of which $1,324,600 8% Pref. and 135,000 (no par) common shares outstanding of the Delaware company and about $218,000 Pref and Common stock of the New York company and the Electric Cable Co :

(1) *Committee for Merchandise and Sundry Creditors.*—Malcolm D. Whitman, Chairman, Wylie Brown, J. B. Beaty, G. W. Ekstrand, H. B. Hubbard.

(2) *Committee for $1,891,500 Sinking Fund Debentures, Series A, of Habirshaw Electric Cable Co.*—E. N. Potter, Chairman, H. G. Beyer, Philip S. Dalton, T. E. Quisenberry, A. G. B. Steel.

Creditors' Committee Constituted under Deposit Agreement Dated June 15 1921.—E. A. Potter, Jr., Chairman, E. N. Potter, T. K. Stevenson, Malcolm D. Whitman, Wylie Brown, Philip S. Dalton.

Reorganization Committee.—Malcolm D. Whitman, Chairman, J. B. Beaty, Wylie Brown, F. J. Leary, E. A. Potter, Jr., E. N. Potter, T. E. Quisenberry, with C. E. Sigler, Sec., 80 Broadway, New York City.

A statement issued by the reorganization committee to the creditors June 20 says: The Habirshaw Electric Cable Co., Inc., Electric Cable Co. and Bare Wire Co., Inc., are subsidiaries of Habirshaw Electric Cable Co. (of Delaware), a holding company owning all or a greater part of the stock of each of the subsidiaries. The subsidiary companies have been in the hands of receivers John S. Worley and John B. Johnston since Nov. 1921, and the Delaware company since Feb. 1923. Owing principally to unfavorable business conditions and the difficulty of dealing with the claim of the U. S. Government, which asserted a right of priority over other creditors, previous efforts to formulate a reorganization plan acceptable to all classes of creditors have been unsuccessful.

There has also been the further difficulty of securing a competent management for the reorganized company. The improvement in business conditions, reflected by an improvement in the earrings of the companies, has now removed the main obstacle in the way of procuring the necessary financing for a successful reorganization; recent court decisions have considerably weakened the Government's position with regard to its claim of priority; and the problem of management has been solved by procuring the services of W. F. Kenny to undertake the management of the new company.

The plan, which has received the approval of the representatives of the different classes of creditors, embodies the following features:

1. The reorganization of the companies without fixed charges (other than the amount of the dividends and sinking fund on the new preferred stock) and with a strong independent management;

2. The opportunity to creditors to participate in the distribution of the common stock of the new company to the extent of 50% thereof in exchange for their respective claims without making any cash payment; and

3. The right on the part of creditors to participate in the purchase of preferred and common stock.

A large proportion of the creditors have already expressed themselves in favor of the plan. The committee urges the prompt acceptance of the plan by all creditors in order that it may be carried out without delay.

Plan of Reorganization, Dated June 20 1923.

Notes, Claims, Debentures and Certificates of Deposit Which May Be Deposited.

1. Notes (endorsed and unendorsed) of, and claims (liquidated and unliquidated), other than claims of the United States Government, against the above-named companies. Depositary, Central Union Trust Co., 80 Broadway, New York.

(2) Habirshaw Electric Cable Co. Sinking Fund Gold Debenture Bonds, Series A, and certificates of deposit of Guaranty Trust Co., New York, therefor, issued under deposit agreement dated Dec. 1 1921. Depositary, Guaranty Trust Co., 140 Broadway, New York. All debentures deposited must bear Sept. 1 1921 and all subsequent coupons attached.

Holders of the above-mentioned notes and claims may, on or before July 30, deposit their claims, &c., with Central Union Trust Co., New York.

New Company.—It is contemplated that the properties of the above four companies will be sold pursuant to order of the Court, and that the same will be acquired by a new company which will be organized in New York or such other State as the reorganization committee may determine.

Preferred and Common Stock of the New Company.

Preferred (A. & D.) Stock, 8% Cumulative.—Authorized, $1,500,000, par $100. Shall have voting power on a parity with the Common stock (each share of Preferred stock having the same number of votes as 10 shares of Common stock) unless default shall be made in the payment of two consecutive quarterly dividends on the Preferred stock, in which event the Preferred stock shall have the sole voting power. Redeemable, all or part, at any time, on 30 days' notice, at 110 and divs. An annual sinking fund equal to 5% of the par value of the Preferred stock outstanding at the close of such last preceding fiscal year shall be applied to the purchase and retirement of Preferred stock at not exceeding redemption price. Sinking fund shall be payable only out of the net income as determined by the directors and shall not be cumulative.

The Preferred stock is to be applied as follows:

For sale to depositing creditors and underwriting syndicate (total issue)	$1,500,000

Common Stock.—Authorized, 300,000 shares, either of the par value of $10 a share or without par value as the reorganization committee may determine. Common stock shall be subject to the rights of the Preferred Stock.

The Common stock is to be applied as follows:

For distribution among depositing creditors	150,000 shares
For sale to depositing creditors and underwriting syndicate	150,000 shares
Total issue	300,000 shares

Management of New Company.—The reorganization committee has effected arrangements with W. F. Kenny whereby he has agreed to provide the management for the new company and to serve the new company in such capacity as may be determined by the directors for 18 months from the time when the new company shall begin operations.

Directors of New Company.—Shall be nine in number, of whom three are to be selected by the reorganization committee, three by the underwriting syndicate, and three by W. F. Kenny. The board is to be divided into three classes, to serve in the first instance one, two and three years, respectively, and thereafter for three years each. Of the three directors to be selected by the reorganization committee, one shall be designated by the committee for merchandise and sundry creditors, one by the committee for sinking fund debentures, and one by the banking creditors.

Distribution of Common Stock among Depositing Creditors (For Right to Purchase Stock See Below).

For the purpose of distribution of the 150,000 shares of Common stock among the creditors whose claims shall be deposited under the plan, such claims shall be deemed to have the following relative values:

(1) Claims of merchandise and sundry creditors and holders of unendorsed notes of the four companies: The full face value, with interest, as allowed or established in the receivership proceedings.

(2) Claims of holders of notes made by the four companies and endorsed by one or more of the companies other than the maker thereof: The full face value, with interest, as allowed or established in the receivership proceedings, plus 12½% thereof.

(3) Claims of holders of Sinking Fund Gold Debenture Bonds, Series A, of Habirshaw Electric Cable Co. (which, by reason of the pledge under the indenture securing the debenture bonds of obligations of Habirshaw Electric Cable Co., Inc., Electric Cable Co. and Bare Wire Co., Inc., constitute claims against the companies as well as against Habirshaw Electric Cable Co.): The full face value, with interest, as allowed or established in the receivership proceedings, plus 25% thereof.

Such 150,000 shares of Common stock, upon the consummation of the plan, shall be distributed pro rata among the holders of such notes, claims and debentures deposited under the plan, according to such relative values of the respective claims. No fractional shares of Common stock will be issued, but in determining the number of shares of Common stock to which the several depositors will respectively be entitled, fractions of less than ½ a share of Common stock will be disregarded and fractions of ½ or more of a share of Common stock will be treated as one share.

The total of the claims allowed or established has not yet been determined. Assuming, for example, however, certain estimated totals, the number of shares of such Common stock distributable for each $100 of claim as allowed would be, upon the basis of relative values above set forth, as follows:

Class of Claim—	*Assumed Total.*	*No. of Shares per* $100.
Merchandise and sundry creditors, &c	$1,600,000	2.65
Holders of endorsed Notes	1,500,000	2.98
Holders of Debenture Bonds	1,900,000	3.31

It is contemplated that a distribution of shares of Common stock will be made to depositing creditors in respect of the liquidated amount of their respective claims at the same time that the shares of Preferred and Common stock subscribed for and purchased by depositing creditors and by the underwriting syndicate, are delivered to them, respectively.

Claims of United States Government.

The U. S. Government has claims against the Habirshaw Electric Cable Co., Inc., and Electric Cable Co. of approximately $1,125,000, against which these companies have claims against the Government of approximately $500,000, leaving the Government's net amount $625,000, as to which the Government asserts a priority over other creditors. It is the purpose of the reorganization committee, if possible, to settle the claim of the Government. If such settlement cannot be effected the committee purposes to contest the question of priority and pending the determination of this question to endeavor to arrange for the deposit of an amount sufficient to provide for the payment of the net amount of the Government's claim if such claim should ultimately be determined to be entitled to priority. If it should ultimately be determined that the Government's claim is not entitled to priority, the amount of such deposit not needed to pay the pro rata share of the Government as a general creditor will be added to the working capital of the new company.

Right of Depositing Creditors to Purchase Stock in New Company.

Holders of notes, claims and debentures deposited under the plan may subscribe for and purchase the $1,500,000 Pref. stock and 120,000 shares of the Common stock of the New Company at the following rate, namely: $1,000 Pref. stock and 80 shares Common stock for $1,000 in cash plus accrued dividends on the Preferred stock.

The right to subscribe for and purchase the Preferred and Common stock may be availed of to the amount of 30% of their respective claims as allowed in the receivership proceedings, that is to say, each depositor may purchase $300 of Preferred stock (together with 24 shares of Common stock) for each $1,000 of his claim as allowed. The right to subscribe to 30% of the respective claims is based on the assumption that the total aggregate amount of claims so allowed (exclusive of the claims of the U. S. Government) will not exceed $5,000,000, of which 30% is $1,500,000. If the total aggregate amount of claims (exclusive of U. S. Government claims) so allowed should exceed $5,000,000, the right is reserved to the reorganization committee to allot a proportionately lesser amount of Preferred and Common stock to depositors who may have exercised their right of subscription.

Subscriptions may be made by depositors in the first instance on the basis of 30% of their respective claims, but the amounts of Pref. and Common stock so subscribed for will be subject to adjustment and allotment. Any depositor may subscribe for any part less than all of the amount of Pref. and Common stock to which he is entitled to subscribe.

Estimated Cash Requirements.—It is estimated that $1,500,000 will be required for the purpose of providing funds for the settlement or payment of the claims of the U. S. Government and for the payment of taxes, obligations and liabilities of the receivers, receivership and reorganization expenses, and for additional working capital of the New Company.

Provision for Cash Requirements—Underwriting Syndicate.—Dillon, Read & Co. have formed an underwriting syndicate, of which they will be the syndicate managers, which has agreed to purchase 15,000 shares of Pref. stock and 150,000 shares of Common stock of the New Company, less such amount of Pref. and Common stock as may have been subscribed and paid for in full, for the sum of $1,500,000 in cash, less an amount equal to the par value of the shares of Pref. stock purchased and paid for in full, plus any accrued dividend on the shares of Pref. stock delivered to the syndicate.

W. F. Kenny has agreed with the syndicate managers that (if and when the plan is carried out, but not otherwise) he will underwrite one-sixth of the liability of the syndicate as follows: The syndicate managers are to deliver to Mr. Kenny Pref. stock and Common stock of the new company in an amount to be ascertained by deducting from 2,500 shares of Pref. stock and 50,000 shares of Common stock one-sixth of the number of shares, respectively, of Pref. stock and of Common stock which depositors shall purchase; and Mr. Kenny is to pay therefor a sum to be ascertained by deducting from $250,000 an amount equal to one-sixth of the par value of the shares of Pref. stock purchased and paid for in full pursuant to the plan by depositors hereunder, plus any accrued dividend on the shares of Pref. stock delivered to him.

No commission or other compensation will be paid by the reorganization committee to the managers or members of the syndicate.

Proposed Reorganization Plan of Stockholders' Committee.

Under date of June 12 Thomas C. Perkins, 30 State St., Boston, Chairman of the stockholders' protective committee, sent to the creditors of the above four companies a plan and questionnaire. The plan provides in brief:

New Company.—Formation of a new company to acquire the properties of the old companies.

Capital Stock.—The proposed outstanding capitalization of the new company immediately after reorganization shall provide for precisely the same number of shares as the old corporation, i. e., 135,000 shares of no-par-value Common stock, 13,400 shares of Preferred stock, no par value.

The total authorized stock of the new corporation shall be 500,000 shares of no-par-value Common stock and 25,000 shares of no-par-value Preferred stock. The Preferred stock shall be preferred to the extent of $100 per share and divs. Entitled to non-cumulative divs. at rate of $8 per share per annum and no more. Shall have the same voting power per share as Common stock.

Reorganization Bonds.—The new corporation shall issue $1,010,000 "Reorganization bonds," secured by all fixed assets of the new corporation, but not its quick assets prior to default. Bonds shall mature in 20 years, callable at par and int., all or part. Until the certificates of beneficial interest are paid in full, these bonds shall be non-cumulative 7% income bonds, but thereafter they shall become entitled to fixed interest at 7%.

Disposition of "Reorganization" Bonds.—The authorized issue of "Reorganization" bonds shall be made available for subscriptions by the stock holders on the following basis:

(1) Each present holder of Delaware company Preferred stock shall be permitted to subscribe at par for $25 of bonds for each share of Preferred stock now held. For each $25 so subscribed, one share of new no-par-value Preferred stock will be given as a bonus.

(2) Each present holder of Delaware company Common stock shall be permitted to subscribe at par for $5 of bonds for each share of Common stock now held. For each $5 so subscribed, one share of new no-par-value Common stock will be given as a bonus.

A stockholder who does not subscribe will not be entitled to any participation under the plan.

The $1,010,000 of "Reorganization" bonds will be underwritten at a cost of not over 10% to the new corporation by a group in which members of the stockholders' protective committee may be interested.

In satisfaction of the claims of the present creditors the new corporation shall issue certificates of beneficial interest, which will be delivered to the present creditors upon the assignment or surrender thereof to the stockholders' protective committee. These certificates shall have no par value or denomination, but shall represent the proportion which the creditors' claims bear to the total amount of claims of all creditors. They shall be

issued in units, one unit per $100 of claim. The new corporation shall promise to pay off, from time to time, as directors may determine, the total amount of claims, and in the meantime the new corporation shall be obliged to pay from "available net income" on each certificate interest on the unpaid part of the proportion represented thereby at the rate of 3% annually (this being at the rate of 6% on the book value of the claims figured on the basis of 50 cents on the dollar), but only on a non-cumulative income basis.

These certificates of beneficial interest may be converted at any time into five shares of no-par-value Common stock of the new corporation for each unit ($100) of certificate, except that for the first two years a certificate of beneficial interest may only be converted through the accredited fiscal agent of the new corporation at his option.

Future Financing.—In addition to the "Reorganization" bonds, the new corporation shall be authorized to issue in series "First Mortgage" 6% 20-year bonds amounting to $2,500,000. None of these "First Mortgage" bonds shall be issued in connection with the reorganization, but they shall be issued from time to time for retiring the certificates of beneficial interest or for such other corporate purposes which might be agreed upon by the directors of the new corporation.

Voting Trust.—To insure the successful operation of the properties and an effective management until such time as at least 75% of the certificates of beneficial interest have been paid off, all of the Preferred and Common stock should be deposited under a voting trust.—V. 116, p. 2771.

y 120,000 shares of no par value.—V. 116, p. 2521, 2263.

Hornell (N. Y.) Electric Co.—*Transfer of Properties.*—

The New York P. S. Commission recently approved an application of this company and of the Mutual Electric Co. for consent to the transfer of the franchises and electric plant of the latter to the Hornell company.—V. 115, p. 2484.

Humble Oil & Refining Co.—*Land Purchase.*—

The company has purchased 116 acres of land near Corsicana, Texas, for use as a tank farm site. The company will erect twenty 80,000-barrel steel storage tanks and an eight-inch pipe line is being laid from the Powell and Currie fields to the proposed tank farm.—V. 116, p. 2643.

Hurley Machine Co., Chicago.—*Extra Div.—Report.*—

An extra dividend of 25 cents per share has been declared on the Common stock, no par value, in addition to the regular quarterly dividend of 50 cents per share, both payable July 12 to holders of record July 6. In Jan. last the company paid an extra dividend of 10% in Common stock on the Common stock.

The regular quarterly dividend of 1¾% on the Preferred stock has also been declared payable July 2 to holders of record June 27.

See Steel & Radiator, Ltd. below.

Independent Sugar Co.—*Sale Postponed.*—

The receiver's sale scheduled for June 26, has been adjourned to July 26.—V. 116, p. 2889.

International Shoe Co.—*Disposes of Holdings in W. H. McElwain Co. to a Canadian Concern.*—

The company has sold its entire stock interest in W. H. McElwain Co. to Bennett, Ltd., a Canadian corporation having no offices in the United States, for cash. The company subsequently purchased from the McElwain Co. all of its physical assets. The stockholders of the McElwain Co., represented primarily by the new Canadian interests, are liquidating the company and making a final distribution to stockholders. While the International Shoe Co. acquired a majority of the stock of the McElwain Co. in May 1921, it made no offer to purchase outright the assets of the McElwain Co. There were certain objections to so doing. The steps which have just been taken, however, will result in the complete disappearance of the McElwain Co. and operation of its plants by the International Shoe Co.

The W. H. McElwain Co. was taken over by the International Shoe Co. in May 1921. It offered to purchase the outstanding stock of the McElwain Co. through exchange of its own stock (see V. 112, p. 2196, 2311, 2418).

There never was a complete merger, and the corporate identity of the McElwain Co. was continued. All but a small minority of McElwain stockholders, however, turned in their stock and received International stock in exchange.

The Federal Trade Commission in May last (V. 116, p. 2395) filed a complaint alleging that the International Shoe Co. and the McElwain Co. were violating that section of the Clayton Act which prohibits the acquisition of the capital stock of a competing concern when the effect may be to substantially lessen competition.

The move of International Shoe Co. in selling McElwain stock and purchasing the physical assets is evidently a direct result of the complaint issued by the Federal Trade Commission. The Commission also alleged that the effect of the combination was to restrain commerce in the shoe business, and to tend to create a monopoly in inter-State commerce. These charges are based on the Sherman Act, and the Commission may still hold them valid, though its action in the matter is problematical.

The amalgamation in May 1921 was consummated on the only basis International would consider, the purchase of its stock at relatively low figure.

The reasons for not buying the physical assets outright no longer exist, after nearly two years of business recovery. The amalgamation until the present has never been completed, as there were still McElwain stockholders who refused to turn in their old stock. This final move will make International Shoe definitely the largest shoe manufacturing concern in the world, with Endicott-Jonnson Corp. running a fairly close second. (Boston "News Bureau.")—V. 116, p. 2772, 2521.

Iron Products Corporation.—*Time Extended.*—

The time within which holders of Iron Products Corp. and Central Foundry Co. stocks may deposit their holdings for exchange into securities of Universal Pipe & Radiator Co. has been extended to Sept. 1.

Johns-Manville, Inc.—*Dividend—New Factory.*—

A quarterly dividend of 75 cents per share has been declared on the outstanding 250,000 shares of Common stock, no par value, payable July 2 to holders of record June 20 1923.

President T. F. Manville says: "The maintenance of the dividend rate seemed to the board to be well within the company's conservative fiscal policy. Each of our 58 branches is experiencing a steady demand for the products of asbestos, particularly for roofing and low pressure insulation for houses, and automobile brake linings."

The company is opening a new factory at Waukegan, Ill., which with 1,000,000 sq. ft. of floor space will be one of the largest factories in the world for the production of materials made from asbestos.—V. 116, p. 1539.

Joslin-Schmidt Co., Cincinnati.—*Receiver.*—

Unable to meet the interest due on its $500,000 1st Mtge. bonds, or to take up $35,000 of those bonds which matured June 1, the company was placed in the hands of a receiver June 5. Edward H. Heolscher, Pres. of the Chemical Products Co., was appointed receiver by Judge Stanley C. Roettinger, in Common Pleas Court.—V. 112, p. 1288.

Johnson Educator Biscuit Co., Cambridge, Mass.—*Stock Offered.*—Morgan, Livermore & Co., New York, and Pond & Co., Inc., Boston, are offering at $25 per share and div. 30,000 shares Cumul. & Participating "Class A" stock (no par value).

Preferred as to assets. Preferred and participating as to dividends. Cumulative as to dividends of $2 per share per annum. Callable on and after May 1 1933 at $30 and divs. Transfer agents, American Trust Co., Boston; First Trust & Savings Bank, Chicago. Registrars, Old Colony Trust Co., Boston; Continental & Commercial Trust & Savings Bank, Chicago. Dividends payable Q.-F.

Capitalization (no Bonds)—	*Authorized.*	*Issued.*
Cumul. & Partic. "Class A" stock (no par value)	100,000 shs.	60,000 shs.
"Class B" stock (no par value)	100,000 shs.	100,000 shs.

Listing.—Application is expected to be made to list the "Class A" stock on the Boston and Chicago Stock Exchanges.

Data From Letter of Pres. E. F. Cullen, Cambridge, Mass., June 11.

History and Business.—The Johnson Educator Food products were originated about 1885 by Dr. William L. Johnson of Boston, who made the first "Educator" crackers in very small quantities for use in his professional practice. The Johnson Educator Food Co., to succeed which Johnson Educator Biscuit Co. is being organized, was incorp. in 1902 in Massachusetts. Subsequent developments have raised the company to the ranks of the few really important biscuit manufacturers in the United States, and the name "Johnson Educator" has achieved a national reputation, especially for the quality of its products, of which there are at present over 140 varieties.

The new company will own, upon completion of the present program, in fee and free of all liens, a modern, well-equipped factory in Cambridge, Mass., covering approximately an acre of ground.

Earnings.—Dividends have been paid without interruption for the past 16 years. Based on conditions like those prevailing in 1922, and on orders received and indicated, the net earnings for the 12 months following the completion of the present program are estimated at 2½ times the amount necessary for the payment of the dividends at the rate of $2 per share per annum on 60,000 shares of Cumulative & Participating "Class A" stock.

Dividends and Voting Power.—The Cumulative & Participating "Class A" stock will be entitled to preferential cumulative dividends of $2 per share per annum, from May 1 1923. After such dividends and after annual provision shall have been made for the purchase of Cumulative & Participating "Class A" stock, $1 per share per ann. may be paid on "Class B" stock, except that no dividend may be paid on "Class B" stock that will reduce the earned surplus below $200,000. The two classes of stock will participate equally in any further dividends. "Class A" stockholders will be entitled to full voting power whenever the new company shall be in arrears in respect of an amount equal to four quarterly dividends and then until payment in full of all arrears of quarterly dividends.

Purchase of "Class A" Stock.—An amount of earned surplus at the rate of $1 per share of "Class A" stock outstanding, but not exceeding $50,000 annually, prior to the payment of any div. on the "Class B" stock, will be applicable after May 1 1925 to the purchase and retirement of "Class A" stock if obtainable at $30 per share or less.

Purpose.—30,000 shares of "Class A" stock will be required to retire the now-outstanding Preferred stock. The proceeds of the balance (this issue) will be used to pay off a mortgage of $125,000 and to supply additional working capital, &c.

Balance Sheet as at May 31 1923 (After Present Financing).

(Spencer) Kellogg & Sons, Inc.—*Bonds Sold.*—Dillon, Read & Co. have sold, at 100 and int., $2,500,000 15-Year 6% Gold Debenture Bonds (see advertising pages).

Dated July 1 1923. Due July 1 1938. A sinking fund of 10% of annual net earnings, with minimum payments of $75,000 per annum, is provided, available semi-annually to purchase or call debentures. Interest payable J. & J. at Marine Trust Co. of Buffalo, trustee, and at office of Dillon, Read & Co., New York. Denom. $1,000 c*. Callable on any int. date as a whole or in part by lot: at 105 and int. to and incl. July 1 192 , with successive reductions each year thereafter of ½ of 1% in call price until call price reaches 101 and int.; thereafter at 101 and int. to maturity. Company agrees to refund Pennsylvania 4-mill tax.

Data from Letter of President Howard Kellogg, Buffalo, June 26.

Company.—Is one of the three largest manufacturers of linseed oil in the United States and does approximately one-third of the entire business in the country. Company also manufactures castor oil and foundry oil and, through its wholly owned subsidiary in the Philippines, cocoanut oil. In addition, copany buys, imports and sells China wood oil and perilla oil. Customers include practically all of the large manufacturers of poaints and varnishes, soap and linoleum.

The manufacture of linseed oil by the Kellogg family was started 100 years ago, and since that time has been actively and successfully continued by the descendants of the founder of the business. Present company was incorporated under the laws of New York in 1912, as successor to a partnership.

Company's crushing mills and refineries located at Edgewater, N. J., Buffalo, N. Y., Minneapolis, Minn., and Superior, Wis., have a capacity of approximately 2,000 bbls. of linseed oil per day, the Edgewater plant being the largest linseed crushing mill in the world. Company owns adequate railroad and dock facilities, and, in addition, owns 128 tank cars for the distribution of its products. Company also owns and operates a large grain elevator of about 1,100,000 bushels capacity in Buffalo, and another of approximately 400,000 bushels capacity in Superior.

Earnings.—Net earnings for the seven fiscal years ended Sept. 30 1922, after interest and all other charges, but before Federal taxes, averaged $1,827,000 per annum. Maximum annual interest requirements on these debentures are $150,000. It is estimated that such net earnings for the fiscal year ending Sept. 30 1923 will be approximately $1,000,000.

During the 7-year period, the company included in operating costs depreciation reserves aggregating $1,280,000. Federal taxes paid from surplus totaled $3,590,000. Company has never shown a net loss in any year.

Dividends.—Company has paid cash dividends in each year since incorporation, the present rate of 5% per annum having been paid in 1922 on $10,000,000 capital stock.

Condensed Balance Sheet as of March 17 1923 (Adjusted to Include Provision for Federal Taxes, &c., Charge Affecting This Year's Business).

Keystone Steel & Wire Co.—*Earnings.*—

Current reports from the company for the ten months' period ended April 30 1923 show net income available for payment of interest on funded debt (after depreciation and depletion) was $726,318.

These earnings for ten months are already greater than those of any entire fiscal year in the history of the company; interest on the entire issue of outstanding bonds has been earned over three times. Meanwhile operation of the sinking fund has reduced the amount of bonds outstanding on April 30 to $2,759,000.

The company's balance sheet of April 30 showed current assets of $3,586,407, current liabilities of $1,681,185, leaving net current assets of $1,905,222. Net tangible assets were $7,317,621, compared with $2,759,000 of 1st Mtge. bonds outstanding.—V. 115, p. 1216, 1105.

Kilbourne & Jacobs Mfg. Co.—*Refinancing.*—

Recommendations of a committee of voting trustees of the stockholders for a refinancing of the company, it is stated, have been submitted to the stockholders. The plan provides for the raising of $300,000 working capital, to be assessed at the rate of $15 per share against the 20,000 shares of stock outstanding. For stockholders who do not wish to subscribe, the committee has made a tentative offer to buy their stocks at $5 per share for the Preferred, and $1 per share for the Common.—V. 116, p. 201 5

Kings County Lighting Co.—*Gas Rate Injunction.*—

See Brooklyn Union Gas Co. above.—V. 116, p. 2644.

Lee Rubber & Tire Corp.—*Listing—Acquisition & Earns.*

The New York Stock Exchange has authorized the listing of 65,000 additional shares of capital stock without par value upon official notice of issuance thereof in exchange for 50,000 shares without par value of the Capital Stock of the Republic Rubber Co. of Ohio, making the total amount applied for 215,000 shares without par value.

History of the Republic Rubber Co. and the Republic Rubber Corporation.

The Mahoning Rubber Mfg. Co. was incorporated in Ohio in Feb. 1901; name changed same year to Republic Rubber Co. With expansion of business Capital Stock was increased from time to time to $10,000,000. On Oct. 6 1917 *Republic Rubber Corporation* was incorporated in New York for purpose of acquiring by exchange of stock properties of Republic Rubber Co. and Knight Tire & Rubber Co. of Ohio, operating plant in Canton. The company was incorporated in 1911 and name was changed to Canton-Blackstone Co. in 1919. The Republic Rubber Corp. acquired all of the Capital Stock of the Knight company except 11 shares of Common stock and 1 share of Pref. Stock, and all of the Capital Stock of Republic Rubber Co. except 147 shares of Common Stock and 42 shares of Pref. Stock. The Canton-Blackstone Co. is now inoperative.

In anticipation of a prosperous era, contracts for large amounts of raw materials were made by Republic Rubber Corp. and Republic Rubber Co. in 1919 and 1920. Depression ensued, and on June 22 1921, C. H. Booth was appointed receiver of both companies.

Under date of March 1 1923, a plan of reorganization of Republic Rubber Corp. and Republic Rubber Co. (V. 116, p. 1422) was adopted by committees representing creditors and stockholders. The subscription by stockholders under the plan aggregated less than $1,000,000, and the reorganization committee rejected all such subscriptions.

By agreement dated May 22 1923 between the reorganization committee and the Lee Corporation, it was agreed that the committee would organize a new company with an authorized capital of 50,000 shares of no par value and would assign to the new company all of the claims against the old companies of depositors under the plan in consideration of the issue of the reorganization committee, of all of the 50,000 shares, and would cause the new company to bid for the properties of the old companies at the sale, such sum as might be approved by the Lee Corporation, and that if the properties of the old companies should be sold to the new company, the committee would sell and transfer to the Lee Corporation the 50,000 shares of stock of the new company, together with all rights of depositors under the plan to receive securities of the new company thereunder.

The Lee corporation agreed to deliver to the reorganization committee, as the purchase price for the stock of the new company, 2,235 shares of stock of the Lee corporation plus 1 2-3 shares of stock for each $100 of debentures of the new company issuable to depositors under the plan (V. 116, p. 1422) with the proviso, however, that the number of shares of stock of the Lee Corporation to be issued and delivered to the reorganization committee were in no event to be more than 65,000 shares less the number of shares which, at the aforesaid ratio of 1 2-3 shares for each $100 of debentures of the new company issuable to the depositors under the plan, would have been deliverable on account of claims of creditors who did not deposit under the plan or who withdrew from the plan, if such claims had been deposited under the plan or had not been withdrawn therefrom.

The new Republic Rubber Co. was incorporated in Ohio on May 21 1923. At the sale of the properties of the old companies held on June 7 1923, the new Republic Rubber Co. made a bid whereby it offered: (1) To assume all the obligations of the receiver, including receiver's certificates, all uncompleted contracts of the old companies which had been assumed by the receiver, all uncompleted contracts entered into by the receiver, all taxes, assessments, all compensation of the receiver and of the special master appointed to conduct the sale and all expenses [of administration; (2) to assign, transfer and set over to the special master all claims against the old companies then or thereafter deposited under the plan for the purpose of crediting claims as paid; and (3) to pay to each of the creditors of the old companies whose claims were not deposited under the plan and who has theretofore duly filed proofs of claim with the receiver or with the special master commissioner theretofore appointed in the receivership proceedings to hear and determine claims against the old companies disallowed by the receiver, in accordance with the provisions of the order of sale, 10% in cash of the principal amount of each of said claims (with interest to the date of the receivership proceedings) as finally determined and allowed in the receivership proceedings.

The bid was accepted by the special master and the properties of the old companies sold to the new Republic Rubber Co., and the sale was confirmed by the District Court June 8 1923, and all of the properties of the old companies were conveyed to the new Republic Rubber Co. June 9.

The new Republic Rubber Co. is obligated to pay to the reorganization committee $60,000 toward the expenses of various constituent committees, in addition to the obligations assumed by the new Republic Rubber Co. by its bid.

Pursuant to its bid for the properties of the old companies, the new Republic Rubber Co. is obligated to pay $1,500,000 of receiver's certificates which will mature July 31 1923 [to be paid off by the Lee Corporation]. In addition, the properties of the old companies were purchased subject to a mortgage for $10,000, covering an office and warehouse building in Canton, and also subject to a certain land contract under which $17,060 is payable.

The new Republic Rubber Co. owns the total authorized Capital Stock ($20,000, par $100) of the Republic Rubber Co. of New York, a selling company organized in New York on Nov. 25 1907. It also owns all of the Capital Stock of a number of other corporations which are now inactive.

Consolidated Income Account for Three Months Ending March 31 1923.

Lehigh & Wilkes-Barre Coal Co.—$8 *Dividend.*—

The directors have declared a dividend of $8 per share, payable June 29. A like amount was paid in December last.—V. 116, p. 1185.

Long-Bell Lumber Co., Kansas City, Mo.—*Bonds Offered.*—Halsey, Stuart & Co., Inc., New York; Lacey Securities Corp., Chicago, and George H. Burr & Co., New York, are offering at 94 and int., to yield 6½%, $7,500,000 1st Mtge. 6% Sinking Fund Gold bonds, Series "B" (see advertising pages).

Dated April 1 1923. Due April 1 1943. Int. payable A. & O. in Chicago or New York without deduction for any normal Federal income tax not in excess of 2%. Denom. $1,000, $500 and $100c*. Redeemable as a whole, but not in part, at any time upon 60 days' notice at 105 and int. and for sinking fund purposes at any time upon 30 days' notice at 101 and int. Pennsylvania 4-mill tax refundable.

Sinking Fund.—Mortgage contains a sinking fund provision under which company covenants to pay into such fund the sum of $6 per 1,0000 ft. of timber cut or sold in the States of Louisiana and Texas, and $3 per 1,000 ft. for all timber cut or sold in the States of California and Oregon. The funds accumulating in such sinking fund shall be applied to the retirement of 1st Mtge. bonds, and to certain other purposes.

Data from Letter of Chairman R. A. Long, June 1923.

Company.—Founded in 1875. Company is now believed to be the largest lumber manufacturer and distributor in this country under a single ownership. Business is a complete industrial unit, comprising the ownership of raw material which it manufactures, wholesales and retails. Manufactures long and short leaf Southern yellow pine lumber and timber, Southern hardwood lumber and timer, oak flooring, gum, California white pine lumber, California white pine sash and doors, veneers, standardized wood work, creosoted posts, poles, ties, tiling and wood blocks. The extraction and marketing of turpentine and rosin from the pine trees is one of the important activities of the company.

Capitalization—	*Authorized.*	*Outstanding.*
Capital stock	$30,000,000	$28,528,880
1st Mtge. 6% Gold bonds	30,000,000	x20,000,000
Other long-term indebtedness, incl. timber purchase contracts and mortgage notes	(Closed)	19,112,860

The surplus, including appreciation of book value of stumpage to basis of appraisal, as shown on the consolidated balance sheet, is $39,900,536.

x Of the $20,000,000 1st Mtge. bonds outstanding, $10,000,000 are Series "A" due July 1 1942 (V. 115, p. 652), and $10,000,000 are Series "B" (including this issue) due April 1 1943.

Purpose.—Proceeds will be used toward the payment of existing timber liens and current debt and for additions to property, principally in connection with the western development.

Earnings (Including Subsidiaries)—Calendar Years.

	Depletion and Depreciation	*Net Before Fed. Taxes & Interest.*	*Net After Fed. Taxes but Interest.*	*Net Aft. Taxes at Pres. Rates but Before Int.*

1922	3,652,539	5,661,470	5,047,310	5,047,310

The maximum annual interest on the 1st Mtge. bonds requires $1,290,000.

New Western Development.—All of the timber of the South is rapidly being cut and in the course of a comparatively few years the South will disappear as a factor in the business except for small mills which will saw the small tress for local demand. The big reserve of timber left is on the Pacific Coast, where there is a large supply, sufficient at the present rate of consumption, for many years to come. Foreseeing the future condition of lumber manufacturing in the South, which heretofore has been the centre of our very large operations, company some years ago

began an intensive and exhaustive study of the problems involved in manufacturing lumber from the timber of the western coast. This study, backed by over ten years of experience in Western timber operation, resulted in the purchase of 6,500,000,000 ft. of what is considered to be one of the finest pieces of standing timber anywhere to be found. Immediately adjacent to the company's purchase and intermingled therewith is at least 4,000,000,000 ft. additional,,all of which will be tributary to the company's new mills.

It was decided to build a plant at the junction of the Cowlitz and Columbia Rivers in Washington, about 18 miles from the nearest point of the company's timber holdings. This plant will be composed of manufacturing units with an annual capacity of between 400,000,000 and 500,000,000 ft., which will be the largest amount of lumber production concentrated at any one point in the world. Shipments can be made by way of three transcontinental trunk line railways, the Northern Pacific, the Great Northern and the Union Pacific, as well as by ocean-going freighters of the largest type, thereby giving every needed facility for access to all the markets of the world.—V. 115, p. 1844.

(W. H.) McElwain Co.—*Being Liquidated.*—
See International Shoe Co. above.—V. 114, p. 2247.

Mc Myler Inter-State Co.—*Coupon Paying Agent.*—
The Irving-Bank-Columbia Trust Co. will act as coupon paying agent of the 1st Mtge. 7% sinking fund bonds, see offering in V. 116, p. 2773.

Mackay Companies.—*Rates Reduced.*—
The Postal Telegrapn & Cable Co. has announced the following reductions on all messages between the United States and European countries, effective July 1: Denmark, 35 to 25c.; Esthonia, 43 to 36c.; Finland, 40 to 29c.; Latvia, 41 to 34c.; Sweden, 38 to 26c. The rate to Norway of 35c. a word has not been changed. These reductions bring the Postal's rate in line with those of the Western Union, recently announced.—V. 116, p. 2137.

Massachusetts Oil Refining Co.—*New Reorganization Plan.*—The protective committee for the $4,000,000 7% Particip. Conv. 10-Year Gold bonds, due Oct. 1 1929 and the $750,000 7% Particip. Secured Gold notes, due Aug. 1 1924 (Charles E. Ober, Chairman) has notified the holders thereof that a new reorganization plan has been prepared. The committee says in substance:

The properties of the company were sold at the foreclosure to a purchaser other than the committee, for $2,500,000. The sale has been confirmed by the court. The reorganization plan, dated April 26 1923 (V. 116, p. 2016) has therefore been abandoned.

The pro rata share of the cash proceeds of the foreclosure sale of the properties distributable to bondholders and noteholders after deducting expenses will amount to 50% of the par value of the bonds, less deductions for taxes, receivership and other expenses which will probably amount to about 3% of such par value; and such distributable share has been underwritten by parties satisfactory to the committee.

After negotiations between the committee and the purchasers, a new plan of reorganization has been formulated and underwritten. This plan enables the bondholders and noteholders assenting thereto to take, in place of their pro rata share in the cash proceeds of the foreclosure sale, cash and securities of the new corporation, which would, with the successful operation of the plant, return in a much greater measure the original value of their investment.

The holders of a large number of bonds and notes have approved of this plan. In order that all bond and noteholders may have the opportunity to accept this offer of cash and securities obtained by the committee under the plan, the committee has requested that the court extend the final time for the payment of the purchase price of the foreclosure sale, and the court has granted an extension to Sept. 15 1923.

The management of the new corporation will be under the direction of the Henry L. Doherty & Co. organization. A majority of the Common stock of the new corporation will be owned by Cities Service Co., which is to guarantee the new bonds of the new corporation.

Unless the bond and noteholders file with the depositary on or before July 6 written notice of their dissent from the plan, the committee will be authorized to do all things necessary to carry out the plan. Any depositor dissenting from the plan may withdraw his securities upon the payment of his pro rata share of the charges and expenses incurred by the committee.

Digest of New Plan of Reorganization Dated June 15 1923.

New Corporation.—A new Massachusetts corporation [probably Cities Service Refining Co. of Mass.] will be organized. New company will acquire the lands, buildings, structures, otner real estate, and the entire equipment sold at the foreclosure.

Exchange of Securities.—Under the plan assenting bondholders will receive cash and securities of tne new company as follows:

(1) *Bonds.*—For each $1,000 bond there will be received, cash $100, Preferred stock, $600, Common stock (no par value) 3 shares.

(2) *Notes.*—By virtue of the fact that the $750,000 Collateral notes are secured by $1,000,000 bonds, the assenting noteholders will receive a one-third larger pro rata share upon distribution, each $1,000 note receiving in cash $133 33, in Preferred stock $800, and in Common stock 4 shares.

The settlement under the plan will be completed on or before Sept. 15 1923.

Funds for Additions to the Plant & Working Capital.—As a part of this plan the new company will sell $2,500,000 1st Mtge. 7% bonds, which will be guaranteed as to principal, interest and sinking fund by endorsement on each bond by Cities Service Co., for the purpose, among other things, of providing substantial amounts for permanent additions and for working capital. Cities Service Co. will accept in payment for oil to be delivered under a contract made with the new company, the pro rata share of Preferred and Common stock and cash of every bond and noteholder who does not assent to this new plan, at a price equal to the cash paid to such non-assenting bond and noteholder.

New Securities.—(1) 1st Mtge. 10-Year 7% (Guaranteed) Gold bonds, secured by a direct first mortgage on all the physical properties of the new company. Bonds in excess of the $2,500,000 may be issued only for additions, extensions and improvements to the extent of not exceeding 60% of the actual cost or fair value thereof, when annual net earnings prior to bond interest and depreciation have been at least 2½ times the annual interest charges on all 1st Mtge. bonds outstanding and proposed.

A sinking fund will be provided sufficient to retire bonds at the annual rate of $100,000, operating quarterly, tne first quarterly retirement to be July 1 1925.

(2) *Preferred Stock.*—The Preferred stock (par $100) will be entitled to dividends at the rate of 6% annually, cumulative from Jan. 1 1924; redeemable at $105 per share. In addition to the 6% Cumul. dividends, further dividends up to, but not exceeding 2% per share, will be paid to the Preferred stock as a class in any year equal in amount to any cash dividends declared and paid in that year on the Common stock as a class. Company will agree to create a retirement fund each calendar year equal to 25% of the total amount of cash dividends paid on the Common stock during such year, and will agree to utilize such fund in the purchase of Preferred stock in the market if the same can be acquired at a price of par or less.

(3) *Common Stock.*—The Common stock will be issued in shares of no par value.

Capitalization of New Company—	*To be Authorized.*	*To be Issued.*
1st Mtge. 10-Yr. 7% (Guar.) Gold bonds	$5,000,000	$2,500,000
Preferred stock	5,000,000	3,000,000
Common stock (no par value)	75,000 shs.	75,000 shs.

—V. 116, p. 2644, 2396.

Metropolitan Edison Co.—*Increases Holdings.*—
The company announces that it has purchased from the York Railways Co. the latter's holdings of stock in the York Haven Water & Power Co.

The Guaranty Trust Co. of N. Y., announces that it is prepared to deliver definitive 1st & Ref. Mtge. gold bonds Series "C" 5% due Jan. 1 1953, in exchange for outstanding temporary bonds. (For offering of bonds see V. 116, p. 1186).—V. 116, p. 2773.

Middle West Utilities Co.—*Dividend.*—
The company has declared a quarterly dividend of $1 25 a share on the Preferred stock, payable Aug. 1 to holders of record July 14. This is the last dividend at the 5% rate. The next dividend, payable on Oct. 15, will be at the rate of 6% per annum.—V. 116, p. 1769.

Mitchell Motors Co.—*Sale.*—
The plant of the company, recently forced into bankruptcy, will be offered for sale Aug. 15.—V. 116, p. 1904.

Nassau County (N. Y.) Water Co.—*Bond Issue.*—
The American Exchange National Bank has been appointed trustee for an issue of $300,000 6% gold bonds.

National Grocer Co.—*Common Dividend of 2%.*—
The directors have declared a dividend of 2% on the Common stock, payable Aug. 1 to holders of record July 31. On March 1 last a dividend of 3% was paid on the Common stock.—V. 116, p. 523.

New Bedford Gas & Edison Light Co.—*Bonds Offered.*—Harris, Forbes & Co. are offering at 100 and int. $1,145,000 1st Mtge. 5% Gold bonds, Series "E." Dated Jan. 1 1918. Due Jan. 1 1938.—A circular shows:

Company.—Incorporated in Massachusetts in 1850. Does the entire electric and has lighting and heating and industrial power business in the city of New Bedford and several neighboring towns, including Acushnet, Fairhaven, Dartmouth and Mattapoisett, serving a population of 139,353, according to 1920 census. Company is now installing the final unit of 20,000 k. w. in its new 92,000 k. w. steam power station, which is situated in the city of New Bedford at tidewater. Current is distributed in the city by means of an extensive underground system, in the outlying districts by overhead lines and is delivered to the neighboring towns by means of high-tension transmission lines. Company's combined coal and water gas plant has a daily capacity of 4,600,000 cu. ft. All the properties are in excellent operating condition.

Northern Canada Power, Ltd.—*Bonds Offered.*—Dominion Securities Corp., Ltd., Montreal, are offering at 99½ and int. $4,500,000 6½% 1st M. 15-Year Sinking Fund bonds.

Other bankers offering the above bonds are: R. A. Daly & Co., Osler & Hammond, Matthews & Co., Ltd., Hanson Bros., F. H. Deacon & Co.,

Kerr, Flemming & Co., Murray & Co., Aird, Macleod & Co., A. D. Morrow & Co. and John Stark & Co.

Dated June 1 1923, due June 1 1938. Int. payable J. & D. in Toronto and Montreal, and in London, Eng., at par of exchange. Denom. $1,000, $500 and $100 c*. Trustee, Toronto General Trusts Corp., Toronto.

Capitalization (When present financial plans complete)—.

Capital stock issued	$6,000,000
xBonds (auth., $7,500,000; outstanding (this issue)	4,500,000

x Remaining $3,000,000 can only be issued against 75% of cost of additions to or betterments of property and plant, provided that the average annual earnings for the preceding 3 years are at least 1½ times the interest on outstanding and proposed bonds.

Sinking Fund.—An annual sinking fund of 4% on the total amount of all bonds issued, togetner with a sum equal to the interest on the bonds redeemed from time to time has been provided for, the first payment under which must be made not later than June 1 1926. Bonds will be purchased under tender at or below call prices, failing which they will be called as follows: At 103 and int. to June 1 1928, at 102 and int. to June 1 1933, at 101 and int. thereafter prior to the maturity. Bonds are callable either for sinking fund purposes or as a whole at the above mentioned prices.

Company & Business.—Had inception in 1911 for tne purpose of producing and selling power to the Northern gold mines, its first three customers being Hollinger, Dome and McIntyre. Two plants were originally built on the Mattagami River, one at Wawaitin Falls, which now has a capacity of 15,000 h.p., and one at Sandy Falls with a capacity of 5,000 h.p. A third plant was recently built out of earnings at Lower Sturgeon Falls on the Mattagami River, the capacity of which will be 9,000 h.p., and from which it is expected power will be delivered by the end of June 1923.

Even with this new plant, however, tne company cannot take care of contracts being offered and the right has been obtained from the Province of Quebec to develop power on the Quinze River, close to the border of the Province of Ontario. Work has been begun there on a plant wnich contemplates an ultimate capacity of 60,000 h.p.; the present installation to be 20,000 h.p., and it is expected that power will be delivered within 12 months. With this plant completed the capacity of the company will be approximately 49,000 h.p.

Security.—Secured (*a*) by a first mtge. on all fixed assets and a floating charge on all other assets of the company; (*b*) by the guarantee of the subsidiary companies owning the developments at Lower Sturgeon and the Quinze secured by first specific mortgages on their fixed assets and floating charges on all other assets including earnings.

Purpose.—To redeem outstanding 1st Mtge. bonds of $1,208,000 on the plants at Wawaitin Falls and Sandy Falls, and to provide funds for new development and other additions to or betterments of property and plant.

Earnings.—Company has to date only had the benefit of earnings from the plants at Wawaitin Falls and Sandy Falls with a capacity of approximately 20,000 h.p. Average annual net earnings available for bond interest, depreciation and Federal taxes from these 2 plants nave been as follows: For 7 years to Dec. 31 1922, $414,800; for 5 years to Dec. 31 1922, $414,000; for 3 years to Dec. 31 1922, $460,000; for the year ending Dec. 31 1922, $612,000.

With the Sturgeon Falls development delivering power for the last 6 months of 1923, it is estimated that the net earnings will be over $750,000. With a full year's operation of that plant the earnings should exceed $850,000. With the Quinze development delivering power it is estimated that the yearly earnings should be in excess of $1,250,000.—V. 102, p 526.

Northern Mexico Power & Development Co., Ltd.—*Annual Report.*—President W. D. Ross says in part:

The earnings for the year, after providing for depreciation, are $241,669. The total power distributed during the year was 6,900 h.p., compared with 5,200 h.p. in 1921 and 4,200 h.p. in 1920. Capital expenditures amounting to $76,022 were made during the year, particularly for transmission lines and new equipment.

The directors have decided to build transmission lines to Santa Rosalia, Santa Eulalia and to the city of Chihuahua. The construction cost of this work which is now being proceeded with, will amount to approximately $900,000.

The directors have resolved to create a bond issue of $1,000,000 to finance the construction of the lines above mentioned. It is proposed at present to issue $500,000 of these bonds and it is expected that the balance of the cost of construction will be paid out of earnings.

This policy which the directors have decided on after careful consideration will necessarily postpone the payment of dividends on the cumulative preference shares until the construction of these lines is completed.

Ohio River Edison Co.—*New Financing.*—

It is understood that Bonbright & Co., Inc., will offer an issue of $7,000,000 bonds of the above company next week.

Overman Cushion Tire Co.—*Back Dividends.*—

The directors have declared a dividend of 24½% on the Preferred stock, on account of accumulations, payable July 10; books close June 30 and reopen July 5.

Pacific Coast Timber Co.—*Bonds Offered.*—

Carstens & Earles, Inc., San Francisco, are offering at par and interest, $150,000 7½% First (Closed) Mtge. Sinking Fund Gold Bonds. A circular shows:

Dated June 1 1923. Due Dec. 1 1928. Interest payable J. & D., without deduction of normal Federal income tax up to 2%. Denom. $1,000, $500 and $100. Callable at 102 and int., all or part, on any interest date, upon 30 days' notice. G. Austin Haskell, Pres. Carstens & Earles, Inc., trustee.

Security.—Secured on all the fixed assets now or hereafter owned, conservatively appraised at $322,927, subject only to $37,270 mortgages not now due on portions of the property, against which the trustee will hold funds for payment.

The particular security consists of standing timber situated in Jefferson County and Snohomish County, Wash., which aggregates 64,596,000 ft.

Earnings.—E. A. Sims, President, estimates the profit and receipts from stumpage from tne company's operations at $8 per 1,000 ft. of timber cut, or total annual net receipts, based on 250 days' operation in the year, at $120,000, with an annual minimum of 15,000,000 ft., equivalent to ten times the maximum interest charges on these bonds.

Purpose.—Proceeds will be devoted partly to the payment of company's obligations and partly to the purchase of necessary logging machinery and equipment to open up the company's tracts of timber and to provide working capital.

Phila. Co. for Guaranteeing Mortgages.—*Report.*—

Years ended May 31:	1923.	1922.	1921.	1920.

—V. 113, p. 2192.

Philadelphia & Camden Ferry Co.—*Larger Dividend.*—

A quarterly dividend of 5% has been declared on the outstanding $1,968,750 Capital stock, par $50, payable July 1 to holders of record June 29. A quarterly dividend of 4% was paid April 10 last. Compare V. 116, p. 1422.

(Albert) Pick & Co., Chicago.—*Larger Dividend.*—

The directors have declared a dividend of 40 cents a share on the Common stock, par $10, payable Aug. 1 to holders of record July 2, and a dividend of 13 cents a share on the new Common, to be issued July 3, payable Aug. 1 to holders of record July 3. This method of handling the dividend was decided upon due to the fact that an additional 37,500 shares of new Common stock will be issued July 3, which will be entitled to only one month's dividend. On May 1 last the company paid a quarterly dividend of 3½% on the Common stock.—V. 116, p. 1906.

Pillsbury Flour Mills Co. of Minn.—*Plan Approved.*—

See Pillsbury-Washburn Flour Mills Co., Ltd., below and V. 116, p. 2776.

Pillsbury-Washburn Flour Mills Co., Ltd.—*Reorganization Plan Approved.*—

The plans for the reorganization of the Pillsbury-Washburn Flour Mills Co., Ltd., of England, and the Pillsbury Flour Mills Co. of Minneapolis into an American holding company were unanimously approved at a meeting of the shareholders of the British company June 27. See plan n V. 116, p. 2776

Pleasantville (N. J.) Gas Co.—*To Issue Stock.*—

The New Jersey P. U. Commission has authorized the company to issue $200,000 additional capital stock.—V. 113, p. 858.

Pratt Chuck Co., Frankfort, N. Y.—*Bonds Offered.*—

First Trust & Deposit Co., Syracuse, N. Y., are offering at 100 and interest $200,000 7% 1st Mtge. Gold bonds. Dated May 1 1923. Due May 1 1938. Principal and interest (M. & N.) and sinking fund payable at office of First Trust & Deposit Co., Syracuse, trustee. Denom. $1,000 and $500c*. Callable as a whole or in part for sinking fund, on 30 days' notice on any interest date at 107½ and interest during first five years, 105 during next five years and 102½ during last five years. Interest payable without deduction for normal Federal income tax up to 2%.

Capitalization—	*Authorized.*	*Outstanding.*
1st Mtge. 7% bonds	$250,000	$200,000
Common stock	400,000	400,000
Preferred stock	150,000	150,000

Company was established in 1891 to manufacture chucks. The manufacture of steel specialties has continued to be its principal business. These are divided into two principal lines: heating and electrical. Radiator and boiler nipples and chaplets are sold by the company's own sales organization to most of the principal manufacturers of heating apparatus, such as the American Radiator Co., Pierce, Butler & Pierce, and Kewanee Boiler Co., &c. Electrical products include outlet boxes, armored cable, locknuts and bushings, sold to jobbers of electrical supplies, the Western Electric Co. being a large customer.

Earnings.—Earnings have been well maintained over a long period of years. Up to the time of the great decline in prices of the recent industrial depression, the profits for every year since 1899 inclusive, have been substantially in excess of the amount required to pay the interest on this bond issue. The average annual profits for the past six years before depreciation have been $72,088 or more than five times the interest requirements of this bond issue. Sales for the present year are running much larger than for the corresponding period last year.

Purpose.—Proceeds will be used to liquidate the company's floating debt and to provide additional working capital.

Pressed Steel Car Co.—*Listing.*—

The New York Stock Exchange has authorizedt he listing of $6,000,000 10-Year 5% Convertible Gold Coupon Bonds, due Jan. 1 1933 (see offering in V. 116, p. 85).—V. 116, p. 2891, 946, 832.

—V. 116, p. 730.

Republic Motor Truck Co., Inc., N. Y.—*Reorg. Plan.*—

The deposit committee for First Mortgage & Collateral Trust 7% Serial Gold notes (Mortimer N. Buckner, Chairman), has announced that the committee has negotiated with others a plan of reorganization based upon the use of the property and assets formerly owned by Republic Motor Truck Co., Inc., of New York, sold at public auction on May 3 1923, and purchased in conjunction with others pursuant to the bid of the committee, and has filed with Bankers Trust Co., 16 Wall St., New York, depositary, and with First Trust & Savings Bank, Chicago, sub-depositary, the plan and agreement for such proposed reorganization.

If, within 15 days after June 28 1923, a majority in interest of the holders of certificates of deposit shall file with R. G. Page, Secretary of the committee, 16 Wall St., New York, objections to the provisions of the proposed plan, such proposed plan shall be abandoned. If such objections are not filed by a majority in interest of the holders of such certificates of deposit within such period, the committee shall have full power and authority to declare effective and carry out the proposed reorganization.

The committee in a notice June 28 to the holders of certificates of deposit for 1st Mtge. & Collateral Trust 7% Serial Gold notes refers to the letter of April 6 1923, prior to the sale of the properties (V. 116, p. 1659) in which the committee was investigating the liquidation values. To guide the committee in its bid for the property, Harris Brothers Co. made an examination and conservative appraisal of the liquidation value of the entire assets of the company and reported that such assets in their opinion had a minimum liquidation value of $1,400,000. The committee then states in substance:

The committee in order to protect itself against possible loss in bidding at the sale entered into an agreement with the Harris company under which the latter guaranteed that there would be no loss to the committee up to an amount which the committee might invest on account of the purchase price, in consideration of which the committee agreed to divide with the Harris company fifty-fifty the net profits of any liquidation in excess of $1,400,000. Furthermore, that in the event of a reorganization of the company which at that time did not seem possible, the amount and class of securities issued for the equity in the property by a new corporation would be determined by mutual agreement and any differences would be arbitrated, but that the Harris company would be entitled to approximately the same position in reorganization as though the property were liquidated.

At the receiver's sale, May 3 1923, the committee bid the sum of $1,200,000 for the entire assets and on May 16 the court confirmed the sale.

The order of the court confirming the sale provides for the payment of the assets as follows: $300,000 in cash; $275,000 in dividends (approximated) distributable out of proceeds of sale upon deposited mortgage notes; $625,000 in notes of the new corporation payable to the special master. These terms have been complied with as follows:

(*a*) Republic Motor Truck Co., Inc. (the new corporation) has borrowed from a banking institution $175,000. (*b*) The new corporation has borrowed from the committee from funds in the hands of Bankers Trust Co. under the mortgage $125,000. (*c*) The new corporation has received from the noteholders' committee a certificate of Bankers Trust Co. that it held for account of the special master $2,103,000 in 1st Mtge. notes which was accepted by the court in payment of $275,000 (the estimated cash which these notes are entitled to out of the proceeds of the purchase price). (*d*) The new corporation has given its notes to the special master as follows: $25,000, maturing Aug. 4 1923; $50,000, maturing Sept. 4 1923; $100,000, maturing Oct. 4 1923; $125,000, maturing Nov. 4 1923; $150,000, maturing Dec. 4 1923; $175,000, maturing Jan. 4 1924; a total of $625,000.

Harris Brothers Co. agreed to protect the committee on items (*b*) and (*c*) above and also the holder of the note given by the new corporation evidencing the loan referred to in item (*a*) above, in the manner provided in the agreement of the committee with Harris Brothers Co.

The first board of directors of the *Republic Motor Truck Co., Inc., of Michigan* has been elected as follows: M. N. Buckner (Chairman), Joseph A. Bower, O. W. Hayes (Pres.), M. Rothschild (V.-Pres.), G. W. Morgan, C. B. Campbell and E. C. King. (Glenn S. Crisp is Sec. & Treas.)

The executive committee elected consists of Joseph A. Bower (Chairman), M. Rothschild and M. N. Buckner.

So that holders of certificates of deposit may be advised of the prospects for recouping their losses, through participation in the reorganization plan, as compared with possible dividends through liquidation of the Republic properties, the committee is setting out below a summary of prospective dividends in liquidation to mortgage noteholders who did not participate in the purchase of the Republic properties (non-depositing noteholders), probable dividends in liquidation to holders of certificates of deposit in the event the purchased property were liquidated, and the advantages of the reorganization plan to certificate holders through their sharing in going-concern as distinguished from liquidation values.

In approximate figures $400,000 of this purchase price of $1,200,000 will be allocated to the property admittedly under the mortgage and $800,000 to the property which either the mortgage admitted'y did not cover or which the special master determined was not covered by the mortgage. Before any distribution to creditors, the receivership expenses and taxes must first be liquidated. It has been estimated that the maximum dividends to non-depositing noteholders will be 19½% from the assets held to be under the mortgage and 8½% from the free assets, or a total of 28%. These dividends, however, will not be entirely paid before 1924.

It is probable that a liquidation of the property purchased at the receiver's sale, if liquidated over a reasonable period of time, say two years, would net the holders of certificates of deposit $400,000 in excess of the purchase price (not including, however, any provision for expenses and compensation of the committee). In other words, over a period of possibly two years certificate holders would receive dividends in liquidation of approximately 33 to 35%.

Digest of Plan for Reorganization of Property Formerly Owned by Republic Motor Truck Co., Inc.

Purposes of the Plan.—(1) To avoid a liquidation of the properties formerly owned; (2) to enable the Republic Motor Truck Co., Inc., of Michigan, the purchaser of the old company, to continue to operate the business, and (3) to enable the holders of certificates of deposit for 1st Mtge. & Collateral Trust 7% notes of the old corporation to exchange their certificates of deposit for certain capital stock of the new corporation.

Property of New Corporation.—The present estimated value of the property as a going concern, exclusive of good-will, is $3,049,923. The new corporation will also receive title to the deposited mortgage notes of an estimated value of $275,000, and the committee will release to the new corporation its claim for $125,000 advanced on account of the purchase price of the property. From the assets received by the new corporation, as increased by the additions from the committee, payment of $1,200,000 must be made to the court for the purchase price, with int. at 7% on unpaid balances. After the payment of the purchase price of $1,200,000 out of the assets of the new corporation, the new corporation will have assets in excess of its liabilities of an estimated value as a going concern of $2,147,500, subject to such increases or reductions as may occur in the meantime in the ordinary course of business or otherwise.

Proposed Capitalization of New Corporation.—(1) $1,150,000 7% *Cumulative Preferred stock* (par $100), totaling $1,150,000. Cumulations shall begin on Jan. 1 1927. Preferred stock shall also have a provision for a 5% sinking fund to be used to purchase Pref. stock at the lowest price at which such stock shall be offered. Redeemable on Dec. 31 1943 at par. Callable as a whole prior to maturity at $105.

(2) *Common stock without par value.*—100,000 shares having a book value as a going concern exclusive of good-will, estimated at approximately $10 per share, or a total of approximately $1,000,000.

None of the Preferred stock and only a nominal amount of Common stock will be issued until the new corporation has made full payment of the purchase price to the court and has received title to the property.

Basis of Exchange of Mortgage Notes of Old Corporation for Stock and Voting Trust Certificates of New Corporation.

All of the Common stock of new corporation except directors' shares may be placed under a voting trust agreement for a period of 5 years, the voting trustees being Mortimer N. Buckner, Joseph A. Bower and George W. Morgan. Each $1,000 mortgage note of the old corporation deposited under the deposit agreement will be exchanged for $500 of Preferred stock and for 12 shares of Common stock of no par value. As there are at present deposited under the deposit agreement a total of $2,147,000 of mortgage notes, such exchange would require $1,073,500 of Preferred stock and approximately 25,764 shares of Common stock.

Disposition of Remaining Authorized Stock of New Corporation.—$75,000 of Preferred stock of new corporation will be used to pay the compensation of the members of the committee and the compensation of its counsel. Harris Borthers Co. is entitled to 50,000 shares of Common stock under the agreement pursuant to which the property was acquired. Said company has consented to accept 25,000 shares of Common stock to be issued to it in consideration of the obligations and liabilities assumed by it and has consented that the balance of the Common stock to which it would be entitled be set aside for management and other purposes for the benefit of the new corporation, provided the balance of the Common stock receivable by the committee in excess of 25,764 shares be set aside for like purposes. The Common stock so set aside will be utilized as follows:

25,000 shares shall be deliverable to the executive committee of the new corporation, in which distribution the Chairman of the committee will participate as a member of the executive committee to the extent approved by your committee. None of the executive committee, however, shall have the right to receive any of said shares until (*a*) Jan. 5 1924; (*b*) all obligations of the new corporation for the payment of the purchase price or for moneys borrowed for the purpose have been met. (*c*) Each member of the executive committee receiving any of the shares has given to the new corporation an option upon his services as a member of the executive committee for a period of three years from June 1 1923.

The remaining Common stock, approximately 24,236 shares, will be turned over to the new corporation for the benefit of the new corporation, to be disposed of in such manner and for such consideration, if any, and to such parties (exclusive of the members of the executive committee) as the executive committee may determine.

Balance Sheet (Republic Motor Truck Co., Inc., of Mich.) as of May 4 1923.

Sierra & San Francisco Power Co.—*Bonds Offered.*—Harris, Forbes & Co. and Coffin & Burr are offering at 87 and int. to yield about 6%, $1,000,000 1st Mtge. 5% Gold bonds of 1909. Due Aug. 1 1949. A circular shows:

Issuance.—Authorized by California Railroad Commission.

Company.—Organized in 1909 in California. Owns a self-contained electric generating and distributing system, which it operated as an independent light and power company until Dec. 31 1919, when its operative properties were leased for a period of 15 years to the Pacific Gas & Electric Co. Three hydro-electric generating plants with a present installed capacity of about 60,000 h. p. are located on the Stanislaus River, all nearer to San Francisco than any similar plants in the State. An auxiliary steam plant of about 36,000 h. p. capacity located within the city limits of San Francisco gives the company a totalled installed electric generating capacity of about 96,000 h. p. Transmission and distribution system includes more than 1,070 miles of lines.

Capitalization—	*Authorized.*	*Outstanding.*
Capital stock	$20,000,000	$20,000,000
1st Mtge. 5% bonds, including this issue	x	10,500,000
2d Mtge. bonds, 1949, Series "A," 6%	1,000,000	1,000,000
do Series "B," 5%	8,500,000	8,500,000

x At present limited to the $10,500,000 bonds now to be outstanding, subject to increase to a total authorized amount not exceeding $30,000,000.

Lease.—During the term of the lease, the Pacific Gas & Electric Co. covenants to pay interest on all outstanding 1st Mtge. 5% bonds and on all 2d Mtge. bonds, and also a fixed rental now amounting to $150,000 per annum. In addition the Pacific Gas & Electric Co. covenants, among other things, to properly maintain and operate the leased properties, and to pay all operating expenses and taxes, including provision for depreciation.

Earnings.—For the last five year of independent operation, ended Dec. 31 1919 (date of lease), net earnings averaged 2.37 times 1st Mtge. bond interest. Since that date earnings of the leased property have greatly increased, and are certified by the Pacific Gas & Electric Co. as follows:

Year ended March 31 1923: Gross operating revenue, $3,389,249; net earnings (after taxes), $1,568,780. Net earnings are practically three times the $525,000 annual interest charges on all 1st Mtge. bonds now to be outstanding.—V. 116, p. 2523.

Sinclair Consolidated Oil Corporation.—*Listing.*—

The New York Stock Exchange has authorized the listing of $25,000,000 6½% First Lien Collateral Gold Bonds, Series B, due June 1 1938. See offering in V. 116, p. 2777.

Sixty-five Forty-five Carnegie Co., St. Louis.—*Offering.*

The Tillotson & Wolcott Co. and Guardian Savings & Trust Co., Cleveland, are offering at par and int. $400,000 1st Mtge. Leasehold 6½% gold bonds. Dated July 1 1923; due serially 1924 to 1939. Guardian Savings & Trust Co., Cleveland, trustee. These bonds are secured by a first mtge. upon the company's leasehold estate in land and building on the north side of Carnegie Ave. near 65th St., Cleveland. The lease runs for 99 years, is renewable forever and contains a valuable purchase option. The land is improved by a modern fireproof 4-story building of reinforced concrete and contains a rental area of 192,000 sq. ft. for stores, offices and manufacturing appraised at $690,585.

Southern California Edison Co.—*Bonds Auth., &c.*—

The California RR. Commission has authorized the company to issue at 94 and int. $229,000 of Gen. & Ref. Mtge. 5½% 25-year gold bonds, series of 1919, for the purpose of refunding or paying off an equal amount of Ventura County Power Co. 1st Mtge. 6% bonds.—V. 116, p. 1645.

The California Supreme Court has sustained the action of the California Railroad Commission in ordering a reduction of 10% in the rates of the Southern California Edison Co. and in refusing to open the proceedings involving the 10% rate reduction to include a general rate investigation.

One of World's Largest Consumers of Copper.—

The Copper & Brass Research Association, in its "Bulletin" June 21, states that on the basis of estimates published by the electrical industry which place the total expenditure for transmission lines to be erected during the current year at $125,000,000, the market for copper in that field is placed at between 125,000,000 and 200,000,000 pounds for high-voltage transmission lines alone.

The estimated expenditure of $900,000,000 for transmission line construction in the United States during the next five years will afford a market for copper wire and cable of between 900,000,000 and 1,500,000,000 pounds.

Figures supplied by the Southern California Edison Co., engaged in the largest hydro-electric development project in the world, show a present use of 26,694,000 pounds of copper in service on its system. On its 60,000-volt transmission lines there are 8,838,000 pounds of copper and on the 30,000-volt lines 740,000 pounds of copper. It is estimated that for 1922 there were 6,000,000 pounds of copper purchased.

This company recently completed and tied in the first commercially operated 220,000-volt transmission line in the world and on March 12 began the construction of the largest hydro-electric power house west of Niagara Falls, which, when completed about Oct. 1, will deliver about 100,000 h. p. of electrical energy. When all its plans are completed the Southern California Edison Co. will have about 35 monster power houses supplying current to about 300 cities and towns.

As these generating plants bring in from 50,000 to 75,000 h. p. of new electricity a year, the necessity of building and extending the distribution system of the company throughout the district it serves requires the continuous building of distribution lines for which copper is used almost exclusively.—V. 116, p. 1645, 1527.

Southern California Gas Co.—*Bonds Sold.*—Cyrus Peirce & Co., San Francisco; Blyth, Witter & Co., New York, and Banks, Huntley & Co., Los Angeles, have sold at 99 and int., to yield about 6.10%, $2,500,000 1st & Ref. Mtge. 6% Series "C" of 1958 Gold bonds (see adv. pages).

Dated June 1 1923. Due June 1 1958. Int. payable J. & D. in Los Angeles, San Francisco and New York without deduction for Federal normal income tax not exceeding 2%. Redeemable at 105 and int. Denom. $1,000 and $500. Union Bank & Trust Co. of Los Angeles, trustee. Exempt from personal property tax in California.

Data from Letter of A. B. Macbeth, V.-Pres. & Gen. Mgr. of Company.

Company.—Serves natural and artifical gas in three counties in Southern California, including 37 cities and towns, prominent among which are the cities of Los Angeles, San Bernardino and Riverside, a territory of more than 1,000,000 estimated population. Company owns two modern and efficient plants for the manufacture of gas. Distributing system, as of April 30 1923, consists of 1,651 miles of mains, serving 93,845 domestic, 263 industrial and wholesale mills.

Security.—1st & Ref. Mtge. bonds outstanding on completion of this financing in the amount of $7,365,000, will be secured by a direct mortgage on all the property of the company, subject to $9,886,000 1st Mtge. bonds due 1950, of which $5,411,000, or over 54%, will presently be deposited as additional security for this mortgage.

Earnings.—Gross earnings have increased from $1,401,955 in 1917 to $6,314,935 for 12 months ended April 30 1923. Net earnings for 12 months ended April 30 1923 from all sources, were 2.62 times the interest on all bonds outstanding, including this issue.

From gas operations net earnings were 2.54 times bond interest requirements. In the ten years ended Dec. 31 1922 net earnings from operation increased 595%, while the bond interest increased only 262%.

Sinking Fund.—Mortgage provides for an annual sinking fund, beginning March 1 1927, amounting to 2½% of the par value of the largest amount of bonds at any time outstanding, including 1st Mtge. bonds, to be used for the retirement of bonds or acquisition or construction of additional property.—V. 116, p. 2892, 1772, 626.

Southern California Iron & Steel Co.—*Bonds Offered.*—Wm. R. Staats & Co., San Francisco, are offering at 100 and int. $800,000 1st Mtge. 6½% Serial Gold bonds. The bankers state:

Dated May 1 1923. Due serially May 1 1925 to 1943. Denom. $1,000. Red. on any int. date at 103 and int. in reverse order of maturity. Int. payable annually M. & N. without deduction for normal Federal income tax up to 2%, at California Trust Co., Los Angeles, trustee, Anglo & London Paris National Bank, San Francisco, or Bankers Trust Co., New York. Tax-exempt in California.

Company.—For over 20 years company has been successfully engaged in its present business, which now includes the operation of open hearth steel furnaces, the rolling of steel bars of all descriptions, the manufacture of bolts, nuts and rivets and the operation of a galvanizing department. This concern has become the largest bolt and nut works on the Pacific Coast. Steady growth of the company's business has necessitated removal of plants and machinery to a new and much larger location and this is now taking place. The complete removal and enlargement is provided for by this financing.

Earnings.—Net earnings for the last seven years, after depreciation and payment of Federal income tax, have averaged over $120,000 per annum, which is more than 2¼ times the interest on this bond issue and over 1¾ times the average combined interest and principal charge that the company will be called upon to make prior to maturity of the bonds.—V. 115, p. 1641

Southern Counties Gas Co. of Calif.—*Bonds Offered.*—Blyth, Witter & Co.; E. H. Rollins & Sons, and First Securities Co. are offering at 92½ and int., yielding about 6⅜%, $1,000,000 1st Mtge. 20-Year 5½% Sinking Fund Gold bonds of 1916, due May 1 1936 (see adv. pages).

Data from Letter of F. R. Bain, Los Angeles, Calif., June 19.

Company.—Organized in 1911 as the consolidation of a number of independent gas companies operating in contiguous territory in Orange and Los Angeles Counties. Other properties were acquired in 1916, 1919 and 1922, until now company is serving 46 cities and towns in the counties of Los Angeles, Orange, San Bernardino, Santa Barbara, and Ventura, embracing a population of approximately 586,000. Compnay distributes, through about 1,512 miles of mains, cheap natural gas obtained from widely separated and long-lived fields. Company's total storage capacity in 17 holders is 6,130,000 cu. ft. Properties are maintained in excellent condition.

Southern New England Telephone Co.—*Increase.*—

The stockholders on June 25 increased the authorized capital stock from $20,000,000 ($18,000,000 outstanding) to $40,000,000, par $100. The company proposes to issue $3,000,000 of stock, in the fall of this year, for subscription to stockholders, payable in full on or before Jan. 3 1924 or in two installments, viz., not less than 50% on Jan. 3 1924 and the balance on April 3 1924.—V. 116, p. 2647.

Southwestern Utilities Corp., Independence, Kan.—

The company has applied to the Kansas P. U. Commission for authority to issue $210,500 1st Mtge. 8% gold bonds, the proceeds to be used for developing oil, gas and mineral lands in the State of Kansas. Under a recent grant of the Commission the company issued $80,000 bonds to purchase property in Oklahoma.—V. 116, p. 2778, 2647.

Spiegel, May Stern Co., Chicago.—*Lease.*—

The company has leased from Julia S. Lovejoy, of Janesville, Wis., the modern 6-story and basement warehouse now being erected by the lessor at the cost of $400,000 at the southeast corner of Morgan and Cullerton Sts. Chicago, covering 18,000 sq. ft., for 20 years, at a fixed annual rental of $35,000 net, or $700,000 net for the term.—V. 115, p. 1641.

Spanish-American Iron Co.—*Bonds Reduced on List.*—

The Phila. Stock Exchange on June 22 reduced the amount of 1st Mtge. 6% bonds, due July 1 1927 on the regular list from $1,204,000 to $929,000; $275,000 reported retired by operation of the sinking fund from Jan. 1 1923 to July 1 1923, both inclusive.—V. 116, p. 2647.

Standard Oil Co. (of Calif.).—*Debentures Called.*—

All of the outstanding $25,000,000 10-Year 7% Gold debentures dated Jan. 1 1921 have been called for payment Aug. 1 at 104 and int. at the Anglo-California Trust Co., San Francisco, Calif., or, at the option of the holder, at the Equitable Trust Co., N. Y. City.—V. 116, p. 2779, 2647.

Steel & Radiation, Ltd.—*Reorganization Plan.*—

Pursuant to an order of the Supreme Court of Ontario, approving the sale by Montreal Trust Co. and Geoffrey Teignmouth Clarkson to Imperial Radiator Co., Ltd., of all the property and assets of Steel & Radiation, Ltd., upon the terms and conditions set out in the plan for reorganization of said Steel & Radiation, Ltd., approved by the holders of the 1st Mtge. 6% gold bonds. All holders of 1st Mtge. 6% gold bonds are required to surrender their bonds with April 1 1921, and all subsequent coupons attached, to Montreal Trust Co. in Toronto, or at office, 2 Bank Bldg., Princes St. London. Holders of 1st Mtge. 6% gold bonds will, on surrender thereof, be entitled to receive:

(*a*) 2nd mtge. bonds of Imperial Radiator Co., Ltd., on the basis of $40 for every $100 of bonds surrendered.

(*b*) Shares of Imperial Radiator Co., Ltd., on the basis of $15 for every $100 of bonds surrendered.

(*c*) Share participation certificates in respect of 1,500 fully paid shares of Imperial Radiator Co., Ltd., on the basis of $15 for every $100 bonds surrendered —V. 115, p. 1218

Sterling Coal Co., Ltd.—*Annual Report.*—

Years end March 31—	1922-23.	1921-22.	1920-21.	1919-20.
Profit for year	$121,946	$6,788	$92,562	def$32,327

—V. 116, p. 2780.

Union Tank Car Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of $1,000,000 additional Common Stock, par $100 each, on official notice of issuance, making the total amount applied for $19,000,000. The additional $1,000,000 stock is to be sold to the employees.—V. 116, p. 1287.

U. S. Smelting, Refining & Mining Co.—*Earnings.*—

Consolidated (estimated) earnings for 5 months ended May 31 1923, after providing for all interest	$1,868,349
Reserve for depreciation, depletion and amortization	677,424
Preferred dividends	709,260
Balance, surplus, available for Common dividends	$481,665

The report of the directors says in part: "Earnings of the metal mines and smelter in Utah have been increased over the earnings for the corresponding period last year, owing principally to the increase in the average price of lead during this period and greater demand for the by-products produced. The coal output for the five months' period was 328,700 tons, as compared with 405,790 tons in the corresponding period last year.

"Developments at the Mexican properties continue to be favorable. The Mexican output has averaged 87,100 tons per month for the five months' period, as compared with 82,500 tons during the same period last year. Since the beginning of the year the Sunnyside Mines in Colorado and the Gold Road Mines in Arizona have resumed operations, and preparations are being made to resume operations at the Mammoth Mine and smelter.

"The directors have declared the regular quarterly dividend of 1¾% on the Preferred stock, payable July 14 to holders of record July 6."—V. 116, p. 1424, 1063.

United States Steel Corp.—*Subsidiary Co. Plant.*—

Due to adverse labor conditions in the Detroit district, the officials of the American Bridge Co., subsidiary, have decided to dismantle its Detroita plant. The company will maintain engineering offices in Detroit and operate as heretofore, but will discontinue all fabricating at that point and supply the district from its other plants. ("Iron age.")—V. 116, p. 2780.

Utah Copper Co.—*Balance Sheet Dec.* 31.—

The income account for the past four calendar years was published in V. 116, p. 1661.—V. 116, p. 2400, 2019.

Virginia-Carolina Chemical Co.—*Rumors of Receivership "Arrant Nonsense"—Preliminary Figures for* 1922-23.—

President C. G. Wilson, in a statement issued June 28, says:

During recent months there has been persistently circulated rumors and reports emanating from unknown and irresponsible sources, reflecting upon the financial integrity of the company.

For the benefit and information of the company's security holders and those having an interest in the company's welfare, the suggestions or intimations of a receivership for the company are arrant nonsense.

The company's fiscal year ended May 31 1923. The usual audit by Price Waterhouse & Co. is now being made. The preliminary figures show that the consolidated loss from operations, after all interest charges, was approximately $3,000,000.

On May 31 the company had $43,572,000 of current assets (round figures) after charging off an amount which in the opinion of the officers removes all question of doubt as to the value of the company's bills and accounts receivable. That item stood on May 31, $24,528,000; inventories, $11,694,000; cash, $6,903,000; marketable investments, $447,000.

The consolidated current liabilities amounted to $17,575,000.

The consolidated ratio of current assets over current liabilities was 2.45 plus; the ratio of the Southern Cotton Oil Co. was 1.55 plus and the Virginia-Carolina Chemical Co. standing alone, 3.37.

The inventories of each company are conservative both as to quantity and value.

Not included in the total of current assets as stated above the company owns as free assets stock of other companies unpledged and having a salable value in excess of $3,000,000.

The fertilizer end of the company's business made a pleasing and substantial improvement over the previous year. The fertilizer business has unmistakably made the turn of permanent improvement.

While the Southern Cotton Oil Co. had an unprofitable year, there is nothing to suggest that the causes and conditions that brought that result about can or will repeat themselves during the present fiscal year. The Southern's business is progressive and it is progressing in the right direction. The outlook for both branches of the business is good.—V. 116, p. 1908, 1424.

Walcott & Campbell Spinning Co.—*Bonds Sold.*—

Utica (N. Y.) Trust & Deposit Co. and Mohawk Valley Investment Corp., Utica, N. Y., are offering at 100 and int. $300,000 Conv. 15-Year 6½% Debenture bonds.

Dated June 1 1923. Due June 1 1938. Denom. $1,000 and $500c*. Interest payable J. & D. without deduction for any normal Federal income tax not in excess of 2%. Callable all or part at any time on eight weeks' notice at 102½ and interest. Utica Trust & Deposit Co., trustee.

Data from Letter of Pres. F. C. Walcott, Utica, N. Y., June 6.

Company.—Incorporated in 1896 in New York. Manufactures plain and fancy hosiery yarns, both combed and carded.

Purpose.—To increase working capital.

Conversion.—Holders of these debentures may convert their bonds, par for par, into the 7% Cumulative Preferred stock.

Capitalization—	*Authorized.*	*Outstanding.*
Convertible 15-Year 6½% Debenture bonds	$300,000	$300,000
Preferred 7% Cumulative stock	500,000	------
Common stock	1,000,000	750,000

Sinking Fund.—Company agrees to pay to the trustee as a sinking fund 10% of its net earnings for each calendar year beginning with the year 1924, said sinking fund to be used for the purchase of bonds at their market price up to redemption price of 102½.

Earnings.—Annual gross and net earnings show a rapid and consistent growth from the beginning of operations in 1897. The year 1921 is the only year in the company's history which shows a deficit. From 1910 to 1921 the average annual earnings amount to nearly five time the interest charges on the proposed bond issue. From 1916 to the present time, including the deficit of 1921, the annual earnings amount to 5.13 times the interest charges on the present bond issue.

Western Quebec Paper Mills, Ltd.—*Bonds Offered.*—

Shaer, Morton & Co., Ltd., Montreal, are offering at 97 and int., yielding 6¾%, $225,000 1st Mtge. 6½% 25-Year Gold bonds. Principal guaranteed through insurance by Travellers Life Assurance Co. of Canada.

Dated May 15 1923. Due May 15 1948. Int. payable M. & N. at Bank of Montreal, Montreal, or Toronto, or, at the option of the holder, in U. S. currency at the agency of the Bank of Montreal, New York. Denom. $1,000, $500 and $100 c*. Red. as a whole on any int. date at 105 and int. until May 15 1933; at 103 and int. thereafter. Montreal Trust Co., Montreal, trustee.

Capitalization—	*Authorized.*	*Issued.*
6½% First Mortgage bonds, due 1948	$1,000,000	$225,000
Common shares (no par value)	2,500 shs.	2,000 shs.

Company.—Incorp. under the laws of the Dominion of Canada in 1923 to engage in the production of fine papers, specializing in tissues. On completion, company will own a modern paper mill, thoroughly equipped with the most up-to-date machinery for the manufacture of fine papers, at St. Andrews, Que. New buildings, now in the course of construction, will give company a plant which will be big enough for many years to come.

Sinking Fund Insurance.—A special contract of insurance, fully paid up, has been entered into with the Travellers Life Assurance Co. of Canada, which company guarantees the payment in full of the bonds at maturity. This contract, also, contains a clause providing, in the event of liquidation, for the payment of the pro rata amount to the trustee of the bond holders at the end of any one year, leaving the total value of the property as well as the earnings as security for the interest.

Earnings.—It is estimated that the net earnings for the year 1923-1924, with a minimum production of 5 tons per day, will be over $65,000, or equal to more than 3 times the interest requirements on the bonds issued.

Western Union Telegraph Co.—*Rates Cut.*—

The company announced June 25 that, effective July 1, its cable rates to the principal Scandinavian countries will be reduced in proportion to the general reductions made on April 20. The reduction is applicable to half-rate deferred service to the countries where that service is now in effect. See also V. 116, p. 1773.

Wickwire Spencer Steel Corp.—*Earnings.*—

Including American Wire Fabrics Corporation.]

Period—	*Month of May.*	*5 Mos. end. May* 31.
Sales	$2,679,463	$13,797,370
Costs and expenses	2,449,402	12,475,870
Profit	$230,061	$1,321,500

Dividend appropriations of income	12,400,000 00	17,360,000 00	—4,960,000 00
Income balance for the year, transferred to profit and loss	$2,656,929 50	$4,705,399 17	—$2,048,469 67

REVENUE TRAIN MILEAGE.

Revenue passenger train miles during the year were 9,555,273, a decrease of 370,359 miles compared with the previous year.

Revenue freight and mixed train miles during the year were 10,237,094, an increase of 1,344,081 miles.

Revenue special train miles during the year were 21,168, an increase of 9,743 miles.

All revenue train miles during the year were 19,813,635, an increase of 983,465 train miles.

EARNINGS.

FREIGHT BUSINESS.

Freight revenue was $71,725,005 74, an increase of $2,478,500 68, or 3.58 per cent compared with the previous year.

The number of tons of revenue freight carried was 21,451,028, an increase of 3,780,866, or 21.40 per cent compared with the previous year.

6,021,158,972 tons of revenue freight were moved one mile, an increase of 731,374,618 tons one mile, or 13.83 per cent.

The average earnings per ton mile decreased from .01309 to .01191.

The revenue train load decreased from 594.82 to 588.17 tons. The total train load, including company freight, decreased from 700.49 tons to 680.58.

The number of miles run by revenue freight trains was 9,573,533, an increase of 1,370,704, or 16.71 per cent.

PASSENGER BUSINESS.

Passenger revenue was $15,551,897 21, a decrease of $1,463,257 94, or 8.60 per cent, compared with the previous year.

Mail revenue was $1,657,161 94, a decrease of $42,673 21, or 2.51 per cent; making allowance for back mail pay received, there was an increase of $114,778 08, or 7.66%.

Express revenue was $2,157,176 82, an increase of $75,635 22, or 3.63 per cent.

Sleeping car, parlor and chair car, excess baggage and miscellaneous passenger revenue was $1,020,876 00, an increase of $139,112 28, or 15.78 per cent.

Total revenue from persons and property carried on passenger and special trains was $20,387,111 97, a decrease of $1,291,183 65, or 5.96 per cent compared with the previous year.

The number of passengers carried was 5,263,440, a decrease of 914,856 over the previous year, and the number of passengers carried one mile was 473,992,323, a decrease of 31,709,614, or 6.27 per cent.

The number of miles run by revenue passenger trains was 9,555,273, a decrease of 370,359, or 3.73 per cent.

The average rate per passenger mile was 3.281 cents against 3.365 cents last year.

EARNINGS AND EXPENSES PER MILE OPERATED.

	1917.	1918.	1919.	1920.	1921.	1922.

OPERATING EXPENSES.

(Detailed statement of operating expenses appears on pages 25 and 26 [pamphlet report].)

CONDUCTING TRANSPORTATION.

The charges for transportation expenses were $36,801,628 01, an increase of $1,003,661 39, or 2.80%, as against an increase in total operating revenue of 1.63%.

MAINTENANCE OF EQUIPMENT.

The charges for maintenance of equipment were $18,064,615 39, a decrease of $3,761,201 63, or 7.23%.

LOCOMOTIVES.

Total number of locomotives on active list Dec. 31 1921, the date of the last annual report		1,437
Additions—Locomotives remodeled	4	
Locomotive reinstated from inactive list	1	
		5
		1,442
Deductions—Locomotives sold during year, from active list		3
Total locomotives on active list Dec. 31 1922		1,439
In addition to the locomotives on active list there were:		
Withdrawn from service and on hand Dec. 31 1921		55
Less—Dismantled during year	23	
Rebuilt and reinstated on active list	4	
Transferred to active list	1	
		28
Leaving on hand locomotives withdrawn from service which may be sold		27

PASSENGER EQUIPMENT.

On December 31 1922 the Company owned 1,112 passenger train cars, a decrease of 15 cars, consisting of 9 cars destroyed, dismantled or sold and 9 cars transferred to miscellaneous equipment, less 2 cars transferred from miscellaneous equipment, and the purchase and installation of one Mack gasoline car.

During the year 107 passenger cars had steel underframes, steel platforms and steel sheathing applied; work being completed during July, and all passenger train cars in transcontinental service have now been strengthened and remodeled.

The 70 passenger train refrigerator cars authorized in 1921 were not received in 1922, but are promised for delivery in April 1923.

FREIGHT EQUIPMENT.

Comparative Number and Capacity of Freight Cars.

	—Dec. 31 1922—		—Dec. 31 1921—		Increase (+) or Decrease (—).	
	No.	Capacity. (Tons).	No.	Capacity (Tons).	No.	Capacity (Tons).

Percentage of unserviceable to total cars on line	9.73	8.40	+1.33
Number of cars requiring heavy repairs	1,860	3,170	—1,310
Percentage of total cars on line	5.05	6.72	—1.67
Number of cars requiring light repairs	1,721	790	+931
Percentage of total cars on line	4.68	1.68	+3.00

MAINTENANCE OF WAY AND STRUCTURES.

The charges for maintenance of way and structures were $12,826,641 01, a decrease of $1,486,275 44 or 10.38%.

GENERAL.

FINANCIAL RESULTS OF OPERATION.

The operation of your property, after all charges, resulted in Net Income of $15,056,929 50, a decrease over the previous year of $7,008,469 67. A general revival in business was in evidence during the latter part of the year throughout the territory served by our lines of railroad.

The volume of passenger business was 14.81 per cent less, and of freight business 21.40 per cent more than in 1921. The freight business was only exceeded in 1917, 1918, and 1920, and was considerably larger than in 1921 and practically the same as in 1919. The operating revenues of the company increased $1,538,007 04, or 1.63 per cent, while operating expenses were reduced $4,976,156 18, or 6.41 per cent. Net operating revenue increased $6,514,163 22, or 38.53 per cent.

The following table shows for the last eight and one-half years the percentage ratio of Net Railway Operating Income to Railway Property Investment, Material and Supplies on hand at the close of each year being included in the amount of the Railway Property Investment. Net Railway Operating Income is here taken to mean what, in the Transportation Act of 1920, it is defined as meaning; namely, the amount produced by deducting from Net Revenue from Railway Operations, Railway Tax Accruals and Uncollectible Railway Revenues, and adding Equipment Rents and Joint Facility Rents.

Fiscal year ending:	Railway Property Investment Including Material and Supplies.	Net Railway Operating Income.	Return on Investment.
June 30 1915	$491,035,831	$23,750,070	4.84%
June 30 1916	494,610,960	32,456,353	6.56%
Calendar year ending:			
December 31 1916	498,225,699	33,446,012	6.71%
December 31 1917	512,950,626	30,491,140	5.94%
December 31 1918	526,323,059	24,217,342	4.60%

CLAIM FOR BALANCE DUE FROM GOVERNMENT.

As stated in the last annual report, the claim of the Company for payment for the Guaranty Period of six months ended August 31 1920 is before the Inter-State Commerce Commission; $12,000,000 has been received on account and it is expected a final adjustment will be made in the year 1923.

VALUATION WORK.

The Bureau of Valuation of the Inter-State Commerce Commission continued its work of valuing your property, and by the early part of 1923 had served preliminary engineering, land and accounting reports not only for the Northern Pacific, but also for the Gilmore and Pittsburgh Railroad Company, Ltd., the Duluth Union Depot and Transfer Company and the Minnesota and International Railway Company.

Statements of objections to the values found by the Bureau have been filed by your officers as it is felt that in many cases the unit prices used by the Bureau are too low and in consequence that the values stated in the reports are too low. It is hoped that consideration will be given to the objections made and that increases will be granted before the Commission serves the tentative valuation reports required under the Transportation Act.

The number of company employees engaged in this work at the present time is 76, and the total expenditure for the company's proportion of the work up to December 31 1922 was $1,835,683 80. The major portion of this work has been completed and from now on the company's expenses on this account will be substantially less than they have been in the past few years.

LAND DEPARTMENT.

The operations of the Land Department for the year are summarized in the statements appearing on pages 42 and 43 [pamphlet report].

Conditions throughout the company's territory affecting the occupants of land have improved to some extent since last year, although in Western North Dakota and Eastern Montana stock growers and farmers have found it difficult to finance their operations.

The timber industry in Washington, Oregon and Idaho has been prosperous. Timber that is accessible is being actively sought for at advancing prices. A number of timber sales of considerable magnitude were made during 1922, and upon these large cash payments were collected.

The area of lands sold during the year exceeded that of the previous year, but cancellations of old sales exceeded new sales by 185,841.52 acres, thus accounting for the deficit in net proceeds as shown in the statement. Those contracts which required cancellation because of default and abandonment are being cleared away as rapidly as possible in order that the land may be ready for re-sale. Receipts on account of principal and interest were about the same as in 1921.

OIL DEVELOPMENT.

The outstanding events in oil development in Montana during 1922 were the discoveries of oil in the Kevin-Sunburst Field, otherwise known as the Sweetgrass Arch, and in the second sands in the West Dome of the Cat Creek Field.

The Sweetgrass Arch lies along the Great Northern Railway Company's line, between Shelby and the International Boundary. The oil so far produced in this field is low grade and all of the 22 wells producing oil at the end of the year must be pumped. The Illinois Pipe Line Company has built a pipe line connecting the wells with the railroad, and this line has now been extended to Coutts, Alberta, just across the boundary. Drilling was in progress in 19 wells in this territory when the year closed.

Production of large quantities of oil from the second sand in the West Dome of the Cat Creek Field of the same character and quality as that heretofore found in the first sand resulted in increased activity in that locality. At the end of the year oil was being produced from the first and second sands in 115 wells. During 1922, 2,357,324 barrels were produced, making the total of 4,468,636 barrels from the beginning in August 1920.

The exploration and drilling work of the Absaroka Oil Development Company was continued throughout the year. No oil was discovered in the several wells drilled either by it or by others proceeding under permits from it, but much valuable geological information was obtained. The Absaroka Company has arranged to drill during 1923 two deep test wells, one in the Devils Basin, and the other at a location on the Glendive-Baker Anticline, about 25 miles southeast of Baker, Montana. The Northwestern Improvement Company now owns all of the stock of the Absaroka Company.

SUBSIDIARY COMPANIES.

On page 44 [pamphlet report] will be found results of the Spokane, Portland and Seattle Railway Company together with its subsidiaries, the Oregon Trunk, Oregon Electric and United Railways, and on page 45 [pamphlet report] the results of the operation of the Minnesota and International Railway Company.

The United Railways Company acquired from the Oregon American Lumber Company the capital stock of the Portland, Astoria and Pacific Railroad Company and the facilities of the Nehalem Boom Company near Portland, and completed in 1922 the construction of the line of railroad to Keasey, Oregon—32.6 miles.

RETIREMENT OF JOINT BONDS.

The Company's last annual report showed that of its proportion ($115,000,000) of the Northern Pacific-Great Northern C. B. and Q. Joint Collateral 6½% Bonds only $9,950,400 were converted on December 31 1921. The balance of these bonds, $105,049,600, was retired during 1922 by issuance of Refunding and Improvement Mortgage 6% Bonds Series B, redeemable as an entirety on and after July 1 1936, on any interest date at 110% and accrued interest, and 5% Bonds Series C, redeemable as an entirety on and after July 1 1952, on any interest date at 105% and accrued interest. The amount of Refunding and Improvement Mortgage Bonds outstanding December 31 1922, issued for conversion of the 6½% Joint Bonds was:

Series B	$107,295,600 00
Series C	8,702,300 00
Total	$115,997,900 00

The retirement of the joint bonds resulted in a net annual saving in interest of $602,149 00.

FREIGHT AND PASSENGER TRAFFIC.

By order of the Inter-State Commerce Commission rates on agricultural products and livestock were reduced January 1 1922. A subsequent order provided in effect that the rates after July 1 should not exceed 90 per cent of the post-war rates authorized by the Commission; therefore the average of freight rates charged in 1922 was considerably below the average rates in 1921, and the average of rates in 1923 will be yet lower because the business will show the full effect of reductions ordered in 1922.

The general strike of coal miners which began April 1, and the railway shopmen's strike which began on July 1, prevented the full realization of expected increases in earnings during the last half of the year. The movement of freight was retarded and the derangement of car distribution and inability to obtain return of Northern Pacific cars loaded to off-line destinations caused a progressive car shortage which reached its extreme point in November, when the number of box cars on Northern Pacific rails was reduced to 13,654, or only 54 per cent of the number owned by this company. In the case of some commodities like grain, this resulted only in a postponement of the movement, but a relatively large part of this company's freight revenue comes from the transportation of lumber and other freight which must be handled when it is offered or the business is lost.

The volume of coast-to-coast traffic passing through the Panama Canal is increasing rapidly. The Commerce Act requires rates to be made according to the long and short haul rule but the Inter-State Commerce Commission may authorize lower rates to the farther points to meet water competition or for other sufficient reasons. Before the War the transcontinental railroads were permitted to make exceptional rates to Pacific Coast terminals to meet the competition of ocean carriers. With the discontinuance of steamship service in the war period the terminal rates were raised to the level of the intermediate rates. When steamship service was restored after the War, the transcontinental railroads, in accordance with the law, and for the purpose of meeting the competition through the Canal, applied to the Commission for authority to make to Pacific Coast terminal points, on a limited list of commodities peculiarly susceptible to water competition, rates lower than the rates charged for this carriage of the same commodities to intermediate points. After many hearings and much discussion the application was denied, and the railroads are now in a position where it is impossible to meet ocean competition at terminal points like Seattle, Tacoma and Portland without making in the rates to intermediate points reductions involving losses out of all proportion to any possible gains in connection with business moving to the terminal points.

The Company believes that Congress did not intend to exclude the railroads from participation in this business; that on the contrary discretionary authority to make exceptional rates was given to the Inter-State Commerce Commission for the very purpose of protecting the railroads against loss of business which they were handling and could profitably handle in competition with the water carriers; it expects, therefore, to join the other transcontinental railroads in renewing their application.

If permitted to make the necessary reductions in rates to and from Pacific Coast terminal points it will be possible to regain much of the traffic which has been lost, with resulting increase of net earnings. The westbound traffic to Pacific Coast terminal points is especially desirable because the preponderance of eastbound tonnage makes it possible to increase the westbound loaded car movement without any appreciable increase in operating costs.

Railroad passenger earnings have been greatly reduced by the development of the automobile and by the increasing use of the long distance telephone. Passenger earnings show a decrease of 8.6 per cent compared with those of the previous year. Other western roads show similar decreases. The strike of shop employees and the threat of a general railroad strike had an unfavorable influence on passenger travel, especially upon the summer tourist business; but even if conditions had been normal there would yet have been a decrease in passenger earnings due to automobile competition.

COMPARATIVE STATEMENT OF PAYROLLS.

A further reduction was effected in payrolls, due to some reductions in wages authorized by the U. S. Labor Board.

Comparison for a period of years follows:

Total payroll for year ending June 30 1915	$24,486,852 00
Total payroll for year ending December 31 1916	28,204,669 00
Total payroll for year ending December 31 1917	35,877,879 00
Total payroll for year ending December 31 1918	49,632,127 00
Total payroll for year ending December 31 1919	52,605,396 00
Total payroll for year ending December 31 1920	66,503,794 00
Total payroll for year ending December 31 1921	50,643,526 00
Total payroll for year ending December 31 1922	49,041,401 00

SECURITY OWNERS AND EMPLOYEES.

There are now about 38,000 owners of stock and 30,000 owners of bonds of the Company. The average number of employees in 1922 was 28,190 and on March 15 1923, 29,572.

TAXES.

The following statement shows the taxes for each year since 1917:

	1917.	1918.	1919.
State taxes	$5,169,742 57	$5,865,666 69	$6,913,707 44
Federal taxes	1,727,242 85	2,264,762 40	2,055,483 31
Canadian & miscellaneous taxes	13,742 77	26,654 17	31,546 72
Totals	$6,910,728 19	$8,157,083 26	$9,000,737 47
	1920.	1921.	1922.
State taxes	$8,453,990 33	$8,339,049 60	$8,257,045 00
Federal taxes	1,620,591 91	638,983 26	142,538 11
Canadian & miscellaneous taxes	34,104 14	36,087 64	31,000 00
Totals	$10,108,686 38	$9,014,120 50	$8,430,583 11

PENSION DEPARTMENT.

By appropriate resolution of the Board of Directors, a Pension Department was organized, effective May 1 1922. Between that time and December 31 1922, 121 employees were retired with pension. Seven of these pensioners were removed from the pension roll by death, leaving 114 pensioners on the roll on December 31 1922. Total payments to pensioners $16,883 39.

SHOP STRIKE.

A nation-wide strike of the six railroad Shop Crafts was called on July 1 1922, and of the Firemen and Oilers on July 17 1922. Of a total of 8,648 men employed in your company's shops and roundhouses on June 30, 8,134 left the service, leaving only 514 employees, or about 5½ per cent of the force of these classes, at work, and of these only 173 were classed as skilled workers.

The differences between the striking employees and the management of your company were only slight, and a basis of settlement, satisfactory both to the men and the management, was agreed upon shortly after the strike began. The chief officers of the Federated Shop Crafts, however, refused to allow the strike to be settled on any one railroad, or upon any basis other than a national one, and in consequence of this refusal the strike continued.

The splendid response of employees of other departments to a call for volunteers was of the greatest assistance during the early and critical period of the strike and enabled the management to carry on the operation of your property without serious interruption.

In February 1923 the striking employees, on their own motion and by their voluntary action, formally declared the strike off. In the meantime, however, most of the strikers' places had been filled, and to the deep regret of the management it was found necessary to reject the applications for re-employment of many men having long records of faithful service. Our employees in the various shop crafts have now formed an organization of their own, in no way affiliated with the National Organization of the Federated Shop Crafts, and the relations between the new organization and the management of your company are most satisfactory.

ANTI-RAILROAD PROPAGANDA.

The Transportation Act, 1920, directs the Inter-State Commerce Commission so to adjust rates and fares as that "carriers as a whole (or as a whole in each of such rate groups or territories as the Commission may from time to time designate) will, under honest, efficient and economical management and reasonable expenditures for maintenance of way, structures and equipment, earn an aggregate annual net railway operating income equal, as nearly as may be, to a fair return upon the aggregate value of the railway property of such carriers held for and used in the service of transportation."

In exercise of the discretion given to it by this law, the Commission has decided that an annual return of 5¾ per cent upon this aggregate value would be such a "fair return" as the law contemplates. In no year since the Act became effective has the annual return equaled this amount, and in this aspect the Act may be said to have failed to accomplish its purpose; but it stands as at least a legislative recognition of what the railroads are in justice entitled to, and is so far of value. Nevertheless, a deliberate and persistent attempt is now being made in certain quarters to create a sentiment in favor of the repeal of this provision of the law. As the law itself amounts to no more than a declaration of a purpose to do justice (even though, as many consider, only scanty justice) to the carriers, its repeal could be construed only as a denial of any such purpose. As stockholders, and therefore as owners of railroad property, you are interested in preventing the success of this movement; and your directors urge you earnestly to make your influence felt in opposition to it.

By order of the Board of Directors,

HOWARD ELLIOTT, *Chairman.*
CHARLES DONNELLY, *President.*

CAPITAL STOCK.

There was no change in the amount of capital stock outstanding during the year, viz	$248,000,000

FUNDED DEBT.

Changes have been made as follows:

Issued—		
Northern Pacific refunding and improvement 6% bonds, series "B," issued to retire joint collateral 6½% bonds	$97,345,200	
Northern Pacific refunding and improvement 5% bonds, series "C," issued to retire joint collateral 6½% bonds	8,702,300	
Equipment trust of 1922, certificates issued under equipment trust agreement dated August 15 1922	4,500,000	
		110,547,500
Retired—

Willys Corporation.—*Offers to Purchase Stock.*—

A letter offering $5 per share for 300,000 shares of the 739,000 shares of stock in the Willys-Overland Co., owned by the Willys Corporation, was read in the U. S. District Court by Francis B. Caffey, receiver. The names of the persons making the offer was not disclosed. The receiver said that a plan was under way for the reorganization of the company and that it was hoped the company would be released from receivership.

An offer of $3,000,000 for 739,866 shares of the Willys-Overland Common stock, it is said, has been received by Colonel Francis C. Caffey, receiver for the Willys Corp. The offer, it is stated, was made by the bank creditors' committee and the construction and merchandise creditors' committee.

According to Toledo dispatches Judge Killits, of the Federal Court at Toledo, has issued an injunction against the transfer of the 739,000 shares of Willys-Overland Common, held by the receiver.—V. 116, p.2020.

Westfield River Paper Co., Inc.—*Bonds Offered.*—

P. W. Brooks & Co., Inc., New York, are offering at 100 and interest $340,000 1st Mtge. 7% Serial Gold bonds. Denom. $1,000, $500 and $100c*. Dated May 1 1923. Due serially 1924 to 1943 incl. Interest payable M. & N. in New York. Redeemable at 110 and interest on 30 days' notice.

Property, &c.—These bonds are a first and only mortgage on the entire property of the company, which is located on the Westfield River at Russell, Mass. Plant consists of several large and well-constructed brick and concrete buildings, thoroughly equipped with the most modern machinery for the manufacture of its products. Company's product—glassine paper—is marketed under the distinctive and descriptive name, "Paperglas," and is used in wrapping food, cigarettes and many other articles.

Earnings.—Earnings are reported at the rate of $642,285 per year, and net profits available for bond interest of $85,116 per year, both averaged over the past five years. These earnings are at the rate of over 3½ times the maximum bond interest. For the period of 12 months ended March 31 1923, such net profits are reported as $96,143, equalling four times bond interest.

Capitalization—	*Authorized.*	*Issued.*
1st Mtge. 7% Serial Gold bonds	$340,000	$340,000
Preferred stock, 8% cumulative	1,000,000	abt. 125,000
Common stock (no par value)	10,000 shs.	10,000 shs.

Youngstown Sheet & Tube Co.—

An offering of $35,000,000 to $40,000,000 6% bonds will be made shortly, in case title to the property of the Steel & Tube Co. of America is acquired by the Youngstown company. The Bankers Trust Co. will head the syndicate offering the bonds.—V. 116, p. 2896.

Zellerbach Paper Co.—*Lease of Properties, &c.*—

See American Investment & Realty Co. above.—V. 111, p. 2334, 2146

CURRENT NOTICES.

—In a special circular on the Pittsburgh & Lake Erie RR. Co. issued for distribution to investors, Joseph Walker & Sons, specialists in this stock, state: "We believe the New York Central will make some such proposition to the Pittsburgh & Lake Erie stockholders as, either to buy their stock at a high market price, or to exchange New York Central stock for Pittsburgh & Lake Erie stock in such a ratio as to afford a large profit above the present market, or to lease the Pittsburgh & Lake Erie at a guarantee of annual dividends which would make the stock equally valuable. In this connection we consider as significant and most interesting to Pittsburgh & Lake Erie stockholders the statement made by the New York Central directors on June 12 1923, when they raised that company's dividend from 5 to 7%, in declaring definitely for a future policy of increased stock capitalization for the New York Central. The exchange of New York Central stock for Pittsburgh & Lake Erie should assist in the carrying out of this policy. During the past 12 months there has been a heavy investment accumulation of this stock by strong interests. Earnings of Pittsburgh & Lake Erie this year are larger than for many years past, estimated to be at the rate of 40% on capital stock, and since 1892 has paid not less than 10% dividends in any year."

—Clark, Dodge & Co., in a comprehensive review and analysis of th e Illinois Central RR. Co., point out that probably no transportation system of the country to-day is better equipped, both physically and financially, to meet current transportation needs. The property has been marked by the unusual strides made in recent years, no small part of which has been due to its fortunate geographical position and to the favoring influence of the Panama Canal. While practically all the larger Western roads have felt the competition of the Canal, it has contributed to the Illinois Centra an added volume of business. The performance of the Illinois Central last year, in the face of many handicaps, crowned its long record of achievement and has probably not been equaled by that of any road with which it may properly be compared.

—Cravath, Henderson, Leffingwell & de Gersdorff announce the retirement of Mr. Leffingwell from their firm and the admission of Chas. A. Roberts, A. I. Henderson and Leonard D. Adkins. Announcement was likewise made that S. Parker Gilbert, Jr., who has resigned as Under-Secretary of the United States Treasury, will likewise become a member of the firm when his resignation in the Treasury Department becomes effective in the early fall. Business in the future will be conducted under the firm name of Cravath, Henderson & de Gersdorff. Mr. Leffingwell has become a member of J. P. Morgan & Co.

—The firm of Moore, Hyams & Co. has been organized in New Orleans to succeed the firm of Hyams, Moore & Wheeler. A general investment and banking business will be conducted by the new house. J. J. Farrell, who until recently was an officer of the Hibernia Securities Co., will be in charge of their bond department. In addition to Mr. Farrell, the firm consists of Robert Moore, Chapman H. Hyams, Jr., Robert Moore Jr., Robt. M. Woolfolk and Chapman H. Hyams III.

—Brown Brothers & Co. have issued a circular on July investment suggestions which contains a wide selection of domestic and foreign bonds, short-term notes, Preferred stocks; also State and municipal issues to replace Liberty bonds affected by the reduced exemption from surtaxes on such bonds. In this circular they say: "Disregarding temporary price fluctuations, we think that fundamental conditions favor the purchase of long-term, high-grade bonds at this time."

—Announcement is made of the formation of the firm of Danforth & Marshall, members of the New York Stock Exchange, to continue the business of C. E. Danforth & Co., which partnership expires by limitation. C. E. Danforth and James G. Marshall are general partners and I. Townsend Burden, William A. Johnston and Lindsey Hopkins are special partners.

—Fisher C. Baily, formerly of the firm of Joshua L. Baily & Co., and grandson of the founder of that business, has announced the formation of a firm at 53-55 Worth St., New York, to handle the accounts of Southern cotton mills making staple cottons and domestics.

—Mr. Joseph H. Seaman, member of the New York Stock Exchange, and Mr. Frederic E. Mawle announce the formation of a co-partnership on July 2 1923 under the name of Seaman & Co., with offices at 32 Liberty St., New York. The firm will transact a general investment brokerage business.

—Prichitt & Co., having sold their membership on the New York Stock Exchange, will, on July 1, incorporate under the laws of New York State the firm name then to be Prichitt & Co., Inc. The personnel of the company will remain the same as heretofore.

—Hanson & Hanson, 25 Broadway, New York, have issued a public utility circular outlining "Present Opportunities in Bonds Yielding 6% or Better."

—Affairs of the Kennecott Copper Corporation are discussed in an analysis just prepared by A. A. Housman & Co.

—Lamport, Barker & Jennings, Inc., announce that their firm name has been changed to A. M. Lamport & Co., Inc.

—"Just a Few Facts About Atchison" is the caption of a circular issued by Lamborn, Hutchings & Co. this week.

AMERICAN CAR AND FOUNDRY COMPANY

TWENTY-FOURTH ANNUAL REPORT—FOR FISCAL YEAR ENDING APRIL 30 1923.

To the Stockholders:

The earnings of the Company for the fiscal year ended April 30 1923 were sufficient for the payment of dividends of seven per cent on the Preferred and of twelve per cent on the Common Capital Stock, and for the transfer to the Surplus Account of an amount in excess of Five Hundred Thousand Dollars. The financial condition of the Company at the close of the year is shown in detail on the General Balance Sheet which, with the usual Certificate of Audit, is annexed.

Buying by the railroads during the year has been in fair volume. The Company begins its new year with an amount of business on its books comfortably in excess of that at the beginning of the preceding period, and there is every reason to believe that the business done during the year now current will be equal at least to that done during the year just closed.

The need of new equipment still continues, and with the further development of the fairer public attitude towards the railroads referred to in the letter of June last to the Stockholders, the problem of financing its purchase should be less difficult of solution than it has been for some time past.

Equipment buying during the year has been mainly domestic, there having been but little foreign business offered at prices and on credits to make it attractive. The Company's miscellaneous business, as usual, has been sufficient in volume and satisfactory in results. The plants have been maintained in a state of high efficiency and their productive capacity has been increased.

While the inventory of Materials on Hand shown on the General Balance Sheet is greater in money value than at the close of the preceding year, it is not proportionately greater in actual quantity. It is not in excess of the Company's reasonable requirements, and substantially all of it will be absorbed in the completion of work in course or on the books. In the report of last year attention was called to the fact that "the Company's resources in the way of investments are fluid and can readily be turned into cash to meet the demands of increased business." The demands of the year's business have necessitated the conversion into inventory and accounts and notes receivable of a large part of the item of U. S. Certificates of Indebtedness, Liberty Bonds, Victory Notes and U. S. Treasury Notes shown on the balance sheet of April 30 1922.

The remaining items shown on the Balance Sheet call for no special comment.

The Company enters upon its new year in sound financial condition and with its affairs in healthy and satisfactory shape.

The Management renews to the members of the working organization its thanks for the zeal and ability with which they have labored and which have been such important factors in producing the very satisfactory results of the year's operations.

By order of the Board.

Respectfully submitted,

W. H. WOODIN, President.

June 28, 1923.

GENERAL BALANCE SHEET, APRIL 30 1923.

ASSETS.

Property and Plant Account		$72,758,546 80

Net Working Capital, excluding Reserves, April 30 1923	$23,914,952 18

W. H. WOODIN, Esq., President American Car and Foundry Co., New York:

Dear Sir:—We have made an audit of the books and accounts of the American Car and Foundry Company for the fiscal year ending April 30 1923, and in accordance therewith, we certify that, in our opinion, the foregoing statements of Income and the General Balance Sheet are true exhibits of the results of the operation of the Company for said period, and of its condition as of April 30 1923.

THE AUDIT COMPANY OF NEW YORK.

A. W. DUNNING, President. H. I. LUNDQUIST, Secretary.

New York, June 30, 1923.

COMMERCIAL EPITOME

[The introductory remarks formerly appearing here will now be found in an earlier part of the paper immediately following the editorial matter, in a department headed INDICATIONS OF BUSINESS ACTIVITY."]

Friday Night, June 29 1923.

As a move to offset overproduction, on June 26 the Prairie Oil & Gas Co., the big purchaser in the Mid-Continent field, announced it would curtail purchases of oil by prorating all runs from wells in all fields of Oklahoma, Kansas and North Texas, where it is a buyer. Backing up on its lines made prorating necessary To further relieve the situation no oil will be run from new properties. Runs from properties to which it is connected will be increased on account of new wells which may be brought in during periods of prorating. Producers are being urged to refrain from drilling any more wells in order to stop Oklahoma's rising production. The Cosden Pipe Line Co. has also decided to prorate runs in the Mid-Continent field. The reduction will amount to about 30% of the oil now being purchased from producers. Sinclair also will prorate runs in Kansas, Oklahoma and North Texas; no further oil, it is understood, is to be stored and runs from wells will be limited to deliveries to refiners. The new policy is in the opinion of leading authorities, the only practical method for balancing production and consumption.

California stocks continue to gain. For instance, the estimated daily production of the three southern flush oil fields in Southern California in the week ended June 23 was 566,000 barrels, against 581,000 in the preceding week. According to figures collected by the American Petroleum Institute the total production of crude oil in California for May amounted to 21,535,365 barrels, an average of 694,689 barrels per day. This is an increase of 4,824 barrels per day over April production. Stocks increased during the month 542,946 barrels. The total stocks at the end of the month were 69,480,405 barrels. The total stock increase for 1923 up to May 31 was 8,295,477 barrels. Indicated consumption for May was 20,992,419 barrels, an average of 677,175 barrels per day. This is a increase of 65,439 barrels per day over April. Fifty-six wells were completed during the month with an initial daily production of 96,420 barrels, compared with 60 wells completed during April with an initial daily production of 117,589 barrels. Early in the week the Magnolia Petroleum Co. announced a cut of 5c. to 25c. per barrel in Texas crude oil. Mexia crude was cut 25c. to $1 25 and Currie crude 35c. to $1 35 by the Humble Oil & Refining Co. These cuts were believed to be in anticipation of a pipe line from Currie to Powell field. The Texas Co. has made similar reductions in both grades.

Penn	$3 00	Ragland	$ 90	Illinois	$1 87
Corning	1 70	Wooster	1 90	Crichton	1 45
Cabell	1 71	Lima	2 08	Currie	1 35
Somerset	1 55	Indiana	1 98	Plymouth	1 25
Somerset, light	1 75	Princeton	1 87	Mexia	1 25

RUBBER quiet and lower. First latex crepe and smoked ribbed sheets, spot and July 25 3/8c.; Aug., 25 5/8c.; Sept., 25 7/8c.; July-Dec., 26 1/2c.; Oct.-Dec., 27c. Buyers ideas are slightly below those of sellers. Buying by consumers is very small. Later the market rallied a little, but price ended lower than a week ago. In London on June 25, plantation standard sold on the spot at 13 7/8d., a decline of 1/8d. A further reduction of 414 tons was made last week in London stocks, which, according to official returns, were 51,090 tons, against 51,504 tons a week ago, 71,450 tons a year ago and 69,865 tons in 1921 at the corresponding time. In London on June 26 plantation standard on the spot fell 1/8d. to 13 3/4d. But on June 27 it fell to 13 1/2d. On the 28th inst. it advanced to 13 5/8d.

HIDES have been quiet as a rule, and country hides weak, though foreign a trifle steadier; 3,000 La Plata cows sold at 10 3/4 and 2,500 Smithfields, about 11 5/8c. Steers recently sold at 14 1/4c. Domestic prices have been largely nominal. Horse hides dull. Eastern sellers ask $4 50 to $5 25. Some 1,000 frigorifico cows sold at $29, or 11 11-16c. Steers lately sold at 14 3/4c. and some sellers ask 15c. Some late advices state that 4,000 Swift Montevideo steers sold at $37 50 and 2,000 Armours and 1,000 La Blancas at $37. About 4,000 washed city Mataderos sold at 13 7-16c. Common dry hides dull and weak. In Chicago packer hides were quiet. On the 26th inst., following the large western sales at declines, local packers sold about 75,000 January to June heavy native steers at 11c., April-May butt brands at 11 1/2c., and some salting Colorados at 10 1/2c. Country hides were dull and weak at 11 to 12c. for steers 60 or over. Horse hides were nominal at $5 for good quality. About 5,000 Brooklyn small packer April-May-June natives sold at 12c.; brands at 10c. It was reported that about 4,000 Swift Montevideo steers were sold to Europe at 14 3/4c., and about 5,000 frigorifico steers late last week to fancy leather tanners at something like 15c.

Later in the week trading became livelier in some directions. Of domestic packers 2,000 April native steers sold at 11 1/2c. and 2,000 May at 13c.; also 5,000 April-May and some June all-weight native cows at 9 1/2c. for stuck throats and 9c. for koshers. Some 30,000 natives and 39,000 branded steers sold earlier in the week at 11c. for natives and 11 1/2c. for butts and 10 1/2c. for Colorados as to salting. About 2,000 Eastern small packer December through June native steers sold at 11 1/2c. and brands at 10c. selected. Country remained dull and recent prices are considered nominal. Wet salted frigorificos sold moderately to Europe. Sales reported included 4,000 La Blanca and 2,000 Swift La Plata steers at 14 3/4c., 2,000 Swift Montevideo steers at 15c. and 2,000 Artigas steers at 15 1/2c. Also 3,000 B. A. Province Matadero cows at 10 7/8c. and 2,000 Cordoba frigorifico type cows at 10 3/8c.

OCEAN FREIGHTS were quiet as a rule and about steady early in the week. Coal tonnage was rather more active at one time. Later time charters were in better demand.

Charters included coal from Hampton Roads to Rotterdam-Hamburg range, $2 20 July; ore from Poti to Baltimore, $4 60 June-July; 3 months' time charter, 1,480-ton steamer in West India trade, $1 20 June; coal from Atlantic range to Piraeus, $4 June-July; to Rotterdam, $2 40 June-July; to Antwerp-Hamburg range, $2 40 July; sulphur from Sabine to Montreal at $4 50 July; grain from Montreal to one, two or three ports on west coast of Italy, 3s. 10 1/2d. 4 to 4 1/2d. July; 6 months time charter, 1,120-ton steamer in West India trade, $1 40 July; one round trip, 1,830-ton steamer in West India trade, 90c. prompt; coal from Virginia to San Antonio, Chile, $2 50 prompt; coal from Atlantic range to Continent, $2 25 July; coal from Atlantic range to Rotterdam, $2 25; option French Atlantic, $2 35 prompt; coal from Atlantic range to Nantes, $2 80 June; grain from Montreal to West Italy, 17 1/2c. July; coal from Hampton Roads to two ports in Italy, $3 July; grain from Montreal to Italy, 3s. 9d.; one round trip in West India trade, 1,850-ton steamer, $1 20 prompt; four months time charter, 1,760-ton steamer in West India trade, $1 25 prompt; deals from Three Rivers to Liverpool, 65s. prompt; three trips in United States-South American trade, 3,583-ton steamer, first trip $1 05; other two at $1 10 July; coal from Atlantic range to Algiers, $3 July; coal from Hampton Roads to West Italy, $3; grain from Montreal to Genoa, 18c. first half July; coal from Atlantic range to Continent, $2 25, option Dunkirk or Calais at $2 35, first half July; three months time charter, 1,486-ton steamer in West India trade, $1 17 prompt; three months time charter, 1,631-ton steamer in West India trade, $1 15 prompt.

COAL has been dull and tending downward on bituminous, and prices were firm. Coke has been weak with the output 307,400 tons for the week ending June 16, an increase of that of the previous week of 6,700 tons. Contract for the third quarter, $5 50 to $5 75; spot, furnace, $4 50 to $5; spot, foundry, $5 50 to $6. There is said to be an English inquiry for 300,000 tons of Pennsylvania and New River-Pocahontas low volatile coal, American coal to be shipped to the Continent. Also it is said that Milan, Italy, gas works want 100,000 tons of Kanawha gas coal. Welsh coal dropped recently 2s. 6d. to 4s. Later in the week coal was still generally dull and weak though domestic sizes of anthracite were steady. It was understood that the prices on low volatile Pool 1 coal at the Virginia piers had fallen further. The high volatile coals were quoted generally at $4 50, but there was little selling. Outward bound shipments were all of April and early May contracts. The demand was better for high priced coal than for the cheaper. Domestic sizes of anthracite sell readily. Soft coal was persistently neglected. Some Southern mines, it is said, will be shut down if prices continue to fall. One of them has made its minimum price for Hampton Roads $6. for Pool 1. Others are, it is said, taking similar measures. Spot quotations for the Southern coals were Pool 1, $5 30; Pool 2, $5 20; high volatiles, $4 30 to $4 50. On Thursday the tone was rather steadier The demand was somewhat better. Pool 1 Hampton Roads was $5 25 minimum, Pool 2 $4 75 to $5 25, high volatiles $4 25 at the lowest.

TOBACCO has been in the main steady, without real activity in business. Yet a fair trade is in progress, though business is inferentially hampered to a certain extent by the smallness of supplies of some descriptions. For wrappers and fillers in general there is a fair demand and it is said that prices are in most cases well maintained. Also it is stated that manufacturers are doing a good business. That is easily comprehensible with labor so generally employed at high and in some trades even abnormally high wages.

COPPER quiet with at least two producers, it is said, offering at 14 3/4c. However, 15c. seems to be the official price. Very little copper is being sold. Business in brass and copper products, particularly copper wire, however, is better. The consumption of copper in the United States this month is estimated at 115,000,000 and the belief is widespread that for the second half of the year it will average about 100,000,000 lbs. monthly. Production is smaller in the Lake district owing to a small demand and a shortage of labor.

TIN declined with a lower London market. The statistics on July 1 are expected to be unfavorable. The world's

visible supply is expected to show an increase. American deliveries will total about 5,000 tons. Bank shipments from the Dutch East Indies are reported to be large this month. Spot tin was quoted at 38¾c.

LEAD declined in sympathy with other metals. London has also been falling. Business is quiet. Spot New York, 7c.; East St. Louis, 6.70 to 6.75c.

ZINC like other metals declined; spot New York, 6.10@ 6.15c.; East St. Louis, 5.75@5.80c.

STEEL as a rule has been quiet and the hot weather has cut down output. Rail buying has been good. Sales or inquiries of late have involved 120,000 tons. Chicago and Alabama mills will supply some to Western roads. There was also railroad inquiry for a considerable quantity of plates, shapes, bars, sheets, forging billets, nails and staples and locomotive tires and axles. Malleable foundries are pretty busy. There is a Japanese demand for some 40,000 boxes of tin plates, and considerable of this business, if not all, is likely to come to this country. There is also a Japanese demand for rails both from Government and private buyers. Automobile companies are not buying freely for the third quarter, however. But makers of parts may run at about capacity during July, despite predictions to the contrary. Some of the steel mills, however, find it easier to make deliveries. They have overtaken their orders. Yet most of the large companies will continue at about the present rate of output. Some of the rolling mills have reduced their production, especially on tin and sheet plates, owing to the hot weather. The shutdowns planned for July 1, however, will, it is pointed out, affect only a small minority of producers. Sheet and tin plate curtailments in the Pittsburgh and Youngstown districts have been 15 to 30%. Pittsburgh makers can supply bars, however, for delivery within two or three weeks; also plates and line pipe. In a word, slackened buying is beginning to show. Though some reports in the Pittsburgh district say that there is a somewhat better demand for sheet bars, there is no claim of a large business.

PIG IRON has been quiet. Trade is disappointing. Third quarter demand does not appear. Pittsburgh has dropped its prices without result; trade halts. Chicago and Cincinnati have reduced prices $1 also practically without response from buyers. The Eastern demand is conspicuously unsatisfactory. The West sells pig iron more easily than the East. The Chicago district is a case in point. At $50 or less its business is better. The demand is for both malleable and foundry. Inquiries ran up into some 7,500 tons. Foundry has sold at $29 50, it seems, to an Indiana melter. East Indian pig iron has, it seems, been sold on both the Atlantic and Pacific coasts during the past few months, i. e., about 5,000 tons, it is said, for delivery at Atlantic ports and 4,000 tons on the Pacific Coast. Prices on the Atlantic seaboard have ranged from $27 to $30, c. i. f., duty paid, and on the Pacific Coast from $4 75 to $36 75, duty paid. Scotch iron has recently sold to a small extent for delivery to both the Atlantic and Pacific coasts, the price delivered being about $27, it is said. Charcoal pig iron has sold at $33 or less, in contrast with the official quotation of $33 50.

WOOL has been quiet but about steady. None the less, the tendency in some directions has been to ease prices to make sales. Smaller holders have in some cases, it is intimated, found it financially desirable to realize on their stocks. Naturally this has not quickened the mills' desire to buy. They think by playing a waiting game they will get wool at lower prices. Some holders, however, are not altogether pessimistic. They contend that the mills have held off so long that their supplies must be becoming depleted. They urge that at no very distant time manufacturers will be forced to re-enter the market. In New England trade has been quiet and prices none too steady. Some have been irritated by a Government expert's prediction of lower prices. Some of the mills are at one with him for all that, as might be expected. Western markets have been quiet. The West is reported quiet owing to low bids. The large Swan land and Livestock clip in Wyoming sold, it seems, at 47½c. for half-blood and fine wool. As a rule, the price level is now 5 to 10% below the peak. Fine delaine clips, bright wool, about 46c. to 48c., as against 50c. at the "high." Woolen mills are now running steadily. Spinners and topmakers are generally pretty well employed and prices have not been cut very deeply. Exports continue of wool to Europe, including very good fine Montevideo crossbreds. Montevideo merinos sold at $1 05 to $1 10, clean basis f.o.b. for export. Sales of medium scoured wools have been made at lower prices; also of low scoureds, Eastern B supers quoted at 80 to 90c. Fine staple wools have been rather steady.

In London on June 26 the fourth series of colonial wool auctions since the turn of the year opened. Some 161,000 bales of free wools and 62,000 bales of "Bawra" wools are to be offered during the 19 selling days scheduled. At the opening on Tuesday there was a very large attendance and demand fair for the 14,127 bales offered. The price limits, however, especially on Australian and Cape mediums, caused many withdrawals. This division showed a decline of 5% below last month's prices. Of New Zealand greasy crossbreds, there were large offerings. Yorkshire was the largest buyer at a decline of 7½% under May. Similar qualities of Puntas fell 5%. The best Queensland greasy merino sold at 31d. and Sydney scoured merino at 49½d. New Zealand greasy crossbreds sold at 24d.; slipe, 25½d.; Cape greasy, 21½d.; snow white, 48½d., and Puntas greasy crossbred, 23½d. American buyers were quiet; in fact, demand in general was hesitating. Cape of Good Hope and Natal and Punta Arenas grades fell from 5 to 7½%.

In London on June 27 offerings were 12,000 bales of free wools. Australian greasy merino were plentiful. Openings prices for scoured qualities were unchanged. But one drawback was the numerous withdrawals of Australian and Cape greasy merinos, due to the limits named. Sydney, 3,299 bales; greasy merinos, 20½d. to 32½d.; scoured, 24½d. to 53d. Queensland, 2,457 bales; greasy merino, 21½d. to 32d.; scoured, 47d. to 56½d. Victoria, 1,523 bales; greasy merino, 24d. to 33d. Adelaide, 1,550 bales; greasy merino, 20d. to 31½d. West Australia, 840 bales; greasy merino, 21½d. to 28d. New Zealand, 1,990 bales; chiefly medium to coarse greasy crossbreds, 9d. to 14½d. In London on June 28 free wools offered were 13,500 bales, chiefly crossbreds. Demand good mostly from Yorkshire at the full opening prices. Withdrawals much smaller. Sydney, 606 bales; greasy merino (mostly to France), 26d. to 33d. Victoria, 4,830 bales; crossbreds, best greasy, 17d.; scoured, 27d.; lambs, 28d.; comeback, 40½d. West Australia, 573 bales; scoured merino, 45d. to 49½d. New Zealand, 7,040 bales; crossbreds, greasy, 7¾d. to 24½d.; slipe, 11¼d. to 26d. Capes, 335 bales; best greasy, 17d.; snow white, 49d.; snow white prize wool, 56d.

COFFEE on the spot quiet; No. 7 Rio 11¼c.; No. 4 Santos 14@14½c.; fair to good Cucuta 14¾@15½c. Futures early in the week declined owing to lower prices in Brazil. Santos fell 1,250 to 1,450 reis and Rio 475 reis on some deliveries, though unchanged on others. Rio exchange after irregular fluctuations advanced 9-64d. on Monday while dollar exchange fell 200 reis. Brazil it is intimated may stabilize her exchange rates. Negotiations to that end are understood to be under way. Later prices advanced with Brazilian quotations higher and rumors that the Brazilian Government would give support to coffee prices. They were believed to derive a certain color from the official cables from the Brazilian ports. In Rio there was still more or less irregularity in rates, as exchange on London was ⅛d net lower, while there was a decline of 100 reis in the value of the dollar. On the 26th inst. however, coffee prices were generally higher, showing net advances of 75 to 350 reis in Rio and 400 to 650 in Santos. On the 27th inst. in Rio the London exchange rate was up 1-16 or 5 13-16d. and the dollar rate down 70 reis at $9,000. But term markets were irregular. Rio closed unchanged to 125 lower and lost 150 to 350 reis that morning. Santos closed 300 lower, though 125 to 300 higher early. The feature of the cost and freight market was the acceptance of a bid of 9.20c. for Rio 7s prompt shipment.

Rio cabled that the coffee trade there is demanding immediate Government aid to prevent a further drop in prices, and that Government officials are conferring in regard to the matter. A Santos firm cabled "Exchange excited and advancing. Crop damaged by rains. Weather bad for harvesting. Receipts likely to fall off owing to bad weather." There was nothing said about Government support. But the higher cables and also the absence of July notices helped prices on the 27th. Victoria 7-8s were offered at 9½c. c.&f. and 7s at 9.65c., both July shipment. Meanwhile invisible stocks are not believed to be large. They are steadily decreasing. Deliveries in June have been some 200,000 bags smaller than in May and 140,000 bags smaller than in June 1922. The receipts at Braziiian markets are comparatively small. The next crop will, to all appearance, be large, but in the judgment of not a few it will be no larger than needed. It looks to some as though it will not be so large as to have a carryover on July 1 1924 big enough to banish concern for the size of the crop of 1924-25; quite the contrary. The crop might conceivably be so small or moderate as to bring about an acute situation. But of course that is looking rather far afield. Meantime it was pointed out early in the week that the changes in the Brazilian money exchange rates had been favorable; that any increase in the money value of exchange in Brazil is the prelude to a decrease in milreis price for coffee, but does not as a rule affect the price of cost and freight offerings, as the fluctuations balance each other. At one time here selections of Santos coffee commanded good premiums. Less desirable has been dull. The scarcity of No. 7 Rio has brought about a rather remarkable narrowing of the price differences between grades; i. e., at times to ⅛c. To-day futures declined 5 points and they end 19 to 23 points lower than a week ago. September and December were under pressure to-day, though the latest Brazilian cables were stronger. To-day there was a holiday in Brazil.

Spot (unofficial)	11½c.

SUGAR.—Cuban raw early in the week with continued hot weather and a growing demand advanced under the spur of an active demand for refined. In London Java was stronger. Refined was 9¼c. But on the 26th inst., much to the surprise of many, raw sugar futures broke some 55 points, coincident with a break in the stock, cotton and grain markets, followed by big Wall Street selling, partly on stop orders. Also European hedge selling against Java sugar told noticeably on prices. Finally Cuban selling of September and December also had a depressing effect. Receipts at

Cuban ports of the week were 47,184 tons, against 30,894 last week and 80,880 in the same week last year; exports, 64,202 tons, against 68,129 last week and 121,454 in the same week last year; stock, 608,979 tons, against 625,997 last week and 917,520 in the same week last year. Centrals grinding totaled 8, against 9 last week, 24 last year and 17 two years ago. On the 27th inst. selling in sugar was again heavy both by Wall Street and houses with Cuban and European connections. Many stop loss orders were caught. The chief drawback with sugar futures was a sudden drop in the demand for refined sugar, which has been disappointing. It is pointed out that it is one thing to consume 100 lbs. of sugar per capita when raw sugar costs the ultimate consumer 5 or 6 cents, and another thing to consume this amount when the retail buyer is paying 12 cents. Wall Street is bearish. On the 28th inst. 12,000 bags of Cuba, second half July shipment, sold at 5⅛c., c. & f. Cables from London said estimates there of the Java sugar crop now being harvested have been reduced 10%. This is equal to 170,000 tons on a Java crop of 1,700,000 tons. To-day futures were slighily higher. There was no great pressure to sell either the actual sugar or futures. Philippines was said to be obtainable at 6.91c., i. e., 5⅛c. on the basis of Cuba. There is a decline in futures for the week of 64 to 71 points. Closing prices were as follows:

Spot (unofficial) 5¼c.	September 5.03@ 5.04	March 3.65@ 3.66	
July 5.05@ 5.06	December 4.55@ 4.56	May 3.72@ ----	

LARD lower; prime western, 11.40@11.50c.; refined to Continent, 12.25c.; South America, 12.50c.; Brazil in kegs, 13.50c. Futures in the early transactions showed little change. If anything, the turn was slightly downward, owing to hedge selling and lower prices for hogs. Cash trade too was dull, both for home and foreign account. The clearances of lard last week were 12,211,000 lbs. and of bacon 15,787,000 lbs. Liverpool was unchanged to 3d. higher on the 25th inst. A conference here of various interests will have available the results of the country-wide pig count, just completed by the Department of Agriculture in co-operation with the Post Office Department, giving estimates of the spring pig crop and intentions of farmers to breed for fall litters. There will also be available the Government crop estimates of corn acreage and production to be released on July 9. With these sets of facts as a basis for forecasts, the committee is expected to announce information which will be helpful to farmers in making their program for next fall and winter. To-day futures declined 8 to 15 points, showing a loss for the week of 30 to 33 points, largely in sympathy eith a drop in the grain markets.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery cts.	10.97	10.95	10.87	10.82	10.75	10.67

PORK quiet; mess, $25; family, $30; short clear, $21 tc $25 50. Beef dull; ness, $15; packet, $14 50 to $15; family, $16 50 to $17 50; extra India mess, $28 to $30; No. 1 canned roast beef, $2 35; No. 2, $4 05; 6 lbs., $15; sweet pickled tongues, $55 to $65 nom. per barrel. Cut meats dull. Pickled hams, 10 to 24 lbs., 14¼ to 16½c.; pickled bellies, 6 to 12 lbs., 13 to 13½c. Butter, creamery, seconds to high scoring, 35 to 40c.; Cheese, flats, 25 to 26c. Eggs, fresh gathered, trade to extra, 20 to 30c.

OILS.—Linseed quiet and easier; spot carloads, $1 08 to $1 12; tanks, $1 09; less than carloads, $1 17; less than 5 bbls., $1 20; boiled, tanks, $1 11; carloads, $1 16; 5-bbl. lots, $1 19; less than 5 bbls., $1 22; refined, bbls., car lots, $1 18; varnish type, bbls., $1 18. Cocoanut oil, Ceylon, bbls., 9⅜ to 9½c.; Cochine, 10¾c. Corn, crude, tanks, mills, 9⅜c.; spot New York, 11¼ to 11½c.; refined, 100-bbl. lots, 12¾c. Olive, $1 15. Lard, strained winter, New York, 12c.; extra, 11½c. Cod, domestic, 68 to 70c.; Newfoundland, 70 to 74c. Spirits of turpentine, 96c. to 98c. Rosin, $5 80 to $7 50. Cottonseed oil sales, including switches, to-day 6,900; crude S. E., 9.00c. nom. Prices closed as follows:

Spot 10.50@10.75	September 10.51@10.52	December 8.62@ 8.63	
July 10.60@10.64	October 9.62@ 9.63	January 8.60@ 8.65	
August 10.70@10.74	November 8.70@ 8.78	February 8.61@ 8.75	

PETROLEUM.—Gasoline in better demand, with improved weather conditions. Consumption in some sections it is reported, is running as much as 20% ahead of last year. Naturally there is more or less hesitancy on the part of producers to make concessions in tank wagon prices. In the Middle West independent refiners have been handicapped in their operations owing to recent cuts in crude oil. Offerings of new Navy gasoline from north Texas points, it was said, were made at 10¼c., which is probably as low as was reached last fall. The imposition of taxes amounting to 2c. per gallon in Virginia and Pennsylvania caused an advance in prices. Very little interest was manifested in eastern field development owing to the lowness of Pennsylvania crude oil prices. Much of the competition from independents is eliminated through the fact that Eastern refiners are getting a large proportion of their gasoline from California crudes which are shipped through the Panama Canal. This means a saving of 4 or 5 cents over the old method of shipping Mexican crudes across the continent in tank cars. New York prices: Gasoline, cases, cargo lots, 28.65c.; U. S. Navy specifications, bulk, per gallon, 15c.; export naphtha, cargo lots, 17.50c.; 63 to 68 degrees, 19.50c.; 66 to 68 degrees, 20.50c. Kerosene in cargo lots, cases, 15.90c. Petroleum, refined, tanks, wagon to store, 14c. Motor gasoline, garages (steel barrels), 21½c.; bulk, delivered, New York, 14½c.

COTTON.

Friday Night, June 29 1923.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 29,371 bales, against 30,728 bales last week and 31,651 bales the previous week, making the total receipts since the 1st of August 1922 5,638,548 bales, against 5,920,633 bales for the same period of 1921-22, showing a decrease since Aug. 1 1922 of 282,085 bales.

NOTE.—*Exports to Canada.*—It has never been our practice to include in the above talbe exports of cotton to Canada, the reason being that virtually all the cotton destined to the Dominion comes overland and it is impossible to get returns concerning the same from week to week, while reports from the customs districts on the Canadian border are always very slow in coming to hand. In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the crop year from Aug. 1 to May 31 (no later returns are as yet available) the exports to the Dominion the present season have been 181,541 bales. In the corresponding period of the preceding season the exports were about 174,000 bales.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named.

June 29 at—	On Shipboard, Not Cleared for— Great Britain.	France.	Germany.	Other Cont'nt.	Coastwise.	Total.	Leaving Stock.
Galveston	1,200	3,800	4,000	7,055	1,000	17,055	33,715

* Estimated.

Speculation in cotton for future delivery has been on a fairly large scale, with prices turning downward early in the week on better weather and depression in stocks and grain. Texas crop reports were favorable. They seemed to indicate a condition of some 4 or 5 points better than a month ago and something above the 10-year average, though it may not be more than 1 or 2 points. Texas has been a bright exception to the rule, although the rest of the belt has improved. Most of the crop reports have been less favorable than a year ago. Still, this kind of thing ceased to be a factor during most of the week. It had lost its force. And speculation died down. Spot markets were dull and falling. Exports were light. They are well over 1,000,000 bales less than up to this time last year. And other commodities have been declining. Sugar had a bad break and wheat got down pretty close to $1 in the middle of the week. The depression in the stock market, however, and predictions of evil things to come by some of the self-appointed economic mentors of the times did not fall on altogether stony ground. They had, indeed, too much influence for the worse. General trade was quiet and men seemed a bit apprehensive. Manchester will continue to curtail the use of American cotton during July and August, to the amount of 50%. There were rumors that curtailment was spreading in this country. They were vague, to be sure, and not fully confirmed. Yet for the moment they had more or less effect. For dry goods were dull and declining. Cuts in the prices of sheets, sheetings and print cloths were made. Speculation became even more listless. Wall Street, uptown and Western interests sold, supposedly for short account. They dislodged long holdings. Prices broke some 120 points. Not only economic, but political, news was not altogether favorable. The deadlock in the Ruhr continues. London reported that trade in general was dull because of it. Manchester's business was slow. German textile trades seem more depressed than ever. Finally, the American cotton statistics, long regarded as so bullish, were offset in a measure by the slackness of trade at home and abroad, both for the raw and the manufactured product. Also, the weekly Government report on Wednesday was in the main very favorable. And for a time it told. Texas has been making very good progress, except on the late planted cotton. Oklahoma was fair to very good. Arkansas was making at least fair progress and Louisiana showed decided improvement. In Georgia there was excellent progress. That was also the case in parts of Alabama if other parts of that State were poor. In the Carolinas the week was generally favorable. Despite the fact that crop estimates were generally below 11,000,000 bales and that the increase in acreage of late has been put at only 6 to 8½%, rather than something far greater than this, as prophesied earlier in the year, the cotton trade was apathetic. Nothing seemed to arouse it. Trade drifted and prices drifted with it —that is downward.

But at times, for all that, there were not wanting signs of underlying steadiness. For one thing July acted better than many had expected. There were no July notices. That was a facer for some. They had hoped for a big issue. And although the premium over October recently fell to 195 points, it rallied rapidly and has latterly been around 240 points. In some quarters it is not believed that much cotton can or will be brought here for delivery on July unless the premium over October almost doubles. Latterly July, indeed, has been one of the sustaining factors of the market. When other months have declined July has hardly budged. Evidently somebody wanted it. And at the same time there are reports that some 10,000 to 12,000 bales will shortly be shipped out of the New York stock to Europe and other parts of the world. There is a demand for the New York cotton and it is not offered freely. The ocean freight room, it is said, has been taken for 10,000 bales or more. It includes, it seems, some 3,000 bales to go to Havre. And European mill stocks are believed to have become depleted in recent months. While England, for instance, has bought very little American cotton ostentatiously taking East Indian and other growths to a larger extent than usual, its consumption of all kinds has kept up. And it is believed that in spite of the curtailment of 50% in the English mills that use American cotton their supplies of the American product have fallen to a comparatively low stage. In other words, it looks as though they will be forced before many weeks to re-enter the market. At any rate that is the judgment of not a few close watchers in the trade. And on its face there is nothing unreasonable in such an inference. Meanwhile there is every indication that the carry-over into next season will be much the smallest for years past. That means that a great deal depends upon the size of the next crop in estimating the probable course of prices in the new season, which will open in about a month. And a good many think that too much is made of the glowing crop reports from Texas and too little of the unfavorable conditions in many other parts of the belt. Just at the moment there are beginning to be complaints of hot, dry weather in central and southern Texas. On Wednesday some of the temperatures in that State were 100 to 105 degrees and on Thursday 100 to 107. And even in Texas the season is supposed to be late. Oklahoma, on Wednesday, had temperatures of 100 to 104 degrees, and on the following day still higher, or 100 to 108. But there the heat is needed, for the spring and early summer have both been notable for prolonged rains. On the other hand, at times during the week Georgia has had rains of anywhere from 3 to 4½ inches in a single day. They were not wanted. Neither were the rather copious rains which fell in the eastern Carolinas. Just now what is needed generally east of the Mississippi is a period of warm, clear weather with occasional showers.

During the week a number of crop reports have been issued of roughly 68 to 69½% in condition, with crop estimates of anywhere from 10,500,000 to 10,900,000 bales. Of course, crop estimates at this time are purely tentative. They are interesting enough for the time being. The critical months, however, are July and August, as everybody is aware. The latter part of the week Liverpool became stronger, partly on less favorable weather. Southern Texas complained. Meantime Liverpool liquidation had been to all appearances pretty well completed. Also, the trade was calling there. And on Thursday New York suddenly bristled up and advanced some 50 to 65 points, under the inspiration of rising stocks and grain markets, continued hot, dry weather in Texas and the Southwest generally, reports of too much rain in the Atlantic section, higher cables, Liverpool buying of October and a general impression that Wall Street and uptown interests, if not Chicago, were heavily short. The technical position looked better. Contracts became scarce. Shorts grew anxious. Spot houses were buying as well as Liverpool and scattered interests. Liverpool undid straddles. Selling by New Orleans, the South, the West and for a time Wall Street, was quickly taken. Later on Wall Street became a buyer. Finally a good many who were short of the market concluded to cover on the eve of Monday's Bureau report. After all, it might turn out to be a very bullish document. One of the most stimulating things in the situation, however, was the advance in the stock market on active trading. It was felt that the pessimistic tone had been overworked of late.

To-day prices declined after a small early advance. The weather in the Southwest was cooler. Oklahoma had no temperatures reaching 100. And in Texas the number of points where 100 and above was recorded was about half that of the previous day. Still, there were 11 where it was 100 to 106. Louisiana had rainfalsl of 1 to 4½ inches, Mississippi 1 to 1½, Alabama 1 to 1¾, Georgia ½ to 2½, and North Carolina 1½. And there were crop reports putting the condition at anywhere from 68.7 to 70.4%. Liverpool and trade interests, as well as shorts, were buying for a time. Wall Street covered considerable October. But in the end a decline in stocks dominated the situation. And the closing was a moderate net decline for the day. Moreover, grain and foreign exchange were lower. Dry goods were quiet. Fall River's sales of print cloths for the week were estimated at only 60,000 to 70,000 pieces. Spot markets were slow. And if Liverpool cables are correct, the basis was lower. Finally, there was more or less evening up on the eve of the report to be issued by the Agricultural Bureau next Monday. Prices show a decline for the week of 37 to 43 points. Spot cotton ended at 28.55c. for middling, a decline since last Friday of 55 points.

The estate of Edward G. Gibbons sold a membership on the New York Cotton Exchange to W. R. Craig for $27,000, an increase of $1,000 over the last previous sale.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

June 23 to June 29—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Middling uplands	29.10	28.55	28.25	28.20	28.55	28.55

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on June 29 for each of the past 32 years have been as follows:

1923	28.55c.	1915	9.55c.	1907	12.85c.	1899	6.12c.
1922	22.20c.	1914	13.25c.	1906	10.90c.	1898	6.38c.
1921	11.75c.	1913	12.40c.	1905	9.20c.	1897	7.88c.
1920	38.75c.	1912	11.65c.	1904	11.25c.	1896	7.62c.
1919	34.90c.	1911	15.20c.	1903	12.50c.	1895	7.19c.
1918	32.00c.	1910	15.20c.	1902	9.25c.	1894	7.31c.
1917	26.55c.	1909	11.60c.	1901	8.62c.	1893	8.00c.

MARKET AND SALES AT NEW YORK.

The total sales of cotton on the spot each day during the week at New York are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spot and futures closed on same days.

	Spot. Market Closed.	Futures Market Closed.	SALES. Spot.	Contr't.	Total.
Saturday	Steady, 20 pts. adv.	Irregular	----	----	----
Monday	Quiet, 55 pts. dec.	Steady	----	----	----
Tuesday	Quiet, 30 pts. dec.	Barely steady	----	----	----
Wednesday	Quiet, 5 pts. dec.	Steady	----	----	----
Thursday	Steady, 35 pts. adv.	Barely steady	----	6,200	6,200
Friday	Quiet, unchanged	Irregular	32	----	32
Total			32	6,200	6,232

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

June 29—	1923.	1922.	1921.	1920.
Stock at Liverpool ..... bales.	478,000	868,000	1,100,000	1,059,000

FIRST BALE OF COTTON IN TEXAS.—According to the Houston "Post," the first bale of cotton of the 1923 American cotton crop arrived in Houston at 11.55 p. m. Saturday June 23, on a special chartered train from Kingsville. The "Post" adds:

The first bale was grown two miles north of Weslaco, in the lower Rio Grande Valley, and the honor of producing the bale goes to A. P. Thomas. It weighed 434 pounds.

It was consigned to the Wm. D. Cleveland & Sons of Houston and will be auctioned at 11 a. m. Monday at the Houston Cotton Exchange by J. T. Burwell, Secretary.

With the bale on the special train came Ferris Watson of Dallas, originator and breeder of the Watson cotton seed, from which the cotton was grown. Ewing D. Clark, ginner of the bale, accompanied Mr. Watson.

Mr. Thomas, the grower; L. L. O'Neal, Manager of the Wm. D. Cleveland & Sons branch office at San Benito, together with more than 20 other residents of Weslaco, were left behind when they had automobile trouble during the long trip from Weslaco to Kingsville.

Mr. Watson brought the news that much secrecy surrounded the ginning and shipping of the first bale, and no one in the vicinity of Weslaco or Kingsville knew of the shipping until it was loaded on the special car.

The bale was ginned at Weslaco at 1.30 p. m. Saturday and the trip to Kingsville was made overland in three hours and 25 minutes, according to Mr. Watson.

It was put aboard the special train, chartered from the Gulf Coast Line Ry., at 5 p. m., making the trip to Houston in approximately seven hours.

NEW ORLEANS CONTRACT MARKET.—The closing quotations for leading contracts in the New Orleans cotton markets for the past week have been as follows:

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening denote that temperatures have averaged about normal in the east Gulf section, but have been somewhat above normal in other sections. In all sections of the cotton belt, except the greater portion of Texas, showers have been frequent, though rainfall has been mostly light to moderate.

TEXAS.—Progress and condition of cotton are fair to very good, except some late planted cotton, which is poor on account of the extreme dryness. Weevils, grasshoppers and army worms have caused moderate damage locally in some districts, but insect damage to crop as a whole is slight. The first bale of cotton was marketed at Houston on June 25.

MOBILE.—There have been scattered showers during the week, with heavy rains in the interior on Thursday night. Good progress has been made in growth and cultivation. In some localities weevil are reported to be more numerous.

CHARLESTON, S. C.—The weather has been hot, with very little rain—a situation which has been favorable to the growth and development of the plant.

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 23,000 bales. Exports from all India ports record an increase of 37,000 bales during the week, and since Aug. 1 show an increase of 693,550 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS.

Alexandria, Egypt, June 28.	1922-23.		1921-22.		1920-21.	
Receipts (cantars)—						
This week	5,000		60,000		75,000	
Since Aug. 1	6,635,673		5,325,211		4,542,426	
Exports (bales)—	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
To Liverpool	4,000	229,908	----	164,609	----	111,195
To Manchester, &c	----	170,717	6,500	143,377	----	83,746
To Continent and India	6,000	313,545	3,100	222,143	3,250	141,712
To America	----	207,588	----	164,435	1,500	46,638
Total exports	10,000	921,758	9,600	693,564	4,750	383,291

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week ending June 28 were 5,000 cantars and the foreign shipments 10,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market in both cloths and yarns is quiet. Demand for both home trade and foreign markets is poor. We give prices to-day below and leave those for previous weeks of this and last year for comparison:

BREADSTUFFS

Friday Night, June 29 1923.

Flour has been for the most part quiet, as wheat has drifted downward. That has naturally caused a feeling of uncertainty, not to say apprehension. Where will the decline in wheat stop? It halts at times and the price rallies, but there is skepticism as to the stability of prices, with the Government continually interfering in wheat trading under the Grain Futures Act. European crop prospects are better and North Africa is shipping new crop wheat to France. One thing is considered clear enough, and that is there can be no genuine reawakening of business in flour here until wheat prices have clearly and unmistakably demonstrated their ability to advance and hold the rise. Until that becomes plain buyers are expected to buy with the old caution and hesitancy and prices will decline if wheat declines. That will be a case of cause and effect. Meantime export business as a rule has been small, though at times somewhat encouraging. Sales of American flour to Europe have been made a fact which seems to mean that Canadian millers are no longer able to undersell American millers so easily. Later on big bakers bought more freely. It was said that they placed large orders with the mills for 30 to 60 days' shipments. Details of the exact amounts purchased or the prices paid were not revealed. Significantly enough, most of the business was done directly with the mills. Price concessions, it is conceivable, were made to facilitate business. They bought both springs and hard winters and the totals were asserted to be perhaps a couple of hundred thousand barrels. As the week advanced prices fell with those for wheat and trade was small, both for home and foreign account. In Minneapolis prices last week declined. Mills still worked only at about 40% of capacity. Quotations car lots, f. o. b. at Minneapolis, showed best family patents at $6 20 to $6 35; standard patents, $6 10 to $6 25. Rye flour dropped 25c. White rye flour $3 65 to $3 85; medium $3 55 to $3 70; durum flour 20c. lower, No. 2 Semolina $5 40; No. 3, $5. Mill feed held with, with a good demand, especially for spot. Standard bran, $20 25 to $20 50; standard middlings firmer at $25 50 to $26 spot, with July-August 25; red dog, $29 to $30 50, and flour middlings, $31 to $34.

Wheat was irregular, declining, then advancing, then falling again. The net decline is sharp. Liverpool dropped ⅝d. to ¾d. early in the week. Foreign news was not at all inspiring. Exporters were small purchasers, i. e. on the 25th inst. 100,000 bushels. The weather was favorable for the new crop. Further rains fell in the spring wheat belt. In the harvesting section it was clear and warm. Offerings of new crop wheat at that time, it is true, were small, but reports on the quality of the new Okahoma crop were very favorable. Mills were good buyers at one time. Private cables from Europe, on the other hand. reported warmer weather, something favorable for its crops. But a new thing struck the attention on this side of the water early in the week. That is there were indications, or seeming indications, that farmers were beginning to hold back their wheat. It was the theme of general comment. Though the spring wheat section had beneficial rains and the winter wheat belt the needed hot, clear weather for harvesting, country offerings were light and gossip was current that growers as a rule were postponing sales until after threshing and were pursuing tactics designed to get them $1 a bushel or more. Some buying for houses with seaboard connections helped steady the market. So did some export buying. All this tended for a time to neutralize news that harvesting had begun in Illinois, especially as there were reports that considerable of the Illinois crop showed signs of having ripened prematurely. Meanwhile the American visible supply decreased last week 1,376,000 bushels, which did not pass wholly unremarked, even if it was noticeably smaller than in the same week last year, when it was 2,612,000 bushels. The total is now down to 28,343,000 bushels, against 22,002,000 a year ago. Prices fell 2 to 2¼c. on the 26th inst. on good harvesting weather, cutting in Nebraska and indications that new wheat was beginning to move more freely. At the same time demand lagged. July got down pretty close to the dollar mark. Exporters took 750,000 bushels, but it was mostly Manitoba. On Wednesday prices again fell. July got within 1⅛c. of $1. The weather was still good. Harvesting was being pushed. Also, Broomhall estimated the world's exportable surplus for the coming season at 768,000,000 bushels and put import requirements at only 656,000,000. Export trade was unsatisfactory, only about 400,000 being taken, part hard winter, but largely Manitoba. On Wednesday houses with foreign connections are supposed to have bought 2,000,000 bushels of July, September and December as hedges against sales to Europe for forward shipment. On Thursday there was an advance of 1½ to 2½c. on reports of rains in harvesting districts, rust in the Northwest, smaller country offerings, better export business of late, steady cables, larger flour sales and a somewhat oversold condition here. It made shorts nervous. Continued hot weather caused reports of premature ripening in Illinois. But drouth in the Northwest has been relieved by copious rains over part of Minnesota and North Dakota, as much as 3 inches falling here and there. Late cables from abroad reported warmer weather in western Europe. The Department of Agriculture estimates that the carry-over of wheat at the end of the crop season, June 30, will exceed 100,000,000 bushels. Italian cables said on Thursday that in the past 10 days Italian houses have bought about 4,000,000 bushels of wheat in America. Liverpool freights have been down to 1s. 3d. per quarter, or about 3½c. per bushel, and Continental freights 3¾ to 4½c. per bushel. To-day prices declined 1 to 1¼c., with less demand, good weather, more cheerful crop reports and little export business. Final prices show a decline for the week of 3 to 4½c.

December delivery in elevator	106¾	107⅛	105¼	104½	105⅞	105¼

Indian corn declined with wheat. True, the American visible supply last week decreased 1,167,000 bushels, which was greater than had been expected. It is now 3,165,000 bushels, against 31,326,000 a year ago. The Chicago stock fell off 1,156,000 and there total there is now only 405,000 bushels. Moreover, there was covering at times on the hot, dry weather over the belt. It caused at one time more or less uneasiness. And whatever the explanation of the sharp decrease in the stock at Chicago it had for a time an effect. Whether this was a mere matter of elevator bookkeeping, whether it merely marked the transfer and disappearance for the moment only, as corn was sent from one elevator to another, seemed to matter little in the end. It was as high as 100 degrees and over at half a dozen points in Illinois last Sunday, and a few reports of rain being wanted have been received. December corn for a time attracted increased attention. The big discount under the old crop deliveries was a striking feature. The East bought cash corn and took 185.000 bushels in all positions, including some fresh shelled yellow afloat for Buffalo. Most reports have shown that corn is making rapid progress, and except from parts of the Southwest there are fewer complaints of weedy fields. But later on corn again fell with wheat, but not nearly so severely, for corn has intrinsic merits of its own which differentiate it in rather striking fashion from wheat. For the weather on the whole has been too dry. Rains are needed. Receipts have been small. The visible supply in the United States is about one-tenth of that held a year ago. It has been rapidly disappearing in recent weeks. But the weekly weather and crop report was more favorable than had been expected. On Thursday, after an opening advance, prices reacted, especially on July. Good crop news depressed September and December. Over two-thirds of the belt the weather was good, with rains in the Ohio Valley, where it September and December. To-day prices dropped about 2c. and end 4¾c. lower for the week.

December delivery in elevator	67⅞	68¼	67¾	66½	65⅛	63⅝

Oats fluctuated for a time within narrow limits, ending lower. They kept steady for a time, however, in sympathy with the firmness of corn. Besides, the visible supply in the United States decreased last week 1,230,000 bushels, against 1,269,000 bushels a year ago, bringing it down to only 9,788,000 bushels, against 44,567,000 bushels a year ago. Moreover, there were some complaints of damage to the crop by hot weather. On Tuesday prices fell somewhat in sympathy with other declines in grain despite complaints of crop damage by hot weather and small receipts on both Tuesday and Wednesday. Moreover, the fundamental situation in the oats branch of the grain trade is strong enough to appeal to not a few, especially as the visible supply in the United States is only about one-fifth of that held a year ago. Later the weather was good and prices were more or less affected without giving way much. To-day prices declined ½ to ⅝c., ending ¼ to 1c. lower for the week. Small receipts and small stocks have neutralized favorable crop advices.

December delivery in elevator	39¼	39⅛	39⅛	39	39	38½

Rye declined slightly and then rallied. Later is broke. There was some slight export demand daily; sometimes not more than 100.000 bushels were actually sold. It was said, however, that 500.000 bushels were sold for export late last week. The visible supply in the United States last week decreased 777,000 bushels, against 911,000 in the same week

last year. It is now 15,420,000 bushels, against 2,580,000 a year ago. On Tuesday about 200,000 bushels were sold for export. There was a good deal of liquidation, however, with wheat off 2c. or more. On the 27th inst. 400,000 bushels were taken for export. Later prices declined with those for other grain and also, no doubt, in part because the export business again fell off. To-day prices fell and ended 1½ to 2c. lower than last Friday.

WEATHER BULLETIN FOR THE WEEK ENDING JUNE 26.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ending Jun 26, is as follows:

Unusually warm weather prevailed during the week ended June 26 in the northern half of the country east of the Great Plains, but mostly moderate temperatures prevailed in the South. Showers were rather frequent in the central and eastern Gulf States, in the western Lake region and in the northern tier of States between the Lake region and the Rocky Mountains.

Rainfall was generally heavy to excessive in Minnesota, North Dakota and Montana. Soil moisture was sufficient for present needs of vegetation in most sections east of the Rockies, although it was too dry in parts of Texas, Iowa, Illinois and Michigan and rain was rather badly needed in most localities of the northeastern States, particularly in New Jersey and portions of New York and Pennsylvania where heat and drouth were very injurious to crops. The warm dry weather in the central trans-Mississippi States was very favorable for cultivating crops and much field work was accomplished in that area. The drouth was broken in the central northern States, but permanent crop damage had been done by the drouth in many localities, particularly in North Dakota.

Harvest made splendid progress with very little interruption from rainfall, but the high temperatures were unfavorable for small grain crops. Cool, cloudy and showery weather prevailed in the more northwestern States. These conditions favored grasses and grains, but were unfavorable for farm work and row crops which needed warmer weather and more sunshine.

There was some hail damage by storms in some portions of the latter State. There was sufficient rain to improve conditions locally in the Far Southwest but in general drouth continued in that area.

Progress was very good to excellent in Arkansas except in some southern sections, where further rain fell; cultivation was rushed, but there was still considerable complaint of grassy fields. Cotton made generally fair progress in Louisiana and there was a decided general improvement in conditions with the warm fair weather in Tennessee. It was rather too showery in Mississippi and scattered showers were of almost daily occurrence in Alabama. The general conditions of the crop varies greatly in the latter State, ranging from very poor to excellent, but is mostly fair.

Much fair weather and adequate sunshine prevailed in Georgia and excellent progress was made in cultivation. Cotton made very good advance, although the plants were still small and late; chopping was completed and fields were mostly clean, with a few early blooms reported. Conditions were generally favorable in the Carolinas, where cotton did well as a rule. The plants were still small in the Piedmont of South Carolina, however, and showers would be beneficial in North Carolina. Cotton was in excellent condition in Arizona and California.

COTTON.—The temperature averaged slightly below normal in East Gulf districts, but was somewhat above normal in other sections of the cotton belt. Showers were rather frequent, though mostly light to moderate, from the Mississippi Valley eastward, but dry weather prevailed in the western and northwestern portions of the belt. On the whole the week was favorable for cotton.

Showers occurred at about one-third of the reporting stations in Texas and cotton made fair to very good progress except in some late planted, which was unfavorably affected by dryness, while weevil, grasshopper and army worm damage is considerable locally. It is light on the whole. The warm dry weather was favorable in Oklahoma, where the crop made fair to very good advance and cultivation progressed rapidly, but many fields were still grassy.

SMALL GRAINS.—Under the influence of unsually warm weather winter wheat ripened rapidly during the week, in fact too rapidly, in some sections. Harvest was in progress northward to Maryland, southern Ohio, central Illinois and eastern Kansas nearly to the Nebraska line. This work was being accomplished throughout the interior valley under very favorable weather conditions with very little interruption from rainfall, although it was uncomfortably warm. There was much complaint in Kansas that the sudden change to hot, dry weather had caused shriveling of grain, while shriveling was reported locally from the Ohio valley States. Thrashing was begun in Oklahoma.

Heavy rains occurred in much of the spring wheat belt and warm weather in the eastern portion caused rapid development. Spring wheat was still looking well in South Dakota where it was mostly headed and was generally good to excellent where well planted in North Dakota but poor to only fair elsewhere in that State. There was complaint of plants heading short in Minnesota. Very favorable weather prevailed for this crop in the more western portion of the belt.

The hot dry weather adversely affected oats in much of the Ohio valley and the crop was reported as stunted and heading short in places. Oats were in the critical heading state in Iowa, where damage was done by the heat and drouth, but conditions continued favorable in the northern plains area. Harvest was well under way in Oklahoma and progressing in the West northward to Virginia.

Rice made good growth in the lower Mississippi valley and the weather was favorable for thrashing in Texas; this crop was unfavorably affected by cool weather in California. Weather favorable for flax in northern plains area, where crop was doing well.

CORN.—Ideal corn weather prevailed throughout the interior valley States, and that crop made very good to excellent progress. It was also favorable for cultivation and much field work was accomplished. During the last two weeks favorable conditions for cultivation in Iowa has enabled farmers to overcome the weedy fields except in the northwestern portion, while most corn was waist high and well cultivated in Missouri. Cultivation made good progress in Nebraska, but many fields were still weedy in that State; corn made excellent growth.

The progress and condition of the crop was fair to very good in Oklahoma, but grain was beginning to be needed in some central and southwestern localities. It was mostly too dry for corn in Texas and rain was needed in most middle Atlantic coast area. Corn improved with better weather in the Southeastern States. This crop was retarded in the more Western and Northwestern States, owing to cool weather, and in Northwest by lack of sunshine. Broom corn in good condition but later, in lower great plains.

THE DRY GOODS TRADE

Friday Night, June 29 1923.

Although markets for textiles have not displayed any great amount of activity during the past week, a slight improvement has been noted in some directions. In the cotton goods division, the hot weather stimulated buying of seasonable lines, and a number of houses were said to have transacted quite a good business. While many cotton goods, despite the firmer cotton markets, declined in price, some lines have been advanced, such as men's wear for filling in purposes. Retailers are doing quite a good pre-holiday business on seasonable merchandise. Not only have they been helped by the spell of hot weather, but by the fact that consumers have waited until actual necessity forced them into the market for light weight goods. In keeping with the expectations of many merchants some time ago, the market movement appears to have reached a point where it is impossible to secure prices for goods on a parity with high cotton costs. As to how much longer mills will continue to sell goods without striving for immediate replacement costs will depend upon the amount of lower priced reserve cotton they have in stock and the condition of their financial reserves. Buyers well know that mills cannot manufacture bleached goods, sheets and pillow cases on a profitable basis at prevailing prices unless they use cotton purchased at much lower prices than those now quoted in speculative centres. Some mills have already been obliged to close in order to conserve their assets. The volume of production for months back has been large, while imports have also been relatively large. On the other hand, there has been no additional outlet for goods in foreign markets. Consequently, owing to the consumption uncertainties a lack of confidence exists in cotton goods values.

DOMESTIC COTTON GOODS: Demand for some lines of domestic cotton goods has been fairly active during the past week, and quiet for others. Jobbers have been quite free buyers of seasonably styled wash goods, but have not done as well as usual on the staples, such as percales, ginghams, etc. White goods houses have been doing a quickened business in a few lines, such as dobby effects and box loom fine white novelties. Ginghams continued dull, and while style, backward season and other reasons are given for the slow sales, some of the selling agents maintain that prices are too high to be attractive. Towels, bedspreads, damasks and many of the cotton yarns and other cotton products are inactive. Print cloths, sheetings and many of the convertibles have also been dull, with sales light and prices quotably easier. Jobbers' sales of wash fabrics indicate that demands are moved by actual wants. Anything that is staple is not moving well, while such fabrics as flock dot voiles, crepes or fancy ratines can be easily sold. Most of the retailers, however, are buying from hand to mouth, and are showing reluctance in ordering anything more than they can re-sell quickly. There have been a few cancellations of fall business in local and out-of-town converting and jobbing houses, but they have been small and unimportant and are believed to reflect simply the general hesitation of the time. There are indications of a more active demand developing for colored cottons within the next ten days or so, as several buyers have been making inquiries, and it is expected that they will be inclined to entertain offers on standard makes. Print cloths, 28-inch, 64 x 64's construction, are quoted at 7⅜c., and the 27-inch, 64 x 60's, at 6⅞c. Gray goods in the 39-inch, 68 x 72's, are quoted at 11⅛c., and the 39-inch, 80 x 80's, at 12⅝c.

WOOLEN GOODS: Only moderate activity prevailed in markets for woolens and worsteds during the past week. There has been a noticeable increase in duplicate business among some of the men's wear houses, and buyers have been willing to pay some of the advances recently named on special cloths. The duplicate business, however, has not as yet acquired the necessary momentum to reflect strongly on the market. In the dress goods end, business continues to hold up well. Although the trade has not been taking staples in serges, there has been quite a good demand for twills and cords, and the general situation is considered healthy. Demand is keeping pace with production, cutters continue to operate cautiously and stocks are low. Merchants are predicting a good spring trade in woolens. Spring goods among clothing manufacturers are said to be scarce. Liquidation has been thorough, and when business sets in there will be a big gap to fill. A number of piece goods selling agents are reported to have already received inquiries from clothing manufacturers who are anxious to place orders for light weight goods as soon as possible in order to assure early deliveries.

FOREIGN DRY GOODS: An improved demand from retailers has been noted in the linen market during the past week. Household linens have beeen in particular request, but the quantities involved have not been large, as the seller was not disposed to part with goods at what were considered distress prices. The retail trade has been seeking bargains for special sales, and their bids in many cases have failed to result in business. Importers continue reluctant to offer concessions to accommodate buyers, but have beeen prepared to negotiate business on reasonable terms. According to reliable authorities, retailers' stocks are much depleted, and it is believed to be only a question of a few weeks when they will re-enter the market for their normal requirements. Burlaps ruled steady with demand moderate. Light weights are quoted at 5.40 to 5.45c. and heavies at 7.45c.

State and City Department

State and City Section.

A new number of our "State and City Section," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One containing the New England, Central and Middle States, being issued to-day, while Part Two, embracing the rest of the country, will be published next December.

NEWS ITEMS.

Ceara (State of), Brazil.—*Bonds Offered in United States.*—A syndicate composed of J. S. Bache & Co., New York; the Interstate Trust & Banking Co., New Orleans; the Mortgage & Securities Co. of New York and New Orleans, and Mark C. Steinberg & Co. of St. Louis, is offering to the American public an issue of $2,000,000 8% external 25-year secured sinking fund gold bonds. The offering price is 99½ and interest. The bonds are coupon in form, registerable as to principal, in denominations of $500 and $1,000 and mature Dec. 1 1947, but are redeemable as a whole only at 105 and interest upon eight weeks' notice on any interest date on and after Dec. 1 1937. Prin. and semi-ann. int. (J. & D.) are payable in U. S. gold coin, free of all present and future imposts, contributions and taxes of the State of Ceara and the United States of Brazil, at the Interstate Trust & Banking Co., New Orleans, trustee, or at the First National Bank, New York.

Further details of the loan may be found in our "Department of Current Events and Discussions" on a preceding page.

Denver (City & County of)—Moffat Tunnel Improvement District, Colorado.—*U. S. Supreme Court Holds Moffat Tunnel Law Valid.*—The Moffat Tunnel Law, which has been in litigation since its enactment at the special session of the Legislature in the spring of 1922, has been upheld by the U. S. Supreme Court, agreeing with decisions rendered by the Colorado State Supreme Court and the Jefferson County District Court.

The law provides for the issuance of $6,720,000 bonds by the Moffat Tunnel District, organized under authority of the Act, for the purpose of raising funds for the construction of a tunnel designed to give transportation relief to northwestern Colorado. Following the enactment of the law, a suit was instituted in the Jefferson County District Court at Golden, Colo., the contention being made that the law was unconstitutional in several points. The District Court decided against the plaintiffs, and the case was carried to the Colorado State Supreme Court. That Court upheld the District Court in its finding. Appeal was then taken to the U. S. Supreme Court, which has now upheld the decision of the two lower Courts.

The following, taken from the "Rocky Mountain News" of June 16, is the text of the decision of Justice Sanford, the history of the case and various court decisions cited in support of contentions being omitted:

"It was alleged by the plaintiffs that the tunnel was not intended as a public highway for the use of the general public, but for the benefit of the Denver & Salt Lake RR., commonly known as the Moffat road; that the benefits to their real estate and the other real estate in the district had been arbitrarily appraised and that no special benefits would accrue to their property or other property similarly situated; that the Act and proceedings taken and threatened by the Commission thereunder violated various provisions of the State Constitution and would deprive them of their property without due process in violation of the Fourteenth Amendment; and praying that the defendants be enjoined from proceeding with the enforcement of the Act and that all the proceedings of the Commission be declared null and void.

"The case was heard by District Court upon pleadings and proof. The District Court found for defendants and dismissed. The Supreme Court of Colorado, on writ of error, sustained the District Court and affirmed its judgment.

"The land owners urge here, as grounds of error, in substance that the Act and the proceedings taken and permitted thereunder violate the Fourteenth Amend nent in that: (*a*) the purpose of the Act is not public in the sense warrant ng the exercise of the power of taxation, but is essentially private; (*b*) the Act authorizes the imposition of the entire taxes upon the lands within the district, without regard to their relation to the tunnel or the benefit to be derived from it, and, there being no special benefits to such lands justifying such taxation, such classification is entirely arbitrary; and (*c*) the Commission has arbitrarily and unreasonably adopted an ad valorem basis for the appraisal and apportion of benefits to the several parcels of land within the district, without reference to the actual benefits to each.

"The Federal question presented being one which requires analysis and exposition for its decision, is not frivolous; and the motion to dismiss the writ of error is accordingly denied. The motion to affirm the judgment should, however, be granted if the questions on which the decision depends are found to be so wanting in substance as not to need any further argument.

"The nature of the use, whether public or private, is ultimately a judicial question. However, the determination of this question is influenced by local conditions; and this Court, while enforcing the Fourteenth Amendment, should keep in view the diversity of such conditions and regard with great respect the judgments of State Courts upon what should be deemed public uses in any State. And like respect should be accorded to the declaration of the legislative body of the State. Here the Legislature, familiar with local conditions, has declared that the construction of a tunnel will benefit the people of the State; and both the local Court of the State and its Supreme Court have held its construction to be for a public purpose.

"It is urged by the land owners that the tunnel, considered as an isolated transportation unit, will serve no public purpose. This is obvious but not to the point. It is intended to furnish an avenue or highway which shall be leased to public transportation agencies. A structure intended for such use is unquestionably a public improvement for a public use. Thus subway tunnels constructed by municipalities for lease to street railway and rapid transit lines for use as common carriers are public improvements for public purposes, for which the power of taxation may be exercised.

"They, however, contend that the tunnel must be deemed for a private, rather than a public purpose, because it is located so as to be practically a part of the Moffat road, and is intended for its use, the real object of the Act being, as expressed by the Governor, to save this railroad to the people of the State. There is virtually no denial of this; and evidently this was the motive which led to the passage of the Act and is the primary purpose for which the tunnel is to be constructed.

"This, however, is not a private purpose. The use of the tunnel by the Moffat road will be for a beneficial public purpose. Without the use of the tunnel the road must, it seems, be abandoned; and this avenue of communication between different portions of the State will be lost. The use of the tunnel will reduce the elevation, grades and curvature of the railroad, shorten its line about twenty-three miles, and save it large amounts annually. Evidently the preservation of this railroad, a common carrier of persons and property, as a means of communication between the eastern and northwestern portions of the State, is a matter of great public importance; and a tunnel enabling it to provide quicker and cheaper transportation during all seasons of the year will greatly promote public welfare.

"Even if this Act specifically directed that the tunnel be leased to the Moffat road for railroad purposes (a just rental based on the cost of constructing and maintaining the tunnel being provided), as the tunnel would be operated by the railroad as a public highway for the carriage of passengers and freight, it would be a public improvement for a public use. The test of public character of an improvement is the use to which it is to be put, not the person by whom it is to be operated. A subway tunnel constructed by the city under an Act authorizing its construction for the specific purpose of being leased to a designated rapid transit company, is a lawful public improvement for a public use. As a railroad is a highway for public use, although owned by a private corporation, a State may impose or authorize a tax in aid of its construction and in furtherance of such public use.

"So here, although this tunnel be designated for lease to the Moffat road, it will be a highway for public uses, as much so as if it were operated by the State, and a public improvement for public purposes.

"Furthermore, while the saving of the Moffat road to the people of the State seems to have been the prime motive which induced the passage of the Act, it specifically provides for the use of the tunnel by any and all railroads and other public utilities, to the extent of its capacity, each paying an annual rental apportioned to the respective values of the separate uses, and constituting a fair and just proportion of the total amount required to pay interest on the bonds, provide for their retirement and maintain the tunnel. And the evidence strongly indicates that the tunnel may and will be used to like advantage by the Denver & Rio Grande RR., extending from Denver to Salt Lake City, with a great shortening and improvement of its line.

"It will also serve as a means of transporting water from the Fraser River, on the west of the divide, to the City of Denver; for telegraph and telephone lines and the transmission of power, and for the transportation of automobiles and vehicles, which are now unable to cross the divide during several months of the year. These are all public purposes of much importance.

"We conclude that the purpose for which the tunnel is to be constructed is not private, but public, and such as warrants the exercise of the power of taxation."

In discussing classification as to special benefits, the opinion continues:

"It is contended that no special benefits of a direct and immediate character will accrue from the tunnel to the lands lying within the district, as distinguished from the other lands lying in the State, and that hence the classification made by the Act in providing for the assessments solely upon the lands within the district is entirely unreasonable and arbitrary. It is well settled, however, that if a proposed improvement is one which the State has authority to make and pay for by assessments on property benefited, the Legislature, in the exercise of the taxing power, has authority to determine, by the statute imposing the tax, what lands may be and are in fact benefited by the improvement; and, if it does so, its determination is conclusive upon the owners and the Courts and cannot be assailed under the Fourteenth Amendment unless it is wholly unwarranted and a flagrant abuse, and, by reason of its arbitrary character, is mere confiscation of the particular property.

"The Legislature not only provided for the assessment of lands within the district, but specifically declared that the tunnel would be of especial benefit to such lands, and that the special benefits accruing to them are in excess of the costs of the tunnel and of the assessments provided for against them.

"The district consists of the City and County of Denver on the east; a strip of land from six to eight miles in width extending through four counties on both sides of the Moffat road to the crest of the divide; and three entire counties and a portion of another county, which are traversed and reached by the Moffat road and extend to the northwestern corner of the State. In short, the district included and does include the lands contiguous to the Moffat road. The lands lying in the strip extending from Denver to the Divide are mainly agricultural lands; those lying to the west of the divide, while largely devoted to stock raising, have valuable timber, and the two counties lying farthest to the northwest have valuable coal deposits.

"The testimony in the trial Court fairly indicates that the lands within this district, on both sides of the divide, including those owned by the plaintiffs in error, will, generally speaking, by reason of their proximity to the Moffat road and the increased facilities of transportation across the divide by which the western counties may be able to market their products to the east and the eastern counties obtain an outlet to the northwest, receive special benefits from the operation of the tunnel, of a reasonably direct and immediate character, resulting in increased value of lands, in excess of those received by other lands in the State, and that the legislative classification is, on the whole, substantially just and reasonable.

"The Legislature declared that there will be such special benefits. The trial Court, familiar with local conditions, after hearing evidence on this question, found that there would be such special benefits, and sustained the legislative classification; and the Supreme Court of the State has affirmed its action. To the extent that there may be inequalities in the benefits received by the several parcels of land within the district, they are to be apportioned by the Commission in the manner provided by the Act, with a right of appeal to the local Courts for the correction of errors in such apportionments.

"And certainly, under all the circumstances, and regarding the district as a whole, the evidence does not justify us in setting aside the conclusion reached by the trial Court upon the weight of the evidence, or in characterizing the action of the Legislature in creating this separate district upon which the assessments should be made, as arbitrary, capricious or confiscatory. The legislative determination and classification must, accordingly, be upheld.

"Appraisal of benefits—It is contended that the Commission arbitrarily adopted an ad valorem basis of appraisal for the apportionment of benefits to the several parcels of land within the district, without reference to the actual benefits to each. This argument erroneously contended that the Commission had finally adopted such an ad valorem basis for its appraisal. This is not the case. It had merely adopted a tentative ad valorem basis, subject to modification and corrections before final confirmation, after the hearing of objections filed by landowners, of which public notice was given.

"These landowners did not seek to have the Commission modify or correct this tentative basis of apportionment or file any objections to the appraisal of benefits to their properties. Presumably if the tentative appraisal was made erroneously it would have been modified upon a proper showing. Having failed to object to the tentative ad valorem basis adopted by the Commission or to appear before it for the purpose of obtaining modifications or corrections as to their lands before the final adoption of such basis, they have here no sufficient grounds of complaint. Where a city charter gives property owners an opportunity to be heard before a board respecting the justice and validity of local assessments for purposed public improvements, and empowers the board to determine such complaints before the assessments are made, parties who do not avail themselves of such opportunity cannot be heard to complain of such assessments as unconstitutional.

"The judgment of the Supreme Court of Colorado was plainly right; and as the question presented does not require further argument, the alternative motion of the defendants in error is granted and the judgment is affirmed."

Indiana (State of).—*Gasoline Tax Law Upheld by Court.*—In litigation brought by Bruce Gafil, of South Bend, to prevent the collection of the 2-cent-a-gallon tax levied on gasoline by the recent Legislature—V. 116, p. 1089—the State Superior Court has upheld the validity of the tax.

Virginia (State of).—*Gas Tax in Effect.*—A tax on gasoline, authorized by an Act passed at the recent special

Legislative session, became effective on June 28. The measure levies a tax of 2 cents a gallon on gasoline sold from June 27 to June 30, and 3 cents a gallon thereafter. Another Act which became effective on June 28 permits the Governor to make temporary borrowings, for highway construction, in anticipation of collection of the gas and mill taxes.

West Virginia.—*New Municipal Bond Act.*—At the Legistive session which adjourned finally on June 14 an Act governing the creation of debt by civil divisions within the State was enacted. The bill was passed by the Legislature on April 26 and approved by the Governor on May 2, and is to take effect ninety days from its passage, i. e., July 25.

The limit placed upon the indebtedness in the Act is 2½% of the taxable property as shown by the last preceding assessment, but the exception is made that any county, magesterial district or group of magesterial districts, for the construction of a county-district road or bridge, or any municipal corporation of 1,000 or more inhabitants, for grading, paving, sewering and improving streets and alleys, may incur additional indebtedness in an amount not to exceed 2½%. Bonds may be issued, under the 2½% limitation, for the purpose of acquiring, constructing, erecting, enlarging, extending, reconstructing or improving any building, work, utility or undertaking, or for furnishing, equipping and acquiring the necessary apparatus for any building, work, improvement or department, and for other similar corporate purposes, for which the political division is authorized to levy taxes or expend public money. The refunding of old bonds by the issuance of new bonds is also allowed under the Act, but there is a prohibition against the issuance of bonds to cover current expenses.

No bonds may be issued unless approved by three-fifths of the voters voting on the proposition at an election called by the governing body. The proposition placed on the ballot must call for the levy of a tax sufficient to pay the principal and interest on the bonds. When authorized by the voters, the bonds are to be issued in denominations of $100 or multiples thereof, are to bear interest at a rate not to exceed the rate stated in the proposition submitted to the voters, in no case to exceed 6%. No bonds may run for a longer period than 34 years, payment to be made in annual installments, beginning not more than two years from date, each installment of principal, plus the annual interest, to be as nearly equal as practicable. Bonds may be issued in coupon or registered form; coupon bonds may be registered as to principal, and in corporations of 20,000 or more population, may be registered as to interest as well as principal.

In disposing of bonds, the governing body of a political division must first offer the issue, at par, to the various State agencies, or departments, authorized by law to purchase such bonds. If these agencies do not accept the offer, the bonds are then to be advertised for sale, on sealed bids. The notice of offering must appear at least once a week for three weeks in a local newspaper. If a sale of the bonds is not then effected, the issue may be sold privately, within sixty days after the offering. No sale is to be made at less than par.

The Act contains additional provisions that allow municipalities and independent school districts, when authorized by a special act of the Legislature, to create indebtedness in excess of the 2½% and 5% limits, and the Act is not to effect any general or special law providing for the issuance of bonds payable in whole or in part by assessments against abutting property.

Another provision of the Act requires that bonds, after being voted by the people shall be submitted to the Attorney-General for approval of their validity. The governing body may place on each bond a recital to the effect that the bond is "authorized by and is issued in conformity with the requirements of the Constitution and statutes of the State of West Virginia."

BOND CALLS AND REDEMPTIONS

McCracken County (P. O. Paducah), Ky.—*Bond Call.*—Bonds numbered 301 to 500, inclusive, of the issue of March 1 1893, maturing Sept. 1 1923 and payable at the Western National Bank, New York City, are called for payment on Sept. 1 by the County Treasurer. Payment of bonds will be made at the County Treasurer's office in the City National Bank of Paducah. Interest ceases Sept 1

The official notice of this bond call will be found on a subsequent page of this ssue.

BOND PROPOSALS AND NEGOTIATIONS this week have been as follows:

AKRON, Summit County, Ohio.—*BOND SALE.*—The following issues of coupon bonds offered on June 25—V. 116, p. 2419—(with privilege of registration as to principal or interest or both) were awarded to Grau, Todd & Co. and Associates of Cincinnati at 100.911—a basis of about 4.67%:

$500,000 4¾% water-works bonds. Denom. $1,000. Date July 1 1923. Due yearly on Oct. 1 as follows: $20,000, 1924 to 1927, inclusive, and $21,000, 1928 to 1947, inclusive.

300,000 4¾% grade crossing elimination bonds. Denom. $1,000. Date July 1 1923. Due yearly on Oct. 1 as follows: $10,000, 1924 to 1942, inclusive, and $11,000, 1943 to 1952, inclusive.

275,000 4¾% public hall bonds. Denom. $1,000. Date July 1 1923. Due yearly on Oct. 1 as follows: $11,000, 1924 to 1936, inclusive, and $12,000, 1937 to 1947, inclusive.

The following are special assessment bonds:

$36,300 5% bonds. Denom. $1,000, except one for $300. Date June 1 1923. Due yearly on Oct. 1 as follows: $4,300, 1924, and $4,000, 1925 to 1932.

36,000 5% bonds. Denom. $1,000. Due $3,000 in the even years and $4,000 in the odd years on Oct. 1 from 1924 to 1932, inclusive.

80,200 5% bonds. Denom. $1,000, except one for $200. Date June 1 1923. Due $8,200, 1924, and $9,000, 1925 to 1932, inclusive.

22,300 5% bonds. Denom. $1,000, except one for $300. Date July 1 1923. Due yearly on Oct. 1 as follows: $2,300, 1924, and $2,000 in the odd years and $3,000 in the even years from 1925 to 1932, inclusive.

4,900 5% bonds. Denom. $1,000, except one for $900. Date June 1 1923. Due yearly on Oct. 1 as follows: $900, 1924, and $1,000, 1925 to 1928, inclusive.

7,800 5% bonds. Denom. $1,000, except one for $800. Date June 1 1923. Due yearly on Oct. 1 as follows: $1,800, 1924; $1,000, 1925; $2,000, 1926; $1,000, 1927, and $2,000, 1928.

ALACHUA COUNTY SPECIAL ROAD & BRIDGE DISTRICT NO. 1 (P. O. Gainesville), Fla.—*BOND OFFERING.*—R. C. Bowers, Secretary Board of Bond Trustees, will receive sealed bids until 10 a. m. July 23 for $562,000 coupon registerable as to principal road and bridge bonds. Date July 1 1923. Bidder to name rate of interest. Prin. and semi-ann. int. (J. & J.) payable in gold in New York. Due on July 1 as follows: $2,000, 1925 to 1931 incl.; $4,000, 1932; $5,000, 1933; $4,000, 1934; $5,000, 1935; $6,000, 1936; $7,000, 1937; $8,000, 1938; $9,000, 1939; $10,000, 1940; $12,000, 1941; $14,000, 1942; $15,000, 1943; $17,000, 1944; $19,000, 1945; $57,000, 1946; $60,000, 1947; $65,000, 1948; $68,000, 1949; $73,000, 1950, and $90,000, 1951. INDIANA (State of).—*ISSUE OF INDIANA UNIVERSITY BONDS PLACED.*—According to the Indianapolis "News" of June 27, an issue of $200,000 4½% refunding mortgage bonds of the University of Indiana, a State property, has been purchased by the Fletcher Savings & Trust Co. of Indianapolis. The "News" said:

"Fletcher Savings & Trust Co. to-day bought from the Board of Trustees of Indiana University, for delivery July 1, $200,000 of bonds, the proceeds of which will be used to refund a similar amount of bonds originally issued to obtain money for the construction of the Robert W. Long Hospital in Indianapolis. The new bonds are to bear 4½% interest and payment of them is optional on or before Jan. 1 1928, according to the anouncement from the trustees of the university. They are free from Federal, local and State taxes.

"The denominations of the new bonds are to be $500 and $1,000 and they are to be sold at par and interest, to net investors 4½%. The announcement said the bonds are secured by a first mortgage on two pieces of property which Dr. R. W. Long gave to the State of Indiana for Indiana University, the properties at 536-544 North Illinois Street, and 27-29 North Alabama Street, and on the old Medical School building at Senate Ave. and East Market St. The total valuation of these three properties is $350,000, the statement said.

"Negotiations for the refunding were completed by James W. Fesler, President of the Board of Trustees of the university, and H. F. Clippinger, manager of the bond department of the Fletcher Savings & Trust Co. Legal approval was given the issue by the law firm of Robbins, Weyl & Jewett."

IREDELL COUNTY (P. O. Statesville), No. Caro.—*BOND OFFERING.*—Sealed bids will be received until 11 a. m. July 2 by W. H. Morrow, Register of Deeds, for $300,000 5% coupon (registerable as to principal) road and bridge bonds. Denom. $1,000. Date July 1 1923. Prin. and semi-ann. int. (J. & J.) payable in gold in New York. Due on July 1 as follows: $10,000, 1924 to 1947, incl., and $60,000, 1948. A certified check for $6,000 upon an incorporated bank or trust company, payable to the above official, required. Approving legal opinion of Chester B. Masslich, N. Y. City. Delivery on or about July 10 in N. Y. City, or at purchaser's cost for delivery and exchange at place of his choice.

Township of Susquehanna,

Cambria County, Pa.

4½% Improvement Bonds.

The Township of Susquehanna, Cambria County, Pennsylvania, will offer for sale to the highest responsible bidder $60,000.00 of Improvement Bonds 1923, of said Township of the par value of $1,000.00 each, interest at the rate of four and one-half per cent per annum, payable semi-annually, September 1 and March 1, in each year, without deduction for taxes of the Commonwealth of Pennsylvania. Said bonds will mature and be paid as follows: Bonds No. 1 to 15 inclusive, September 1, 1928; Bonds No. 16 to 30 inclusive, September 1 1933, Bonds No. 31 to 45 inclusive, September 1, 1938, and Bonds No. 46 to 60 inclusive, September 1, 1943.

All bids must be accompanied by a certified check, payable to the "Treasurer of the Township of Susquehanna," in the sum of $1,000.00, which will be retained by the Township of Susquehanna as liquidated damages for failure of the successful bidder to fulfill his contract.

The said Township reserves the right to reject any or all bids. All bids must be sealed and marked "Bid on Bonds" and in the hands of J. Harrison Westover, Spangler, Pennsylvania, Solicitor for Supervisors, before eleven A. M. July 24, 1923, at which place and time said bids will be opened.

E. J. ROSS, Secretary.

FINANCIAL CHRONICLE

Classified Department

POSITIONS WANTED

Bond Salesman and Trader

A young man (28), a graduate of the New York University School of Commerce, Accounts and Finance, who has had 4½ years' experience in various departments of an international banking house, desires a connection with a New York Stock Exchange firm. The applicant has a thorough basic knowledge of corporations, financing methods, negotiable paper, foreign exchange and accounting principles. A position as either a student salesman or a student trader would be preferred. Satisfactory references as to character and ability will be furnished. Box T-7, Financial Chronicle, 90 Pine Street, N. Y.

WANTED

TO A MEMBER OF THE NEW YORK STOCK EXCHANGE

An unlisted securities firm of highest standing desires to get in touch with a board member with a view to partnership arrangement.

Firm has representatives on New York Curb, private wires to investment houses and banks, well located offices and a competent organization.

No additional capital required. Address Box S-1, Financial Chronicle, 90 Pine Street, New York.

POSITIONS WANTED

EASTERN CONNECTION WANTED

Man of thorough experience and best references desires connection with strong Financial House or syndicate in buying Municipal Bonds or making high-class first mortgage loans in Texas. In close touch with all Municipal Issues and volume of best mortgage loans. Headquarters Dallas. Box S-3, Financial Chronicle, 90 Pine St., New York.

WANTED.

A position by a man of forty-five in a capacity where a knowledge of the principles of sound investment and the ability to analyze securities is of equal importance with that of selling them. Especially interested in underlying railroad bonds and seasoned issues. Address Box S-7, Financial Chronicle, 90 Pine Street, New York.

INVESTMENT MEN WANTED.

BOND SALESMAN

Experienced bond salesman wanted to take over large clientele of well known Pacific Coast bond house in Pasadena, California. Necessary qualifications: Salesmanship, character and permanency of new connection. Excellent opportunity for man desiring to locate in Pasadena. In reply state record of past experience and duration of employment in previous connections. Reply, Box T-23, Financial Chronicle, 90 Pine St., New York.

WANTED.

WANTED—Executive Officer to manage small bank, New York. Must furnish clean record. Only those with actual experience in running all departments of small bank need apply. Box G-22, care Chronicle.

POSITIONS WANTED

BOND TRADER

Experienced Trader, College Graduate, at present employed with New York Stock Exchange House, seeks better opportunity with high-grade investment house. Has wide trading experience in Public Utilities & Industrial Bonds. Can furnish the highest possible references as to energy, integrity and ability. Address Box S-5, Financial Chronicle, 90 Pine Street, New York.

TRADER

Experienced unlisted bond and stock trader is open for a connection. Address Box S-4, Financial Chronicle, 90 Pine Street, New York.

POSITIONS WANTED

WHOLESALE BOND MAN

Several years' success selling to dealers in Eastern States and managing syndicates. Have created and supervised secondary markets of bond and stock issues. Can qualify as salesmanager or manager of New York office of an investment house. Good record and references. Box V-11, Financial Chronicle, 90 Pine St., N.Y.

Customer's Man

5½ years in brokerage business as trader, preceded by 11 years in banking business. Now with stock exchange house. Desire position as solicitor or unlisted trader with stock exchange firm in some Southern city. Address Box U-7, Financial Chronicle, 90 Pine St., N. Y.

Salesmanager

Bond man, well connected, twenty years' financial experience, desires to make connection with investment firm or institution with bond department. Is at present associated with New York Stock Exchange firm. Previously in bond department of large institution. Replies treated confidentially. Address Box U-4 Financial Chronicle, 90 Pine St., N. Y.

ATTENTION INVESTMENT HOUSES.

A YOUNG MARRIED MAN, Christian with College education and considerable municipal bond experience, desires to buy Texas, Oklahoma and Louisiana securities for large investment house. Permanent connection wanted. Capable of opening office and adapting himself readily to your methods. At present employed by Southern bond house. Excellent bank and other references. Remuneration commensurate with results produced. Address Box T-9, Financial Chronicle, 90 Pine Street, New York.

STATISTICIAN AND CUSTOMERS' MAN

Position wanted; Young man, married. Thorough university education in finance, economics and statistics. Wall Street experience in the speculative and investment markets. Desires position with a New York Stock Exchange or investment house in New York City or out-of-town. Will accept any reasonable offer with an organization that encourages employees to take the initiative. Address Box Q-10, Financial Chronicle, 90 Pine Street, New York.

When Borrowing Money

Municipalities should take all possible safeguards against the forgery and over-issue of Bonds, payment of fraudulent coupons and other irregularities.

This Company has for many years specialized in the preparation and certification of municipal issues, having thus served upwards of 500 cities, towns and counties in connection with bonds aggregating over $500,000,000.

Copy of booklet, "Municipal and Corporation Bonds," fully describing this service, will be sent to any address upon request.

Designated Official Depository of Investment Bankers' Association of America for legal papers and opinions respecting Municipal Bond issues.

COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1923, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

Vol. 116. NEW YORK, JUNE 30 1923 No. 3027.

STATE AND CITY SECTION.

The State and City Section, issued semi-annually on the last Saturday of June and December, is furnished *without extra charge* to every annual subscriber of the Commercial & Financial Chronicle.

Terms for the Chronicle, including this and five other Sections, or Supplements, issued periodically and all furnished without extra charge to annual subscribers, are Ten Dollars per annum within the United States, $13.50 (which includes postage) in Europe and $11.50 in Canada.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets,
P. O. Box 3, Wall Street Station. New York.

DATE OF ISSUE OF THIS PUBLICATION.

As explained in previous numbers, this periodical, owing to the great pressure for space, is now issued in two parts. The first part, comprising the New England and the Middle and the Central States (the latter embracing Ohio, Indiana, Illinois and Michigan) appears to-day. The second part, comprising the rest of the country, is published towards the close of the year, and will appear next December.

The change has been forced upon us by the constant addition to the number of municipal bond issues and the inability to compress the information concerning the same within the limits of a single number. Not only are the older and more important civic corporate bodies uninterruptedly putting out further bonded obligations, but many of the minor places, previously free from debt, have also entered the ranks of borrowing communities and are constantly creating new issues. Besides this, in the newer sections of the country, where expansion and development are such noteworthy characteristics of affairs, new civil divisions are all the time springing up. The result is that the demands for additional space have outgrown our ability to provide for them in a single number, leaving no alternative but to issue the Supplement in two parts and to assign a portion of the country to each part.

MUNICIPAL BOND SALES IN 1922.

In pursuance of a practice begun by us with the bond sales of 1901, we present herewith another annual compilation and analysis of municipal bond sales, the figures on this occasion covering the calendar year 1922. The aggregate of obligations of this class placed is again found to be large. And yet it is not of the same exceptional proportions as for the previous calendar year—1921. Doubtless that is the feature of the results that will attract foremost attention. It is certainly noteworthy that while new financing in 1922 increased over 1921 under every other leading head as shown in the very extended and comprehensive tabulations of new capital flotations published in the issue of the "Chronicle" of Jan. 27 1923, it did *not* increase in the case of the obligations put out by States and municipalities. The bond disposals by States and municipalities in Continental United States for the twelve months of the calendar year 1922 aggregated $1,101,917,313, as against $1,208,768,274 for the twelve months of the calendar year 1921. To be sure, either amount looks large alongside the disposals of $683,188,255 for 1920 and the $691,518,914 for 1919, and even more so in comparison with the much smaller amounts of previous years. But there has been so much talk about rich men seeking tax-exempt municipal issues, in order to escape liability for surtaxes, and of the injury this was doing in encouraging municipal extravagance that it is decidedly refreshing to find that in 1922 the additions under this head did not record a further increase.

As is pretty well known, and as has been many times pointed out in these columns, State and municipal bonds enjoy immunity from Federal income taxes of every description—*not* alone the normal income tax, but also the cumulative and progressive surtaxes, and for this reason there is certain to be a greater or smaller demand for this class of obligations so long as Federal tax rates continue on their present burdensome scale. The effect undoubtedly has been to widen the market for municipal bond issues. It still remains to be proved that it has done more than this. Municipal needs are many and would be expected to increase with the growth and development of the country, especially in the newer localities. Another circumstance is worth recalling in consideration of the matter and one that has been completely overlooked in the discussions of the subject. Costs are very much higher than they formerly were. It costs vastly more to build a schoolhouse or a sewer or to pave streets or to provide water and fire engines and the like. Labor is very much higher, and all materials and other constituent elements in the work command increased prices. Therefore, a given expenditure represents very much less than its former equivalent. These are considerations of the highest importance that must be taken

into account in forming judgment. With needs more urgent because of the growth of population and with costs also away above what they were before the outbreak of the European war it will readily be seen that old standards constitute poor guides for reaching conclusions and are in fact apt to be misleading unless proper weight is given to these new influences.

However, it is sufficient for the present occasion to know that the amount of new municipal issues brought out in 1922, while large in contrast with the earlier years—and it should not escape notice that though now we are dealing with annual totals of over a billion dollars, prior to 1919 the aggregate of new issues had never in any year reached a full half a billion—was substantially below the amount for 1921. As we have already seen, the 1922 awards were roughly $107,000,000 less than those for 1921. It is worth noting that the reduction was common to nearly all the different parts of the country, the only exceptions being in the case of some of the new sections and some of the older sections not yet highly developed. During 1917 and 1918 municipal borrowing was, of course, held in check, the same as borrowing of every other kind except that by the Federal Government in the prosecution of the war, these having been the years of armed conflict by the United States when new capital issues were permitted only where essential to the conduct of the war—the restrictions applying to municipalities no less than to private borrowing, with the result that in 1918 the amount of new State and municipal bonds put out aggregated no more than $296,520,458 and the deficiency suffered in those years had to be made good subsequently the same as in the case of new building operations. Presumably the replenishing movement reached its culmination in 1922, and since then there has been a gradual return to more nearly normal levels of values, modified, of course, by the increase in costs. In 1920 and 1921 it was the North Atlantic and the North Central divisions of the country that showed the largest additions to indebtedness and it is these same sections that in 1922 record the largest reduction in their borrowings. Thus the new bond awards in 1922 in the North Atlantic tier of States and in the North Central group combined aggregated $678,410,679, as against $764,195,514 in 1921, $429,334,390 in 1920 and $317,663,537 in 1919. In other words, of the decrease of $107,000,000 in borrowings for the whole country in 1922 as compared with 1921, $86,000,000, roughly, is found in the two tiers of States mentioned. Each tier, too, separately makes about the same comparison, the new issues for the North Atlantic division being $306,712,631 for 1922, against $322,026,979 for 1921 and $164,021,803 for 1920, and for the North Central group $371,698,048 for 1922, against $442,168,535 for 1921 and $265,312,587 for 1920.

The borrowings by the rest of the country were $423,506,634 in 1922, against $444,572,760 in 1921, $253,853,865 in 1920 and $373,855,377 in 1919. For the separate groups, however, that go to make up this latter set of totals, the comparisons are by no means uniform. As a matter of fact, the whole of the $21,000,000 decrease, and a great deal more, is supplied by the Western or Pacific division, while for both the South Atlantic and the South Central divisions, the new bond disposals of 1922 are actually larger than those of 1921 and in the case of the South Atlantic division the largest of any year in history. The South Atlantic division placed $152,847,050 of new bonds in 1922, against $133,964,275 in 1921, $60,811,524 in 1920 and $53,096,148 in 1919, and the South Central division $121,996,043 in 1922, against $108,192,441 in 1921 and $77,357,114 in 1920, but comparing with $165,984,142 in 1919. The South Atlantic division and the South Central Division comprise the States we commonly denominate the South, and an increase here in 1922 cannot be deemed surprising, considering the exceptional prosperity which the South is enjoying by reason of the high price of cotton and the great activity of the iron trade.

In the Western or Pacific division the disposals of new bonds in 1922 reached only $148,663,541, against $202,416,044 in 1921, $115,685,227 in 1920 and $154,775,087 in 1919. The falling off in this group is pretty general outside of Colorado and Oregon, but is mainly contributed by Washington and California. The State of Washington, and its various civil divisions, put out an aggregate of only $9,747,878 new bonds in 1922, against $31,926,809 in 1921, and California only $66,035,065 in 1922, against $88,104,534 in 1921. On the other hand, Oregon placed $31,987,204 of new bonds in 1922 against $24,382,848, and Colorado $14,385,650, against $9,141,217. In the following table we furnish a comparison of the bond disposals for the different geographical divisions for all years back to 1911.

Market conditions during 1922 were quite satisfacfactory for the placing of State and municipal bonds, as indeed they were for the bringing out of new capital issues of all kinds. There was a period in the middle of the year when the market for municipal bonds was noticeably apathetic and prices weakened, notwithstanding rich men were alleged to be avid to acquire municipal securities because of the tax exemption they enjoy. During 1921 municipal bonds had rapidly appreciated in value and the income yield from them been correspondingly diminished. This movement extended well in 1922, prices rising further and income yield further contracting during the first six or seven months, but after that there was a halt, and investors would not buy except at concessions in prices. The latter part of the year there was recovery again in most, though not in all, cases.

In analyzing sales and market conditions in 1921, we pointed out that the drop in interest rates, and decline in the rate of return which marked that year had been reflected mainly in the better prices received and not until the latter part of the year in a reduction of the coupon rate in the bonds, and stated that during 1922 the situation in that respect

would no doubt be changed and the record for that year, when made up, be quite different from that for 1921. That is what we now find. To afford a graphic illustration of the course of coupon rates of interest in recent years, we insert again the following table, with the figures for 1922 added, to show the amounts of new bonds put out at the various rates of interest for 1901, for 1906 and for 1921 and for 1922. We exclude the New York City sinking fund takings, as these in the past have been very low rate issues and could not be accepted as affording any criterion of market conditions.

COMPARATIVE INTEREST RATES, EXCLUDING NEW YORK CITY SINKING FUND TAKINGS.

*In years previous to 1921 issuance of 4¼% bonds was so rare that their classification under separate heading was not practicable.

In 1901, it will be seen, out of a total of $140,185,499 bonds placed, $116,240,993, or 82.92%, of the whole, consisted of 3s, 3½s and 4s, the 3½s forming much the larger part, they comprising $68,693,268, or nearly one-half of the year's disposals. In 1921, on the other hand, out of a total of $1,208,768,274 disposed of, no 3% or 3½% issues were included and only $32,892,164 even of 4s and but $3,312,000 of 4¼s, and no more than $125,009,650 of 4½s (the latter being only a little in excess of 10% of the total disposals), while no less than $329,651,611 of the year's sales, or 27.27%, carried 5% coupons and $655,828,819, or 54.26%, carried coupons bearing more than 5%. In other words, 81.53% of the bond disposals of the twelve months of 1921 carried 5% coupons or higher.

Very noteworthy is the contrast which 1922 presents in this respect. The lower rate issues once more assume dominating presence and the higher rate issues shrink in both amount and ratio. With the grand total of the bond disposals $107,000,000 less than for 1921, the 4% issues were $105,015,607, or 9.53% of the whole, as against only $32,892,164 in 1921, or 2.72% of the whole; the 4¼% issues $130,693,949, or 11.86%, against only $3,312,000, or but 0.27%; the 4½% issues $218,822,559, or 19.86%, against $125,009,650, or 10.34%; the 4¾% issues $56,131,570, or 5.09%, against $36,393,131, or 3.01%, and the 5% issues $306,860;626, or 27.85%, against $329,651,611, or 27.27%, while on the other hand, the total of bonds bearing coupon rates higher than 5% was only $251,785,313, or 22.85%, against no less than $655,828,819, or 54.26% in 1921.

From a study of our detailed page table showing interest rates (on page 7 of this issue) some further interesting facts regarding interest rates will be discovered. For instance, it is Eastern communities that enjoy the best credit, and hence are able to put out the largest amount of bonds at the lowest interest rates. And vice versa, it is the remoter sections of the country—the newly settled communities whose credit has not yet become established—that are obliged to pay the highest rates on their borrowings. In the North Atlantic division (comprising the New England States, together with New York, New Jersey and Pennsylvania) out of a total of $306,712,631 bonds disposed of, over $259,000,000 were put out with coupon rates of 4½% or lower—$101,880,449 being 4¼%, $63,018,857 4% and $94,215,425 4½%. On the other hand, in the North Central division, out of $371,698,048 of bonds emitted only a little over $116,000,000 consisted of 4½% or bonds carrying lower interest rates.

And the further away we get from the East, the smaller the amount and proportion of the low rate obligations. In the South Atlantic division, out of $152,847,050 of bonds disposed of, less than $46,000,000 carried 4½% interest rates or lower. In the South Central division, out of $121,996,043 only $6,812,000 bore 4½% and no obligations were put out at a lower coupon figure than that. In the Western or Pacific division, out of $148,663,541 of bonds, only a little over $27,000,000 had coupons bearing 4½% interest or less. The same distinction appears in the proportions contributed by the different geographical groups to the totals. For instance, out of the $105,015,607 of 4s altogether put out, $63,018,857 came from States or municipalities in the North Atlantic division and $35,097,750 from those in the North Central division. Again, out of $130,693,949 of 4¼% bonds disposed of no less than $101,880,449 came from the North Atlantic division and $22,938,500 from the North Central division, all of this latter being contributed by Michigan. Similarly, out of $306,860,626 of bonds bearing 5% interest, only $25,741,168 came from the North Atlantic division.

With reference to the bonds placed by the different cities Detroit disposed of an aggregate of only $27,105,000 of bonds during 1922, against $54,001,000 in 1921 and $11,323,000 in 1920. New York City in 1922 disposed of $45,000,000 of bonds to the public (a single public offering of that amount having been made) besides $2,764,316 of sinking fund takings. In 1921 the City's disposals to the public aggregated $55,000,000 (consisting of a single offering of that amount), while no bonds were disposed of to the sinking fund. Baltimore put out $11,361,000 in 1922 and $11,488,000 in 1921; Pittsburgh and its school district $9,250,000, against $5,826,000; Boston, $7,683,500, against $6,293,500; Philadelphia and its school district $32,997,000, against $26,576,000; Chicago and its sanitary and park districts, $19,940,000, against $23,778,600; Cleveland and its school district, $9,159,400, against $17,850,000; Columbus, Ohio, and its school district, $3,912,800, against $5,622,500; Jersey City, $3,573,000, against $11,267,000; Newark, $3,602,000, against $4,222,000; Rochester, N. Y., $6,891,000, against $4,225,000; Providence, $6,700,000, against none in 1921; Norfolk, Va., $9,055,000, against $7,054,000. St. Louis placed no bonds in 1922 and only $290,000 in 1921; Los Angeles put out $16,825,910, against $2,808,000.

To complete our analysis of the bond disposals we furnish further below a comparison covering the last four years of the new bond issues according to the purposes for which they were used or created. As will be noticed, an entirely new item during the last three years has been the issuance of bonds by several of the States for the purpose of making bonus payments to those of their citizens who took part in the war. Our statements show only $40,800,000 under this head in 1922, against $94,125,000 for that purpose in 1921 and $18,000,000 in 1920. As we get further away from the war, the amount of these bonuses would, of course, be expected to decrease, other

things being the same, but the amount for 1922 would have been larger except that a number of bond issues intended to be used as bonus compensation were declared unconstitutional. This is true not alone of the $45,000,000 proposed in New York State, which the courts refused to sanction in 1921, but also of $9,000,000 in Maryland, and $4,500,000 in Montana, which were held to be unconstitutional in 1922. In 1923 the amount is certain to be larger as a number of States authorized bond issues for soldier compensation at the November election of 1922 and as the State of Iowa has the present month disposed of $22,000,000 of 4¼ and 4½% bonds and the State of Kansas $25,000,000 4½s to get funds for paying extra compensation to veterans of the World War. The previous month, the State of Illinois issued $10,000,000 4½s, for bonuses, and this is only the first installment of a total of $55,000,000 authorized for that purpose at the November 1922 election.

Note.—Of the total of $168,066,384 for 1921 under the caption of "Miscellaneous," $2,288,000, or .189%, were issued for flood prevention, $12,973,000, or 1.073%, for harbor and waterfront, $78,005,000, or 6.453%, for rapid transit, ferries and canals, and $9,767,000, or .808%, for irrigation, leaving a net of $65,033,384, or 5.388%, for purposes unclassified.

Of the $101,530,582 under the caption "Miscellaneous" for 1922, $4,581,718, or .416%, were issued for flood prevention, $44,686,100, or 4.055%, for harbor and waterfront, $10,894,500, or .989%, for rapid transit, ferries and canals, and $24,257,495, or 2.201%, for irrigation, leaving a net of $17,110,769, or 1.553%, for purposes unclassified, as may be seen by the accompanying detailed table.

We wish also again to repeat what we said last year, that entirely apart from the issuance of bonds to reward their citizen soldiers, the States (apart from the municipalities within their borders) are becoming once more prominent for their new bond issues. It is not so very long ago that it appeared likely State bonds might become extinct, so few were the new bond offerings. During 1921 the States, as distinct from their municipalities and other civil divisions, issued new bonds to an aggregate of $290,892,900 of which, as just shown, only $94,125,000 were for soldier bonus. For 1922, the State bond issues aggregate $147,159,345, of which $40,800,000 went, as already stated, as extra compensation to citizen soldiers. These new State bond issues appear likely to continue even after the process of soldier bonus payments has been finished, since many of the States are engaged in building extensive systems of highways and have various other projects under way requiring the raising of extensive sums of money. The counties, too, are becoming prominent for their new bond issues, they having put out $211,477,997 of obligations in 1922 and $204,320,453 in 1921.

After apportioning the amounts under the different heads, an aggregate remains of $101,530,582 for 1922, it will be seen, under the designation "Miscellaneous," and the amounts for other years are also large. Reference to our detailed tabular statements on the two succeeding pages will show that $84,419,813 of the amount is accounted for as follows: $4,581,718 for flood prevention, $10,894,500 for rapid transit, ferries and canals, $44,686,100 for harbor and waterfront purposes and $24,257,495 for irrigation. This still leaves $17,110,769, made up in other ways, and in explanation it should be said that this remainder comprises mainly bonds issued for special purposes, like North Dakota's $3,000,000 rural credit, Mississippi's $3,500,000 tax notes, and Idaho's $1,000,000 Treasury notes, and bonds for purposes of not sufficiently common occurrence to warrant our providing an extra column for the same in our tabular compilations. A foot-note to the detailed tables on the following pages gives the leading items that go to make up the "Miscellaneous" column.

In conclusion, we will reiterate what we have said in previous years, namely that our figures deal only with issues of a permanent character such as, by their nature, constitute a real addition to the debts of the municipalities. We rigidly exclude floating debt obligations and everything of a temporary nature, and we are careful also to avoid duplication or the inclusion of loans that do not belong in the footings. As the best explanation of our reasons for excluding floating-debt obligations, we may refer to the case of New York City, which during 1922 issued no less than $225,527,281 of temporary obligations in anticipation of taxes, and redeemed $277,753,931 of the same class of obligations, and also issued $103,447,000 of corporate stock notes (a new form of obligation since 1912), and retired $143,714,000.

In order that the reader may know what the grand aggregate of sales for the twelve months would be with all these various items included, we will say that the total in that event would be close to $2,000,000,000. The actual municipal bond sales for the twelve months within the territorial limits of the United States were, we have seen, $1,101,917,313, the temporary loans reached $453,431,823, sales of permanent securities of Canada were $299,139,917; general fund bonds of New York City, $37,500,000; besides which bonds were issued by United States possessions as follows: Philippine Islands, $35,750,000; Territory of Hawaii, $1,600,000; Honolulu, $500,000, and Porto Rico and its municipalities, $9,173,000, making a grand total of $1,939,012,053. In the following we furnish a five-year tabular comparison of the various classes of new issues:

Full Cal. Year	1922.	1921.	1920.	1919.	1918.
Loans—	$	$	$	$	$
Perm.(U.S.)	1,101,917,313	1,208,768,274	683,188,255	691,518,914	296,520,458
*Tem.(U.S.)	453,431,823	730,596,914	577,512,948	475,833,359	438,420,581
Canada(per.)	299,139,917	209,669,857	164,319,775	809,175,828	721,087,066
Bonds U. S. possessions	47,023,000	27,145,000	16,277,000	11,700,000	800,000
Gen.fund bds. (N.Y.City)	37,500,000	34,000,000	32,500,000	28,500,000	27,000,000
N.Y.pens'n & S. F. exch	None	51,115,500	None	None	None
Gen.fund bds. (Baltimore)	None	None	300,000	300,000	300,000
Total allloans (12 months)	1,939,012,053	2,261,295,545	1,474,097,978	2,017,028,101	1,484,128,105

*Includes temporary securities (revenue bonds and corporate stock notes) issued by New York City, $329,474,281 in 1922, $635,612,150 in 1921, $497,417,343 in 1920, $375,050,900 in 1919 and $361,050,464 in 1918.

It will be noted that temporary borrowings in 1922 were not on the exceedingly large scale of 1921 and 1920. New York City usually contributes the bulk of the short term obligations, and as it happens, this city put out only $329,474,281 of such obligations in 1922, against $635,612,150 in 1921 and comparing with $497,417,343 in 1920, $375,050,900 in 1919, $361,050,463 98 in 1918, $303,851,400 in 1917, $229,409,452 in 1916 and but $154,658,878 in 1915.

A two-page tabular presentation of the sales of a permanent character within the limits of the United States for the late year appears on the following pages. In giving this compilation, we are continuing, as already stated, a practice begun by us with the bond transactions of 1901.

ANALYSIS OF MUNICIPAL BOND SALES FOR CALENDAR YEAR 1922.—TABLE NO. 1.

MUNICIPAL BOND SALES FOR YEAR 1922, ANALYZED ACCORDING TO INTEREST RATES AND CIVIL DIVISIONS.

State and Geographical Divisions.	Grand Total.	State Bonds.	County Bonds.	School Dist. Bonds.	City, Town and Village Bonds.	3 Per Cent.	3½ Per Cent.	4 Per Cent.	4¼ Per Cent.	4½ Per Cent.	4¾ Per Cent.	5 Per Cent.	5¼ Per Cent.	5½ Per Cent.	5¾ Per Cent.	6 Per Cent.	Higher than 6 Per Cent. Miscellaneous (as to purpose of issue), amounting to $17,110,769, consists, in the main, of bonds issued for purposes which we were unable to classify under our headings. For instance, the State of North Dakota disposed of $3,000,000 rural credit bonds, Mississippi sold $3,500,000 tax notes, and Idaho $1,000,000 treasury notes. a Includes $8,000,000 bonds of Chicago Sanitary District. b Includes $500,000 bonds of Washington Suburban Sanitary District. c Includes $500,000 bonds of Indianapolis Sanitary District.

United States Debt and the Congressional Acts Authorizing It.

In 1917 the United States, after a long period of debt retirement, entered upon a new era in its debt history. In the prosecution of the war against the Imperial German Government, new obligations were issued on a scale of unparalleled magnitude. By the Act of April 4 1917 authority was conferred upon the Secretary of the Treasury to issue $5,000,000,000 long-term non-taxable bonds at not to exceed 3½% interest ($3,000,000,000 of this being for the purpose of establishing credits in the United States for the foreign Governments enlisted in the war against Germany), and $2,000,000,000 certificates of indebtedness, the latter running for periods not exceeding one year. By the further Act of Sept. 24 1917, authority was conferred to issue $7,538,945,460 convertible 4% bonds to take up the $3,000,000,000 3½% issue authorized to cover loans to the Allies, and to provide for new Allied credits of $4,000,000,000, the remaining $538,945,460 to be used for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The bill also provided for the issuance of $2,000,000,000 *each* of one-year Treasury certificates of indebtness and five-year war savings certificates. The interest rate on the certificates the Secretary of the Treasury was left to fix. By the further Act of April 4 1918, amending the Act of Sept. 24 1917, authority was conferred to issue $12,000,000,000 of bonds at not exceeding 4¼% interest, the 12 billion dollars, however, to include the bonds issued under the Second Liberty Loan, and $3,638,945,460 being in lieu of corresponding amounts of unissued bonds authorized by previous Acts. Under the same Act the limit upon the amount of certificates of indebtedness that might be outstanding at any one time was raised from $4,000,000,000 to $8,000,000,000, and was further raised to $10,000,000,000 under the Act of March 3 1919. By the further Act of July 9 1918, amending previous Liberty bond enactments, the limit of the bond issue was raised to $20,000,000,000 at not exceeding 4¼%, but including bonds theretofore issued, and increasing from $5,500,000,000 to $7,000,000,000 the additional loans or credits that might be extended to the Allies, making $10,000,000,000 altogether that could be loaned to the Allies. By the further Act of March 3 1919 (Victory Liberty Loan Act) amending previous Liberty Loan Acts and the War Finance Corporation Act, the Secretary of the Treasury was authorized to borrow an aggregate not exceeding $7,000,000,000 at such rate or rates of interest as he might prescribe, issuing therefor notes payable in not less than one year nor more than five years. By the Liberty Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from $2,000,000,000 to $4,000,000,000.

In June 1917 $2,000,000,000 of 3½% bonds were offered under the Act of April 24 1917. The subscriptions amounted to $3,036,226,850, but only $1,989,455,550 were issued. In October 1917 an offering of $3,000,000,000 4s under the Act of Sept. 24 1917 was made. Subscriptions reached an aggregate of $4,617,532,300. In accordance with previous announcement, one-half of the over-subscription was accepted, making the total of bonds put out under this offer $3,807,865,000. In April 1918 $3,000,000,000 of 4¼% non-convertible bonds (Third Liberty Loan) were offered under the Act of April 4 1918. The subscriptions amounted to $4,175,650,050, all of which were accepted. In Sept.-Oct. 1918 $6,000,000,000 of 4¼% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to $6,964,581,100, all of which were accepted. In April-May 1919, $4,500,000,000 of convertible gold notes were issued in two series, the one bearing interest at 3¾%, the other at 4¾%. The subscriptions amounted to $5,249,908,300, but only $4,495,373,000 was accepted. Secretary of the Treasury Mellon on Feb. 8 1922 called for redemption on June 15 1922 all of the Victory Notes of the 3¾% series, and on July 26 1922 he called for redemption on Dec.15 1922, Series A to F, of the 4¾% Victory Notes, aggregating about $702,938,100. The remaining Victory Loan Notes matured on May 20 1923, and were then paid off. In October 1922 an offering of $500,000,000 4¼% 30-year (optional after 25 years) TREASURY BONDS, issued under authority of the Act of Sept. 24 1917, as amended, was made for refunding purposes. Subscriptions amounted to no less than $1,651,912,800, of which $763,962,300 were accepted. TREASURY NOTES, running from three to four years, have also been issued from time to time. Reference to these will be found under a separate heading.

Note.—The Act authorizing the First Liberty Loan was given in the "Chronicle" of April 28, page 1649, with further particulars in the issue of May 12 1917, page 1849, and the text of the Treasury circular in the issue of May 19, page 1959; and of the Second Loan the full text of the bill as it became a law in the "Chronicle" of Sept. 29 1917, page 1252, and the text of the Treasury circular in the issue of Oct. 6, page 1355. The Act authorizing the Third Liberty Loan was presented in the "Chronicle" of April 6 1918, page 1404, and the text of the Treasury circular in the issue of April 13, page 1517. The Act authorizing the Fourth Liberty Loan appeared in the "Chronicle" of July 13 1918, page 131, the Treasury circular in the issue of Oct. 5, page 1328, and the text of the Liberty Bond Exemption Bill on Oct. 5, page 1327. The Act authorizing the Fifth (Victory) Liberty Loan was given in the "Chronicle" of March 8 1919, page 919, and the text of the Treasury Circular in the issue of April 26 1919, page 1670. Certificates of indebtedness have been issued from time to time under the Act of April 24 1917 and the amendatory Acts of Sept. 24 1917, April 4 1918, July 9 1918 and March 3 1919, always for short periods. The offering of 25-30-year long-term Treasury bonds made in October 1922 was given in the issue of Oct. 14 1922, page 1684; details of subscriptions and allotments in the issue of Nov. 18, page 2219.

Consolidation of Liberty Bond Tax Exemptions.—The degree of tax exemption enjoyed by the different issues of Liberty Loan and Victory Liberty Loan bonds is given below in the remarks relating to each issue. In the Revenue Act of 1921 the various provisions appertaining to the several issues were consolidated in Section 1328 of the Act, which we reprint below. The new Revenue Act, complete, was published in the "Financial Chronicle" of Nov. 26 1921, pages 2267 to 2285.

SECTION 1328. That the various Acts authorizing the issues of Liberty bonds are amended and supplemented as follows:

(a) On and after January 1 1921, 4 per centum and 4¼ per centum Liberty bonds shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, corporations, or associations, in respect to the interest on aggregate principal amounts thereof as follows:

Until the expiration of two years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, on $125,000 aggregate principal amount; and for three years more on $50,000 aggregate principal amount. [The official date of the termination of the war by official proclamation was July 2 1921.—Ed.]

(b) The exemptions provided in Subdivision (a) shall be in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act, and in addition to the exemption provided in Subdivision (3) of Section 1 of the Supplement to the Second Liberty Bond Act in respect to bonds issued upon conversion of 3½ per centum bonds, but shall be in lieu of the exemptions provided and free from the conditions and limitations imposed in Subdivisions (1) and (2) of Section 1 of the Supplement to Second Liberty Bond Act and in Section 2 of the Victory Liberty Loan Act.

Section 1402 of this Act increased from $1,000 to $5,000 the limit placed on the amount of holdings, of any one person, of Treasury (War) Savings Certificates.

In the following we present a preliminary detailed statement of the debt of the United States as made up by the Treasurer at the close of business on May 31 1923, this being based on the daily Treasury statements, and, therefore, subject to revision in a minor way.

* 3¾%, 4%, 4¼% and 4½%. *a* Of this total, about $1,410,000,000 at 3½%, $10,500,000 at 4%, $527,800,000 at 4¼% and $3,500,000 2d converted at 4¼% *b* Of this total, about $45,299,300 at 4%; balance at 4¼%. *t* Payable at dates mentioned. For date of redemption see "Postal Savings Bonds" (p. 6, "State & City Section," Dec. 21 1918. *l* Thrift Stamps and Savings Certificates do not bear interest.

The Government debt on May 31 1923 was made up of (1) interest-bearing debt, $22,185,048,251.12; of (2) debt on which interest has ceased, $200,512,430.26; of (3) debt bearing no interest, $244,668,491.05; making total *gross debt* $22,630,229,172.43.

Below we analyze the Congressional Acts authorizing the incurring of indebtedness and the issues made under each:

CERTIFICATES OF INDEBTEDNESS UNDER ACT OF SEPT. 24 1917, APR. 4 1918, APR. 23 1918, MAR 3 1919.—(Column 8.)—Sec 6 of Act of Sept. 24 1917 provides for the issuance of certificates of indebtedness at not less than par and at such rates of interest as the Secretary of the Treasury may prescribe for the purposes of the Act and to meet public expenditures authorized by law, each certificate so issued payable at such time not exceeding one year from the date of its issue. and redeemable before maturity upon such terms and conditions, and the interest accruing thereon payable at such time or times as the Secretary of the Treasury may prescribe. The sum of such certificates outstanding was not at any one time to exceed in the aggregate $4,000,000,000. but this was increased under the Act of April 4 1918 to $8,000,000,000 and further increased to $10,000,000,000 under the Act of March 3 1919. Under the authority thus granted the Secretary has issued varying amounts of these certificates from time to time. through the Federal Reserve banks, all for short periods, the rate of interest being at first fixed at 4%, then raised to 4¼%, to 4½%, to 4¾%, to 5%, to 5¼%, to 5½%, to 5¾%, and finally to 6%. During 1921 the rate of interest declined and at the close of the year was down to 4¼% and 4½% and in the first six months of 1922 dropped still further to 3½%. During the second half of 1922 and the first five months of 1923 the rate increased again, but on the latest issue, namely that put out on June 11 1923, the rate was no more than 4%. The new issue bears date June 15 1923 and matures Dec. 15 1923. The amount of the offering was $150,000,000 "or thereabouts." The issue was heavily oversubscribed, subscriptions reaching $342,462,800. Allotments were $189,833,500. There were outstanding May 31 1923 $1,073,374,000 at various rates of interest.

LOANS TO BE REPLACED BY LIBERTY LOAN.—Under the Act of April 24 1917, authorizing the First Liberty Loan bonds, and again under the Act of Sept. 24 1917, authorizing the Second Liberty Loan, as well as under the Third Liberty Loan, all referred to below, the Secretary of the Treasury was authorized to issue Liberty Loan bonds to replace, at his discretion, bonds not already emitted under the following: Act of Aug. 5 1909, Section 39, Panama Canal Loan (Column 9), referred to above: Act of June 3 1916, Section 124, an Act for making further and more effectual provision for the national defense and other purposes, and providing for the expenditure of not more than $20,000,000 for a Government nitrate manufacturing plant; Act of Sept. 7 1916, Section 13, an Act to establish a United States Shipping Board for the purpose of encouraging, developing and creating a naval auxiliary and a naval reserve and a merchant marine to meet the requirements of the commerce of the United States with its territories and possessions, and with foreign countries, to regulate carriers by water engaged in the foreign and inter-State commerce of the United States, and for other purposes; Act of March 3 1917, Section 400, "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy and the extension of fortifications, and for other purposes." (See certificates of indebtedness above), and the Public Resolution of March 4 1917, entitled: "Joint resolution to expedite the delivery of materials, equipment and munitions and to secure more expeditious construction of ships."

LIBERTY LOAN OF 1917, FIRST.—(Column 1.) Authorized by Act of April 24 1917, entitled "An Act to authorize an issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend credit to foreign governments, and for other purposes." Under the Act the Secretary was empowered to borrow, with the approval of the President, up to $5,000,000,000, exclusive of the sums authorized by Section 4 of the Act (see Loans to be Replaced by Liberty Loan above) to meet expenditures authorized for the national security and defense and other public purposes authorized by law and to issue therefor bonds of the United States. The bonds out bear 3½% interest and are payable in United States gold coin of the present standard of value, and exempt both as to principal and interest, from all taxation, except estate or inheritance taxes, imposed by authority of the United States or its possessions or by any State or local taxing authority. The bonds do not bear the circulation privilege. Provision was made by Section 2 of the Act for the establishing of credits to and the purchasing of obligations of foreign governments, $3,000,000,000, or so much thereof as might be necesaary being appropriated for the purpose. Under Section 3 it was provided that payments to the United States on or before maturity by foreign governments for obligations incurred by them under Section 2 must be applied to the redemption or purchase at not more than par and accrued interest of any bonds of the United States issued under authority of the Act; and if such bonds are not available for this purpose the Secretary of the Treasury shall redeem or purchase any other outstanding interest-bearing obligations of the United States which may at such time be subject to call or which may be purchased at not more than par and accrued interest.

Section 5 provides that any series of bonds issued under authority of the Act may be convertible into bonds bearing a higher rate of interest than the rate at which the same were issued if any subsequent series of bonds shall be issued at a higher rate of interest before the termination of the war, the date of such termination to be fixed by a proclamation of the President of the United States.

Under the Act $2,000,000,000 gold bonds, running 15-30 years and bearing 3½ interest payable semi-annually June 15 and Dec. 15 were offered for subscription, denominations of coupon bonds being $50, $100, $500 and $1,000, and registered bonds $100, $500, $1,000, $5,000 $10,000, $50,000 and $100,000. Subscriptions were received from over 4,000,000 individual subscribers and aggregated $3,036,226,850. In scaling down the allotments to the total offered, all subscriptions up to and including $10,000 were awarded in full, but on larger amounts the allotments ranged from 60% down to 20.17% The total of bonds issued was $1,989,455,550, but only $1,409,999,550 remained outstanding March 31 1923 as 3½s with full tax exemption; in addition, $10,482,000 appear as First Liberty Loan Convertible 4s; $527,827,100 as converted 4¼s and $3,492,150 Second Converted 4¼s. The total of the First Liberty Loan issues outstanding, converted and unconverted, May 31 1923, was $1,951,768,300.

LIBERTY LOAN OF 1917, SECOND.—(Column 2.)—Authorized by Act of Sept. 24 1917, entitled "An Act to authorize an additional issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend additional credit to foreign governments, and for other purposes."

The Act in its general outlines is similar to that of April 24 1917, but authorizes the issuance of not exceeding $7,538,945,460 bonds, bearing not exceeding 4% interest, in addition to the $2,000,000,000 bonds issued under authority of the Act of April 24 1917. *Provided*, That of this sum $3,063,945,460 shall be in lieu of that amount of the unissued bonds authorized by Sections 1 and 4 of the Act approved April 24 1917, $225,000,000 shall be in lieu of that amount of the unissued bonds authorized by Section 39 of the Act, approved Aug. 5 1909, $150,000,000 shall be in lieu of the unissued bonds authorized by the joint resolution approved March 4 1917, and $100,000,000 shall be in lieu of the unissued bonds authorized by Section 400 of the Act, approved March 3 1917.

Section 2 provides for the appropriation out of any money in the Treasury not otherwise appropriated, of the sum of $4,000,000,0 , and in addition thereto the unexpended balance of the appropriations made by Section 2 (the section that authorizes loans to the Allies) f the Act approved April 24 1917 and under the same conditions.

Section 4 provides for the convertibility of the bonds into any issue thereafter bearing a higher rate of interest. Under Section it is provided that none of the bonds shall bear the circulation privilege. The bonds are exempt, both as to principal and interest from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of such bonds and certificates the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, is exempt from the taxes provided for in subdivision (b) of this section.

Section 11, which relates to the conversion privilege of the *first* issue of Liberty Loan Bonds, states that no bonds shall be issued under authority of Sections 1 and 4 of said Act approved April 24 1917, in addition to the $2,000,000,000 already issued or offered for subscription.

Under authority of the Act, the Secretary of the Treasury offered for subscription on Oct. 1 an issue of $3,000,000,000 or more of 4% 10-25-Year bonds of the same denominations as the first Liberty Loan, reserving the right to allot bonds in excess of $3,000,000,000 to the extent of not over one-half of the sum by which the subscriptions received exceeded $3,000,000,000. Subscriptions totaled $4,617,532,300, or $1,617,532,300 more than the minimum sought, and on the basis of 50% of the oversubscriptions, the amount issued was $3,807,865,000; all those up to $50,000 were allotted in full. Total number of subscribers was approximately 9,400,000 There were outstanding on March 31 1923, $3,268,073,900, of which only $45,299,300 were 4s, the remaining $3,222,774,600 having been converted into 4¼s. The total of the Second Liberty Loan issues, converted and unconverted, outstanding May 31 1923 was $3,267,711,550.

With the issue of the Second Liberty 4s, dated Nov. 15 1917, a conversion privilege arose with respect to the First Liberty 3½s which continued until May 15 1918. The bonds issued upon conversion retained the date of maturity, the terms of redemption, and the dates of interest payment of

Military service bonds 1922c	4	---	Dec 1 1932	300,000

*Subject to call at 103 and int. on Dec. 1 1923 or any int. period thereafter.
a Under Chapter 89, Public Laws 1917, this bond was renewed for 30 years.
b Under Chapter 47, Resolves of 1917, this bond was renewed for 30 yrs.

INTEREST is payable at the State Treasury, Augusta, Me.

TOTAL DEBT.—The subjoined statement shows Maine's total funded debt on each of the dates named

	*July 1 1922.	*Jan. 1 1921.*	*Jan. 1 1920.*	*Jan. 1 1919.*
Bonded debt	$11,283,300	$8,902,300	$3,189,800	$3,268,800

Several issues have been made since July 1 1922, increasing the debt to $12,415,300 as of June 1 1923.
On July 1 1922 the assets of the State were as follows: Cash on hand, $1,863,763.41; securities, funds, taxes due, &c., $2,769,348.67. The total liabilities of the State on July 1 1922, including bonded debt, were $15,916,412.08.
* The 1921 Legislature changed the fiscal year so that it now ends June 30 instead of Dec. 31, as formerly.

ASSESSED VALUATION.—Valuations are taken only in even years.

Years.	Assessed Valuation Real.	Personal.	Total.	State tax per $1,000
1922	$525,434,387	$147,333,355	$672,767,742	$6.00
1920	484,754,706	152,648,727	637,403,433	7.25
1918	451,910,817	125,531,712	577,442,529	6.00
1916	418,442,815	102,960,118	521,402,933	5.00
1914	401,279,430	97,208,419	498,487,849	4.50
1912	388,551,157	89,640,887	478,192,044	4.00
1910	366,132,326	85,647,793	451,780,119	5.00
1908	345,572,709	82,679,756	428,252,465	3.00
1906	316,053,787	78,679,203	394,732,990	2.50
1904	292,464,911	74,049,103	366,514,014	2.75

Years—	Total Valu'n.	Tax rate.	Years—	Total Valu'n.	Tax rate.
1902	$352,228,897	$2.75	1860	$164,714,168	$1.25

1870	224,812,900	6.00	1820	20,962,778	----

POPULATION OF STATE.—According to United States Census.

1920	768,014	1880	648,936	1840	501,793	1810	228,07
1910	742,371	1870	626,915	1830	399,455	1800	151,71
1900	694,466	1860	628,279	1820	298,335	1790	96,54
1890	661,086	1850	583,169				

DEBT LIMITATIONS.—STATE.—The debt of the State is now limited by Secs. 14, 15, 17, 18 and 19, Article 9, of the State constitution. Sec. 17 was added and Sec. 14 amended in Sept. 1912. V. 95, p. 766. Sec. 18 was added in March 1919. Further amendments to Sections 14 and 17 were made in Sept. 1919 and to Section 14 in Sept. 1920. See "Chronicle" of Jan. 15 1921, page 281.
At a special session in Nov. 1919 the Legislature passed a resolution proposing to amend Article 9 of the Constitution by adding to Section 14 after word "war" the words "to provide for the payment of a bonus to Maine soldiers and sailors in the war with Germany," and adding a new section No. 19, to Article 9 which would provide for a bond issue of $3,000,000 to pay the bonus. The voters approved this amendment Sept. 13 1920.
Sections 14 now reads as follows:

SECTION 14. The credit of the State shall not be directly or indirectly loaned in any case. The Legislature shall not create any debt or debts, liability or liabilities, on behalf of the State, which shall singly, or in the aggregate, with previous debts and liabilities hereafter incurred, at any one time exceed $800,000 except for the purposes of building State highways, intra-State, inter-State and international bridges, to suppress insurrection, to repel invasion, or for purposes of war; to provide for the payment of a bonus to Maine soldiers and sailors in the war with Germany; or for the purposes of building and maintaining public wharves and for the establishment of adequate port facilities in the State of Maine; but this amendment shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States, or to any fund which the State shall hold in trust for any Indian tribe.

Section 15, adopted after the Civil War, authorized the issuance of $3,500,000 bonds for payment to the cities, towns and plantations the sum of $300 for each man furnished to the United States for three years' service in the Civil War, and proportionate amounts for shorter terms of service, the money to be considered reimbursement to the cities, towns and plantations for expenses incurred by them. The bonds were issued for twenty-one years, and have all been paid off, except for one $500 bond, which has not been presented for payment.

Sections 17, 18 and 19 read:

SECTION 17. The Legislature may authorize the issuing of bonds not exceeding ten million dollars in amount at any one time, payable within forty-one years, at a rate of interest not exceeding five per centum per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of State highways, and intra-State, inter-State and international bridges; provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed ten million dollars; the expenditure of said money to be divided equitably among the several counties of the State.

SECTION 18. The Legislature may authorize the issuing of bonds not to exceed the amount of one million one hundred and fifty thousand dollars, payable within twenty years at a rate of interest of four per centum per annum payable semi-annually; which bonds shall be issued serially under the direction of the Governor and Council. The said bonds or their proceeds shall be devoted exclusively to the building and maintaining of public wharves and the establishment of adequate port facilities in the State of Maine.

SECTION 19.—The Legislature may authorize the issuing of bonds not to exceed the amount of three million dollars, payable within ten years, which bonds or their proceeds shall be devoted exclusively to paying a bonus to Maine soldiers and sailors in the war with Germany.

MUNICIPAL.—At an election held Sept. 11 1911 the voters adopted Article XXXIV, which amended Article XXII, originally adopted in 1877, by increasing the debt limit of cities of 40,000 or more (which concerns Portland alone) from 5% to 7½% of the assessed valuation. We print below Article XXII as amended in 1911:

No city or town having less than forty thousand inhabitants, according to the last census taken by the United States, shall hereafter create any debt or liability, which, single or in the aggregate, with previous debts or liabilities, shall exceed five per centum of the last regular valuation of said city or town; *provided, however*, that cities having a population of forty thousand or more, according to the last census taken by the United States, may create a debt or liability which, single or in the aggregate, with previous debts or liabilities, shall equal seven and one-half per cent of the last regular valuation of said city, that cities of forty thousand inhabitants, or over, may, by a majority vote of their city government, increase the present rate of five per centum by one-fourth of one per cent in any one municipal year, until, in not less than ten years, the maximum rate of seven and one-half zpr cent is reached, that any city failing to take the increase in any one municipal year then the increase for that year is lost and no increase can be made until the next year as provided above; and *provided further*, that the adoption of this article shall not be construed as applying to any fund received in trust by said city or town, nor to any loan for the purpose of renewing existing loans, or for war or to temporary loans to be paid out of the money raised by taxes during the year in which they were made.

The issuance of short-term notes is regulated by Sec. 62, Chap. 4, Revise Statutes. The 1921 Legislature passed an amendment to the section ting the amount and term of such temporary loans. Section 62 now as follows

"Sec. 62. Providing for temporary loans in anticipation of payment of taxes of current year. Cities and towns may issue and negotiate their notes, bonds or scrip for refunding or paying in whole or in part any indebtedness thereof, which has or may hereafter become due, and for any purpose for which the city or town can raise money or incur debt, and may issue and negotiate their notes, to an amount which shall not exceed in the aggregate the total tax levy of the preceding municipal year, for temporary loans to be paid during the year in which they were made, out of the money raised during such current year by taxes, provided that the vote authorizing such notes states that they are to be paid out of money so raised. If a city or town votes to issue bonds, notes or certificates of indebtedness in accordance with the provisions of law, the officers authorized to issue the same may, in the name of such city or town, make a temporary loan for a period of not more than one year in anticipation of the money to be derived from the sale of such bonds, notes or certificates of indebtedness and may issue notes therefor; but the time within which such securities shall become due and payable shall not be extended by reason of the making of such temporary loan beyond the time fixed in the vote authorizing the issue of such bonds, notes or certificates of indebtedness; and notes issued under the provisions of this section for a shorter period than one year may be refunded by the issue of other notes maturing within the required period; *provided*, however, that the period from the date of issue of the original loan and the date of maturity of the refunding loan shall be not more than one year; and provided further, that no notes shall be refunded under the provisions of this section except under the authority of such vote as is required for the original borrowing."

EXEMPT FROM TAXATION.—The Legislature of 1909 approved an Act exempting from taxation all bonds issued after Feb. 1 1909 by the State or any county municipality, village, corporation or water district therein. Banks and trust companies holding such securities are allowed to deduct the same from the assessment of their shares. By Chapter 221 of the laws of 1919 the exemption was extended so as to make it apply to "notes and other obligations," as well as bonds, and so as to cover light and power districts as well as water districts. See V. 108, p. 2257, for amended Act in full. At a special session in Nov. 1919 the Legislature further extended the exemption so as to make it apply to sewerage district bonds.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investment and loans of savings banks and institutions for savings in the State of Maine prior to this year (1923) were contained in Sections 27 to 35, inclusive, of Chapter 52 of the Revised Statutes of 1916, as amended. At the 1923 session of the Legislature these sections were completely revised. The principal changes made in the revision were mentioned by us in V. 116, p. 2542. The text of the new law, which goes into effect on July 7, reads:

Sec. 27.—*Investment of Deposits.*—Savings banks and institutions for savings may hereafter invest their funds as follows, and not otherwise:

I. *Government Obligations.*

(a) In the bonds and other interest-bearing obligations of the United States, including those for the payment of the principal and interest of which the faith and credit of the United States Government is pledged.

(b) In bonds constituting a direct and primary obligation of the Dominion of Canada, the principal and interest of which are payable in United States funds.

II. *Obligations of States.*

In bonds or other interest-bearing obligations of any State in the United States that has not, for a period of more than ninety days, defaulted in the payment of the principal or interest of any obligation within a period of ten years immediately preceding the investment.

III. *Obligations of Counties.*

(a) In the bonds or other interest-bearing obligations of any county in this State.

(b) In the bonds or other interest-bearing obligations of any county in any other State in the United States which at the date of the investment has more than fifty thousand inhabitants and whose net debt does not exceed 3% of the last preceding valuation of the taxable property therein; provided, however, that neither such county nor the State in which it is situated shall have defaulted for more than ninety days in payment of principal or interest of any obligation within a period of ten years immediately preceding the investment, that all issues for highway purposes shall be payable serially to mature in not more than twenty years, and that the principal and interest are payable from a direct tax to be levied on all the taxable property within such county; provided, however, that only such portion of such highway issue shall be legal as will be due and payable in not more than fifteen years from date of issue.

(c) The term "net debt" shall be construed to include all bonds which are a direct obligation of the county, less the amount of any sinking fund available in the reduction of such debt.

IV. *Municipal Obligations.*

(a) In the bonds or other interest-bearing obligations of any municipal or quasi-municipal corporation of this State, provided such securities are a direct obligation on all the taxable property thereof.

(b) In the bonds or other interest-bearing obligations of any city or town in any other State in the United States, incorporated at least twenty-five years prior to the date of investment, and having, according to each of the last two censuses of the Federal Government, a population of not less than ten thousand; provided that neither such municipality nor the State in which it is situated shall, for more than ninety days, have defaulted in the payment of principal or interest of any obligation within a period of ten years immediately preceding the investment, that the net debt of any such municipality whose population is less than five hundred thousand shall not exceed five per cent of the assessed valuation of the taxable property therein, and that the net debt of any such municipality whose population is in excess of five hundred thousand shall not exceed 8% of the assessed valuation of the taxable property therein. The obligations of any municipality which comply with the provisions of this section except for the fact that such municipality has been incorporated within twenty-five years of the date of the investment shall be held to be legal for the purposes of this section if the territory comprising such municipality shall for more than twenty years have had a population of not less than ten thousand, and have been during said time a part of one or more towns or cities having a population of not less than ten thousand, or have contained within its limits a municipality having a population of not less than ten thousand.

(c) In the bonds or other interest-bearing obligations of any quasi-municipal corporation, other than an irrigation or drainage district, within the territorial limits of any city or town whose obligations are eligible under the provisions of sub-section b, of this section, or comprising within its limits one or more such municipalities; provided, however, that the population and valuation of any such quasi-municipal corporation incorporated within a single city or town shall be at least 75% of the population and valuation of the city or town in which it is located; and provided, further, that such obligations shall be enforceable by a direct tax levied on all the taxable property within such corporation.

(d) The term "net debt" as applied to a municipality shall be construed to include not only all bonds which are a direct obligation of the municipality but also all bonds of quasi-municipal corporations within the same, exclusive of any such debt created for a water supply and of the amount of any sinking fund available in reduction of such debt. The securities of any municipality or quasi-municipal corporation shall not be held to be a direct obligation on all the taxable property thereof within the meaning of the foregoing provisions in any State which by statute or constitutional provision prevents the levying of sufficient taxes to meet such obligation.

V. Federal Land Banks.

In the bonds or other interest-bearing obligations of any Federal Land bank or Joint Stock Land bank organized under any Act of Congress enacted prior to the passage of this Act.

VI. Obligations of Steam Railroads.

(a) In the bonds, notes or other interest-bearing obligations of any Maine corporation owning and operating a steam railroad located principally within this State, having a mileage of not less than 500 miles of road, exclusive of sidings, including all obligations assumed or guaranteed by such railroad, and issued by subsidiary or lessor steam railroad corporations.

(b) In the bonds or notes issued, or assumed, by any steam railroad corporation organized under the laws of any other State in the United States; provided,

1. Such corporation shall own in fee not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, or shall own not less than 100 miles and have received each year for a period of five successive years next preceding the investment a gross operating income of not less than ten million dollars.

2. Such obligations shall be secured (a) by a first mortgage, or a mortgage or trust indenture which is in effect a first mortgage, on at least 75% of all the mileage of such corporation owned in fee, or (b) by a refunding mortgage providing for the retirement of al prior lien bonds outstanding at the date of issue and covering at least 75% of the mileage owned in fee by said corporation; provided, however, that all bonds secured by said refunding mortgage shall mature at a later date than any bond which it is given to refund, or if any such bonds are to mature at an earlier date the mortgage must provide that such bonds shall be retired by a like amount re-issued under said mortgage, or (c) by a mortgage prior to a refunding mortgage above described covering some part of the railroad property included n such refunding mortgage, if the bonds secured by such prior mortgage are to be refunded by said refunding mortgage and the property covered by such prior mortgage is operated by the corporation issuing the refunding mortgage, or (d) by a first mortgage on the property of a leased road forming a substantial portion of the system of the operating company.

3. Such corporation shall have earned and received for a period fo five successive calendar or fiscal years next preceding the investment a net income of not less than one and one-half times the annual interest on its debts outstanding during that period and secured by the mortgage under which the bonds in question are issued and all prior liens, and also shall have earned and received for a period of twelve consecutive months within the fifteen months next preceding investment a net income of not less than one and one-half times the annual interest on its debt outstanding at the time of investment, secured as aforesaid. The time during which any railroad may have been operated by the Government of the United States under the provisions of any Act or Acts of Congress heretofore enacted, and a period of two years thereafter, may be excluded in determining whether the bonds of any railroad corporation are able to qualify under the provisions of this paragraph.

In determining the income of any corporation for the purposes of the foregoing paragraph there shall be included the income of any corporation or corporations out of which it shall have have been formed through consolidation or merger, and of any corporation whose business and income-producing property has been wholly acquired by the corporation issuing, assuming or guaranteeing the bonds in question.

The net income of a railroad for the purpose of the foregoing paragraph shall be determined after deducting all operating expenses, maintenance charges, depreciation, rentals, taxes and guaranteed interest and dividends paid by or due from it.

4. The total of the bonds and notes issued under the mortgage securing the bonds in question and all prior liens, exclusive of those issued for refunding or otherwise retiring prior lien obligations, shall not exceed three times the outstanding capital stock of such corporation at the date of investment.

(c) 1. In equipment bonds or notes issued under the Philadelphia plan, so-called, and secured by standard equipment leased to any steam railroad corporation in the United States any of whose mortgage bonds are eligible under the provisions of this section: provided, however, that the amount of such securities outstanding shall at no time exceed 80% of the cost of the equipment by which they are secured.

2. In the prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation in pursuance of any equipment trust financed in whole or in part through a loan or loans made or approved by the Inter-State Commerce Commission, provided such securities are issued for not exceeding in par value 60% of the cost of standard railway equipment and that such obligations shall nature in approximately equal annual or semi-annual installments over a period not exceeds ing 15 years; provided, however, that not more than 2% of the deposit of any bank be invested in the foregoing obligations.

(d) In the first mortgage bonds of any terminal or bridge company guaranteed as to principal and interest by any railroad corporation any of whose mortgage obligations are eligible under the provisions of this section.

(e) Not more than 25% of the deposits of any one bank shall be invested in steam railroad obligations and not more than 2% of such deposits in the obligations of any single railroad corporation whose mileage is located principally outside the State of Maine.

VII. Public Utility Obligations.

(a) In the bonds or notes issued or assumed by any Maine corporation subject to the jurisdiction of the Maine Public Utilities Commission and carrying on in this State the business for which it was organized; provided however, that such securities shall first have been duly authorised by said Commission under the laws of Maine, if at the time of their issue such authorization was required by law.

(b) In the mortgage bonds, or other interest-bearing obligations secured by mortgage, issued or assumed by any corporation, at least 75% of whose gross income is derived from the operation of an electric railroad, electric light and power business, artificial gas business or a combination thereof, or from furnishing municipal and domestic users with a water supply; provided,

1. Such corporation shall be subject to the jurisdiction of a public utilities commission, public service commission or some other tribunal exercising supervisory functions, ordinarily incident to such commission, and the issuance of the securities in question shall have been duly authorized by such commission, if at the time of their issue cush authorization was required by law.

2. At least 51% of the corporation's property shall be located in, and 51% of its business transacted within, the United States.

3. Such corporation shall own in fee not less than 51% of the property used by it in the carrying on of its business.

4. Such corporation shall have received average gross earnings of at least $500,000 per year in each of its three fiscal years, or three nearer periods of one year next preceding investment.

5. Such corporation shall have earned and received an average net income, including income from investments, for a period of three fiscal years, or a nearer period of three years next preceding such investment, of not less than twice the annual interest on its debt outstanding during that period and secured by the mortgage under which the bonds in question are issued and all prior liens, and also shall have earned and received for a period of 12 consecutive months within the 15 months next preceding investment a net income of not less than 1½ times the annual interest on its debt outstanding at the time of investment, secured as aforesaid, and shall not have defaulted on any of its obligations during the same period. The net income of such corporation for the purposes of this section shall be determined after deducting all operating expenses, maintenance charges, depreciation, rentals, taxes and guaranteed interest and dividends paid by or due from it.

6. Such obligations shall mature at least three years before the expiration of the principal franchise or franchises under which such corporation is operating, or there shall exist some statute or definite agreement or contract with the grantors whereby such franchise or franchises may be renewed or extended from time to time throughout and beyond the life of the bonds in question, under which statute, agreement or contract the security of such obligation is adequately protected, except where such company is operating under an indeterminate franchise granted by a public utilities commission or public service commission.

7. Such obligations shall be secured (a) by a first mortgage, or a mortgage or trust indenture which is in effect a first mortgage, on at least 75% of all the property of such corporation owned in fee, or (b) by a refunding mortgage providing for the retirement of all prior lien bonds outstanding at the date of investment and covering at least 75% of the property owned in fee by said corporation; provided, however, that all bonds secured by said refunding mortgage shall mature at a later date than any bond which it is given to refund, or if any such bonds are to mature at an earlier date the mortgage must provide that such bonds shall be retired by a like amount reissued under said mortgage, or (c) by a mortgage prior to a refunding mortgage above described covering some part of the public utility property included in such refunding mortgage, if the bonds secured by such prior mortgage are to be refunded by said refunding mortgage and the property covered by such prior mortgage is operated by the corporation issuing the refunding mortgage, or (d) by a first mortgage on the property of a lessor public utility forming a substantial portion of the system of the operating company.

8. The total of the bonds and notes issued under the mortgage securing the bonds in question and all prior liens, exclusive of those authorized for refunding or otherwise retiring prior lien obligations, shall not exceed three times the outstanding capital stock of su.h corporation at the date of investment.

(c) Not more than 35% of the deposits of any one bank shall be invested in the obligations of the above specified public utility corporations and not more than 2% of such deposits in the obligations of any single utility whose business is transacted principally outside the State of Maine.

VIII.—Obligations of Telephone Companies.

(a) In the mortgage bonds, and other interest-bearing obligations secured by mortgage, issued or assumed by any telephone company incorporated under the laws of any State of the United States whose property is located chiefly in the United States; provided,

1. Such corporation shall have received gross revenues of at least $5,000,000 per year in each of its three fiscal years, or three nearer periods of one year, next preceding such investment.

2. Such corporation shall have earned and received a net income, including income from investments, in each of its three fiscal years, or three nearer periods of one year, next preceding such investment, not less than twice the annual interest on its debt secured by the mortgage under which the bonds in question are issued and all prior liens, and shall not have defaulted on any of its obligations during the same period. The net income of such corporation for the purpose of this section shall be determined after deducting all operating expenses, including maintenance and depreciation charges, rentals, taxes and guaranteed interest and dividends paid by or due from it.

3. Such obligations shall be secured (a) by a first mortgage on at least 75% of all the property of such corporation owned in fee, or (b) by a refunding mortgage providing for the retirement of all prior lien bonds outstanding at the date of investment and covering at least 75% of the property owned in fee by said corporation; provided, however, that all bonds secured by said refunding mortgage shall mature at a later date than any bond which it is given to refund, or if any bonds are to mature at an earlier date the mortgage must peovide that such bonds shall be retired by a like amount re-issued under said mortgage, or (c) by a mortgage prior to a refunding mortgage above described covering some part of the telephone company property included in such refunding mortgage, if the bonds secured by such prior mortgage are to be refunded by said refunding mortgage and the property covered by such prior mortgage is operated by the corporation issuing the refunding mortgage, or (d) by a first mortgage on the property of a lessor company forming a substantial portion of the system of the operating company.

(b) Collateral trust bonds of any such telephone company secured by the deposit with a trust company or national bank of bonds and(or) of shares of stock of subsidiaries or other telephone companies, under an indenture of trust which limits the amount of bonds so secured to not more than 75% of the value of the securities deposited as stated and determined in said indenture, and provided that the company issuing such collateral trust bonds shall have received average gross revenues of not less than $75,000,000 in each of its three fiscal years, or three nearer periods of one year, next preceding such investment, and provided, further, that such telephone company shall for the same period have earned and received a net income, including income from investments, not less than three times the annual interest on the bonds in question and all prior liens.

(c) Not more than 10% of the deposits of any one bank shall be invested in obligations of telephone companies, and not more than 2% in the obligations of any single telephone company.

IX. Bonds of Maine Corporations.

In the bonds or other interest-bearing obligations of any Maine corporation, other than those hereinbefore specifically mentioned, actually conducting in this State the business for which such corporation was created, which for a period of three successive fiscal years, or three nearer periods of one year, next preceding the investment, has earned and received an average net income of not less than twice the interest on the obligations in question and all prior liens. Not more than 25% of the deposits of any one bank shall be invested in the obligations of such corporations and not more than 2% of such deposits in the obligations of any single corporation.

X. Stocks of Maine Corporations.

(a) In the stock of any Maine corporation other than a banking corporation actually conducting in this State the business for which such corporation was created, provided such corporation has for a period of three years next preceding the investment earned and received an average net income equivalent to at least 6% upon the entire outstanding issue of the stock in question.

(b) The aggregate of all investments made by any bank in stock shall at no time exceed 5% of its deposits and not more than 1% of the deposits of such bank shall be invested in the stock of any single corporation. No such bank shall hold by way of investment or as security for loans, or both, more than one-fifth of the capital stock of any corporation; but this limitation shall not apply to assets acquired in good faith upon judgments for debts or in settlements to secure debts.

XI. Mortgage Loans.

In notes or bonds secured by first mortgages of real estate in Maine and New Hampshire to an amount not exceeding 60% of the market value of such real estate. No bank shall have more than 60% of its deposits invested in such mortgages.

XII. Collateral Loans.

(a) In notes with a pledge as collateral of any securities which the institution itself may lawfully purchase under the provisions of this section, provided the market value of such collateral is at least 10% in excess of the amount of the loan.

(b) In notes with a pledge as collateral of any savings deposit book issued by any savings bank, trust company or national bank in this State or in any of the other New England States or the State of New York, or of a passbook or share certificate issued by any loan and building association in this State.

(c) In notes with a pledge as collateral of the stock of any trust company organized under the laws of Maine, or any national bank having its principal place of business in this State, the market value of such collateral to be at all times at least 20% in excess of the amount of the loan.

(d) In notes with a pledge as collateral of the stock or bonds of any manufacturing, steam railroad, telephone, telegraph, or any other public utility corporation, providing such corporation shall, for each of the three years next preceding the time when such loan is made, have paid dividends upon such stock or any issue junior thereto at a rate of not less than 6% per annum, or interest upon such bonds at a rate of not less than 5% per annum; the market value of such collateral to be at all times at least 20% in excess of the loan.

(e) The aggregate of all collateral loans made by any bank, other than those secured by obligations of the United States Government, shall at no time exceed 10% of its deposits and not more than 1% of its deposits shall be loaned on the obligations and stock of any single corporation.

XIII. Loans to Municipal Corporations.

In loans to any municipal or quasi-municipal corporation in this State when duly authorized by such municipality or corporation.

XIV. Loans to Maine Corporations.

In loans to any religious, charitable, educational or fraternal corporation organized under the laws of this State, or to the trustees of any unincorporated religious, charitable, educational or fraternal association in this State, or to any log-driving company incorporated under the laws of this State, and in loans to any corporation whose stock may be purchased under the provisions of sub-section X of this section; provided, however, that the total amount of loans to any corporation and of the par value of its stock owned by the bank shall at no time exceed 2% of the deposits of said banks.

XV. Acceptances.

(a) In bankers' acceptances and bills of exchange of the kind and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are accepted by a trust and banking company incorporated under the laws of this State, or a member of the Federal Reserve System located in any of the New England States or the State of New York.

(b) In bills of exchange drawn by the seller on the purchaser of goods sold and accepted by such purchaser of the kind and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are indorsed by a trust and banking company incorporated under the laws of this State, or a member of the Federal Reserve System located in any of the New England States or the State of New York.

(c) Not more than 10% of the assets of any savings bank or institution for savings shall be invested in such acceptances. The aggregate amount of the liability of any trust and banking company or of any national bank to any savings bank or institution for savings, whether as principal or indorser, for acceptances held by such savings bank or institution for savings, shall not exceed 20% of the paid-up capital and surplus of such trust and banking company or national bank, and not more than 5% of the assets of any savings bank or institution for savings shall be invested in the acceptances of a trust and banking company or of a national bank of which a trustee of such savings bank or institution for savings is a director.

XVI.—Department Certificates of Legality.

The Bank Commissioner shall ascertain what bonds and other interest-bearing obligations are legal investments under the provisions of Subsections I to VIII, inclusive, of this section, and within the first ten days of May and November of each year shall send to each savings bank a certificate stating, over his signature, that upon investigation, he finds the obligations specified in said certificate are legal investments under the provisions of this section. Said certificate shall be prima facie evidence of the correctness of the findings of said Commissioner and shall so continue until the issuance of the next certificate of said Commissioner, or of an intermediate certificate correcting and changing the list of legal investments in the certificate last issued. Nothing herein contained shall be construed to require any action by the Bank Commissioner as a condition precedent to the right of any savings bank to purchase any security conforming to the requirements of the provisions of this section at the time of investment.

Any person or corporation financially interested in any such finding of the Bank Commissioner may take an appeal therefrom to any Justice of the Supreme Judicial Court, who, after such notice and hearing as he deems proper, may inquire into and render a judgment whether such obligation is a legal investment for savings banks under the provisions of this section.

The proper and necessary expenditures incurred by the Bank Commissioner in carrying our the provisions of this section, including the compensation of any person or persons specially employed for that purpose, shall be chargeable to the fund created by the payment of registration fees by dealers in securities and their agents and salesmen.

Sec. 28. *May acquire and hold stocks, bonds and other securities not authorized by law, to avoid loss.* Savings bank and institutions for savings may acquire and hold stocks, bonds and other securities not authorized by law, hereafter acquired in settlements and reorganizations and accepted to reduce or avoid loss on defaulted loans and investments held by said banks and institutions, and may continue to hold such stocks, bonds and other securities heretofore so acquired, and all other investments lawfully acquired, and shall not be obliged to sell of dispose of the same except at such times and in such manner as will prevent unnecessary loss or embarrassment to the business of the bank or institution. All outstanding collateral loans which could not lawfully be made hereafter under the provisions of Subsection XII of Section 27 of this Act, may be renewed, without requiring additional collateral, for a period not to exceed two years from the date when this Act shall take effect.

New Hampshire.

ITS

DEBT, RESOURCES, &c.

Admitted as a State—One of Original Thirteen
Total Area of State (square miles)—9,305
State Capital—Concord
Governor (term expires Jan. 1925)—Fred H. Brown
Secretary of State (chosen by Legislature)—Enos K. Sawyer
Treasurer (term expires Jan. 1925)—Geo. E. Farrand
Attorney-General—Oscar L. Young

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and length of session is not limited.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,816, contracted exclusively for war purposes. June 1 1869 the total outstanding was $3,213,962.22, against which the Treasurer reported an asset of $77,082.89 The State debt at the present time is as follows:

LOANS— Name and Purpose—	—Interest— %	Payable.	—Princip l— When Due.	Outstand'g
Highway bonds of 1912	3½	J & J	July 1 1924	$75,000
Hospital, 1905	3½	J & J	July 1 '24-25	20,000
do 1907	3½	J & J	July 1 1927	150,000
do 1909 c	3½	J & J	July 1 1929	85,000
War Loan bonds c	4½	J & J	July 1 '30-'36	500,000
War recognition bonds	4½	J & D	Dec. 1 1923	700,000
War recognition bonds	4½	J & D	Dec. 1 1925	789,000
Loan of 1873 (overdue)	---	------	----------	500

PAR VALUE OF BONDS.—The bonds are in $500 and $1,000 pieces.

INTEREST is payable at the National Shawmut Bank of Boston and at State Treasurer's office.

TAX-EXEMPT.—All issues are exempt when held by savings banks and citizens of New Hampshire.

TOTAL DEBT.—The *net* debt on June 30 1922 was $945,672 62. The subjoined statement shows New Hampshire's *total* debt on the dates named. Assets June 30 1922 were $2 671,831 92.

	June 30 '22.	*June* 30 '21.	*Sept.* 1 '20.	*Sept.* 1 '19.
Total funded debt	$2,489,500	$2,574,500	$2,589,500	$1,171,500
Trust funds	1,127,904	1,121,100	1,110,864	1,176,993
Floating debt	100	100	100	450.100
Total debt	$3,617,504	$3,695,700	$3,700,464	$2,798,593

ASSESSED VALUATION.—The State's total assessed valuation was as below. The average tax rate (State, county and local) for 1920 (per $1,000) was $23.70; for 1921 it was $24.80; in 1922 it was $24.40.

Years—	*Assessed Val.*	*Years*—	*Assessed Val.*	*Years*—	*Assessed Val.*
1922	$566,469,344	1914	$390,877,626	1902	$214,616,655
1921	531,154,014	1912 *	390,086 029	1900	209,670,845
1920	511,456,583	1911	263,074,386	1898	204,734,731
1919	469,858,171	1910	255,085,571	1896	200,957,600
1918	453,327,679	1908	244,971,264	1894	197,839,543
1917	428,107,097	1906	231,641,571	1893	196,117,060
1916	410,150,583	1905	225,082,628	1881	168,964,903
1915	398,845,480	1904	220,624,307		

The preceding values are simply the aggregate of the inventories of the various towns in the State. In addition, the State taxes at different rates savings banks and trust companies, insurance capital, railroads, building and loan associations, telegraph and telephone companies, parlor car and express companies. These, less exemptions allowed by statute, in 1922 amount to $155,052,210.

* Chapter 169, Laws of 1911, created a permanent tax commission, one of whose duties it is to equalize valuations in the year 1912 and every second year thereafter, so that the same shall represent the "true and market value" of property. This accounts for the large increase in the valuation of 1912.

POPULATION OF STATE—

1920	443,083	1880	346,991	1840	284,574

FISCAL YEAR.—Chap. 19, Laws of 1921, provides that the fiscal year of State reports shall close on June 30 and that biennial reports shall be issued on June 30 in even years.

DEBT LIMITATION.—There is no restriction in the constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the constitution which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

By Chap. 16 of the Public Statutes (1901) which chapter defines the duties of the State Treasurer, that official was authorized, at the direction of the Governor and Council to borrow in an amount not to exceed $55,000 for the purpose of refunding debts, the interest rate and the term of bond not to exceed 6% and 5 years, respectively. In 1905 an amendment raised the amount that could be borrowed under authority of the Act to $300,000, and in 1921 it was raised to $600,000, and the 6% interest limit struck out. The Section now reads:

Sec. 6. If money due from the State is demanded, and there are not sufficient funds in the treasury available for the payment of the same, the Treasurer, under the direction of the Governor and Council, is hereby authorized to borrow, on the State's credit, for a period of not more than 5 years, at the lowest rate of interest obtainable, such sums as may be necessary; but the entire indebtedness incurred under this authority shall not exceed the sum of $600,000 per annum.

In addition to the foregoing is the "Municipal Bond Act of 1895" as amended by Chapter 129, Laws of 1917. It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. As passed in 1895 the law provided:

Sec. 1. The term "municipal corporation" means town, city, school district, village district and village precinct. *Sec.* 2. Bonds issued must be payable within 20 years, interest semi-annual, not exceeding 6%, may be payable in gold coin. If made payable in less than 20 years, may be extended, but never beyond 20 years from time of issue. *Sec.* 3. Bonds (except of cities) must be authorized by a vote of two-thirds of all voters present and voting at an annual meeting of such corporation, or at a special meeting properly called, &c. (for which see Act). Bonds must be signed by a majority of the Governing Board, countersigned by Treasurer and have seal of corporation. Time and place of payment and rate of interest, &c., may be delegated to Governing Board. *Sec.* 4. City bonds must be authorized by resolution of City Council passed by at least two-thirds of members elected to each branch, taken by yeas and nays, signed by Mayor, countersigned by Treasurer, seal of city affixed Place of payment, rate of interest and sale may be delegated to Treasurer. *Sec.* 5. Bonds shall be payable to bearer or to registered holder by name, and must be in form set out in Act—which see. In case bonds be made subject to call, they must contain statement to that effect as given in Act. "The validity of any bonds shall not be affected by any variation from the forms herein prescribed." *Sec.* 6. Treasurer to keep a book in which he shall register bonds issued, &c. *Sec.* 7. "All bonds purporting to be issued by virtue or in pursuance of this Act and signed and sealed as hereinbefore provided shall, in favor of bona-fide holders, be conclusively presumed to have been duly and regularly authorized and issued in accordance with the provisions herein contained, and no holder thereof shall be obliged to see to the existence of the purpose of the issue or to the regularity of any of the proceedings or to the application of the proceeds. All such bonds shall be negotiable in all respects and to the same extent as securities negotiable by the law merchant." *Sec.* 8. Annual tax must be levied and collected sufficient to pay interest and provide a sinking fund sufficient to pay principal within 20 years. *Sec.* 9. No bonds can be issued which shall increase the *net* debt of corporation to an amount exceeding 5% of the value of the taxable property therein as last appraised for assessing taxes. To ascertain *net* debt, all debts must be included except the following, which must be deducted—water debt, 'cash and other means' in treasury and sinking funds applicable to payment of debt so included; "but nothing contained in this section shall prevent the issue of bonds for the purpose of refunding an equal principal amount of other bonds of such corporation." *Sec.* 10. Corporation seal. *Sec.* 11. Act to take effect on passage. Approved March 19 1895.

The amendment of 1917, repealing, among others, Secs. 2 and 9 of the above Act, absolished sinking funds in municipalities and counties; the exception, however, being made that those established at the time the amendment was adopted were to be continued, and provided for a serial method of amortization of these bonds, the first payment to be made within two years from the date of issue. Provision is also made that counties and municipalities, for buildings and permanent public im-rovements, for the acquisition of land, for the purchase of departmental equipment of a lasting character, and for the payment of judgments, may issue serial bonds maturing within 20 years. New limitations upon the percentage (of assessed valuations) of debt that might be incurred were fixed as follows: Counties, cities and towns, 3%; school districts, 2%; village precincts, 1%; the debt upon any territory shall not, combining county, town, district, &c., indebtedness, be in excess of 6% of the assessed valuation of property. The conditions bearing on water debt, sinking fund, "cash and other means" remain the same as in Sec. 9 of the 1895 Act.

Exceptions have been made to this law from time to time in special instances, such as in the case of $100,000 high-school bonds of the city of Portsmouth authorized by Chapter 202, Laws of 1903. This chapter provides that Section 9 of the Municipal Bond Law of 1895 does not apply n this instance.

TAXATION OF STATE AND MUNICIPAL BONDS.—Chap. 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precinct or village district. *State* bonds were left subject to taxation unless exempted by the terms of the Act under which they are issued.

In 1913 the privilege of exemption was extended by Chapter 51 of the Acts for that year to future bond issues by school districts when held by residents. Another Act of 1913 (Chapter 112) exempts from taxation all the bonds or notes *of the State* or any of its minor civil divisions bearing **not exceeding 5% interest.**

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1917. An explanation of the changes made was published by us in the "Chronicle" of May 19 1917, pages 2028 to 2030, inclusive. The law was again revised in 1921 (see the "Chronicle" of May 21 1921, pages 2214 to 2216, inclusive). The principal changes were the reduction of the amount of the railroad, public utility and industrial stocks that a savings bank may hold, from 25% to 10%, and the new paragraphs 4 and 5 under Section 4 in relation to equipment securities of railroads. The full text of the new law as it now stands follows:

Section 1. On and after the passage of this act savings banks and savings departments of banking and trust companies shall make investment of their funds in the following classes of securities only:

Sec. 2. For the purposes of this act a note shall be construed as a written promise of an individual, firm, corporation or voluntary association, signed by the maker, to pay a specified sum of money on demand or at a fixed or determinable future time, but not issued under indenture or deed of trust. A bond shall be construed as a note issued under indenture or deed of trust.

1. In notes or bonds directly secured by first mortgage on real estate situated within the State of New Hampshire; but no such investment shall be in a loan that exceeds 70% of the value of the real estate by which it is secured and not exceeding 75% of the deposits shall be so invested, except by permission of the bank commissioners

2. In notes or bonds directly secured by first mortgage on real estate situated outside of New Hampshire but entirely within the United States, which at the time of such investment is improved, occupied and productive; but not exceeding 40% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

3. In notes or bonds directly secured by first mortgage on timber lands situated within the States of Maine and Vermont; but not exceeding 5% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

4. In notes secured by collateral in which the bank is at liberty to invest, of a value at least 10% in excess of the value of the note, and in bonds secured by collateral in which the bank is at liberty to invest under paragraphs 1, 2, 3, 4 and 8 of Section 4, of a value of at least 10% in excess of the value of the note. The amount of any one class of securities so taken as collateral, added to that which the bank may own at the time, shall not exceed the total limit of investment in that class of security; but not exceeding 25% of the deposits shall be so invested.

5. In notes secured by collateral securities which are dealt in on the Stock Exchanges of Boston or New York, the Stock Exchange price of which shall at all times be at least 20% in excess of the amount due upon the note, while held by the bank; but not exceeding 25% of the deposits shall be so invested.

6. In notes secured by any savings bank deposit book issued by any savings bank chartered under the laws of any New England State; or in notes secured by the depositor's pass-book of any building and loan association of this State, *provided* that the investment shall not be in excess of the withdrawing value of said pass-book.

7. In notes with two or more signers, or one or more indorsers, or in acceptances of member banks of the Federal Reserve System of the kinds and maturities made eligible for rediscount or purchase by Federal Reserve banks, or in notes of makers whose net assets are not less than $250,000 and whose total indebtedness does not exceed 50% of their quick assets; but not exceeding 5% of the deposits shall be loaned to any one borrower on this class of security; and not exceeding 30% of the deposits shall be invested under the provisions of this paragraph, *provided* that, except in notes with two or more signers, or one or more indorsers, or in said acceptances, no savings bank shall invest under this paragraph unless its guaranty fund is full and unimpaired and the total value of its assets as determined by the Board of Bank Commissioners shall exceed the amount of its deposits by at least 10%.

8. In bonds issued under the provisions of the Federal Farm Loan Act, but not more than 5% of the deposits shall be so invested.

MUNICIPAL BONDS.

Sec. 3. For the purposes of this section a Municipality shall be construed as a county, city, town, village, district, precinct or other municipal corporation; a Municipal Bond shall be construed as an interest-bearing obligation of a government, State, province or municipality, to provide for the interest and principal requirements of which taxes may be levied on all taxable property within the confines of the obligor; Net Debt shall be construed as debt after deducting sinking funds available for the payment of such debt and the net outstanding debt created for supplying the inhabitants with water; Assessed Valuation shall be construed as the nearest preceding valuation of property for purposes of taxation; and population shall be construed as the number of inhabitants in accordance with the nearest preceding census taken under Federal or State authority.

Not exceeding 5% of the deposits shall be invested in the bonds of any one municipality; and not exceeding in the aggregate 10% of the deposits shall be invested in the bonds of the Dominion of Canada, its provinces and cities.

1. In the public funds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal.

2. In the authorized bonds and notes of this State, or of any of its municipalities.

3. In the authorized bonds or notes of any State or territory of the United States; and in the authorized bonds or notes of any city of the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut, or New York, whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation; or of any municipality in said States whose net indebtedness does not exceed 5% of such valuation.

4. In the authorized bonds of any municipality of any other of the United States or territories whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 50,000 inhabitants of any of said States whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation. *Provided*, that the bonds of any county, city, or town of less than 10,000 inhabitants, or of any school district or other municipal corporation of less than 2,000 inhabitants in any State or territory other than those named in paragraph 3 of this section shall not be authorized investments.

5. In the authorized bonds or notes of the Dominion of Canada and in bonds or notes the principal and interest of which are guaranteed by the Dominion of Canada.

6. In the authorized bonds of any province of the Dominion of Canada.

7. In the authorized bonds of any city of the Dominion of Canada, with a population of not less than 50,000, whose net debt does not exceed 7% of the last preceding valuation of the property therein for taxation.

OTHER BONDS, NOTES AND STOCKS.

Sec. 4. For the purposes of this section a Company shall be construed as a corporation or voluntary association organized under the laws of the United States or any State thereof and located and doing business principally within the United States; a Public Service Company shall be construed as a company doing principally a gas, electric light or electric power business; Mortgage Bonds shall be construed as bonds secured primarily by direct and foreclosable lien on physical property owned by the obligor; Years shall be construed as calendar years, fiscal years or nearer periods of twelve months next preceding such investment; Net Income shall be construed as income after deducting operating expenses, taxes, insurance, rentals, guaranteed interest and guaranteed dividends, and expenditures for maintenance; and Annual Interest shall be construed as interest actually paid in each year except that for the latest year it shall be construed as one year's interest on the total amount outstanding at the time of the investment.

Not exceeding 65% of the deposits shall be invested in securities authorized under this section; and not exceeding 5% of the deposits shall be invested in the securities of any one company, and not exceeding 10% of the deposits shall be invested in securities authorized by this section other than in bonds, notes, equipment securities, and receiver's certificates.

No investment shall be made in securities authorized under this section unless the net income of the company in question in each of the three years next preceding such investment shall have been not less than one and one-quarter (1¼) times the annual interest on the entire funded debt.

In the case of a company formed by the consolidation of two or more existing companies, the net income and annual interest for the years preceding such consolidation shall be the combined net income and annual interest of the consolidated companies.

The change of motive power by any steam railroad company, whether wholly or in part, shall not affect the eligibility for investment of any steam railroad obligations.

Subject to the foregoing, investments may be made as follows:

STEAM RAILROAD SECURITIES.

1. In bonds or notes issued or assumed by steam railroad companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than ten million dollars ($10,000,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two million dollars ($2,000,000) and not less than one and three-quarters (1¾) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

2. In mortgage bonds guaranteed as to principal and interest by such companies, *provided* that in each of the three years next preceding such investment the net income of the obligor company shall have been not less than five hundred thousand ($500,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

3. In the mortgage bonds of terminal or bridge companies guaranteed as to principal and interest, by two or more such companies.

4. In equipment securities issued or guaranteed as to principal and interest by such companies, or by the Canadian National Railways or constituent corporations of the system owned or controlled by the Canadian National Railways, or secured as to principal and interest through the medium of a trustee by a prior lien on equipment leased to such companies or the Canadian National Railways or its constituent corporations, *provided* such securities are issued for not exceeding in par value 85% of the cost of standard equipment and wither (1) mature in approximately equal annua or semi-annual installments over a period beginning not more than six years

and ending not more than fifteen years from the date of their issue, or (2) mature not more than fifteen years from date of issue and their payment at maturity is provided for by a like series of installment payments to be used for the purchase and retirement of certificates or as a sinking fund.

5. In the prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation or by any such corporation organized under Act of Congress in pursuance of any equipment trust financed in whole or in part through a loan or loans made or approved by the Inter-State Commerce Commission, provided such securities are issued for not exceeding in par value sixty per cent (60%) of the cost of standard equipment and either (1) mature in approximately equal annual or semi-annual installments over a period beginning not more than six years and ending not more than fifteen years from date of their issue, or (2) mature not more than fifteen years from date of issue and their payment at maturity is provided for by a like series of installment payments to be used for the purchase and retirement of certificates or as a sinking fund.

6. In certificates of indebtedness, commonly termed "receiver's certificates," issued by a receiver of any steam railroad under authorization of the court having jurisdiction over such receiver.

7. In the dividend-paying capital stock of steam railroad companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half times the annual interest on the entire funded debt, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current annual dividend requirements on the class of stock in question and all other classes of stock of prior preference; and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question and all other classes of stock of prior preference; or in the dividend-paying stock of any steam railroad company that is leased to such company and whose dividends are guaranteed by such company.

PUBLIC SERVICE COMPANIES.

8. In mortgage bonds issued or assumed by public service companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than five hundred thousand dollars ($500,000) and not less than one and three-quarters times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two hundred and fifty thousand dollars ($250,000) and not less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien and in bonds or notes issued or assumed by public service companies, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been not less than five hundred thousand dollars ($500,000) and not less than two times the annual interest on the obligations in question and all other obligations of corresponding or prior lien; *provided* that in all cases the principal franchise or franchises of such corporations shall not mature prior to the maturity of the obligations in question or that such companies operate under indeterminate franchises or permits and are subject to the regulatory supervision of a State commission of competent jurisdiction or that such companies operate under a franchise or permit in which the capital or investment value of the company's property is fixed or determined when such investment or capital value is in excess of the indebtedness represented by the above obligations.

9. In the dividend-paying capital stock of senior preference of public service companies of which the net income in each of the five years next preceding such investment shall have been not less than five hundred thousand dollars ($500,000) and not less than twice the annual interest on the entire funded debt, *provided* that the income applicable to the payment of dividends shall during such period of five years have averaged not less than twice the dividend requirement of such stock, and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question, and *provided* that the issue of such stock has been authorized by a State commission of competent jurisdiction.

NEW HAMPSHIRE COMPANIES.

10. In the bonds or notes of public service and water companies organized under the laws of and located and doing business principally within the State of New Hampshire; *provided* the net income of such companies in each of the three years next preceding such investment shall have been not less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien; and in the dividend-paying capital stock of senior preference of such companies, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-eighth times the current annual dividend requirements on the class of stock in question, and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question.

TELEPHONE AND TELEGRAPH COMPANIES.

11. In bonds or notes issued or assumed by telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half (2½) times the annual interest on the entire funded debt.

12. In the dividend-paying capital stock of senior preference, of telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than twice the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half (2½) times the annual interest on the entire funded debt, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question, and that all companies to be eligible under this paragraph in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum upon the class of stock in question

BONDS OR NOTES.

13. In bonds or notes issued or assumed by companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than four (4) times the annual interest on the entire funded debt.

CAPITAL STOCK

14. In the dividend-paying capital stock of senior preference, of companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than twice the interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than four times the annual interest on the entire funded debt, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question; or if such companies have no funded debt then the income applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-fourth (1¼) times the current dividend requirements of the class of stock in question; and that all companies to be eligible under this paragraph in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum upon the class of stock in question.

Sec. 5. In the bonds or notes of any manufacturing company organized and doing business in the New England States with an unimpaired capital of two hundred and fifty thousand dollars ($250,000) and in the stock or certificates of interest of such company; *provided* always that the company has earned and paid in each of the five years preceding such investment dividends of at least four per cent on its entire capital stock, and that its net indebtedness does not exceed fifty per cent on its unimpaired capital stock. In case of the issue of new stock the earnings of the company in addition to the foregoing requirements must have been sufficient in the next year preceding such investment to have paid the average rate of dividend for that year on both the outstanding stock and the new issue to make the stock of the company a legal investment. Not exceeding five per cent of the deposits shall be invested under the provisions of this paragraph; and no bank shall hold more than five per cent of the stock of any such company.

Sec. 6. In the capital stock of any banking or trust company, or special deposits of guaranty savings banks incorporated under the laws of the State of New Hampshire and doing business therein; but the amount of such stock held by any savings bank as an investment and as collateral for loans shall not exceed one-tenth of the total capital stock or special deposits of such banking or trust company or guaranty savings bank, and not exceeding 10% of the deposits shall be so invested.

Sec. 7. In the stock of any national bank or trust company located in the New England States or the State of New York, but not exceeding 10% of the deposits of a savings bank shall be invested in such stock; the amount of stock in any national bank or trust company in this State which may be held by any savings bank as an investment or as collateral security for loans shall not exceed 25% of the capital stock of said national bank or trust company; and the amount of stock in any national bank or trust company outside of this State which may be held by any savings bank as an investment or as collateral for loans shall not exceed one-tenth of the capital stock of said national bank or trust company.

Sec. 8. Unless the guaranty fund of a bank is full and unimpaired and the value of its assets as determined by the Board of Bank Commissioners shall exceed the amount of the deposits by at least 5%, it shall be unlawful for it to invest in any stocks of paragraphs 7, 9, 10, 12 and 14 of section 4 or in any securities of Section 5 of this Act without the written permission of the Board of Bank Commissioners; and whenever in the opinion of the Board of Bank Commissioners the condition of any bank or general financial conditions are such that the board deems it unwise for said bank to invest in said securities, it may by written order forbid such bank to make such investment, and it shall not thereafter be legal for said bank to make such investment until such order shall be revoked in writing.

Sec. 9. No savings bank shall expend in the purchase, construction or remodelling of any building and the construction of vaults, for the purpose, in whole or in part, of accommodating the business of such bank, a greater sum than the amount of its unimpaired guaranty fund and surplus except it is authorized to do so by the Bank Commissioners.

Sec. 10. Deposits of cash on call or subject to check shall be made in some national bank located in the New England States or in the cities of New York City and Philadelphia, or in some trust company incorporated under the laws of this State or Massachusetts, or in such company incorporated under the laws of the State of New York and located in New York City.

Sec. 11. In determining the percentage of deposits invested under the provisions of this act, previous investments held by the banks shall be included.

Sec. 12. All Acts and parts of Acts inconsistent with this Act are hereby repealed; and this Act shall take effect upon its passage.

INVESTMENT OF TRUST FUNDS.—(1895) Chapter 71, Sec. 1. Trustees and guardians shall be authorized to invest funds in their hands in the bonds or direct obligations of any county, city, town, school, fire or water district in New England, when the net debt of said municipality does not exceed five per cent of the last assessment of taxes for the purpose of taxation. The term "net debt" shall be construed to denote the indebtedness of any municipality, omitting debt created for supplying the inhabitants with water and deducting the amount of sinking funds available for the payment of the indebtedness of the municipality.

Admitted as a State (Act Feb. 18 1791).....March 4 1791
Total area of State (square miles).....9,565
State Capital.....Montpelier
Governor (term expires Jan. 1925).....Redfield Proctor.
Secretary of State (term expires Jan. 1925)..Harry A. Black
Treasurer (te m expires Jan. 1925).....Thomas H. Cave

LEGISLATURE had been meeting biennially since 1870 in even years, the first Wednesday in October. On March 4 1913 an amendment was adopted providing for the convening of the Legislature in odd years on the first Wednesday after the first Monday in January. V. 96, p. 810. Length of session is not limited.

HISTORY OF DEBT.—For a brief outline of the early history of the Vermont State debt see "State and City Supplement" of April 1895, pages 15 and 16.

The liabilities of the State on July 1 1922 were as follows:

Agricultural College fund bonds, 6s due 1932	$135,500 00
School fund bonds, 6s due 1925	234,900 44
Huntington fund bonds, 6s due 1925	211,131 46
Public building bonds 1917 4s (M. & N.) May 1 1923-1935	130,000 00
Vermont State loan of 1919 4½s (A.-O.) due Oct. 1 1922-1949	1,400,000 000
Other indebtedness	611,427 94
Total liabilities	$2,722,959 94
Cash on hand and in banks July 1 1922	1,336,509 92
Balance available for general purposes July 1 1922 as shown by State Treasurer's books	$725,081 98

INTEREST on public building bonds is payable at State Treasurer's office or Sherman National Bank, New York; and on others at the State Treasury.

At the 1915 session of the Legislature the State Treasurer was authorized to issue on July 1 1915, to the Trustees of the Permanent School Fund, certificates of registered loans of this State to the amount of $234,900 44 redeemable in 1925 on which the interest must be 4% annually on July 1 to the Trustees of the Permanent School Fund. At the 1919 session of the Legislature the State Treasurer was authorized to issue bonds not to exceed $1,500,000 in amount, to be known as the Vermont State Loan of 1919, in denomination of $1,000 each, payable serially in equal amounts, the last payment to be not later than 30 years after date and bearing interest at not to exceed 4½%. All these bonds have been issued, of which there are $1,300,000 now outstanding.

STATE TRUST FUNDS.—Statement of several funds held in trust by the State Treasurer July 1 1922 shows balances as follows: Agricultural College fund, $135,500; Bennington Battle Monument fund, $1,065; Permanent school funds, $1,365,946 93; Carrie P. Underwood fund, $10,000; Teachers' Retirement System fund, $144,480 24; State insurance sinking fund, $50,995 38; Committee of Public Safety fund, $1,469 21; sanatorium fund, $200,000; deposits under section 5549, General Laws, $380,000, and deposits under section 5623, General Laws, $5,000.

ASSESSED VALUATION AND TAX RATE.—In addition to the valuations below, the State received (1922) $895,982 53 as taxes on deposits in savings banks, national banks and trust companies which are taxed at the rate of 7-10 of 1%; also the State received $564,776 39 as taxes on the appraised value of railroad property, such property paying a tax of 1¼% on valuation.

	Valuation of Real Estate.	*Net Valuation of Personal Property.*	*1% of Val. of Real and Pers'l Prop.*	*Valuation of Taxable Polls.*	*Grand List.*

1922	193,886,723 73	63,984,476 38	2,578,711 98	188,653 00	2,767,364 98

A total State tax of 55c. on the dollar of the grand list was levied in 1922, of which 10c. was for school purposes, 5c. for highways and 40c. for direct tax. In 1921 the tax was 20c. for direct tax, 5c. for highways and 10c. for schools, a total of 35c. In 1920 and 1921 the tax was 55c. on the dollar of the grand list, consisting of 40c. direct tax, 10c. school tax and 5c. highway tax. In 1918 and 1917 the direct levy was only 20c., making the total tax 35c. for those two years.

There was no direct tax for State purposes levied in any of the years from 1903 to 1911, both inclusive. A tax of $1.30 per $1,000, however, consisting of a State shool tax of $.80 and a State highway tax of $.50, was collected and re-distributed to towns on a basis of the number of schools and road mileage, the State, for the sake of equalizing its distribution, acting as agent in the matter. Prior to 1902 this tax was $1.00 per $1,000. The Legislature of 1915 increased the State school tax from 80c. to $1.00, to be levied annually, but this change did not take effect until the assessment of 1916. In 1912 the Legislature levied a direct tax of 10 cents on the dollar of the grand list (method of compiling grand list explained below), one-half payable Nov. 10 1913 and one-half June 10 1914. The 1915 Legislature levied a direct tax of 5 cents on the dollar of the grand list for the year 1916. The 1917 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the years 1917 and 1918. The 1919 Legislature provided for the levying of a tax of 40 cents on the dollar of the grand list for the years 1919 and 1920. The 1921 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the year 1921 and a tax of 40 cents on the dollar for the year 1922. In 1923 the Legislature assessed a State tax of 25c. per dollar of the grand list for 1924 and 15c. for 1925.

GRAND LIST.—*How Constituted.*—Section 779 of the General Laws of Vermont 1917 reads: "One per cent of the appraised value of real estate taxable to a person shall be added to the list of his personal estate, and the sum so obtained, with the amount of his taxable poll, if any, shall constitute his grand list."

POPULATION OF STATE.—United States Census:

DEBT LIMITATIONS.—There appears to be nothing in the constitution providing for a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue.

In 1917 the Legislature enacted a law, which was approved on April 12 1917 repealing Chapter 157 of the Public Statutes, No. 84 of the Acts of 1908 and No. 126 of the Acts of 1912, in relation to the issuance of municipal bonds, and providing generally for the issuance of such bonds for any purpose if the proper formalities are complied with. We publish in part the text of the new law herewith; the full text will be found in V. 104, p. 2365 and 2366. The Legislature in 1919 amended Sec. 6 and Sec. 10 of this chapter, increasing the interest rate to 5% and limiting the period of advertising the sale. Sec. 6 was again amended by the 1921 Legislature, the amendment making special provisions for the maturity of forest development bonds. The new parts are all printed in italics.

MUNICIPAL BONDS

Section 1. The term "municipal corporation" as used in this Act shal include a city, town, village, town school district, graded school district or other school district and a fire district and a lighting district organized under the laws of the State.

Sec. 2. The term "legislative branch" of a municipal corporation as used in this Act shall mean the mayor and board of aldermen of a city, the board of selectmen of a town, the trustees of a village, the board of school directors of a town school district, the trustees or prudential committee of a fire district.

Sec. 3. When the legislative branch of any municipal corporation at any regular meeting or at a special meeting called for that purpose shall by resolution passed by a vote of two-thirds of all its members determine that the public interest or necessity demands improvements, the cost of which will be too great to be paid out of the ordinary annual income and revenue, it may at any subsequent regular meeting of such legislative branch or at a special meeting called for that purpose, by a vote of two-thirds of all its members, order the submission of the proposition of making such public improvements, and of incurring a bonded debt to pay for the same, to the qualified voters of such municipal corporation at an election to be held for that purpose. The ordinance or warning calling such election shall state the object and purpose for which the indebtedness is proposed to be incurred, estimated cost of the improvements, amount of bonds proposed to be issued therefor and the maximum rate of interest to be paid, and shall fix the place where and the date on which such election shall be held, the hours of opening and closing the polls, the manner of holding said election, the questions to be submitted, and the form of ballot to be used. * * *

Sec. 4. The clerk of the municipal corporation shall cause notice of such election to be published in a newspaper published in said municipal corporation once a week for three consecutive weeks on the same day of the week, the last publication to be not less than five days nor more than ten days before said election. If no newspaper is published in said municipal corporation, then publication shall be made in some newspaper published in this State that has general circulation in said municipal corporations. Notice of said election shall also be posted in five public places within said municipal corporation for the two weeks immediately preceding said election. If two-thirds of all the voters voting at said election shall vote to authorize said public improvements and the issuance of bonds to pay for the same, the legislative branch shall be authorize to make said public improvements and to issue bonds as hereinafter provided.

Sec. 5. Elections in municipal corporations under this Act shall be conducted in the same manner as the annual city and town meetings are conducted, and the qualifications of voters at such elections shall be the same as the qualifications of voters at annual city and town meetings.

Sec. 6. All bonds issued under this *Chapter* shall be of a denomination *of* not less than $100 nor more than $1,000, and shall draw interest at a rate not to exceed 5% per annum, payable semi-annually; *such* bonds shall be payable serially, the first payment to be deferred not later than from 1 to 5 years after the issuance of the bonds and subsequent payments to be continued annually in substantially equal amounts so that the entire debt will be paid in not more than 20 years from the date of issue. *In the case of bonds issued for the purchase or development of a municipal forest, the first payment may be deferred not more than 30 years from the date of issuance thereof, and thereafter such bonds shall be payable serially in substantially equal annual amounts so that the entire debt will be paid in not more than 60 years from the date of issue.*

Sec. 7. No municipal corporation shall incur an indebtedness for public improvements which with the previously contracted indebtedness, shall in the aggregate exceed ten times the amount of the last grand list of such municipal corporation.

Sec. 8. The legislative branch of any municipal corporation at any regular meeting, or at a special meeting called for that purpose, shall by ordinance or resolution determine the rate of interest for said bonds, the denomination of said bonds, the time and place of payment, the form of bond to be used, which shall be substantially as hereinafter provided, and whether said bonds shall be registered or have coupons attached. If bonds are to be registered, they shall be registered as provided by this Act.

Sec. 9. The legislative branch of said municipal corporation shall annually at the time of assessing the general tax levy, in addition to all other taxes, provide for the collection each year until such bonds are paid of a tax sufficient to pay the interest on such bonds and such part of the rdincipal as shall become due prior to the time the taxes are due in the next following year

Sec. 10. The bonds issued under this *Chapter* shall be sold to the highest bidder after being advertised once a week for three consecutive weeks on the same day of the week in a newspaper published in *such* municipal corporation, or if *a* newspaper is *not* published in *such* municipal corporation, then publication shall be made in some newspaper having general circulation

in *such* municipal corporation; *the last publication to be not more than ten days, nor less than three days before the date of sale of the bonds. If the issue of bonds is to exceed the sum of* $25,000, one publication of *such* notice shall also be made in some newspaper published in this State having general circulation in the State and in some financial paper published in Boston, Massachusetts, or New York, New York; *such publication to be made not more than fifteen days nor less than five days before the date of the sale of the bonds.* The advertisement shall state the amount and denomination of the bonds, date of maturity, rate of interest, and the time and place where the bonds are to be sold. The legislative branch of any municipal corporation may reject any and all bids and in case all bids are so rejected they may advertise and call for new bids in the manner hereinbefore provided.

Sec. 11. Said bonds shall be signed by the mayor and treasurer of an incorporated city, by the selectmen or trustees, as the case may be, of a town or village, by the trustees or prudential committee as the case may be, of an incorporated school district or of a fire district, and by the board of school directors of a town school district, and the coupons to said bonds shall be signed by the treasurer or by his lithographic signature. If such municipal corporation has a corporate seal, such seal shall be affixed to said bonds, otherwise said bonds need not be sealed.

Sec. 12. In determining the amount of municipal indebtedness permitted by the preceding sections, obligations created for current expenses, for a water supply, or for electric lights, and temporary loans created in anticipation of the collection of taxes and necessary for meeting current expenses shall not be taken into account; provided that no such temporary loan shall be extended beyond the fiscal year for which it is made and shall not exceed in amount 90% of the amount of taxes levied for such year; and provided further that sinking funds and other moneys set aside for the sole purpose of paying outstanding bonds or other evidences of indebtedness permitted under the provisions of the preceding sections; nor shall the provisions of this and the preceding sections apply when the charter of a municipal corporation limits its indebtedness.

Sec. 13. [This section simply describes the form of bond to be issued under the Act.]

REFUNDING BONDS.

Sec. 14. A municipal corporation that has outstanding and unpaid orders, notes, bonds, or coupons, lawfully issued, may issue other negotiable notes or bonds to pay or retire the same.

Sec. 15. Such municipal corporation by its legislative branch, by resolution or ordinance, shall determine the necessity for issuing refunding bonds, the amount of legal outstanding indebtedness to be refunded, what amount of new notes or bonds shall be issued, at what time and place they shall be payable, the rate of interest thereon and when payable, the form of bond, which shall be substantially in the form provided in this Act, and whether the bonds shall be registered or have interest coupons attached. Such new notes or bonds shall not exceed in amount such outstanding obligations, nor shall they be used or sold except to provide means for paying or retiring said outstanding indebtedness.

Sec. 16. Such bonds shall be signed, sold, made payable, and mature in the same manner as an original issue of bonds of a municipal corporation are signed, sold, made payable, and mature, as provided in this Act.

Sec. 17. The treasurer of the municipal corporation shall keep a record of every note or bond issued under this Act, stating therein the number and denomination of each note or bond, when issued, and the rate of interest hereon, and shall also keep a record of payments of interest or principal, and, if coupons are taken up, shall record the fact and deface the same.

Sec. 18. When old notes or bonds are taken up, as provided in this Act, the treasurer of the municipal corporation shall keep a record of the same, and such old notes and bonds shall be canceled.

Sec. 19. All ordinances or resolutions required by this Act to be enacted by the legislative branch of a municipal corporation shall be duly recorded in the office of the clerk of said municipal corporation.

REGISTERED OBLIGATIONS.

Sec. 20. A municipal corporation, as herein defined, may issue registered bonds, and if an original issue of bonds by such municipal corporation is registered, they shall be registered as hereinafter provided.

Sec. 21. A municipal corporation may, at the written request, duly acknowledged, of the owner or holder of one or more bonds, promissory notes or certificates of indebtedness issued by it and payable to bearer or to a person or corporation named, or bearer, change such bonds, notes or certificates into registered obligations, payable only to the person or corporation whose name is properly endorsed thereon, as hereinafter provided.

Sec. 22. If it shall be determined by a municipal corporation to issue registered bonds, then and in that event the legislative branch of the municipal corporation shall direct the treasurer of such municipal corporation, as the case may be, to endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the form hereinafter provided, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 23. In case a municipal corporation shall have issued coupon bonds and the owner or holder thereof has requested that said bonds be changed to registered bonds, as herein provided, then upon written request for such change, duly acknowledged, the treasurer of such a municipal corporation shall, if directed by the city council of the city, selectmen of the town, school directors of the town school district, or other corresponding officers of the municipal corporation of which he is such treasurer, as the case may be, cut off and destroy the coupons on the bonds presented for registration and endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the following form, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 24. [This section shows the certificate of registration to be used where bonds are registered.]

Sec. 25. The indorsement of such certificate of registration upon any bond, note or certificate by such treasurer shall be conclusive evidence that such treasurer was directed by the proper officers of the municipal corporation of which he was treasurer to convert such bond into a registered obligation.

Sec. 26. The treasurer of every such county or municipal corporation shall keep a register showing the number, date, amount, rate of interest, time when payable, and the name of the registered holder of the bonds, notes, and certificates originally registered or changed to registered obligations.

Sec. 27. Such conversion shall in no respect or degree weaken or impair the obligation of such municipal corporation to pay such bond, note or certificate so converted.

Sec. 28. Notes, bonds or orders issued as evidences of obligations for money loaned to a county, town, town school district, village or incorporated school or fire district of this State shall be deducted in determining the average amount of deposits and accumulations under the provisions of Section 1, of No. 35 of the Acts of 1910. Bonds or obligations given or created in excess of the limit authorized by this Act and contrary to its provisions shall be void.

Sec. 29. This Act shall not affect rights now allowed any municipal corporation by its charter provisions, nor any rights now or hereafter granted by special Act of the legislature.

EXEMPTION FROM TAXATION.—Subdivision XII. of Section 496 of the Public Statutes of 1906, as amended by Act 23 of the Laws of 1908 and Act 25 of the Laws of 1919, provides that the following municipal securities shall be tax-exempt:

XII. Notes, bonds or orders issued after Dec. 4 1912 as evidences of obligations for money loaned to the State, a county, town, town school district, village or incorporated school or fire district, at a rate of interest not exceeding 4% per annum, and notes, bonds or orders issued after March 1 1919 as evidences of obligations for money so loaned as aforesaid at a rate of interest not exceeding 5%; for the purpose of constructing, purchasing, or repairing water, sewer, or lighting systems, permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—Several amendatory Acts to the Laws of Vermont regarding the investments of savings institutions were passed by the Vermont Assembly of 1919. One of these permits investments in Farm Loan bonds issued by Federal Land banks; another authorizes investments in bankers' acceptances and bills of exchange under certain restrictions; another broadens the previsions concerning investments in the bonds of the United Kingdom of Great Britain and Ireland and the bonds of the Republic of France by removing the qualifying clause reading "provided they are secured by collateral deposited in this country and approved by the Bank Commissioner"; still another changes the provision for investment in this latter class of bonds [which are grouped under the designation (h)] and for investment in the bonds of the Dominion of Canada and the various Provinces of Canada [which are grouped under the designation (i)], so as to enlarge the limitations upon such investments which under the old law were expressed in the words "Banks may invest in bonds described in subdivisions (h) and (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars," the new words used, and printed below, permitting greatly increased investments; a further amendment adds a provision at the end of subdivision (e) bearing upon the issue of county bonds, which says that bonds issued for building or improving roads shall not be legal unless they are payable serially, the entire issue payable in not to exceed twenty years, the principal and interest payable from a direct tax levied upon all of the taxable property within the county—not alone that, but only such portions of such bond issue are legal as fall due in not more than fifteen years from date of issue; finally, the status of the railroads during Federal operation is fixed by providing that railroad bonds, which were legal investments for savings banks at the time when the Government of the United States took over the operation of the roads issuing the bonds, shall not become illegal investments by reason of the operation of the roads by the Federal Government. Sub-div. VI was amended in 1921 (1) extending investment limit in bank stock from $35,000 to $50,000, and (2) permitting banks to deposit up to 4% of their assets on call in chartered banks of Canada. The same session amended paragraph c, Subdiv. I., inserting the words "or husband" after "wife" in the sixth line. In 1923 the first paragraph of subdivision VII, which concerns loans on personal security, was amended. All these amendments have been incorporated below, as they now form part of Section 5363 of the General Laws of Vermont.

INVESTMENTS.

SECTION 5363.—Assets, may be invested how and in what, limitations. The assets of banks shall be invested as follows:

FIRST MORTGAGES ON REAL ESTATE.

I. (a) In first mortgages of unincumbered real estate, not to exceed in each case sixty per cent of the value of such real estate, if located in Vermont, and not to exceed fifty per cent of the value of such real estate if located elsewhere. Not less than a sixth of the amount of such mortgages shall be upon real estate in this State, treating mortgages made on lands in an adjoining State within twenty miles of the bank making such loan as Vermont mortgage loans, and not more than eighty per cent of the amount of the assets shall be invested in mortgages of real estate; provided that not exceeding sixty per cent of the amount of such assets may be invested in mortgages of real estate outside this State. An investment shall not be made on mortgages of real estate outside of Vermont which is unimproved and unproductive and the amount of such investments on mortgages in Vermont shall not be more than forty per cent of the value thereof. A bank shall not loan to any person, partnership, association or corporation upon real estate mortgage (treating loans to the individual members of a partnership as loans to the partnership) more than thirty thousand dollars, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars. Provided, however, that upon the approval in writing of all the trustees of the bank who are physically able to act, a bank may increase a loan of thirty thousand dollars on Vermont real estate, as stated in this section, to one and one-half per cent of the deposits in excess of one million dollars. A mortgage investment shall not be made except upon the written approval of at least three trustees of the board of investment, who shall certify in writing, according to their best judgment, the value of the premises mortgaged or to be mortgaged. At the expiration of every mortgage loan made for a period of five years or more, such loan shall not be extended or renewed unless three members of the board of investment certify in writing the value, in their best judgment, of the mortgaged premises and unless such value meets the requirements above prescribed.

(b) When buildings are included in the valuation of real estate upon which an investment is made, they shall be insured by the mortgagor in such company as the trustees or board of investment direct, and the policies of insurance shall be duly assigned or the loss made payable to such bank, and such bank may renew such policies in the same or another company as said trustees or board of investment elect, from year to year, or for a longer or shorter period, if the mortgagor neglects so to do; and, when necessary, the treasurer may sign premium notes, and may charge the amount paid for such insurance to the mortgagor.

(c) When a bank takes an accruing mortgage, the only debt which shall be secured thereby or become a lien upon the property described therein shall be the debt described in the mortgage and existing at the time of its execution, and any subsequent direct indebtedness of the mortgagor to such bank; provided, that when the mortgage includes a homestead, the written consent of the wife or husband of the mortgagor to the creation of such subsequent direct indebtedness shall be required.

MUNICIPAL BONDS.

II. (a) In the public funds of the United States or any of the States or the District of Columbia, or in public funds for the payment of principal and interest of which the faith of the United States is pledged.

(b) In the legally authorized bonds or notes of counties, cities, towns, villages, school districts and water districts of the New England States and of any municipal corporation in Vermont having the right to levy and collect taxes in payment of its indebtedness.

(c) In the legally authorized bonds or notes of towns, cities and school districts, having a population according to the last preceding United States or State census of at least one thousand in towns and cities, and five hundred in school districts, and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment in New York, Pennsylvania, Ohio, Michigan, Illinois, Indiana, Iowa, Wisconsin and Minnesota.

(d) In the legally authorized bonds or notes of towns, cities, and school districts having a population according to the last preceding United States or State census of at least four thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes at the time of the investment in New Jersey, Kansas, Nebraska, North Dakota, South Dakota, Missouri, Oregon, Washington, California, Delaware, Montana, Wyoming, Idaho, Maryland and Utah;

(e) *County Bonds.*—In the legally authorized bonds of counties in any of the above mentioned States having a population according to the last preceding United States or State census of at least twenty thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment. To this there was added in 1919 the following: Bonds issued under this subdivision for building or improving roads, shall not be legal unless they are payable serially; the entire issue payable in not to exceed twenty years; the principal and interest payable from a direct tax levied upon all of the taxable property within the county, and only such portion of such bond issue shall be legal as will be due and payable in not more than fifteen years from date of issue.

(f) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at last twenty-five thousand and an indebtedness not exceeding five per cent, or a population of fifty thousand and an indebtedness not exceeding seven per cent of the last preceding valuation for the assessment of taxes, at the time of the investment.

(g) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at least one hundred thousand;

(h) *Foreign Bonds.*—In the bonds of the United Kingdom of Great Britain and Ireland, and the bonds of the Republic of France. [As amended in 1919.]

(i) In the bonds of the Dominion of Canada and the various Provinces of Canada.

In subdivisions (c) and (d) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year and the amount of any sinking funds available for the payment of such indebtedness; and in subdivisions (e) and (f) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year, the amount of any sinking funds available for the payment of such indebtedness and debts created for supplying the inhabitants of the municipality withwater.

Banks may invest in bonds described in subdivision (h) not to exceed thirty thousand dollars by any one bank, and in addition thereto two per cent of the deposits of such bank in excess of one million dollars; and in bonds described in subdivision (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto five per cent of the deposits of such bank in excess of one million dollars; but nothing hereinbefore contained shall authorize investments in railroad aid bonds, except such as are issued by municipalities in the State of Vermont or in bonds which are not direct obligations of a municipality or in bonds of municipalities which have within twenty years repudiated or compromised the payment of any debt or defaulted for more than ninety days in the payment of any indebtedness, and the purchase of such securities is hereby prohibited. [As amended in 1919.]

PUBLIC SERVICE COMPANY BONDS.

III. For the purposes of this subdivision:

"Company" shall be construed as a corporation or voluntary association organized under the laws of the United States, or any State thereof, located in and doing business principally within the United States;

"A public service company" shall be construed as a company doing principally a gas, electric, light, electric power or electric railway business serving the public generally;

"Mortgaged bonds" shall be construed as bonds secured primarily by direct and foreclosurable lien upon physical property owned by the obligator in fee;

"Years" shall be construed as calendar years; fiscal years or nearer periods of twelve months next preceding such investment;

"Net income" shall be construed as income after deducting operating expenses, taxes, insurance, rentals, guaranteed interest and guaranteed dividends, and expenditures for maintenance; and

"Annual interest" shall be construed as interest actually paid in each year, except that for the latest year, which shall be construed as one year's interest on the total amount outstanding at the time of the investment.

Not exceeding twenty-five per cent of the deposits of a bank shall be invested in securities authorized under this subdivision and not exceeding two and one-half per cent of such deposits shall be invested in the securities of any one company, if such percentage be in excess of five thousand dollars.

No investment shall be made in the securities authorized under this subdivision of a company or a public service company which is in default on any of its debt, or in the hands of a receiver.

No investment shall be made in the securities authorized under this subdivision unless the net income of the company or public service company in question in each of the three years next preceding such investment shall have been not less than one and one-quarter times the annual interest on the entire funded debt, rentals, guaranteed interest, guaranteed dividends and all fixed charges, and for the purpose of this paragraph "net income" shall be construed as income after deducting operating expenses, taxes, insurance and expenditures for maintenance.

Subject to the foregoing, investments may be made as follows:

In first mortgage bonds and first and refunding mortgage bonds issued or assumed by public service companies and in mortgage bonds of the companies controlled by such public service companies; for the refunding of which mortgage bonds of such companies are specifically reserved, provided that in each of the three years next preceding such investment the net income shall have been either (a) not less than five hundred thousand dollars and not less than one and three-quarters times the annual interest on the bonds in question and all other obligations of corresponding or prior liens, or (b) not less than one hundred fifty thousand dollars and not less than twice the annual interest on the bonds in question and all other obligations of corresponding or prior lien; provided that such bonds are in fact secured either by first lien on the major portion of the mortgaged premises, or by a first and refunding mortgage, or by a lien for the refunding of which bonds which are legal are specifically reserved; and provided that the principal franchise or franchises of such companies extend beyond the maturity of the bonds in question or that such companies operated under indeterminate franchises or permits subject to the regulatory supervision of a State commission of competent jurisdiction, or that in the case of electric railways not less than seventy-five per cent of the mileage owned is located on private right of way owned in fee.

TELEPHONE COMPANIES' BONDS.

IV. (a) In the bonds of telephone companies located in the United States, when such bonds are in fact secured by a first mortgage or a first and refunding mortgage, whether or not the bonds are so designated in their title;

(b) Provided: That gross earnings of any such company shall have been at least one million dollars for each of the last three fiscal years next preceding such investment, and provided further that gross earnings for the fiscal year next preceding such investment shall have been at least forty per cent of the total mortgage debt outstanding at the end of such fiscal year; and

(c) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least two and one-half times the annual interest charge on the entire mortgage debt outstanding at the end of each of the said last three fiscal years next preceding such investment; and provided further that in case additional bonds are issued under the above mentioned mortgages during an incompleted fiscal year, net earnings, as provided above, for the last available twelve months next preceding such investment shall have been at least two and one-half times the interest on all mortgage debt outstanding, including such additional bonds issued.

In the case of the consolidation by a merger of two or more such companies the first mortgage and the first and refunding mortgage bonds of the consolidated company and of the separate companies that composed the consolidated company, when such bonds are secured as provided in subdivision (a), shall be legal investments provided that the combined earnings of the separate companies shall have complied with the requirements in respect to gross earnings in subdivision (b), and provided that the combined net earnings of the separate companies shall have complied with the requirements of subdivision (c).

(d) In the bonds of telephone companies located in the United States, when such bonds are secured by the deposit of collateral having a market value of at least twenty-five per cent in excess of the par value of such bonds; and

(e) Provided: That gross earnings of any such company shall have been at least forty million dollars for each of the last three fiscal years next preceding such investment; and

(f) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least three times the annual interest charge on the entire funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year, net earnings as provided above for the last available twelve months next preceding such investments shall have been at least three times the interest on all funded debt outstanding, including such additional bonds issued.

(g) In the bonds of telephone companies doing a general telephone business in this State.

(h) Provided: That gross earnings of any such company shall have been at least fifteen million dollars for each of the last three fiscal years next preceding such investment; and

(i) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least three times the annual interest charge on the entire funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year net earnings, as provided above, for the last available twelve months next preceding such investment shall have been at least three times the interest on all funded debt outstanding, including such additional bonds issued.

(j) Provided: That no investment shall be made in the bonds of any such company mentioned in this section, which is in default on any of its debt or which is in the hands of a receiver.

But not more than ten per cent of the deposits shall be so invested.

BONDS OF VERMONT AND NEW ENGLAND RAILROADS.

V. (a) In the notes or bonds of a railroad corporation incorporated under the laws of Vermont, irrespective of the length of such road or the motive power thereof, when issued in accordance with the laws of this State and in compliance with the provisions hereinafter set forth relating to bonds of New England railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of whose is located in said States whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; provided, either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation, or by a refunding mortgage as described in paragraphs (3) or (4) of sub-division (g) or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States, which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise, or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued, and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and provided, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment;

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraph (3) or (4) of sub-division (g) of a railroad corporation incorporated in any of the New England States the railroad of whose is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in sub-divisions (a) or (b) which is in possession of and is operating its own road;

(d) No bond shall be made a legal investment by sub-division (b) unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by sub-division (c) unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to a third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

No bond shall be made a legal investment by sub-division (b) or (c) unless the corporation owns in fee not less than 100 miles of standard-gauge railroad (exclusive of sidings) within the United States.

BONDS OF OTHER RAILROADS.

(e) *Description of Corporation.* In the mortgage bonds, as describedin any of the following subdivisions of this clause, of any railroad corporat ion incorporated under the laws of any of the United States;

Provided, that during each of the ten fiscel years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, or, if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than $15,000,000;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock;

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines and the interest on all the outstanding indebtedness of railroads, controlled and operated, which is not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by such corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by such corporation, but not in excess of the interest on such last-named bonds or notes;

And further *provided*, that—

(5) No bonds shall be made a legal investment by sub-division (g) in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provision of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment;

(6) A bond shall not be made a legal investment by sub-division (f) or (j) in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph 5, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at such date the total debt of the corporation which issued such bonds shall exceed three times its outstanding capital stock;

In the case of a mortgage executed prior to the twenty-seventh day of January nineteen hundred and eleven, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph 5 and of this paragraph, as the total authorized issue.

(f) *Definition of frst mortg age.* Whenever the term "first mortgage" is used in the following sub-divisions, it shall, unless otherwise qualified, mean, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgag e by the railroad corporation on the railroad of which such mortgage is a lien, but in no case on less than 100 continuous miles of standard-gauge railroad, exclusive of sidings; *provided* that:

(1) Seventy-five per cent of the railroad subject to the lien of such mortgage is connected;

(2) For five years prior to the date of investment therein all the railroad subject to the lien of such mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees such bonds; and

(3) The date of such mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.* In bonds issued or assumed by a railroad corporation described in sub-division (e) which are secured by a mortgage which was at the date thereof, or is at the date of such investment:

(1) A first mortgage on a railroad owned in fee by the corporation issuing or assuming such bonds except that, if it is not a first mortgage on 75% of all such railroad owned in feeby such corporation, it shall be a first mortgage on at least 75% of the railroad subject to the lien of such mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of such mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by such mortgage shall not become legal investments unless such corporation owns in fee at least 75% of the total mileage which is subject to the lien of such mortgage and which is represented or covered by such stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture, which is in effect a first mortgage upon all the railroad subject to the lien of such mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming such bonds;

(3) A refunding mortgage which covers at leas* 75% of the railroad owned in fee by such corporation at the date of such mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon such railroad owned in fee and covered by such refunding mortgage at the date thereof; but if any of the bonds which such refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing such refunding mortgage, there shall be conveyed and assigned to the trustee of such refunding mortgage either—

First. At least 75% of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded, or

Second. At least 75% of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of such railroad not owned in fee which is so subjected to the lien of such refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said refunding mortgage bonds; but in no case shall the bonds secured by such refunding mortgage become a legal investment unless

they mature at a later date than any bonds which such refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of such refunding mortgage in accordance with the requirements of this paragraph is at least 25% greater than the mileage covered by any one of the mortgages securing bonds which such refunding mortgage is given to refund; or

(4) A mortgage upon not less than 10% of the railroad exclusive of sidings, owned in fee at the date of such mortgage by the corporation issuing or assuming such bonds, but in no case on less than 500 continuous miles of standard-gauge railroad; *provided*, that:

First. Such mortgage is a first or second lien upon not less than 75% of the total railroad covered by such mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon such railroad owned in fee and covered by such mortgage, at the date of the execution thereof;

Second. The bonds secured by such mortgage mature at a later date than, and cover a mileage at least 25% greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired; and

Third. The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds underlying refunding mortgages.* Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest, by a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs (3) or (4) of sub-division (g); *provided*, that:

(1) Said bonds are prior to and are to be refunded by such refunding mortgage;

(2) Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien; and

(3) In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated or leased and operated, by said railroad corporation.

(i) *Guaranteed obligations.* Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of sub-division (e); *provided*, that:

(1) Such bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation guaranteeing such bonds.

(2) In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least 4% per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) *Same.* In first mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs (2), (3) and (4) of sub-division (e), *provided* that such bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, notwithstanding that the railroad of such issuing corporation is not operated by such guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph (4) of sub-division (e); but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during such period. If, after the expiration of such period, such corporation complies for the following fiscal year with all the requirements of sub-division (e), it shall be regarded as having complied therewith during such period.

BONDS NOT ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed such bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of such bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of such corporation which issued or assumed such bonds.

CREDIT OF CORPORATION NOT LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, except that the period of compliance is less than ten, but not less than five successive years,) shall be or shall have been, thereupon consolidated or merged with, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of sub-division (e) preceding paragraph (5) during those successive years next preceding the date of such consolidation, merger or purchase, in which all such consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied; *provided*, that such succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following such consolidation, merger or purchase.

STATUS FIXED DURING FEDERAL OPERATION OF RAILROADS
[Added in 1919.]

(n) Railroad bonds which were legal investments for savings banks at the time when the Government of the United States, under the Act of Congress, approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded, including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section; provided, however, that in case a railroad corporation the mortgage bonds of which would become legal for investment under subdivision (e) of part V of this section upon its compliance with the requirements of said subdivision shall have complied with the requirements of said subdivision during the ten years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have complied with the requirements of said subdivision during the period of the Government operation of its railroad, including the year in which such Government operation ends, in computing the time of compliance with the requirements of said subdivision.

BANK STOCKS AND DEPOSITS IN BANKS.

VI. (a) In the stock of any national bank in the New England States or the State of New York; or in the stock of any banking association or trust company incorporated under the authority of and located in this State; but a bank shall not hold bank stock both by way of investment and as security for loans in excess of 10% of its deposits, nor, in any one bank, more than 5% of its deposits, or more than $50,000, or more than 10% of the capital stock of any one bank.

(b) A bank may deposit on call in banking associations or trust companies, approved by the Bank Commissioner of this State, and under the supervision of the State or Federal authority, in this State or in the cities of New York, Boston, Chicago, Albany, Philadelphia or Concord, New Hampshire, or in any other bank designated as a depository under the laws of the United States or in national banks in the cities of St. Paul, Minneapolis and Kansas City, or in the chartered banks of the Dominion of Canada, with or without interest as may be agreed upon, sums not exceeding in the aggregate 20% of the assets of such depositing banks; but at no time shall the deposits in Canadian banks exceed 4% of the assets of such depositing bank.

LOANS ON PERSONAL SECURITY, INCLUDING COLLATERAL LOANS.

VII. In loans or renewals of loans of the class hereinafter described, payable and to be paid or renewed at a time not exceeding six months from the date thereof; but not more than a third of the assets of a bank shall be so invested, nor shall a bank loan to a person, partnership, association or corporation upon personal security (treating loans to the individual members of a partnership as loans to the partnership), more than twenty thousand dollars until a bank's deposits amount to one million dollars, after which the sums so loaned may be increased two per cent of the deposits in excess of one million dollars up to, but not exceeding fifty thousand dollars, or (in cases where ten per cent of the capital and surplus exceeds fifty thousand dollars) up to, but not exceeding, ten per cent of the capital, if any, and surplus; but this limitation shall not apply to the purchase of municipal or railroad bonds, or to notes with such bonds as collateral.

(a) A note bearing as makers, sureties, or indorsers, the signature of at least two approved names of residents of this State, or of persons who reside within fifty miles of the bank making the loan;

(b) A note or accepted draft given by individuals, firms, or corporations residing without this State, for goods manufactured within this State and payable to individuals, firms or corporations located within this State and indorsed by at least one responsible citizen of this State;

(c) A note of a corporation incorporated under the laws of this State, with one or more substantial sureties resident in this State, or approved collateral at not more than eighty per cent of its market value;

(d) A note of a responsible borrower with a pledge as collateral, in such form as the bank commissioner shall approve, of;

(1) One or more first mortgages of real estate such as might be lawfully purchased by a bank, as in cases of mortgages bought by the bank, provided the amount of such note is not in excess of the amount which the bank might loan on a note secured by mortgage on said land; or

(2) Municipal bonds in which the bank might legally invest, at not more than ninety per cent of their market value; railroad bonds in which the bank might legally invest, at not more than eighty per cent of their market value; and bank stocks in which the bank might legally invest, at not more than eighty per cent of their market value; or

(3) Deposit books or certificates of deposit of depositors in banks of this State, including national banks, at their full value, and in banks of any of the New England States and of New York, under State or Federal supervision, at not more than ninety per cent of the amount of deposits therein shown, provided written notice of such assignments has been given to the bank carrying the deposit; or

(4) Acceptances based on exports, imports or domestic commercial transactions, when the accepting bank is one that the law permits an account with, and when such acceptances are drawn for not longer than ninety days; or

(5) Other collateral approved by the directors and bank commissioner, at not more than eighty per cent of its market value, which shall be maintained during the life of the note;

(e) Commercial paper indorsed by banks in which the law allows deposits on call to be made, to mature in not more than ninety days, the aggregate amount of such paper in any one bank not to exceed the capital of a trust company, and in the case of a savings bank not to exceed the amount of the surplus which is in excess of five per cent of the deposits and other liabilities except surplus; and a bank to which commercial paper is pledged as collateral security shall forthwith notify the maker and indorsers of such paper that it has been so pledged;

(f) A note of a responsible borrower; provided, however, that the aggregate amount of such loans shall not exceed the average amount of the commercial deposits of a trust company for the six months next preceding, or exceed fifty per cent of the surplus of a mutual savings bank or exceed the capital and surplus of trust companies having no commercial deposits.

BANK BUILDING.

VIII. Five per cent of the deposits of a bank may be invested in the purchase of a suitable building for the convenient transaction of its business, or a site therefor and the erection or repairs of a building thereon, from portions of which not required for its use a revenue may be derived.

REAL ESTATE TAKEN BY FORECLOSURE.

IX. A bank may hold real estate acquired by the foreclosure of a mortgage thereon, owned by or pledged to such corporation, or by purchase at sales made under the provisions of such mortgage, or upon judgment for debts due, or in settlements effected to secure such debts; and such real estate shall be sold by such corporation as soon as a reasonable price can be obtained therefor and within five years after the same is vested in such corporation, except when a majority of the trustees of such corporation shall make application in writing to the Bank Commissioner, stating that, in their opinion, the interests of such corporation require that such real estate be held for a longer period than five years; in which event said Commissioner may extend the time of holding such real estate not to exceed five years.

SECURITIES ACQUIRED IN SETTLEMENT OF INDEBTEDNESS.

X. A bank may hold stocks, bonds, notes or other securities not the subject of legal investment acquired in settlements effected to secure or adjust loans; but unless the length of time such securities may be held is extended, as provided in the preceding clause, they shall be sold within five years after being acquired.

FARM LOAN BONDS AND BANKERS' ACCEPTANCES.

XI. *Farm Loan Bonds.*—In Farm Loan bonds issued by Federal Land banks in accordance with the provisions of an Act of Congress approved July 17 1916, known as "The Federal Farm Loan Act." Approved Feb. 27 1919.

XII. *Bankers' Acceptances; Bills of Exchange; Notes.* A bank may invest in bankers' acceptances and bills of exchange, provided the same are accepted by an incorporated savings bank or a savings bank and trust company, or a national bank doing business in this State, or by a bank incorporated in Boston, New York, or Philadelphia, to an amount not to exceed 20% of its deposits; and a bank may invest in notes endorsed or guaranteed by any of the above named banks to an amount not to exceed 20% of its deposits. Approved April 8 1919.

LIST OF RAILROAD BONDS PREPARED.

Section 5364. *By Bank Commissioner.*—Not later than the first of March in each year, the Bank Commissioner shall prepare a list of the railroad securities which are then legal investment for banks, which list shall at all times be open to public inspection, and shall send a copy thereof to every bank coming within his jurisdiction.

The latest list of railroad bonds which are considered legal investments for savings banks was issued by the Bank Commissioner on March 1 1923. This list appeared in the "Chronicle" May 26 1923, p. 2419.
